Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. FRIDAY JAN. 1, 1864. VOL. 24. NO. 1.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth; do good; be just and firm withal;
Scale the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—It is common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of a popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal taint, impure blood, impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscess, Bubones, fright ful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.
SEMINAL WEAKNESS.
Dr. D. devotes great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, misanthropy, &c. are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or more, will find a pleasant home, with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotine, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in this or any other country.
R. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 7 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

For a Medicine that will cure
COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH.
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Blisters, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsel and a physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in that manhood restored, and are happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hap py. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Lobeck's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JANUARY 1, 1864.

☞ We wish you a Happy New Year—every reader.

SLOWLY the sands of the year have run out, and 1863 is mingled with the countless number which the eternity of the past includes: the glass has been turned, and to-day 1864 begins; already its first sands have fallen, and the moments have made up their record of good or of evil. There is with almost everyone an inclination at such a time to look back over the dead year, with its sorrows and its errors, its blind gropings stimulating its eager graspings after the light. And these compel us to glance forward through the year which is just springing into life, with hopes dimmed somewhat by the failures of the past yet strengthened by the good which has been accomplished. Very many of us will do so now, and very few may quite realize it after all. For there are thoughts which seem to be *felt*, rather than called up by a willed effort of the mind. They come and go, almost imperceptibly, and yet are something higher, and better, and more ennobling than what we call reveries, or dreams, can ever be.

To each individual the year brought its separate and peculiar experiences,—not all of joy, nor all of sorrow to any one, it may be, yet much of both to all. No one can measure another man's life by his own, yet to each one, as he counts up the days that have gone and, looking around him, misses those once so familiar and always so dearly loved, memory seems freighted with misery. And perhaps there is superadded the recollection of failure in the effort all at once to trample under foot old impulses to evil,—impulses which in unguarded moments rose up to foil and defeat the previous good intention. For the last New Year was marked by many "good resolutions;" its close sees many of them broken.

Yet out of all these efforts, merely, good may have come. There is something in the very effort; the failure itself, if used aright, may be productive of good. It were not well idly to repine. We may extort light from darkness. The dark paths of sin, through which our vacillating steps pursued their devious way, is now clear to us; it conscience be not wholly dead we can hereafter more easily avoid that path if we but have the will. And from the kind deeds done, and the scarcely less effectual kind words uttered during the year, we know that this dark cloud a silver lining has, and from it there shines a light showing how well each separate part formed a portion of the grand mosaic of our lives,—joy and sorrow alternating and both together forming the perfect whole. Still we all look forward to something better than anything we have yet known. Tennyson's poem,—"Ring out the false, ring in the true," expresses the universal longing. It is too familiar for us to quote it here, yet to the American of to-day its words have a new and a deeper significance than they had before civil war spread its lurid cloud over our land. May this year see that cloud dispelled, and "purer laws" our gain by war.

ALBANY AMUSEMENTS.—An Albany paper speaks highly of a "great rat match," which came off in that city a few nights ago, and says "it was a first class affair, considering it was the maiden effort of the proprietor." Forty-six rats were killed in double quick time, the first dog killing 10 in 1 min. 15 sec. It is announced that:—

Owing to an accident that occurred to the seats, the proprietor could not accommodate half the applicants for admission.—His arrangements for the accommodation of his guests for the future are ample, and of such a nature as to insure a full attendance.

☞ A heavy robbery took place on the stage line between La Crosse, Wis., and St. Paul, on the 20th. Some parties organizing a National Bank, were sending $35,000 in United States bonds to Washington. They were placed in a trunk and strapped on the back of the stage. A few miles north of Lake City, the trunk was cut off from the stage, and no trace of it has yet been found.

☞ The editor of the Baltimore American writes from Charleston that it is plain, from inherent defects in their construction or plan, the iron-clads are in constant need of repairs, while the Ironsides—a by no means perfect vessel of its kind—is twice as efficient as the whole monitor fleet in action, and is nearly as seaworthy as a wooden war ship.

☞ The first number of Morris and Willis' "Home Journal" for 1864, is printed with new type, and presents a very handsome typographical appearance. A new story is commenced in this number, and promises to be intensely interesting; while all the old features of the paper which have made it such a universal favorite, are to be continued. Need we say more?

— New York is said to contain a large number of refugees from the South.

— The Neponset nail-makers, who were engaged in the recent strike, have resumed work at their former rates.

WHY should you be justified in picking the pockets of a reader in engravings? Because he has *pict-ures*.

— A Philadelphia print calls the shells which were sent singing into Charleston last Friday, "Gilmore's Christmas Carols."

WHY are the stars like rowdies who keep late hours? Because they scin-til-late in the night.

— Capt. Thomas Wilson has been appointed Chief Commissary of the Army of the Potomac.

— A young woman in a match factory at Newark, N. J., stepped upon some matches on the floor, and was burnt to death by her clothes taking fire.

— Civil war has broken out in Japan because the foreigners have not been expelled, and the Damios have bombarded and taken the imperial city Osaca.

— The value of the prizes captured by our navy since the commencement of the rebellion is shown by official figures to amount to over $100,000,000.

—— The aggregate amount forwarded by the Dover Ladies' Soldiers' Aid society, since its organization two and a half years ago, for the relief of our suffering soldiers, is $3,712.11.

DUPREE & GREEN'S ORIGINAL NEW ORLEANS AND METROPOLITAN MINSTRELS.—This monster troupe will appear at the Temple on Wednesday, Thursday and Friday, Jan. 6th, 7th and 8th.

— Governor Andrew has ordered that a National salute be fired on the Boston Common on the first of January, in honor of the Emancipation Proclamation of the President.

A beautiful woman, says some ardent lover of the feminine sex, is like a great truth, or a great happiness, and has no more right to cover herself with a green veil, or any similar abomination, than the sun has to wear green spectacles.

— A Paris banker is about to marry a daughter of Mr. Slidell. A couple of Englishmen, who first introduced Miss S. to the banker, have sued him for a claim of 75,000 pounds for having introduced him.

— An old gentleman in New Sharon, Me., by the name of John Rowe, about 92 years old, was burned to death some weeks ago. He retired to bed alone, and by some means the clothes took fire, and he was so badly burned that he lived but 20 hours.

— Rev. Mr. Hooker of the North Congregational Church in Newburyport, having asked for a dismission on account of ill-health, the society voted to give him a year's vacation and continue his salary for the time.

— The retail liquor dealers in New York have had a meeting and raised the price of a drink from twenty-five to fifty per cent. Suppose their customers should have a meeting and resolve that they would not buy the liquor? What a vast amount of money and suffering would be saved thereby.

— The reason assigned by Sec. Stanton for not permitting the enlistment of contrabands for Massachusetts and other States, is that if the wealthy States on the Atlantic shore are thus permitted to purchase recruits, and to exempt their own citizens, bad feeling will be generated.

— There is reason to believe that the colony of colored people deported to the West Indies as an experiment under the act of Congress, has proved a failure, and that the survivors have petitioned to be brought back.

— The Mayor of Brooklyn has been sued by one Oatman, an advertising agent, to recover $150 for the publication of articles in one of the Sunday papers, puffing him, just previous to his recent election. The Mayor objects to the bill as too large, especially as he had written the articles himself.

— The greatest waterfall in the world has been discovered in Oregon. The entire volume of Snake river pours over a precipice one hundred and ninety-eight feet high—thirty-eight feet higher than Niagara. Snake river is said to be full as large as the Niagara, and the cascade is one solid sheet or body.

— An explosion of detonating powder has taken place at the American Flask and Cap Company's factory, Waterbury, Conn., shattering the lower story and setting it on fire. Edward Roth, formerly of the 23d Conn. Vols., with great bravery rushed into the room and carried out a bucket of powder, saving, doubtless, many lives, though nobly risking his own.

— Dr. Cranwell, of St. Catherines, C. W., has killed a patient by an overdose of strychnine, and is reported to have forfeited his bail and fled to the United States.—It is said that this is not his first "inadvertence" of the kind, and that he had the reputation of being very intemperate. He claims to be a brother of the late Sir Cresswell Cresswell, Judge of the Divorce and Probate Court in England.

THE REBELLION.

Wheeler, with 1200 rebel cavalry, captured a supply train from Chattanooga for Knoxville, Dec. 28th, but the escort was reinforced and the rebels were defeated and driven off, with the loss of 121 taken prisoners, and several killed and wounded.

"Deserters," usually unreliable, report that Early, Rosser and Imbodes are in the Shenandoah valley, with about 11,000 men. They also state that the Amnesty Proclamation is carefully kept from the rebel soldiers, and that great dissatisfaction exists among them.

The Richmond Enquirer bewails the loss of the vast flour mills, machine shops, and coal, iron and copper mines, consequent upon our victory at Chattanooga.

Gen. Sullivan's column has returned safely to Harper's Ferry, and all the troops are now back, having captured in all over 400 prisoners and a large amount of property in the recent raid, with but slight loss on our side.

The rebels have lied prodigiously about the blockade of Wilmington. Two steamers have returned to Bermuda, having been unable to run in.

It is thought that over two-thirds of the Army of the Potomac will re-enlist.

Gen. Ellet's marine brigade has quieted the guerrillas on the Mississippi. The brigade has captured over 50 prisoners during the past three weeks, and upwards of 100 mules and horses.

A dispatch from Memphis, Tenn., 30th, states that after suffering defeat at Summerville and Middleburg, the particulars of which have not been received, the rebel Gen. Forrest divided his forces into four columns, which were reported to be 4000 strong, and crossed Wolf river near Lafayette, Tuesday afternoon. They have gone south, with Gen. Grierson's cavalry and Morgan's brigade of infantry in pursuit.

It is reported that fifty of Forrest's guerrillas, a colonel, major and chaplain, were captured by Gen. Dodge's mounted infantry near Pulaski, Tenn. on the 25th.

NEW HAMPSHIRE ITEMS.

—— The Boston Journal states that Mr. Thomas Hays, a well-known citizen of Mason Village, and member of the church in regular standing, attempted to throw his wife down the cellar stairs one day last week, but was prevented at first from doing so by her clinging to him and dragging him down with her. But he succeeded finally in throwing her to the bottom, when all consciousness left her. Upon recovering her senses, she found herself lying on the cellar bottom and bathed in blood, which was flowing from some half dozen severe wounds on her head, each one laying the skull bare. She succeeded in dragging herself up the stairs and to the door, where her groans attracted the villagers. In the meantime the dastardly perpetrator, thinking her dead, harnessed his horse and started for a neighboring town, where he was found and informed of the "accident" that had befallen his wife. And now, although Mrs. H. has told the circumstances and knows no cause or provocation which led to it, and although he confesses that her story is true, yet she will not appear against him to have him brought to justice.

—— The Annual meeting of the New Hampshire State Agricultural Society, was held at Smyth's Hall, Manchester, on Wednesday. The old Board of officers were re-elected, viz:—

William F. Estes, of Dover, President; Frederick Smyth, Manchester, Treasurer; Aaron Young, Portsmouth, Secretary; David Gillis, Nashua, John S. Walker, Claremont, Nat. Head, Hookett, Nat. Hubbard, Tamworth, Dana Woodman, New Hampton, Directors.

—— The Dover Enquirer states that Lieut. Col. Sleeper of the 4th regiment having been discharged from the service, Maj. J. D. Drew will be promoted to fill the vacant position, and Capt. C. W. Sawyer will probably be made Major. The Colonel recommends the latter for the position. He is the ranking Captain, and since leaving the State, some two years ago, he has not been off duty a single day, either by reason of sickness or leave of absence.

☞ The Boston correspondent of the Springfield Republican writes that, "An entertainment delightfully Bostonian is regaling the *creme de la creme* this winter.—A woman of genius invites her choicest friends to assemble in her parlor for six successive Wednesday evenings, and listen to some remarks upon social ethics. Every guest goes, Cambridge professors, poetry, learning, art. At her appointed hour the lady enters, and reads an essay of her own production; the philosophers say it is worthy of Emerson, the poets say it is poetry, the theologians, it is religion. 'She has the finest mind of any American woman,' exclaims a Cambridge professor."

☞ A letter from Morris Island thus speaks of a new Confederate war vessel:—

A new iron-clad ram, perhaps a third larger than the Atlanta, made her appearance in Cooper river a few days ago. She came down past Charleston with flags flying, rounded Castle Pinckney, fired a salute of four guns in broadside, and then returned. She made a stately appearance, had good proportions, with sloping lines, and was decidedly the most formidable looking craft that the enemy have yet exhibited in these accursed waters.

☞ The report of Mr. Mallory, Confederate Secretary of the Navy, contains full confirmation of the statements heretofore published concerning the plot to release the rebel prisoners on Johnson's Island.—Mr. Mallory reports that—

During the months of July and August I sent twenty-seven commissioned officers and forty trustworthy petty officers to the British Provinces, with orders to organize an expedition and co-operate with army officers in an attempt to release the Confederate prisoners confined on Johnson's Island in Lake Erie. From time to time I learned that the arrangements made were such as to insure the most complete success. A large amount of money had been expended, and just as our gallant naval officers were about to set sail on this expedition, the English authorities gave information to the enemy, and thus prevented the execution of one of the best planned enterprises of the war.

In relation to the building of the iron-clad vessels in Europe for the Confederates, the Secretary says that early in the present year his agents contracted for eight vessels of that class, five of which were to be built in England and three in France. He alludes to the seizure of the vessels built in the Mersey, and remarks that, "another and larger vessel has since been completed, but it is doubtful if she will be allowed to leave the shores of England, although it is believed the precautions taken are sufficient to exempt her from the fate of her consorts." The vessels being constructed in France have been subject to so many official visitations that Mr. Mallory forwarded instructions to cease operations upon them for the present.

In this connection, says the Secretary, it is proper for me to state, that the great revulsion in popular sentiment, both in England and France, towards the Confederate Government, has rendered our efforts to obtain supplies from these countries almost abortive. In view of all possible contingencies, I have instructed the agents of this Department to wait a more favorable opportunity for carrying out the instructions previously forwarded. By the courier I sent instructions that will shortly be made apparent to our enemies nearer home.

The services of Capt. Semmes, in the Alabama, are spoken of with high approbation:

During the year he has captured upwards of ninety vessels, seventy of whom he destroyed, the others either being bonded or released. One of the greatest drawbacks this officer reports having experienced is the difficulty he now has in procuring full supplies of coal. The provincial English authorities have hitherto afforded him every facility, but recently they have interpreted their neutrality laws so stringently that our war vessels and privateers are much embarrassed in obtaining suitable supplies.

Brown's Bronchial Troches.

These Lozenges are prepared from a highly esteemed recipe for alleviating BRONCHIAL AFFECTIONS, ASTHMA, HOARSENESS, COUGHS, COLDS, and Irritation or Soreness of the Throat.

PUBLIC SPEAKERS AND VOCALISTS

Will find them beneficial in clearing the voice before speaking, singing, and relieving the throat after any unusual exertion of the vocal organs, having a peculiar adaptation to affections which disturb the organs of speech.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a Specimen from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notice may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. jul30

Carrier Wanted!

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

THE NEW YEAR'S opening is calculated to excite in all reflecting minds, multifarious cogitations. Among other thoughts occurring to us, is the query, How many thousand dollars are justly owed us, by men who have more money than we, even if they don't *feel* so rich,—for the reading of the Chronicle during the past dozen years? for which hundreds of such men, though constant readers, have never paid a cent! Also, how much cheaper is it—if manhood, self-respect, and strict honesty are taken into consideration—to steal your newspaper reading from your neighbor, thereby making yourself a nuisance to him—than to subscribe and pay for the paper yourself, even if it is a V per year? We don't *mean* anybody in particular, of course—though there are plenty of men to whom these remarks will apply. We never yet felt poor enough to envy them—but wish them all a Happy New Year, and a change of heart.

☞ It will be seen that Mr. Preston announces that he is "all ready" to square the books, to begin the new year—and nobody can do better business than attend to these matters, all round.

☞ We learn that Mr. Davis' Singing School Exhibition and Festival, will take place at the Temple Wednesday evening, Jan. 20th. Upwards of two hundred children and adults, will probably take part—and the programme will consist of glees, choruses, &c. The occasion will be one of great interest to all lovers of music.

☞ We are glad to learn that Mr. H. H. Adams, the talented Carver, of this city, has disposed of the splendid piece of wood carving which was recently exhibited at Mr. Shores' bookstore, and spoken of by us, and which also won the highest admiration of the public and the press in Boston. Mr. Adams, of the Adams Express Company, Boston, was the purchaser—and the liberal price of $300, was not a whit more than such a superb specimen of artistic whittling is richly worth.

RAILROAD IMPROVEMENTS.—We noticed two improvements recently on the Concord, and Concord & Portsmouth Railroad. The one on the C. & P. is a new method of braking the train. The whole is done by the engineer instead of the brakemen, as is the practice on most roads. A shaft and wheel is arranged between the engine and tender. The engineer can with great ease bring this small wheel in contact with the drivers, which causes a revolution of the shaft, on which is a chain connected with the brakes throughout the train. In this way they are all brought to bear at once, and there is no jerking, as is sometimes felt on the train. In case anything is on the track, the engineer can stop his train sooner than he could give notice to brakemen, as is ordinarily done.

The engine on the Concord & Portsmouth railroad which has this excellent arrangement is run by John Quimby, Esq., of Concord, a skilful engineer, who speaks of the new arrangement as a safe and economical method of braking.

The other improvement is the elegant smoking car, which runs from Concord to Boston. Most of all long routes have these conveniences for those who indulge in the practice of smoking, and one was much needed from this city to Boston. The car was built here in our Concord shop, and, we think, is the finest and most attractive car in the country. The chairs are rotary and very comfortable, and the tables have marble tops. It is an ornament to the road, and as long as men will smoke and chew, it is highly proper they should have a place by themselves.

Gov. Gilmore is behind no other superintendent of railroads in securing convenience and comfort for his passengers. We hope this new method of braking the train will receive the attention of the various superintendents of our roads.—*Concord Democrat.*

☞ Messrs. Crosby & Nichols, of Boston, send us too more of their admirable juvenile works,—The Sisters Abroad, or an Italian journey, by Barbara H. Channing; and the Wild Man of the West, by P. M. Ballantyne. The first gives most interesting accounts of a visit to one of the most attractive portions of the earth; and its accounts of Rome, Venice, Florence, Naples, Genoa, and other cities, have much interest, and will be found very instructive to the Young.

The other work will be eagerly read by all boys who revel in graphic accounts of daring deeds and narrow escapes. It is full of life and action. Either of these books would prove an acceptable New Year's present to the Young. For sale by J. H. Foster.

☞ A letter dated Murrell's Inlet, S. C., Dec. 6, gives an account of the capture of three officers and fifteen men belonging to the U. S. brig Perry, a brief mention of which was made by telegraph. Among the officers was Acting Assistant Paymaster George W. Burkett, of East Boston. The letter states that on the 5th inst. two boats manned with volunteers put off to burn a schooner which was in the inlet. One boat's crew had hardly got on board the schooner when about two hundred rebel cavalry came out of a piece of woods near by and attacked them, and they were all killed or taken prisoners. The captain's son was among the number. The other boat's crew, which remained in their boat, escaped.

☞ The Saco Democrat says the property formerly owned by the Mousam Manufacturing Company at Kennebunk, recently owned by William Lord, Esq., including all the real and personal estate, also the Great Falls privilege on the same river, about four miles from the village, has within a few days been sold to Nathaniel L. Thompson, Joseph Titcomb and Joseph Dane, all of that town. The sum paid for the property was $31,000. The purchasers are enterprising business men and will doubtless soon improve their excellent mill privileges.

Spiritualism has made a recent conquest in the person of Prof. De Morgan of the University of London. A new book just published by Messrs. Longman, entitled "From Matter to Spirit, the result of Ten Years' Experience in Spirit Manifestations," by C. D., is know to be written by the wife of the professor, who himself contributes a long preface. Prof. De Morgan is the most universally learned mathematical scholar alive, and is well known as the author of standard works on Formal Logic, the Theory of Probabilities, the Differential Calculus, &c. His conversion is the more remarkable, as he has always been severe in his denunciation of scientific pretenders.—*English paper.*

☞ The Miasma and Foul Vapors generated by the hot sun will be far more deadly to our Volunteers than the enemy's bayonets. In the Indian and Crimean campaigns, HOLLOWAY'S PILLS were used in enormous quantities. They kept the troops in perfect health. Only 25 cents per box. Soldiers, supply yourselves. 217

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted.

A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed. We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1836.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber—and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundoned every doubt, believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakable proof of great skill and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment, and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be sent to any part of the city, and delivered without extra charge.

SPEER'S SAMBUCI WINE.
PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT.
For Physicians' Use,
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL,

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle cordial, tonic, diuretic and diaphoretic, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO
a few well known gentlemen and physicians who have tried the Wine.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of boiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objection raised by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used.

We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Siles, and others.

DR. GOODALL,
Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TEBBETS, Dr. BOARDMAN, Dr. OLIVER and Dr. REMENTS, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every item fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

THE MINER'S BRIDE.

In Falun, a mining town in Sweden, a hundred years or more ago, a young miner kissed his fair bride and said to her:

"On St. Lucien's Day our love will be blessed by the priest's hand. Then we shall be husband and wife, and we will build us a little nest of our own."

"And peace and love shall dwell in it," said the beautiful bride, with a sweet smile, "for thou art my all in all, and without thee I would choose to be in my grave."

But when the priest, in proclaiming their banns in the church for the second time before St. Lucien's Day, pronounced the words, "If any one can show a reason why these persons should not be united in the bonds of matrimony," death was at hand. The young man, as he passed her house the next morning in his black-mining garb, already wore his shroud. He rapped upon her window and said good morning; but he never returned to bid her good evening. He never came back again from the mine, and all in vain she embroidered for him on that very morning a black cravat with a red border, for the wedding day.—This she laid carefully away, and never ceased to mourn or weep for him.

Meanwhile, time passed on; the Seven Years' War was fought; the partition of Poland took place; America became free; the French revolution and the long war began; Napoleon subdued Prussia, and the English bombarded Copenhagen. The husbandman sowed and reaped, the miller ground, and the smith hammered, and miners dug after their veins of metal in their subterranean workshops. As the miners of Falun, in the year 1809, a little before or after St. John's Day, were excavating an opening between two shafts, full three hundred ells below the ground, they dug from the rubbish and vitriol water, the body of a young man, entirely saturated with iron vitriol, but otherwise undecayed and unaltered—so that one could distinguish his features and age as well as if he died only an hour before, or fell asleep for a little while at his work.

But when they had brought him out to the light of day, father and mother, friends and acquaintances, had been long dead; no one could identify the sleeping youth, or tell anything of his misfortune, till she came, who was once the betrothed of that miner who had one day gone to the mine and had never returned. Gray and shrivelled, she came to the place hobbling upon a crutch, and recognized her bridegroom, when, more in joyful ecstacy than in pain, she sank down upon the beloved form. As soon as she recovered her composure, she exclaimed, "It is my betrothed whom I have mourned for fifty years, and whom God now permits me to see once more before I die. A week before the wedding time he went under the earth and never returned."

All the bystanders were moved to tears, as they beheld the former bride, a wasted and feeble old woman, and the bridegroom still in the beauty of youth; and how, after the lapse of fifty years, her youthful lover awoke again. But he never opened his mouth to smile, nor his eyes to recognize; and she, finally, as the only one belonging to him, and having a right to him, had him carried to her own little room till a grave could be prepared in the churchyard. The next day, when all was ready, and the miners came to take him away, she opened a little drawer, and taking out the black silk cravat, tied it around his neck, and then accompanied him in her Sunday garb, as if it were their wedding day and not the day of his burial. As they laid him in the grave in the churchyard she said: "Sleep well now, for a few days, in thy cold burial bed, and let not the time seem long to thee; I have now but little more to do, and then it will be day again." As she was going away, she looked back once more and said: "What the earth has once restored, it will not a second time withhold."

$100 REWARD!
For a Medicine that will cure
COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
SCORES OF PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough, but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities for such being in correspondence with the most eminent Physicians of the Old World, of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubos, Ulcerated Throat, Sore Nostrils, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to counsle and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, and rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
☞ DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine, for stopping irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1 (one dollar per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed at this office, address all letters to

SATURDAY, JANUARY 2, 1864.

THE REBELLION.

Under this head are placed some military matters, as the means of putting it down.

By order of the War Department the draft is postponed till Jan. 15th, 1864.

The President's Amnesty Proclamation will soon be presented to all the rebel prisoners now in our custody. Their number is over forty thousand. It is estimated that thirty per cent. will take the prescribed path.

Fredericksburg is occupied by a division of Ewell's corps. The rebels have erected winter quarters on the heights in the rear of the town.

The damage done by Gen. Averill in his recent raid is estimated at over five millions of dollars.

There is no truth in the statement that the Emperor Napoleon has made formal proposals to our government for the recognition of French power in Mexico. Washington dispatches say that the statement said to be quoted from European papers, that a dispatch had been received by the French Government from the United States Government, declaring that the American Republic would never tolerate, much less recognize, a monarchy at their very doors, is incorrect.

Before a Court Martial at Philadelphia, private Bernard Devlin, of the 81st Pennsylvania Volunteers, was tried and found guilty of desertion and conduct prejudicial to good order and military discipline, having deserted and re-enlisted as a substitute, and was sentenced to be shot unto death by musketry. Gen. Couch approved the sentence, and it will be carried into effect February 5.

The North Carolina Times says a $5 gold piece was sold at auction for $150 in Confederate notes at Danville a few days since.

The same paper heartily endorses President Lincoln's recent proclamation, and advises the people of the State to accept it.—It also copies and endorses a remarkable article from the Richmond Whig, which contains the following significant paragraph:

Slavery has stabbed itself to death; it has sinned against the light, committed the unpardonable sin, and must die."

The Raleigh Standard and the Raleigh Progress are very severe in their criticisms on Jeff. Davis' message. They publish President Lincoln's message and proclamation with favorable comments.

The North Carolina Times says the British schooner J. M. Bigelow, which was captured by the United States transport Fulton and then abandoned, made her way into Swansboro', near Wilmington, unloaded her salt, and was about to run the blockade in ballast, when she was captured and burned by the United States steamers.

Eighty negro soldiers embarked from New York City, Thursday, for New Orleans, where they will join the corps under Gen. Ullman. They arrived at New York from Hilton Head.

The 93d New York regiment arrived at New York on Thursday, having re-enlisted.

Maj. Wilson, of the 3d M. S. M. Cavalry, at the head of 200 men, attacked the guerrilla Reeves southwest of Doniphan, in Ripley county, Missouri, about 3 o'clock Christmas day, killed and wounded 35 of the enemy, captured 115 prisoners, including 15 commissioned officers, with all their equipments, ammunition, &c., and 125 horses, also recaptured every man of Co. C, taken by Reeves at Centreville a few days previously, (about 50) with their arms, &c.—Maj. Wilson and his men marched 100 miles over a difficult route, in a little over twenty-four hours, to overtake Reeves.

Col. Boyd, of the 12th Pa. cavalry captured Hugh Logan, a citizen of Lettersburg, but engaged in the rebel service. Logan is noted as a daring scout. He piloted Lee through Pennsylvania when he made his last invasion; and committed robberies on the citizens during the invasion. Gen. Kelley has decided to turn the prisoner over to the civil authorities of Pennsylvania.

An officer of Gen. Averill's command, writing to a friend, says the damage inflicted on the rebels in the recent raid could not be repaired for less than five millions of dollars.

☞ In New York city, a terrible gale, with wind and snow, prevailed all Thursday night; and a dispatch from Chicago, Friday, says the heaviest and most extensive snow storm known in the West for many years commenced Thursday night, and still continues. Dispatches represent it as very severe beyond the Mississippi, and north as far as Nose Bay, and south as far as Springfield. The snow is drifting so that several railroads are blocked up. The storm is said to be very violent in Iowa.

— The enlistments in New York city on the last call have reached over 3000, or nearly the number secured by the draft.

A "reliable gentleman," just from Richmond, says that Jeff. Davis will cut his throat when the crisis of the rebellion comes. Come crisis.—*Boston Post.*

☞ Mallory, the rebel Secretary of the Navy, says that, *owing to the vigilance of the enemy*, he has not deemed it advisable that the Harriet Lane should attempt any offensive operations. The capture of the Queen of the West, he says, was the result of *carelessness* on the part of the commander, who has since been cashiered and dismissed the service; he states that it was "*owing to ignorance of the harbor*" of Portland that the officers of the Tacony were unable to take the revenue cutter Caleb Cushing, which they had captured.

TENNESSEE.—The Daily Press, a conservative paper published at Nashville, has often found fault with the Government, but now says of the President's amnesty plan:

"From all we can ascertain of the general popular sentiment, the people of Tennessee are becoming daily more reconciled to its terms, and more convinced of the liberal and conservative spirit by which it was dictated.

We feel confident that, by discussion and reflection, the President's plan is rapidly making converts in its favor, and that moderate and prudent men, comprising, we would hope, a large majority of Tennessee voters, will soon be brought to view it as an expedient well adapted to relieve them from their present anomalous and most distressed condition."

HIGH PRICES.—However much men may complain of high prices, they have by no means reached the height after three years of war, that they did in time of peace in 1837. From our files of that year it appears that in February wheat at Rochester was $3 a bushel, in New York city mutton and veal were 17 to 19 cents a pound; turkeys, 25 cents; chickens, $1 apiece. A writer in a New York city newspaper at the time observes: "It is easier to write about living in this city than to find the means of doing it. Rents have universally gone up from 30 to 50 per cent. Flour is $15 per barrel."—*New York Paper.*

CONFEDERATE PRICES.—On Christmas day oysters sold in Richmond at $20 per gallon and milk at the same price per gallon. At a sale of negroes in Macon, Georgia, last week, one hundred and one sold at an average price of $2200 each, confederate money. If we estimate the slaves by the standard of the milk, we shall see that 210 gallons of milk will pay for a negro. In Portsmouth, N. H., milk is 6 cents a quart. At this rate, 24 cents a gallon, $26 and 40 cts. would be the price of the slave. Measured by greenbacks or by oysters, the price would be $110 or over.

QUEEN VIC.—A curious story is afloat. It runs that the Queen has been casting her eyes about for an eligible mate, and has fixed upon a strong, broad-shouldered Scotchman, named Alexander Murray. The Queen is said not to live to her satisfaction in her present state of widowhood. Whether true or not, the story has received a great circulation. Should it prove correct, she will, of course, have to resign her "crown" into the hands of the Prince of Wales, as the statutes of England forbid the King or Queen marrying a subject.

RAILROAD CONTROVERSY SETTLED.—We learn from the Boston Advertiser that the controversy of ten years' duration between the Boston and Worcester and the Western Railroad corporations, respecting the division of joint business, has been amicably settled upon terms mutually satisfactory, between the Presidents of the two corporations, Messrs. Ginery Twitchell and Chester W. Chapin, without the intervention of any third parties. The settlement covers all points in dispute, and liquidates all arrearages and balances.

MASSACHUSETTS MILITARY SCHOOL.—The Military Commission, consisting of Edward Everett, Col. Clark of Amherst College, and Col. Fessenden, have completed their report to the legislature; they unanimously recommend the establishment of a State Military School, to which candidates shall be admitted on the plan of a competitive examination. Tuition to be free, but board and clothing and incidental expenses to be paid by the cadets.

DRAFT ITEMS.—The Tribune's special Washington dispatch says the War Department has determined to credit on the quotas of their respective States all re-enlisting soldiers who have served two years. It estimated that at least 75,000 out of the 300,000 men last called for will be raised in this manner. Of the residue 125,000 are expected to volunteer, leaving not more than 100,000 to be drafted.

The Provost Marshal General is in frequent receipt of letters from men subject to the draft, offering, some of them, to furnish substitutes, and others, to pay $300 commutation fee, on condition of being relieved from the draft for three years. Col. Fry has no power under the law to accede to these requests.

Of the whole number of men held to service under the first draft about one-seventh served in person, two-sevenths served by substitute, and four-sevenths paid the commutation money.

HOLIDAY GIFTS IN SPLENDID VARIETIES.—See Shute & Son's advertisement in this day's issue.

THE REBEL VESSEL RAPPAHANNOCK AT CALAIS.—The Paris correspondent of the New York Times writes under date 15th instant concerning the rebel vessel Rappahannock, purchased from the British Government, and now lying at Calais, France, as follows:

"Since her arrival in the port of Calais, a new question in the neutrality law has arisen and been discussed between the American Minister and the French Government. The vessel, while lying in a French port, and to which port she did not fly from stress of weather, *but in order to finish her equipment*, has attempted to procure these equipments from England and to put them in their place on board the ship. One day last week a hundred and forty boxes containing equipments of all kinds, from cordage down to kitchen utensils, were sent from England to a fictitious address at Calais, destined for the Rappahannock. Thus, although the Confederate agents avoid bringing what they need in the French ports, they make use of that port to finish their vessels, and against this evident violation of neutrality law Mr. Dayton has energetically protested. The French Foreign Secretary, I believe, has admitted the point of a violation, but as the case was a new one, he demanded time to confer with the Minister of Marine.

In all these transactions in regard to Confederate vessels, the American Minister has judiciously put every thing into writing, and he has declared to the French Government that it is as much to their interest as to the interest of the Government of the United States that no unjust precedents should now be established, for that the decisions in every one of these cases should be held as precedents for future action. So that there is not much danger but that the French Government will do its duty in the matter. I may add that I have reason to know that the Government is sorely vexed over these constant discussions on the neutrality laws, and would be glad to be delivered from them."

HOW THEY KEEP A HOTEL IN DIXIE. A Southern traveller gives the following item from his experiences:

Mike has made several important discoveries in his recent raid through the Southwest. He says he just found out what a "private hotel" is. He has found several of them in his travels, and they are certainly very peculiar institutions. He says their bells and gongs make as much clatter as if there was really something on the table to call the public, but when one gets there he sees nothing but empty plates. Presently the waiters will be seen dispensing different articles of provender—pretty generally to the military gentlemen with the stars and bars on their collars, and when you ask them to give you "some o' that what that feller's got," the waiter will look at you just as a faro dealer does when he "rakes down your pile,"—looks as if he "chawed" you, and innocently says:

"That's private, sir!"

Then you look around to see what else might you taste, and you see another chap with eggs. You think, "well, eggs are common enough, dear knows."

"Well give me some eggs, then."

Dem's private, too, sir. De gemman fotch 'em here and we cook 'me for him."

"Give me some potatoes, then; I suppose they're private." I said loud enough to attract all the eyes around the table.

"Yes, massa, dem's private, too; but I can give you some corn bread, an here's some salt, an here's some corn bread."

"Give me some of that butter, you black rascal," I said, aggravated, as indeed it should make anybody feel who was paying eight dollars a day for board.

"Well, massa, 'clare, massa, dats private too! Here's some salt!"

Spying another nigger, I motioned him to me, thinking I would slip a bribe into his fingers, and possibly get some of the private dishes. He came reluctantly, and as I extended my hand with a promise in it, he stooped and said in a low tone:

"I'se a private servant, massa."

This capped the climax, and I determined to finish my meal of corn dodger and salt, and take the next train for a change.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the essence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The Pill seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to testimony in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS, *Late Agent of U. S. Patent Office, Washington,* (under the Act of 1837,)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE, Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided *in his favor*, by the Commissioner of Patents. **R. H. EDDY.**

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a fraction from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Carrier Wanted!

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ The perfection of winter weather which we have been enjoying for sometime back—clear sunshine by day, and bright moonlight and starlight at night, with soft, June-like sunsets and risings — weather crisp, but not too cold; skating fair, coasting good, and sleighing superb—gave way on New Year's Day to a drizzling, sloshy rainstorm, with dense fog accompaniment; of which, the least said the better, for nobody can say anything good, since "Wibird" promenades our streets but seldom of late, with "fine day" always in his mouth.

☞ An immense avalanche of snow, sliding from the roof of Exchange Buildings nearly the whole length, early on Friday morning, covered the sidewalk to the depth of a couple of feet or more—and as the load slid from one roof after another in quick succession, the connected reports of the fall sounded more like our idea of an earthquake's rumbling, than any thing we ever heard.

HOME FAIR.—La! you Portsmouth girls needn't go to thinking, now, that we refer to you "fair ones," in particular, as compared to and excelling all the sex elsewhere. For we were simply going to say a word in commendation of a social festival held at the residence of Mr. Charles Hayes, near the Plains, on New Year's Eve, to have a good time and raise funds for our soldiers. And certainly one, and we have no doubt both, of these objects, were secured.

The large farm house was gaily decorated with flags and evergreens; and the cheerful open wood fires added not a little to the pleasure of the large and lively company of guests. Sides' Ivanhoe with four horses, run between the house and the city, all the evening, and numbers also went out with private teams.

We do not know how many tickets were sold, nor what amount was realized, but the arrangements were most complete, and highly creditable to Mr. Hayes' family, who carried the affair through so successfully, with valuable assistance from others interested in the good cause.

There were the usual fixings of Fairs—the post office, grab-bags, lotter—no, articles disposed of by tickets, guess cakes, abundance of most excellent refreshments, plenty of pretty girls and beaus for 'em, and as gay and happy a party as awakened New Year's eve anywhere.

As we are getting to belong among the "old folks," we went home in good season, and left the more room for the young people. So of the singing, and other enjoyments, the closing out sale by Auct. Hackett, (who among other "sells," put a plate of hog's-head cheese on to the boys for cocoanut candy,) and how Avery got the best guess cake, by buying his joint guessing partner out at vendue—and all the rest, we can say no more.

P. S.—We learn that the net proceeds will probably be about $115, which, with other useful articles, will be sent to the sick soldiers in hospital at Annapolis, under Dr. Charles Hayes of Berwick, who first suggested to his relatives in this city to do something for the needy volunteers. We are also requested by Mr. Hayes to acknowledge his obligations to his neighbors and all who took part, for their very hearty and efficient aid.

TEACHERS' "HAPPY NEW YEAR."—The boys have shown their appreciation of their Teachers under the new organization of the High School, in handsome New Year gifts; making New Year's morning a most pleasing one in the school room. To Mr. Lewis E. Smith, Principal, they gave an elegant pie knif, and to Mr. John E. Ayers, Assistant, a napkin ring and fruit knife, besides a number of individual remembrances.

The speeches upon the occasion are not reported, but we understand met with vociferous response. The High School Committee capped the whole by dropping in at an opportune moment, wishing the boys a "Happy New Year," and dismissing them to enjoy it.

"RING LOUD THE LIBERTY BELL."—In accordance with this injunction, the church bells of the city song a cheery peal for an hour at noon of Friday, to commemorate the anniversary of the emancipation proclamation. Ring the loud liberty bell.

☞ The side-wheel steamer Agawam, recently built at Portland, was undocked on Friday, at the Portsmouth Navy Yard and after receiving her stores and armament, she will proceed to sea. She is quite a trim looking craft, but received severe straining in her pursuit of the Chesapeake.

☞ One of the finest specimens of mammoth poster printing that we ever saw,—that of Duprez & Green's Minstrels, was entirely washed from the boards in the post-office yard, by the storm of Friday.—Never mind—there is no washing out the fact that the troupe will give some good concerts next week, as advertised.

☞ Rev. Mr. Patterson will deliver the last of his Course of Lectures to the Young at the Universalist Church to-morrow (Sunday) evening. Services commence at 7 o'clock. Subject—Spiritual Culture.

DUPREZ AND GREEN'S NEW ORLEANS AND METROPOLITAN MINSTRELS.—This monster Band of Stars will perform in Tweddle Hall on Thursday and Saturday evenings, Nov. 12th and 14th, under the management of Mr. Chas. Duprez, one of the best in this country. Our readers should give the favorites a hearty welcome. *N. Y. Herald.*

☞ We learn that Mr. Davis' Singing School Exhibition and Festival, will take place at the Temple Wednesday evening, Jan. 20th. Upwards of two hundred children and adults, will probably take part—and the programme will consist of glees, choruses, &c. The occasion will be one of great interest to all lovers of music.

☞ The Miasma and Foul Vapors generated by the hot sun will be far more deadly to our Volunteers than the enemy's bayonets. In the Indian and Crimean campaigns, HOLLOWAY'S PILLS were used in enormous quantities. They kept the troops in perfect health. Only 25 cents per box. A trial will satisfy yourselves. 217

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambord Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

HUNNEWELL'S TOLU ANODYNE.—This justly celebrated preparation, which has so truly earned the name and fame of a TRUE ANODYNE by results in cases which had baffled every other attempt at relief in Neuralgia, Rheumatism, Gout, Nervous Head Ache, Tooth and Ear Ache, Cholera Morbus, Pains in the Stomach or Bowels, Hysteria, Distress after Eating, Loss of Sleep, General Nervous Debility, Proximate in Asthma and Whooping Cough, now declared to be largely Nervous, and for the pains in Monthly Menstruation, deemed to be one of the most important points in medicine. A lady writes from New York: "Were it ten dollars a drop, I would not be without it in my family, and so one should be without it."

IT IS NOT A DYE. *Will cause Hair to grow on Bald Heads.* Will restore Gray or diseased Hair to its *Original Condition and Color.* Will prevent the Hair from falling off, promote a new and healthy growth; completely eradicates Dandruff; will prevent and cure Nervous Headache; give to the Hair a clean glossy appearance; is a certain cure for all diseases of the head, and a complete and perfect Dressing for the Hair.

LAST AND BEST.

THE MODEL COOK,

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Warming Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Polish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

RYE, N.H., Feb. 26, 1846. "Thereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distresses at my stomach, loss of appetite, and often vomited up all or any food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CHESLEY, *Lee, May* 31, 1851.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1849, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

RATS.—Memphis beats the world for rats. If we don't see at least a score of these rodents in passing a square, we think it isn't a very good square for rats. The chief cook of one of our city restaurants was very much troubled recently by a regular Grierson raid that these animals had made upon his larder, and determined, if possible, to thin out their ranks a trifle. To do this it was necessary to use strategy, for the rat, you know, is sharper than a "serpent's thanks."

He first procured an empty barrel and filled it two-thirds full of chaff, over which he strewed corn and bits of bread and cheese. He then leaned a plank against the cask to make a convenient pathway for the vermin to climb up on. This tempting meal he set out for the marauders one night, and on the next he filled up the barrel to the same height with water, and covered the top with chaff. The rats unsuspiciously plumped down into the deceptive poddle, and in due time were drowned. The result of the night's work was eighty-seven dead rats.

He well knew he could not fool any more that way, so he put the head of the barrel in, and strowed roasted cheese and meat over it. Another swarm of rats came to the banquet, but on the succeeding and fourth night he ingeniously hung the head of the cask on a pivot, so that the weight of a rat would turn it up edgeways, and allow him to slip off. In the water below was a small block of wood floating about. The first rat that fell in climbed upon this to save himself from drowning. The next one, of course, tried to get up too. This caused a fight, and tremendous squeals from both.

This brought a swarm of the rascals from their holes, and before long he had caught "ninety odd."

It is well enough to add that he never fooled another one that way. He says after killing some two hundred of them they appeared to be more numerous than ever.—*Memphis Bulletin.*

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal, and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of pubes, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailing of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the ills produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or more, can find a home with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotiss, warranted the best preventive. Order by mail. Three for $1 and a stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted women soon rejoice in perfect health.

Dr. Dow has no doubt had greater experience in the cure of Diseases of women and children, than any physician in this country.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., on whom, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried the Wine:

THE MAGEE COOKING STOVE.

The Subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cast-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large water Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about renovating or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, cool and healthy, and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the great result of a great heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the fire can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

TEETH MOUNTED UPON GOLD, SILVER, AND VULCANIZED RUBBER.

All Artificial Teeth coming from my office will be warranted to give entire satisfaction.

Teeth extracted positively without pain, by administering

PURE NITROUS OXYD GAS.

No undue excitement ever accompanies or follows its use, and no injury, even to the most delicately constituted, can be an after result. 26

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

☞ Please call and examine specimens of Artificial Teeth upon Vulcanized Rubber, Gold and Silver.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar throughout the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as, we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

ESTABLISHED 1852. PORTSMOUTH, N. H. MONDAY JAN. 4. 1864 VOL. 24. NO. 3.

The Chronicle.

"Bound to no party—to no sect confined:
The world our home; our brethren, all mankind
Love truth, do good, be just and fair; this will
Exalt the right, though it every law fulfill."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party; generally it is a spirit not to be encouraged. Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form it is seen in its greatest rank; and is truly their worst enemy."—*Washington's Farewell Address.*

THE WOMAN I NEVER SAW.—One hears much complaint of the direction and character of female education. It is decidedly affirmed that young ladies learn how to sing operas, but not how to keep house—that they can conjugate Greek verbs, but cannot make bread—that they are good for pretty toying, but not for homely using. Doubtless there is foundation for this remark, or it would never have been made. But I have been in the East, and the West, and the North, and the South; I know that I have seen the best society, and I am sure I have seen very bad; it not the worst; and I never met a woman whose superior education, whose piano, whose pencil, whose German, or French, or any school accomplishments, or even whose novels, clashed with her domestic duties. I have read of them in books, I did hear of one once; but I never met one—not one.

I have seen women, through love of gossip, through sheer famine of mental *pabulum*, leave undone things that ought to be done—rush to the assembly, the lecture room, the sewing circle, or vegetate in squalid, shabby, unwholesome homes; but I never saw education run to ruin. So it seems to me that we are needlessly alarmed in that direction.

But I have seen care and scores of women leave school, leave their piano and drawing and fancy work, and all manner of pretty and pleasant things, and marry and bury themselves. You hear of them about six times in ten years, and there is a baby each time. They crawl out of the farther end of the ten years, sallow and wrinkled and lank—teeth gone, hair gone, roses gone—freshness, and vivacity, and sparkle, everything that is dewy, and springing and spontaneous, gone, gone, gone forever. This our Tract Society book puts very prettily. She wraps herself in the robes of infantile simplicity, and, burying her womanly nature in the tomb of childhood, patiently awaits the sure coming resurrection in the form of a noble, highminded, world-stirring son, or a virtuous, lovely daughter. The nursery is the mother's chrysalis. Let her abide for a little season, and she shall emerge triumphantly, with ethereal wings and a happy flight.

But this nursery has no business to be the mother's chrysalis. God never intended her to wind herself up into a cocoon. If he had, he would have made her a caterpillar. She has no right to bury her womanly nature in the tomb of childhood. It will surely be required at her hands. It was given her to sun itself in the broad, bright day, to root itself fast and firm in the earth, to spread itself wide to the sky, that her children in their infancy and youth and maturity, that her husband in his strength and his weakness, that her kinsfolk and neighbors and the poor of the land, the halt and the blind, and all Christ's little ones, may sit under its shadow with great delight.

No woman has a right to sacrifice her own soul to problematical, high-minded, world-stirring sons, and virtuous, lovely daughters. To be the mother of such, one might, perhaps pour out one's life in draughts so copious that the fountain should dry; but world-stirring people are extremely rare. One in a century is a liberal allowance. The overwhelming probabilities are, that her sons will be lawyers and shoemakers, and farmers and commission merchants, her daughters nice "smart," pretty girls, all good, honest, kind-hearted, commonplace people, not at all world-stirring, not at all the people one would glory to merge one's self in. If the mother is not satisfied with this, if she wants them otherwise, she must be otherwise. The surest way to have high-minded children is to be highminded yourself. A man cannot burrow in his counting room for ten or twenty of the best years of his life, and come out as much of a man and as little of a mole as when he went in. But the twenty years should have ministered to his manhood instead of trampling on it. Still, less can a woman bury herself in her nursery, and come out without harm. But the years should have done her great good. This world is not made for a tomb, but a garden. You are to be a seed, not a death. Plant yourself, and you will sprout. Bury yourself, and you can only decay. For a dead opportunity there is no resurrection. The only enjoyment, the only use to be attained in this world, must be attained on the wing. Each day brings its own happiness, its own benefit; but it has none to spare. What escapes to day is escaped forever. To morrow has no overflow to atone for the lost yesterdays.—*Gail Hamilton.*

Portsmouth, N. H.

MONDAY, JANUARY 4, 1864.

BY TELEGRAPH, SUNDAY.

Anticipations of a rebel raid up the Shenandoah Valley are guarded against by ample preparations.

Senator Bowden, of Virginia, died in Washington yesterday of the worst type of small pox.

No official order has yet been issued, postponing the draft; but one is anticipated to-morrow.

Steamship City of Baltimore, from Liverpool, Dec. 22d, passed Cape Race yesterday morning. Her dates are two days later than those already received. The ship Living Age, from Akyab, for London, had been captured by the Confederate privateer Tuscaloosa, and was released on giving bonds. The London Times insinuates that Arch Duke Maximilian will not accept the Mexican Crown. The troubles in India were assuming alarming proportions, The British troops had lost heavily. A revolutionary manifesto had been placarded in the principal towns of Hungary. Kossuth was at the head of the movement.

Another of the captors of the Chesapeake was arrested in St. John, N. B., Friday, and lodged in jail.

There has been a very severe snow storm, extending from Buffalo, N. Y., to St. Louis, Mo., blocking up the railroads so that no trains have been able to leave St. Louis for three days.

The thermometer at Chicago yesterday morning was 28° below zero.

— One of the heaviest Confederate stock brokers on the London exchange has failed for $150,000.

— The loss of life on the French railways is only one in seven millions of passengers.

— The Saturday receptions—by invitation—at the White House, are to be brilliant affairs, although the ladies say that "daylight is trying to some complexions."

The Richmond Whig thinks religion a *bad* thing for negroes, and freedom *too good* a thing for them. What does the Whig think a *proper* thing for the black race?—*Exchange.*

— The N. Y. Commercial Advertiser, which has just passed into the hands of new proprietors, was established seventy years ago by Noah Webster, the lexicographer.

☞ New Years day four colored men of genteel exterior and with the manners of gentlemen joined in the throng that crowded the Executive Mansion, and were presented to the President of the United States.

— W. Gilmore Simms is said to be "hard up," in Charleston. His once popular books were copyrighted and published by New York publishers, from whom he cannot receive a farthing.

— Seven members of the 6th Ohio Battery have been captured by the rebels, near Tullahoma, and brutally murdered. They were tied to trees, shot and their bodies thrown into the river.

— The Senior Class at South Hadley Female Seminary formed a procession Christmas evening, each one laden with useful articles, including a barrel of flour on a sled, and called on a poor and worthy family and deposited the goods.

— Reports from Central Mississippi say there is no scarcity of corn there, but beef is very scarce, and as for coffee and tea, there is none at all. The stock of clothing is fast running down also, and boots and shoes are not to be had.

— General Grant says that when the rebellion is suppressed and the country is saved it will be time enough to talk of the Presidency. President Lincoln is said to have uttered an opinion identically the same as that of General Grant.

— The result of careful inspections of the rebel prisoners at Point Lookout, show that men who had lost twenty or thirty pounds in weight during the hardships of rebel campaigns, have been steadily increasing in weight since their confinement there. A large majority are contented with the change, and many express their determination not to serve again in the rebel army.

— Rev. Dr. Foster, of Springfield, Mass., in a review of the war, stated that 1,800,000 men had been called into the field, and 2000 battles and skirmishes had taken place; 210,000 men had been killed, wounded or made prisoners since the war began; and yet such was our recuperative power that, in the meantime, 487,000 young men had become of military age.

— After the late severe snow storm at the West, an engineer of a train upon the Racine and Mississippi Railroad while attempting to force his train through a huge snow bank, was thrown from the cab of the engine into the bank and buried in the snow some seven or eight feet. When his disappearance was discovered search was made and his body was recovered, but life was extinct. He died from suffocation.

NOTES OF FORMER DAYS.

Collected and Collated — By Uncle Tony.

Rev. Messrs. Emerson and Shurtleff, Episcopal Church, Queen's Chapel, 1732.—Wm. Pepperell, Rev. Arthur Brown—Throat Distemper.

The Rev. John Emerson died the 21st of June, 1732, in the sixty-second year of his age, and was buried in the Cotton burial-ground, south of the mill-dam. Mr Emerson was born at Ipswich, and was graduated at Harvard College in 1689. "He crossed the Atlantic in 1708, spent some time in the city of London, and was handsomely noticed by Queen Anne." On the 24th of May, 1708, he was ordained to the pastoral care of the church at New-Castle; but this connexion was dissolved in 1712.—He was soon after invited to Portsmouth, and continued to officiate in the old meeting-house south of the mildam, so long as he was able to preach. He delivered an occasional sermon on the 29th of October, every year after the great earthquake, which happened in 1727, to preserve the remembrance of that alarming event. "He is said to have been an agreeable companion, and a faithful preacher of the gospel." It is to be regretted, says Mr. Adams, that there were no more harmony and social intercourse between him and Mr. Rogers, during their ministerial labours in this town.

In the year 1732, a member of gentlemen, attached to the Episcopal church, and giving a decided preference to the ritual of the English liturgy, erected a building here for the purpose of conducting public worship agreeable to that form. Mr. Thomlinson contributed largely himself, and procured persons in London to assist in completing it. The Queen presented several folio prayer-books and a service of plate for the use of the altar (consisting of two large flagons, a chalice, a paten, and a christening bason stamped with the royal arms); in honor of whom the building was called Queen's Chapel.

The Rev. William Shurtleff was invited to settle in the South Parish, as successor of Mr. Emerson, and was installed as pastor of that church the 21st of February, 1733.

On the 7th of July, 1734, the body of Abigail Dent was found in an alder swamp, in a pasture belonging to George Jaffrey, Esq., situated on Middle Road, about a mile from the courthouse, with evident marks of violence upon it. The coroner's inquest states "that she was murdered by being strangled by the *mesrs* of some ill disposed person or persons, by laying violent hands on her throat." The body was secreted among the bushes, and was accidentally discovered after she had been missing a few days. Two sailors were suspected, as perpetrators of the deed, who were arrested and examined, but there was not sufficient evidence to convict them.

William Pepperell, the father of Sir William, was a native of Cornwall, England.—He emigrated to this country about the year 1676, and settled at the Isles of Shoals as a fisherman. It is said he was so poor, for some time after his arrival, that the lady to whom he paid his addresses at the Shoals, would not hearken to him. However in a few years, by his industry and frugality, he acquired enough to send out a brig, which he loaded to Hull. The lady now came forward, and gave her consent. After his marriage he removed to Kittery Point where he became a very wealthy merchant. He died in 1734.

A law had been passed, and was in operation several years, which required a session of the Inferior Court of Common Pleas, to be held in rotation in each of the four towns. This law was disapproved of by the King, and notice of his disapprobation was published here the 13th of June 1735. From this time all the courts were held in Portsmouth.

An epidemic disorder, of a new class, hitherto unknown in the medical schools, made its appearance at Kingston in May 1735. A young child was first seized with it, who died in three days. It spread rapidly through the country, and proved very mortal; especially among children, who were more liable to its attack than older persons. It baffled the skill of the most experienced physicians. Many families were left entirely childless. It was not contagious like the small-pox, but from some unknown predisposing cause, would appear in subjects, at a distance from those who had been previously attacked, attended with its wonted virulence. The throat was always affected, greatly swollen and inflamed, whence it was called the throat-distemper; a general debility affected the whole system, which soon became putrid. The Rev. Mr. Fitch published a bill of mortality on the 26th of July 1736, for fourteen months preceding; by which it appears, that ninety-nine persons died within that time in this town, of whom eighty-one were children under ten years of age.

The Rev. Arthur Brown, a native of Drogheda in Ireland, was inducted Rector of the Episcopal church here. He was educated at Trinity College in Dublin, and received the degree of Master of Arts July 29th, 1729. He was ordained by the Bishop of London as a missionary to a society at Providence, Rhode-Island, to whom he steadily preached until his removal to this town. His salary was one hundred pounds sterling. The society for the propagation of the gospel in foreign parts, allowed him sixty pounds a year, as missionary for Portsmouth, and fifteen pounds a year for Kittery, where there were a few Episcopalians, and the parish paid the remainder of his salary.

☞ The Congress of the rebel Confederacy are passing some wild bills, among them a strange army bill. The Richmond Whig is alarmed and indignant at the case, and asks the following questions:

Whence comes this frantic infatuation? Is it a symptom of panic, of trepidation bordering on despair? Are we reduced to the necessity of making such an exhibition to our enemies and to the world, in resorting to such a desperate measure, unparalleled in the history of wars? Is it one of the protean forms of demagoguery that has bewitched our civil leaders? The "equality of every man," *ergo*, "all must go to the field." Is not our war based on the principle and fact, which all history has demonstrated as a truth—the inequality of man—for policy, we say of races.

Here the reader may pause,—and ask whether the Aristocracy care anything about the color of a mudsill? This Richmond Whig says it is only "for policy" we speak of races! Really he holds that the F. F. V.'s should rule, and all the rest of mankind should obey. But with all his pride, he fears a fall, for he closes thus:

Shall we fill our treasury by force, and the first step toward adding to the army be by fraud? Shall we commence by repudiating the debt of the one, and denying contracts with exempts from the other?—Where will such policy carry us? We may yet realize, from such false steps now, the vision of our country "struggling in the slough of debt, with labor resting on her rusted implements, commerce furling her wings, dejected trade in prison garments, and the genius of liberty weeping over her people, prostrate, bankrupt and disgraced."

☞ It is proposed to re organize the U. S. Supreme Court, and to have a number more Judges of Circuit Courts, as the business has greatly increased within a few years, in several Circuits. And this is especially true of the first and second, made up of New England and New York. The patent-right cases alone, litigated in these seven States, are enough to occupy so much of the time of the two Supreme Judges assigned to the Circuits, as they can devote to the Circuit Courts, consistently with the duties the duties they must discharge while sitting in *banco* at Washington. Every lawyer knows that the business of the Circuit Court in the City of New York is of sufficient to tax to the utmost the energies of one Judge. Nearly the same may be said of the Court which sits in Boston. And yet, Judge Nelson, in addition to his duties in New York city, has to hold three or four Circuits annually in the Northern District of New York, three in Connecticut, and two in Vermont; while Judge Clifford, beside presiding in his Boston Circuit, annually holds seven or eight Circuits in Rhode Island, New Hampshire and Maine. The result is what might be anticipated—they are unable to preside in their several Circuit Courts more than one third of the time.

The obvious and proper remedy for this deficiency of judicial force is the increase of Judges of the Supreme Court, an assignment of at least two more to the States composing the first four Circuits, and the consequent reorganization of those Circuits.—Congress will probably attend to this subject, and pass the needful Act.

Louisiana.—The President's message is published in the New Orleans papers of the 19th. In speaking of the message, the editor of the New Orleans Times says:

We have no time at present, to enter into a full analysis of the glorious proclamation of the President. It is too full of matter of the most momentous consequence to be discussed in a few words. It is sufficient to say that a more significant and far-reaching document never yet emanated from the pen of that reasonable and practical-minded man. It settles the slavery question at once and forever; prescribes a form of oath through which no secessionist can by any possibility creep, no matter how ingenious his devices or how perjured his soul. Louisiana going back into the Union as a free State. God bless Abraham Lincoln!

Finances.—The Washington correspondent of the New York Post says the Secretary of the Treasury will very soon begin the issue of the interest-bearing five per cent. Treasury notes. As soon as the loan of the New York banks has been repaid, the new national banks will be supplied. The sum named is thirty-five millions, making in all an aggregate of eighty-five millions of this description of notes which it is proposed to issue within a month. The five-twenty bonds are nearly all sold. But sixty-five millions remain, and they will all be taken up before the first of February next. These sales will give Mr. Chase all the money he needs, including the large amount needed to pay bounties to re enlisting veterans. It is not probable that Mr. Chase will again issue a six per cent. bond, the interest payable in gold.

☞ Wendell Phillips is "not certain that slavery is dead until he sees it buried."—The New Haven Register says if he will go to the "Freedmen's" camps along the Mississippi, he will see it buried at the rate of several hundred per day. The Register does not agree with Job, who says, "There (j. e. in the grave) the servant is free from his master, and there the weary are at rest." The burial of slavery is quite another thing, and a much larger one, than the burial of a hundred men, or a thousand, of any color.

NEW HAMPSHIRE ITEMS.

—— The Union State Convention is to be holden at Concord on Wednesday next.

—— Mrs. Sarah Draper died at Chesterfield, N. H., on the 16th ult. at the great age of over 101 years. She was a native of Harvard, Mass. where she was born on the 3d of July, 1762.

—— On Monday night, 28th ult., at Concord, Andrew Dillon stabbed Michael Griffin dangerously. They were both from New York, and were there to enlist, under charge and management of brokers.

—— The Manchester Print Works declare a semi-annual dividend of twenty per cent., or $360,000 on a capital of $1,800,000. Dividend for the year forty per cent. Middlesex Mills, 25 per cent. per annum. Pacific Mills, 24 per cent. per annum.

—— The editor of the Amherst Cabinet says: "We received as a Christmas present, a rug, from Mrs. Rebecca Boutell, of this place, a specimen of 700 yards, which she has woven since she was 80 years old. Her age is 83."

—— A fashionable marriage occurred at Concord on Wednesday, 30th ult. Mr. Augustus Shultz, of Valparaiso, South America, and Miss Elizabeth Hutchins, being the parties. The ceremony was performed by Rev. Dr. Eames, in St. Paul's Church, the party being large and select.

—— The Lancaster, N. H., Republican says that Dr. Gilman Kimball, of Lowell, on the 8th December, removed an ovarian tumor from Mrs. Frank Smith of that village, which weighed, including the sac and contents, 24 pounds. The patient is now considered out of danger, and is doing well.

—— The Ossipee Register is informed by a communication from one who claims to be well posted, that the fires in that section were set by rebel emissaries who came there by way of Portland. The informant further says that a large number of these persons are scattered all over the Northern States, who are employed by the rebel government to destroy all the hay and grain they can find.

The Register also says: "Some assert that the fires are the result of political animosity, and were set by persons dwelling among us, but we should be unwilling to believe such an assertion without the strongest evidence, although—we are sorry to say it—threats have been made to that effect by some of our politicians."

—— A member of the 14th N. H. V. writes to the Concord Statesman from Washington, thus:—

The 14th is still in this city, doing guard duty at the prisons, and patrolling the streets; and it is an acknowledged fact, by those high in authority, that there has never been a regiment in Washington that did the duty so well. I understand some of the copperhead crew in New Hampshire feel very badly because the Fourteenth are doing nothing but loafing about the city. If any of them think it an easy thing to go on duty every other day, for months at a time, I would like the privilege of detailing about 600 such fellows as I could easily find in our State, to do our duty one month.

— Idaho is large enough to make ten States each as large as New York, and wherever the miner inserts his pick the gold dust sparkles in rare profusion. Arizona is more than three times as large as the State of New York, and its silver mines have been worked for centuries with profitable results.

American and Foreign Patents.

R. H. EDDY.

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States and in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Here, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

THE TEMPLE, PORTSMOUTH,

Our Favorites are again coming with new attractions—**The Model Troupe of the World!**

Return of the Gigantic and Famous

DUPREZ & GREEN'S

ORIGINAL NEW ORLEANS AND

METROPOLITAN MINSTRELS,

Burlesque Opera Troupe and

BRASS BAND,

Of 24 renowned, popular and brilliant Stars.

Positively for Three Nights Only!

WEDNESDAY, THURSDAY and FRIDAY,

Jan. 6th, 7th and 8th.

Introducing on each occasion an entire change of Programme.

The Troupe is just returning from a short West ern Tour, crowned with extraordinary success; in many instances hundreds have been turned away from the doors, unable to secure even standing room in the largest halls in the principal cities of the country.

This Mammoth Organization of the present age has been greatly enlarged and improved for the season of 1863 '64, and is composed of a far more talented corps of Ethiopian Artists than were ever before concentrated into one company. It is universally admitted to be the oldest, best, largest, most complete and most extensive Band travelling; and on each occasion of their appearance here, the latest features of minstrelsy will be introduced.

For full particulars, see programmes of the day, and the largest illuminated bill ever printed in the world, the first hundred of which cost $1500.

☞ Doors open at a quarter before 7; concert to commence at a quarter before 8.

Admission.....25 cents.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to alter the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

We call our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Carrier Wanted!

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ Up to Saturday night, one hundred and five (105) recruits had been enlisted towards Portsmouth's quota of 150 on the last call. From $575 to $500 is the bounty paid. Who says draft?

☞ We regret exceedingly to learn that His Honor Mayor Dearborn is again seriously if not dangerously sick, at his residence in this city, where he has been confined for about three weeks.

The Mayor is one of our most active and efficient business men; and his promptness and decision in executive matters enable him to perform a great amount of such duties.

During his long illness, the arduous duties desolving upon his position at this time, have been promptly and fully attended to by Alderman Adams, and the City Clerk, and Treasurer, in addition to their own.

☞ Among the courtesies of the season,—Acting Mayor J. B. Adams was very neatly "remembered" by his fellow members of the Board of Aldermen, at their last meeting, on Thursday evening, New Year's Eve After public business was closed, Ald. Adams was very agreeably surprised by the presentation of a handsome silver pitcher and goblet, inscribed with the names of his companions in public service during the year, of both parties, as a mark of their esteem. Mr. A. is one of the most popular of men—and we are glad to see so good feeling prevailing all round.

A JOYFUL HOUR ON NEW YEAR'S MORNING.—The young ladies of the High School being seated at their desks, greeted their teachers, Mr. Payson and Miss Morgan, with a most rousing "Happy New Year," as they entered the room.

After the preliminary forms of opening the school, boxes on the teachers' desks were opened—one containing an elegant silver cake basket for Mr. Payson, and in the other was a splendid, cameo breast pin with designs engraved on it in bass-relief, erpresenting "Night and Morning," for Miss Morgan. Subsequently to a hasty glance at these very beautiful gifts, there followed for about twenty minutes a scene of the most joyous and exhilarating pastime,—ending with a brief but pertinent address by a member of the committee, whose remarks and directions to "dismiss," were received with as cordial a response as could possibly be consistent with the dignity of the occasion. Q.

☞ The story told in the city and at the Navy Yard on Saturday, that our Police officers were dismissed—is pronounced false, by the best authority. No such action has been taken:—and we presume none such will be. The conduct of the police has been a subject of comment in many circles, and we ought not to let this occasion pass without saying that they have shown themselves efficient and faithful,—and that they deserve the thanks of every good citizen, for their promptness in putting down the riot. And whatever may be thought of the substitute and volunteer business, the police have exerted themselves to fill the quota, which is more than most of their traducers have done.

☞ From Friday's thaw to Friday night's freeze, the weather here went with a jump; and on Saturday we had rough sleighing and slippery walking, while the mercury in the glass stood at twenty-three degrees below the freezing point at 2 o'clock P. M. It ran down below zero in the forenoon, in exposed places.

EASTERN RAILROAD IN NEW HAMPSHIRE.—A dividend of three per cent. (free of Goverment tax) is payable Jan. 1, to stockholders Dec. 17. Stockholders in Portsmouth and vicinity may receive the dividend at the Piscataqua Exchange Bank until February 1.

DUPREY & GREEN'S MINSTRELS,—This band needs no praise, as our citizens are already aware of their merits. Mr. Chas. Duprez, the manager, would have nothing to do with anything that is not first class.—The troupe will perform at the Temple on Wednesday, Thursday and Friday evenings of this week.

For the Chronicle.

Dec. 17, Levi Garland, 70 years 6 months.
" 28, Mrs. Betsey M. Mathes, 54 years.

Population about 1300.

☞ It will be seen by the advertisement of the Odd Fellow's grand public installation to-night,—that Br. B. P. Shillaber is to deliver the address on that interesting occasion.

GEN. HOOKER.—Assertions having been made in a western paper that Gen. Hooker needlessly sacrificed a thousand men in the fight at Ringgold, Ga., the Baltimore American says it may be well to state that in the late campaign General Hooker's command fought four battles, besides several skirmishes, captured over two-thirds of all the prisoners, arms and camp equipage taken, and seven pieces of artillery, with a total loss not exceeding 1000 men.

☞ Gen. Halleck's policy to terminate the rebellion in accordance with the first proclamation of the President is likely to succeed. It is to take all the ports and custom houses, and by cutting off supplies of every kind, to reduce the people of the South to submission. The increase of the Navy is said to be such as to insure a rigid blockade.

☞ We learn that Mr. Davis' Singing School Exhibition and Festival, will take place at the Temple, Wednesday evening, Jan. 20th. Upwards of two hundred children and adults, will probably take part—and the programme will consist of glees, choruses, &c. The occasion will be one of great interest to all lovers of music.

☞ The Miasma and Foul Vapors generated by the hot sun will be far more deadly to our Volunteers than the enemy's bayonets. In the Indian and Crimean campaigns, HOLLOWAY'S PILLS were used in enormous quantities. They kept the troops in perfect health. Only 25 cents per box. Soldiers, supply yourselves. 217

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

THE MODEL COOK,

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

PARCHING CORN.

In memory of a country scene "lang syne."

Cosily round a wood fire sitting,
On a pleasant winter's night;
O'er their faces smiles a flitting,
Were some school girls, gay and bright,
Parching corn.

By the bright fantastic fire-light,
By the red coals, glowing warm,
Oh it was a pleasing sight,
Passing sweet to look upon!
Those gay creatures
Parching corn.

How they shout and jump about!
As the kernels scatter round;
As each new one popped out!
Gayer girls can ne'er be found
Parching corn.

Here, yor there, nor anywhere,
Happier creatures ne'er were born,
And to me there's none more fair
Than those school girls
Parching corn.

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 8 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D has now the gratification of presenting the unfortunate with remedies that have never, since the world introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Gleet, pains and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Ulceration, Abscesses, Gleets, Bubonic Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, imparting the unfortunate individual for business or society. Some of the many and melancholy effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dullness of sight, Nervous Irritation of the Heart, Dropsy, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The mental effects on the mind are which to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for our treatment, by addressing our office. ☞ Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 8 ENDICOTT STREET, Boston, is consulted daily for all diseases incidental to the Female Frame, Fluor Albus, Suppression, and other menstrual derangements, are speedily relieved on new and rational principles, and a speedy relief secured in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted are soon restored to perfect health.

Dr. Dow has no doubt had greater experience in the care of Diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in this or any other city.

N. B.—All letters must contain a red stamp, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all private and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

☞ P. S.—Dr. Dow imported and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,
OF CHOICE OPORTO FRUIT,
For Physicians' Use,
FEMALES, WEEKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific. Highly esteemed by the medical physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and is an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and soft iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The Stove is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacturing and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the heat is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former models, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed, to a considerable extent, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 25 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the retention of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Shea, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, possesses all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in WARRANTING *PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr OLIVER and Dr BENNETT, for particular success in extracting teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch**. All other operations in Dentistry, I will do at the usual rates.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to keep the required change of the Calendar at midnight, showing the day of the week, the month, and day of the month, including the 20th day of February of leap year, perpetually and without liability to derangement.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar to be a much more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, in just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

FINANCE AND BUSINESS.—The Boston Post's money article for New Year's afternoon, says:—

The New Year has commenced under favorable auspices, in financial and commercial points of view. The banks are in good position, and the indebtedness of the business community is comparatively small.—Government will probably be the principal applicant for loans, in large sums, this year, but as it continues in undoubted credit with the people at large, who are in fact the real borrowers and lenders to themselves, no trouble need be apprehended in regard to raising the ways and means for the common defence of the national existence.

The reader will consider these statements a full and fair answer to all croakers.

☞ The Evening Post remarks that never, probably in the history of New York have there been so many people in the city as at present. It is well known that, besides the unusual influx of Northern and Western strangers, a vast number of Southern refugees are in town awaiting the conclusion of the war. Altogether it is estimated—though it is impossible to say how correctly—that there are at least one hundred thousand strangers temporarily residing in town. Not only is it next to impossible to find a house to hire, but it is even very difficult to secure ordinary sleeping apartments. All hotel and board-house keepers have raised their prices, and yet are daily obliged to turn away applicants for board and lodging.

☞ In Boston, on New Year's Eve, as an audience was assembling at the Temple, an aged gentleman was observed to lay his head back and gasp once or twice, as if for breath. It was supposed to be a fainting fit, but on being removed by some gentlemen near him, he was found to be dead.—He was subsequently ascertained to be Captain John T. Jordan, an old sea captain, aged 75 years. He had never been troubled with heart disease, and his death is attributed to apoplexy. He had been in perfect health previously. Deceased had a son and grandson in the audience, neither of whom knew of the death of their relative until some time after—the former not until the close of the lecture.

At the time of the riots in New York last July, Gov. Seymour kept the rioters in countenance by complaining to the Government that the enrollment in certain New York districts was imperfect.

The President ordered that only a fraction of the quota should be drawn from those districts, and that the enrollment should be carefully scrutinized and corrected, if not right. The Governor was requested to appoint an agent to assist in the enrollment of those districts. He declines doing it, and admits the original lists were as "near correct as it is possible to make them."

This is a complete back down of the Governor, who assailed the Government and its agents so violently last summer as a mere pretext to screen the murderous wretches who filled New York with terror for a week. The result is anything but creditable to the Governor.—*Roch. Ex.*

COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quanity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the preference over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughs, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JANUARY 5, 1864.

☞ There are indications that the rebel Gen. Early contemplates a movement or raid towards Winchester, and perhaps beyond that town.

An order has been issued from the Army of the Potomac prohibiting all newspaper correspondents connected therewith from publishing, or causing to be published, the number or designation of regiments re-enlisting in the army, or leaving the same, the number of re-enlistments or the number of men furloughed.

The gunboat Commodore Reed arrived Thursday at Alexandria, bringing up two Lieutenants and five prisoners of the rebel army, and several women captured while attempting to cross the Potomac. Among the latter was a Mrs. Davis, wife of a rebel Colonel.

FROM NEW ORLEANS AND TEXAS.—New Orleans advices to Dec. 27 are received, by steamer Evening Star, at New York.

In Western Louisiana all is quiet. Our army is encamped, and the enemy is equally inactive. Our forces in Texas are making steady progress, occupying one place after another, and meeting with no opposition whatever.

Gen. Fitz Henry Warren, with a considerable force, embarked in the steamer Warrior, and crossing Matagorda Bay, occupied Indianola without opposition. Some important rebel documents were captured, among them Magruder's address to the people of Western Texas.

An expedition of three negro regiments, one white regiment, and a battery of artillery, under Gen. Ullman, had gone to the mouth of Red river, to look after the rebels in that quarter.

Gen. Herron has been assigned to the command of the frontier bordering on the Rio Grande.

Gen. Dana's headquarters are removed to Matagorda. He commands all the forces in Texas.

Gen. Magruder has issued an order, dated at Houston, in which he says the defence of Western Texas will not be given up as reported, and urges minute men, exempts, and all others capable of bearing arms, to organize at once and proceed to the camp of Gen. Bee, at Victoria. He says that the rebel troops are marching to repel the invaders, and that San Antonia and Austin are being rapidly fortified. He speaks confidently of being able eventually to drive the "vandals" back to their ships.

The guerrillas have ceased firing on the steamers in the Louisiana Department.—Ship Point has been occupied by colored troops.

A convention of the "Friends of Freedom" was held at New Orleans on Monday, 21st ult., to elect delegates to the National Convention to be held at Louisville, Ky.—The Convention admitted negro delegations from colored Union clubs to membership.—The following are the names of the delegates elected to the National Convention: Hon. Thomas J. Durant, A. C. Hills, editor of the New Orleans Era, J. M. White, Esq., Judge Josiah Fiske, Dr. James Readay, T. J. Earheart, Esq., A Fernandez, and Ansel Edwards.

On Tuesday evening, 22d ult., Mrs. Maj. General Banks had a social re-union of her own and the General's friends, at their residence. It was a magnificent affair. Officers from the foreign ships of war were present, and also the foreign consuls, etc., in full dress.

The holidays promised to rival in gayety those of a few years ago.

The health of the Union troops in Western Texas is remarkably good. Experienced surgeons, who have recently made a tour of inspection to look into the sanitary condition of our army, say there never was a similar body of men, in their experience, with so little sickness among them.—In a division of 11 large regiments there were 26 sick in hospital, and 23 in quarters.

— All but 15 men of the original 7th Maine have re-enlisted for the war.

— Gov. Sprague has purchased a thirty-three thousand dollar house in Washington.

— Turkey is becoming civilized. Henceforth real estate at Constantinople is to be taxed.

— In Washington, Monday morning, snow began to fall at 9:30: in Baltimore at 10, and snowed all day.

— The quota of troops for Niagara county, New York, is more than full, and men continue to come in greater numbers than at any time before.

— Information has reached Washington that many of the six month's volunteers will re-enlist. Similar accounts continue to be to be received concerning veteran regiments.

There is but little doubt that on the reassembling of Congress the time fixed for the expiration of the payment of bounties will be further extended—probably to February 1.

BOSTON CORRESPONDENCE.

[From our Regular Correspondent.]

BOSTON, Jan. 1st, 1864.

Editor Chronicle:—The New Year made a bad beginning last night, so far as the weather is concerned: about two inches of snow fell, followed by a hard rain storm after midnight, which has wasted most of the snow and ice from our streets, much to the satisfaction of Horse R. R. Companies, they having had clear tracks, so far, this winter.

About 1 o'clock Wednesday morning, John Hawthorn, sailor of the U. S. ship Ticonderoga, was murdered in Prince St. A young man temporarily stopping at a house in the street, reported seeing four men arm in arm—saw three attack the fourth, knock him down and pass on—being fearful some unpleasant consequences might arise to himself, did not attempt to discover the cause of the trouble, but went home. In the afternoon three seamen from a Maine schooner delivered themselves up at the 1st Police Station, stating they had assaulted Hawthorne only in self-defence, as he while in company with five others had attacked one of their number. They were retained in custody awaiting further action in the matter.

At a meeting of the School Committee, Tuesday, an increase of the salaries of the teachers was voted—twenty per cent. to those receiving $400 and under, and fifteen per cent. to those receiving over $400 up to $1000 inclusive. Motions to increase the salaries of those receiving over that amount failed.

The Gas Company has advanced the price of gas from $2 to $2 25 per thousand cubic feet. Many think it should have been decreased instead of advanced, and some remonstrances have appeared.—Last week but 65 recruits were obtained, it being an unusually dull week; but the decision that the large bounties would be stopped after Jan. 5th has given an impetus to recruiting, and a better record will be made this week. A number of arrests have been made in this vicinity of persons attempting to entice persons to enlist in other towns and States. The Secretary of War has refused to allow Massachusetts to recruit contrabands at Washington and Fortress Monroe. The draft is to be extended to Jan. 15th, but it will not help Boston much.—Five States, it is expected, will raise their quotas by the 5th inst., and New Hampshire has the honor of being one of the number, thanks to her live Governor.

The establishment of a State Military School has been recommended to the next Legislature by a Military Commission of which Edward Everett is chairman. The two Mass. regiments of heavy artillery are full; also the 54th and 55th (colored) infantry regiments, and recruiting for them has been stopped. The company of heavy artillery at Fort Warren have received orders to report at Washington, the papers to the contrary. The 19th Mass. Regt. having re-enlisted, are expected home the first of next week: they will have a reception worthy the name they have won. Adjt. Gen. Schouler went to the State House last Monday, for the first time for four weeks: he has had a severe fever caused by too close attention to the many duties of his office.

Major J. I. Plimpton, 3d N. H. Vols., arrived at Concord on Monday, to urge the speedy commissioning of those Sergeants who have long been recommended, and to see if the same bounties would be paid to men of the regiment who re-enlist, as are paid to veterans enlisting in the State.—Two Rockingham County boys are among those recommended for commissions, one of them a Portsmouth boy. The regiment never was in better health. Capts. Clark of Manchester and Benham of Nashua have been discharged. Capt. Ela of Concord is on special duty, and the regiment is under command of Capt. Maxwell of Manchester. Five Captains have left the regiment since August—a chance for promotion there. There are but 22 "line officers" in the regiment where there should be 30.

Col. John H. Jackson of the 3d, who has been North since last July and during last month had charge of the camp at Concord, will return to the Department of the South next week, taking with him all the recruits for that department. Joseph Lane, a substitute belonging to Co. G, 3d N. H., was shot for desertion, Dec. 17, on Morris Island. Capt. Charles A. Brooks, 9th Maine, has been appointed Asst. Commissary of the department. The many friends of this gallant young officer will rejoice to hear of his promotion: he was severely wounded at the charge on Fort Wagner in July last, where the 54th Mass. Regt. proved that negroes could and would fight.

The value of imports of foreign goods at this city for the week ending Dec. 26, was $287,496 against $135,409 for the corresponding week in 1862. The value of exports was $358,939.42 against $1,052,806.65, for the same time.

A salute of 100 guns was fired by Jones' Battery on the Common to-day, by order of the Governor, in honor of the first anniversary of the Emancipation Proclamation.

J. T. M.

THE CHESAPEAKE AFFAIR.—John E. Holt, master of the British schooner Investigator, has made affidavit that after the Chesapeake had been taken possession of by the United States gunboat Ella and Anna in Sambro harbor, where the Investigator was lying at the time, a boat's crew in charge of an officer was sent on board of his vessel from the Ella and Anna, who opened the hatches and searched the schooner throughout, taking away as prisoner one of the men of the Chesapeake, who was asleep in one of the cabin berths, and a large quantity of trunks and baggage, and other articles which had been put on board of the vessel by some of the men of the Chesapeake. He says that when he asked the officer for his authority, he pointed to the pistol in his belt and said that was his authority, and when he protested against his vessel being searched in a British port, three of the men pointed their pistols at him and told him to hold his tongue.

☞ On New Year's Day, the colored inhabitants of Norfolk and vicinity celebrated the anniversary of their freedom, as given them under the President's emancipation proclamation. Four regiments of colored troops, under command of Brig. Gen. Wild, took part in the exercises. There were present, as invited guests, Maj. Gen. Butler and staff, and Brig. Generals Heckman, Barnes, Getty and Ledlie with their respective staffs.

The procession marched through all the principal streets of Norfolk, and upon arriving in the square fronting the cemetery, formed a hollow square, and speaking, music and Masonic exercises were the order of the day.

A beautiful flag was presented to the 2d North Carolina colored regiment, being a gift of the ladies of Washington, N. C.

FROM CHARLESTON.—Advices from Folly Island of the 30th ult., state that our guns opened on Charleston Christmas morning, lasting from one to three o'clock. Several fires were kindled which burnt for a considerable period. The rebel batteries replied to our fire, but did no damage.

The gunboat Marblehead in Stono Inlet was fired into by the rebel batteries, and had two men killed and five wounded. Assisted by the Pawnee she soon compelled the rebels to leave their works. General Gordon with a detachment of men landed and took possession of the works. The guns—two 8-inch seacoast howitzers—were subsequently brought off by Commander Balch. The rebels had one killed and five wounded.

☞ The Navy Department has received information of the capture by the Connecticut, of the British schooner Sallie, from Nassau, off Wilmington, with a cargo of salt.

The British prize-schooner Ella, with a cargo of salt, from Nassau, captured off Wilmington, has arrived at Washington.

THE CASE OF MRS. SEMMES.—Mrs. Semmes, wife of the brother of Captain Semmes, commander of the rebel steamer Alabama, and her daughter, Mrs. Milner, who were arrested in Baltimore some weeks ago by the Government authorities, charged with sending a bottle of wine to the West Hospital to poison Federal officers, have had their case dismissed by the Grand Jury. That body was not able to find a bill against them, and it was satisfactorily shown, by chemical analysis, that the said bottle of wine did contain a considerable amount of arsenic, but that the said arsenic had been put in the wine two years ago by some one unknown to Mrs. Semmes or daughter. Similar bottles of wine, which she sent to certain confederate prisoners in West Hospital, also had the same amount of poison in them.

CAPTURE OF A DESERTER.—Samuel Bowers of N. Y., a volunteer at the camp in Grapevine Point, Conn., attempted to desert on Friday night by running the guard. A colored man, Caesar Hall, of the 29th Conn. regiment, was on guard at the time and ordered the deserter to halt, when Bowers threw snuff in his eyes. Hall pursued and bayoneted him (Bowers) badly through the arm, broke his gun over his head, and brought him back. Bowers will probably recover. Hall was this morning promoted to be a corporal.

☞ Fairs for the Sanitary Commission seem to be among the most popular movements of the day. Chicago led off, with proceeds amounting to a hundred thousand or nearly; Boston followed suit, resulting in a hundred and fifty thousand; Cincinnati is now following with a purpose to touch the three hundred thousand figure; and New York, probably intending to out-do all others, is to open on the 22d of February and hold till March 4th. She ought to return a half million.

FROM JAPAN.—Dispatches from Mr Pruyn, the American Minister at Japan, announce that the Japanese government has agreed to pay the claim for damages ($10,000) for intercepting the American steamer Pembroke last year. This augurs a good understanding with Japan.

NEW HAMPSHIRE ITEMS.

—— Keene has filled her quota of 85 men, 44 of whom are residents of that town.

—— The quota of Nashua, 110 men in all, is full.

—— The Manchester Union says:—"We have repeatedly declared that the South had no cause to secede in the action of the government, and that the fact of Lincoln's election afforded no cause."

—— Rev. Edwin M. Wheelock, formerly pastor of the Unitarian Society in Dover, N. H., and more recently Chaplain of the Fifteenth Regiment, has been commissioned a surperintendent of freedmen at New Orleans. He has the rank of Major.

One of Hunnewell's Preparations!

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, action the question of economy and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, ILLIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to procure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and all papers or Drawings for the Patent, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

"During eight months, the subscriber, by course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

ORIGINAL NEW ORLEANS AND

METROPOLITAN MINSTRELS,

Burlesque Opera Troupe and

BRASS BAND,

Of 24 renowned, popular and brilliant Stars.

Positively for Three Nights Only!

WEDNESDAY, THURSDAY and FRIDAY,

Jan. 6th, 7th and 8th.

Introducing on each occasion an entire change of Programme.

The Troupe is just returning from a short Western Tour, crowned with extraordinary success; in many instances hundreds have been turned away from the doors, unable to secure even standing room in the largest halls in the principal cities of the country.

This Mammoth Organization of the present age has been greatly enlarged and improved for the season of 1863 64, and is composed of a far more talented corps of Ethiopian Artists than were ever before concentrated into one company. It is universally admitted to be the oldest, best, largest, most complete and most extensive Band travelling; and on each occasion of their appearance here, the latest features of minstrelsy will be introduced.

For full particulars, see programmes of the day, and the largest illuminated bill ever printed in the world, the first hundred of which cost $1500.

☞ Doors open at a quarter before 7; concert to commence at a quarter before 8.

Admission.....25 cents.

Carrier Wanted!

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

THE CHRONICLE—NEW YEAR—BUSINESS, &c.—The beginning of each swiftly-following year, shows our business to be constantly on the increase, from the commencement, in all its departments. For which, we again thank all who have in any way contributed to the full success of our enterprise; while we hope we have in some measure recompensed and satisfied all such friends and patrons. The printing business is like any other, and stands, or should stand or fall, like other trades or professions, on its own merits. A merchant's customers are constantly changing—new ones coming, old ones going; and he finds his interest in doing his best for those present, rather than mourning for, or thinking of those who have left him. And especially is this true in these times, when most traders could have made more by keeping than selling their stocks, during the last few years.

And this is exactly our position—for we can hardly replace for the same money, the *white* paper, which we have *printed* and furnished to our subscribers at $4 per year in 1863. Nearly all the other Daily papers increased their price a year ago, and we ought to have done the same then, instead of giving our patrons *all* the benefit we derived from a timely purchase of a large amount of stock at a low figure. However, we will only say now, that while we are extremely grateful to those who have stood by us from first to last, with their very liberal patronage, we are by no means disposed to complain of the very few who "cannot afford" to pay a remunerative price for our work—(that is, unless they afterwards steal their reading of the Chronicle from other paying patrons, as we have no doubt most of them will,) seeing that we can make more money by letting them go, than by keeping them at past rates. So as we are pleased whether they go or stay—and all will of course do *as* they may please—we don't see much real cause for fault-finding anywhere.

As to advertising, this Chronicle is, we believe, the *only* paper of the sort that we ever saw, which had its columns full of advertisements the first number; and they have been crowded fuller and more full, ever since—but they are much like an omnibus, and will accommodate all that come. Thanks again, friends, thanks.

We have been enlarging and improving our office and counting room, and adding to the job printing department of late, and had designed to make other changes, in our paper, with the new year; but a press of business has prevented, for the present—for of late, and in fact always, it is not of too little, but rather of too much business, that, personally, we could complain, if we would. ☞ Rev. Mr. Patterson's lecture on "Spiritual Culture," delivered at the Universalist Church, on Sunday evening, concluded his course of lectures to the young. The interest taken by the public in this effort for the improvement of the youth of our city was without abatement, and notwithstanding the severity of the cold and the slippery walking, a full house listened to the concluding words of the series of instructive discourses that had pleased them so well.

☞ The second annual Ball of Piscataqua Engine Company, No. 4, at Irving Hall, New Year's eve, passed off very successfully. The 4's are not only "Prompt when duty calls," but they are also up to time in tripping the light fantastic. Turner's Quadrille Band furnished music very acceptable to the lively company; about forty couple sat down to a nice supper; the old year was danced out and the new one in, with great hilarity; and all went merry as heart could wish,—despite the rain storm which arose in the night. But as we passed the hall at 4 A. M. next morning, where the gas lights and the sounds of music and dancing yet prevailed, with the rain pouring down outside, we could but think of the motto of another of our live Engine Companies, "We drown to save."

☞ The triple entertainment at the Citizens' Lyceum to-night, will consist of a lecture by Hon. C. L. Woodbury, readings by Miss Cluer, and music by the orchestra.

☞ The Portsmouth Division of Sons of Temperance held a social Festival of members and friends, on New Year's night, at their rooms, Rechab Hall—and passed a very pleasant evening in social intercourse, singing, &c. We hear they design to have such gatherings often—and well they may, for the social part of any order or society is certainly its most valuable consideration.

☞ WHAT
U. O.

The above enigma, which should be studied out and practised by all who wish to begin the year aright, we saw posted in one of the stores in this city. That no one may lose the benefit of it, we give the explanation: "*Hand over what you owe.*"

☞ We learn that arrangements are in progress for the second annual excursion of the G. S. P., to take place next moon.

DUPREZ & GREEN'S NEW ORLEANS MINSTRELS AND BRASS BAND.—This monster band of first class stars, appear at the Temple to-morrow night, and again on Thursday and Friday. They are under the management of Mr. Chas. Duprez, one of the best there is in the business. They have concluded one tour of the Eastern States this season and have given perfect satisfaction. The agent was unable to secure the Hall on their late trip up this road, being engaged the evening he wanted it, therefore he has located the troupe here three days on this occasion. Our exchanges are universal in praise of the company. It

CORRESPONDENCE PORTLAND PRESS.

Portsmouth Jan. 1.

It is estimated that more than fifty thousand dollars have been retained by the speculations in white men, in furnishing substitutes and volunteers in this district.

This city can boast of a finer skating park than any northern city in the States. Work has been suspended on Fort Constitution until spring, with the exception of a show to keep the bosses employed. Recent examinations of some of the foundation leads to the belief, that the frost will have such an effect on it that it will have to be rebuilt.

Indications are, that the Democrats will adopt some what different resolutions at their State Convention than those of last year, which will in a measure be followed by other States.

The delegates to the National Democratic Convention elected from this State, propose as a candidate for President, some other than a military man. ABEL.

☞ Mr. John W. Stott, of this city, has received the appointment of 3d Assistant Engineer in the U. S. Navy, and is ordered to report on board U. S. steamer Kansas, at Philadelphia.

☞ Piscataqua Engine Co., No. 4, will give another Assembly on Thursday evening, at Irving Hall.

☞ We learn that Mr. Davis' Singing School Exhibition and Festival, will take place at the Temple Wednesday evening, Jan. 20th. Upwards of two hundred children and adults, will probably take part—and the programme will consist of glees, choruses, &c. The occasion will be one of great interest to all lovers of music.

☞ The Miasma and Foul Vapors generated by the hot sun will be far more deadly to our Volunteers than the enemy's bayonets. In the Indian and Crimean campaigns, HOLLOWAY'S PILLS were used in enormous quantities. They kept the troops in perfect health. Only 25 cents per box. Soldiers, supply yourselves. 217

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with the confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

RYE, N. H., Feb. 26, 1862. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some tea or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1861.

DR. SWETT—Feeling me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1860, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. msv20

NEW YORK ITEMS.—The charter of the Albany City Bank, Erastus Corning, President, expired and the bank has reorganized under the General Banking law, with the same stockholders and officers. It was chartered in 1834, has divided regularly 4 per cent. semi-annually, and closes with 80 per cent. surplus.

In the case of the Bank of America against the New York Commissioners of Taxes, the Court of Appeals has decided that so much of the capital as is invested in United States securities is not taxable, thus sustaining the law of Congress and the decision of the United States Supreme Court.

☞ The confession of Cornwell, the defrauding chief clerk of the Redemption Bureau of the Treasury Department, has led to the discovery of the counterfeiters of the fractional currency. The paper and ink used by the counterfeiters, it is said, were stolen from the Department. This confession also throws light on several other matters which before were enveloped in mystery. A full investigation of all the facts connected with the case is now going on.

☞ Eli Thayer has opened an office in New York for the formation of colonies to be planted in those parts of the country from which slavery is retreating. His plan is to send out the settlers in companies of sufficient numbers for mutual support, protection and assistance, supplied with everything necessary, not merely for the cultivation of the earth, but for the enjoyment of its fruits in the same degree to which they are accustomed.

Mrs. Rose Greenhow, who, for playing the part of a rebel spy for some time, was imprisoned at Washington, and who has published in England a book about her imprisonment, is not treated very gingerly by the English critics. The Athenæum flatly calls her "a sort of female spy," and does not suppose that many readers will be able to indulge in the luxury of much sentimental pain in her behalf. The Reader says that her book is "very silly," and that the author, in any other country than this, would have met with a spy's punishment.—*Boston Post.*

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 8 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal disease and impure blood, Impotency, Incontinence, Gleet, pain and distress in the regions of procreation, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a known and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the mental and nervous effects produced by early habits of youth, are Weakness of the back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, viz: loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 8 ENDICOTT STREET, Boston, is consulted daily for all Diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted persons soon rejoice in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and obstrusive diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

N. B.—Dr. Dow imparts a sure loss for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Great Remedy for Nursing Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

a few well known gentlemen and physicians who have tried the Wine.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other cook, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings, to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the chimney without being allowed to consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or chimney in the centre of the house can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, possesses all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitancies in **WARRANTING PERFECT SATISFACTION** in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain, or any possible injurious* results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr BOARDMAN, Dr OLIVER and Dr BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Especial attention to Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

WASHINGTON ITEMS.—A Sunday Washington dispatch says the five-twenty loan will not be withdrawn from the market until it is all taken. The people will have the chance to buy it as par.

It is credibly stated that Gen. Frank Blair has resigned his seat in Congress.

On Friday night the Susquehanna froze up so tight that the railroad ferry-boat with 300 passengers on board was locked up in the middle of the river. Since then no mail has arrived in Washington. Senators and Congressmen in large numbers are on the boat, in houses near the ferry, or returned to Philadelphia.

The plans recommended by Gen. Butler for the exchange of prisoners have found favor among the authorities. It is believed that if he should be clothed with discretionary power in the premises he will succeed in procuring the speedy release of all our prisoners in the South.

The Tribune's dispatch says: Although Chief Justice Taney has improved in health, it is not believed that he sufficiently recovers to attend to his duties again. Judge Wayne is officiating in his place.

A private letter from an officer who has just left East Tennessee says that section of the country can subsist an army during the winter. The opening of communication with Chattanooga will also facilitate the transmission of supplies.

10,000 rebels are at or near Dalton, Ga. Wheeler's cavalry was near Red Hill, on Sugar Creek. Gen. Hardee's headquarters were at Tilton's. The enemy are fortifying Rome, Resaca and Atlanta.

Our troops are in winter quarters at Chattanooga, Huntsville, Lookout Valley, and along the Nashville railroad.

☞ In New York City, two brothers named Aaron and George Wolff, and Messrs. Hoffnung and Benjamin and Eneas Been have been arrested and confined in Fort Lafayette for being concerned in the blockade running business. They shipped goods to Nassau per brig Goodhue, which was subsequently captured by the steamer Margaret and Jessie. Messrs. I. D. Young and J. C. Budd are also confined in Fort Lafayette, on a charge of shipping contraband goods. Other parties are also visitants to that hotel, whose names have not been given to the public. The blockade running business here is about played out.

GOV. SEYMOUR.—The Evening Post inquires: "Will the News kindly tell the public where Governor Seymour stands?" We regret to inform The Post that we are unable to comply with its request. For the past six months we have endeavored, without success, to ascertain where Governor Seymour stands. If our cotemporary can give any information on the subject, it will confer a favor, not only upon us, but upon many thousand Democrats, who are anxious to know the Governor's position.—*New York News.*

This does not look like perfect harmony.

EMIGRATION FROM EUROPE.—During the past year the number of emigrants from Ireland to New York was 92,681; from Germany, 38,236; from England, 18,252; from Scotland, 1944. Total 155,223. In 1862 the total number was 79,296, showing an increase during the past twelve months of 78,617.

— The Bureau of Internal Revenue estimates the manufacture of whiskey in this country at one hundred millions of gallons. the State of Ohio leading off with forty millions. This estimate is greatly in excess of the last census returns, but is said to be reliable.

— The custom of employing ladies as clerks in the public departments at Washington is meeting with increased favor. It is said that, generally speaking, they write more correctly than the men, and as they receive much smaller salaries, the gain to the government is considerable.

— Among those lost on the steamer Sunny Side, was a fortune teller who had accumulated $70,000 by telling other people's fortunes. She lost it all, together with her life and her two children, because she couldn't foretell her own fate.

$100 REWARD!
For a Medicine that will cure
COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It is not a cough syrup, to dry up a cough, but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies, that he can confidently offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been treated in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed their prospects of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
Dr. Teller still remains the only Agency in America, for the sale of Dr. Vichoi's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail, or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 2 to 5 P.M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

WEDNESDAY, JANUARY 6, 1864.

THE REBELLION.

A Washington dispatch of the 4th says the rumors of the enemy's designs and operations in the Shenandoah Valley are exaggerated. Fitz Hugh Lee's cavalry, perhaps 1000 strong, supported by Early's three meagre brigades on foot, with Imboden and other local leaders with detachments, numbering all told, 6000 or 7000 men, are near Woodstock and Mount Jackson, and make an occasional dash as far north as Winchester. The latest indications point to the Moorefield Valley, if not west of the mountains, as their scene of operations. Certainly they have not as yet appeared in sight of the Baltimore and Ohio railroad, the trains of which are running regularly, with large quantities of freight and many passengers. The best evidence of official confidence in the security of the route, is the sending of important detachments over it.

Advices from the South say a fight occurred on the 18th near Fort Gibson, in the Cherokee county, between 1000 rebels under Quantrell, and Col. Phillips, of the Indian brigade. The fight lasted several hours and resulted in the complete defeat of the rebels, who scattered in all directions, leaving 50 killed and wounded on the field. Our loss was small.

The Tribune vouches for a letter dated Charleston, Nov. 9th, from a lady to a friend, which states that there were not then 20 ladies in the city, and that her husband was hurrying her off to Macon, Ga., satisfied that Gilmore's shells made the place uninhabitable. The letter says: General Beauregard caused information to reach all that if he finds it impossible to hold the city he will leave it a mass of ruins. If they ever enter the city you will hear of the greatest earthquake ever caused by human agency. Should the vandals get here they will never be able to reach Macon. Beauregard is confident that they could never get more than ten miles from the city in any direction, but he is equally confident that they can never come here.

A Key West letter of the 29th ult. states that states that steamer Bloomer had made an expedition to St. Andrew's Bay. 500 salt boilers and kettles, 800 bushels of salt, and all the buildings were destroyed. A large number contrabands were set free, and a train of wagons captured and destroyed, laden with provisions, tools, &c.,—the damage estimated by the rebels at over $3,000,000. At the same time, steamer Restless went to St. Andrew's City, where 400 rebels were quartered, who were driven off by her guns, and a party of volunteers landed and burned the city.

U. S. steamer Fox burned steamer Flushing, of New York, a blockade-runner, and captured the rebel schooner Edwin.

The World's Washington dispatch says that at a consultation held Monday night it was understood that the draft will be postponed, and Congress will be asked to extend the time for the payment of bounties to veteran volunteers.

30,000 rebel prisoners are to be placed under Gen. Butler,—and exchanged by him or not at all.

It is said the $300 exemption fee is to be retained in our drafting law.

☞ From Washington, on Monday, a large installment of the 5 per cent. Treasury notes was sent forward to the associated banks of New York, Philadelphia and Boston, and $20,800,000 of these notes were distributed pro rata to the cities named.—Nearly nine millions more are packed ready for transportation.

☞ A Cincinnati dispatch of Jan. 4 states that two soldiers were frozen to death at Camp Chase on Saturday. The soldiers in the camp at Indianapolis have suffered considerably. A number of them have had their ears and feet frozen.

The trains on all the railroads leading into Cincinnati have been much delayed by the cold weather and the snow. The suffering among railroad men and passengers has been very great.

☞ We saw a light buggy drawn by eighteen horses, passing up Tremont street, Boston, a few days since. The driver had probably been purchasing horses and found that a convenient method of carrying them through the city, but it one of snow sides so numerous on that day had struck among his drove, we think the lot would have been taken off his hands more speedily than he anticipated or desired.

☞ Men who have gone to Canada to get men to serve in our armies, are rapidly coming to grief. Two of them have been sent to the penitentiary for fourteen years, two for twenty-one, and lots of others are awaiting trial. One of the runners whom the authorities are now after is a deserter from the army, and if caught in Canada will be sent to the penitentiary, and if caught in the States will be shot.

NEW HAMPSHIRE ITEMS.

— Mayor French, of Lawrence, fainted away on Monday, when delivering his inaugural message.

—— The Congregational Church of Claremont have given a call to Rev. Edward W. Clark, of Newton Corner, Mass.

—— Among the new counterfeits is one on the Derry, N. H., Bank,—3's altered, vig. boy, girl and dog under a tree.

—— Lieut. Green, 9th N. H. Regiment, left Concord, Friday last, the 1st inst., with 351 volunteer recruits for the Department of the Ohio.

—— Dr. George H. Hubbard, late of Manchester, has been appointed medical director of the Arkansas District, by order of Gen. John McNeil.

—— At the sale of stock on the 26th ult., by J. L. Henshaw, Stark Mills (Ex div) brought $855 per share; Amoskeag Manufacturing Company, $1030; Manchester Print Works (Ex div) $1643. On Wednesday the Amoskeag Manufacturing Co.'s stock went up to $1080. On the Saturday previous it sold for $1010.

—— George Henry L. Ryan, of New Ipswich, has nine parents living. On his father's side he has a grandfather and grandmother. On his mother's side he has a grandfather and grandmother, a great grandfather and great grandmother, also a great grandmother on the maternal grandmother's side, making (with his own father and mother) nine parents. He is the grandson of Col. S. Ryan of East Jaffrey.

—— The Manchester Mirror says:

Granite State is ahead of all others in furnishing recruits under the last call of the President. The quota of the Second District was announced to be full Saturday, and it has also furnished fifty three men for the other two districts. The entire force at Concord is at work day and night, making out the official report of the number of men this State has sent into the U. S. service under the last call, by districts, counties and towns.

☞ On Saturday afternoon, Geo. T. Bailey, a citizen and shopkeeper of Malden, was arrested on suspicion of murdering young Converse, and robbing the Malden Bank. Baily testified at the Coroner's inquest that he got a check cashed at the counter of the Bank only a few minutes before the murder and robbery were discovered. The warrant for Bailey's arrest was issued on complaint of George Jones, better known as Count Johannes, who undertook the investigation, and concluded from the fact that the flesh back of young Converse's ear was burned, that he was shot from behind, and that it was done by some one familiar at the Bank, and not by a stranger. Bailey is said to be the son of a former President of the Bank, and a man of whom Converse would have had no suspicion.—Then he was in the bank on the afternoon afterwards, and had an opportunity to carry away the bullet, which has never been found. The "Count" infers that as he wanted money, and had the opportunity, he committed the crime. On the other hand, Mr. Bailey has always been a good citizen, and no suspicion of wrong has rested upon him till now; and the papers say that he appeared as well as a man could under such circumstances.

☞ At St. John, N. B., Jan. 4, the examination of Collins, McKenney and Seely, charged with being concerned in the Chesapeake affair, was commenced before the Police Magistrate. The counsel for the prisoners took exception to the form of the warrant, and also contended that the case did not come within the extradition treaty, the offence having been committed on the high seas and not within American jurisdiction. The Magistrate reserved his decision on these points. Capt. Hillit's evidence was then taken. The case adjourned until Wednesday. The Court room was crowded with spectators: but little excitement.

☞ The Newburyport Herald says that "Rev. Mr. Atwell, of the Middle Street Universalist church, on Sunday last, resigned the charge of that parish: ill health is assigned as the cause of his resignation.—We understand that he will retire from the ministry of that church altogether; nor is it made public what his future is intended to be." The Herald further says, "He has united the society, and leaves them in a prosperous condition, entirely free from debt."

☞ The Brunswick Telegraph says that the anchor ice has dammed up the Androscoggin at Brunswick so that the river has risen eight feet and stopped the running of the mills. The Telegraph thinks the anchor ice has formed a solid mass in the river from the surface to the bottom, leaving only a narrow channel toward the Topsham side. Boulders formed of this kind of ice caused the great freshet at Bangor in 1849; some of them which were left on the wharf after the flood subsided, measured twenty or thirty feet in diameter.

A Union Victory.—On the 4th of January, the annual election of the Baltimore Corn Exchange resulted in the triumph of the Union ticket over the disloyal. This is considered quite a triumph by the loyal members of the institution.

— Anthracite coal is *reduced* to $20 a ton in New Orleans!

— Bishop Clark got a five hundred dollar marriage fee at Providence, R. I., on Christmas.

— Among the articles belonging to the magician Robert Heller, sold at public vendue in New Orleans, was a table costing $658.

— The Gardiner Journal says that an infant was frozen to death last week, in Pittston, Me., while its parents both lay drunk.

— The official rebel loss at Chickamauga is stated as follows: killed, 2299; dangerously wounded, 4780; slightly, 10,500; missing, 1906. Total, 19,475—or one-half at least of the whole number of Bragg's army.

— "Some of our contemporaries," says the Irish News, "make jocular remarks and sly hits at the Platonic character of the friendship of the lady who lately left Mr. Disraeli £40,000. Perhaps it will be news to them that she was 102 years old."

— Mr. N. Pierce of East Lexington has carried milk to Boston for sixty-three years, rising at four o'clock every morning. For sixteen years he has never missed a day in the personal delivery of his milk, and he still keeps at it.

— Rev. Mr Van Allen, of Iowa, and his wife, killed on board steamer Brazil, near Donaldsonville, Mississippi River, Dec. 11th, by shot from a rebel battery on the shore, were an estimable couple, and their sad death will be sincerely regretted.

— They are to have a railway in Paris built sixty feet in the air on arches, to run from the Grand Hotel and new Opera House to the Hotel du Louvre, to the theatres on the Place du Chatelet, the Halles and to the Place de la Bastile.

— In Jackson county, Tennessee, one of the worst rebel counties in the State, a meeting was held on Christmas night to make arrangements for celebrating the anniversary of the Emancipation proclamation. Such a meeting two years ago would have been impossible.

— Bears are said to be quite numerous about Ford river, Delta county, Mich., this season. A short time ago a large black bruin walked into the yard of Mrs. Wilson, near the river, and took a hog weighing 500 pounds out of the pen and carried it off. He played the same trick twice.

— The Spanish Courts have at last decided a suit which has lasted 240 years, and in which was at stake the whole estate left by Pizarro, the conqueror of Peru. The Courts have decided that the estates left by Pizarro belong to the Duchess de Carcelada, as direct heiress of the conqueror.

— There is a cat belonging to a farmer in Bloomfield, Conn., which has repeatedly disowned her kittens, and taken home some chippering squirrels, and nursed them till they were old enough to take care of themselves. Last spring she took under her maternal care five of these squirrels, and attended to them with a mother's love.

— At the Italian Opera in Paris they have the most admirable tenor heard there for twenty-five years, whose like has not been heard since the days when Rabini and Mario were in their prime. The name of this marvel is Frassahini. He is 40 years old, and has not only a magnificent voice, and a most judicious method, but besides these rare advantages, possesses $400,000.

☞ As we have followed the New Orleans Picayune in its notices of large tubers, we copy the following paragraph relating to their last acquisition:

We have received from Matamoros a potato as is a potato—none of your small potatoes, but a mammoth esculent. When we received the potato from Jefferson parish a few weeks since, we thought that was a—a real big 'un, but compared with our new acquisition that was of the class of small potatoes. That weighed 11 3-4 lbs.; this weighs 26 lbs.—over a quarter of a hundred weight. It's a mountain of potato—enough for the dinner of a company of famishing soldiers. It appears that, big as this potato is, our friends would have sent us a bigger one, *only that freights are so high!*

The specimen was grown in the garden attached to the Hotel de la H. Matamoros, and measures 34 inches in its lesser circumference, and 3 feet 6 inches in its longitudinal circumference.

☞ The New York World of Dec. 31 has a leading editorial in favor of the Democratic party. In another editorial in the same paper it says:

This horrible fratricidal war is the natural fruit of the present spoils system.

Does the World, or any body, remember what party it was that *inaugurated* the *present spoils system*? Uncle Toby thinks he remembers when he first heard of the democratic party, which elected General Jackson. As soon as the new party, with the new name Democratic, came into power, a great sweep was made through the public offices. And when complaint was made, it was suddenly "crushed" out by the cry, "To the Victors belong the Spoils."

These facts are so well known that they will not be denied.

The system thus inaugurated still continues, tho' every one knows there are evils in it. The World says:—

The only radical remedy is a thorough change in the system of distributing the patronage of the government. But this remedy will never be practicable until after a revolution.

If the World believes half the good things it says of the Democratic party, the best revolution must be to restore it to power. But that party inaugurated the system that the World says made the war, which it strongly condemns. Does it seem likely, that the same party which *started* the spoils system, would *stop* it and throw away the spoils as soon as they got hold of them once more? Not very likely, we think.

The World also makes this singular admission:

The *fact* that slavery clashes with the civilization of the *age* and the general spirit of our *free* institutions, was sure to be seized upon for political effect as soon as political ambition and cupidity could turn it into an instrument of success.

The *fact* here stated is a very important one. The rebellion wars, as the world tells us slavery does, not only against the Union, but against civilization and free institutions! No wonder that it is hopeless. U. T.

One of Hunnewell's Preparations!

Hunnewell's Eclectic Pills—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 8 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in Dyspepsia, Costiveness, Biliousness, Liver Complaint, all derangements of the stomach and bowels, and as a Family Pill. spno

American and Foreign Patents.

R. H. EDDY.

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (*un for the Art of 1837.*)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Those, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, enable him also, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

The Troupe is just returning from a short Western Tour, crowned with extraordinary success; in many instances hundreds have been turned away to the doors, unable to secure even standing room in the largest halls in the principal cities of the country.

This Mammoth Organization of the present age has been greatly enlarged and improved for the season of 1863 '64, and is composed of a far more talented troupe of Ethiopian Artists than were ever before concentrated into one company. It is universally admitted to be the oldest, best, largest, most complete and most extensive Band travelling; and on each occasion of their appearance here, the latest features of minstrelsy will be introduced.

For full particulars, see programmes of the day, and the largest illuminated bill ever printed in the world, the first hundred of which cost $1500.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which INHOAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. THE CITY GOVERNMENT

For 1864 was inaugurated on Tuesday, Jan. 5th, at the Court House.

William H. Hackett was elected President of the Common Council, and Lewis W. Brewster Clerk. On taking the chair Mr. Hackett neatly and briefly addressed his fellow Councilmen thus:—

Gentlemen of the Common Council:—I return you my thanks for the honor you have conferred upon me in selecting me to preside over your deliberations. Our duties as members of this Board, though not requiring so much time as is demanded of the members of the other branch of the City Government, are, nevertheless, those of an important and responsible nature. In these times, when our city, in common with every loyal municipality in the land, is called upon so largely to aid in sustaining the integrity of our country, our labors will especially demand most careful consideration.

Our acceptance of the positions in which our fellow citizens have placed us, and the oaths of office which we have just taken, carry with them obligations on our part which cannot be disregarded. I trust, therefore, that we shall show ourselves worthy of the confidence that has been reposed in us, by our constant and prompt attendance at the stated meetings of the Board, and by an earnest effort to further the interests of our beloved city.

In the discharge of the duties of the chair, I shall rely upon the constant aid and kind co-operation of each and every member of the Board; and I trust that when our official term shall expire, we may look back upon our service here with none other than pleasant recollections.

In Convention of the Aldermen and Com. Council, Marcellus Bufford was re-elected City Clerk, and Charles A. Wiggin City Messenger.

Prayer was offered by Rev. Mr. DeNormandie.

Mayor Dearborn being confined at home by sickness, sent the following communication, which was read:—

PORTSMOUTH, N. H., Jan. 5, 1864.

To the Members of the City Council:

Gentlemen:—Having been informed officially that I have been duly elected Mayor of the City for the ensuing year, I hereby accept the office, and return through you, to my fellow citizens, my thanks for this renewed token of their confidence.

By reason of severe indisposition, and the arduous duties now being performed by the officers of the City in filling the quota of men assigned to our city, I am unable at this time to afford you such statistical information as has been customary to be communicated at this season.

I hope, however, to be able shortly to communicate such information, and make such suggestions to you as in my opinion will be conducive to the interest of the city.

I am, gentlemen, with great regard,
Your obedient servant,
JONA. DEARBORN.

After which the Convention was dissolved, and the Aldermen repaired to Mayor Dearborn's residence, where he took the oath of office before Justice Odell.

[Communication.]

SONS OF TEMPERANCE.—*Messrs. Editors*:—The Portsmouth Division Sons of Temperance gave a levee at their hall last Friday eve, which was a complete success. The committee of arrangements deserves great credit.

The singing, under direction of Mr. David D. Sawtelle, was performed in a splendid manner. The remarks by Messrs. Holman, Schriver and Patterson were very touching; they advised young persons never to taste of the intoxicating cup, and those who now do so, to dash the cup from their lips. The piece entitled "The Confederation" was the most laughable. The declamation by Mr. Wilbur Neal was well performed.

The presentation to Mr. William C. Hatch, of a bottle of cider and cayenne for a cold, by a sister of the Division, was received with applause. Mr. Hatch's reply was short and laughable.

I must not pass without saying a word in regard to the piece entitled "The Death of the Heroes." This was very solemn: in the centre of the stage was erected a monument, and as the curtain was drawn twelve young ladies appeared dressed in white, with black sashes, and marched solemnly around the monument, (assisted by a dirge upon the melodeon,) and stood in a certain position, and one after another declaimed on the heroes, then as they left the stage they crowned the monument with evergreens.—Miss Albertina Nowell's declamation was listened to with great interest, especially the piece entitled "Old Maids."—The whole was concluded by a social party.

I cannot, Messrs. Editors, describe to you as I would like; but wishing you a Happy New Year, and hoping that if anything of the kind is again presented you will be present and witness for yourself, I am

Yours, H.

☞ Among the pleasant incidents of the present holiday season, we learn of the presentation of a massive gold pen, pencil and holder to Mr. Samuel H. Kingsbury, by his associates of the Portsmouth Cornet Band. This elegant gift can be seen for a few days at H. S. Bodge's jewelry store.

OUR QUOTA.—One hundred and nineteen (119) recruits for Portsmouth, had been enlisted, up to Tuesday evening, in this city—with perhaps a few more secured elsewhere for this city, not yet heard from.

☞ An ox passing along our streets, on Tuesday morning, slipped, fell, and broke his leg. He was taken away on a sled to the shambles.

☞ Dont forget that Dupree & Green's Minstrels open at the Temple to-night, Wednesday.

☞ Mr. Davis' Singing Schools at Mercantile Hall, this (Wednesday) afternoon at 3, and evening at 7 o'clock.

☞ Piscataqua Engine Co., No. 4, will give another Assembly on Thursday evening, at Irving Hall.

A thoughtful writer says, that it is an exquisite and beautiful thing in our nature, that when the heart is touched and softened by some tranquil happiness or affectionate feeling, the memory of the dead comes over it most powerfully and irresistibly.

☞ We learn that Mr. Davis' Singing School Exhibition and Festival, will take place at the Temple Wednesday evening, Jan. 20th. Upwards of two hundred children and adults, will probably take part—and the programme will consist of glees, choruses, &c. The occasion will be one of great interest to all lovers of music.

☞ The Miasma and Foul Vapors generated by the hot sun will be far more deadly to our Volunteers than the enemy's bayonets. In the Indian and Crimean campaigns, HOLLOWAY'S PILLS were used in enormous quantities. They kept the troops in perfect health. Only 25 cents per box. Soldiers, supply yourselves. 317

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambaci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LAST AND BEST.

THE MODEL COOK,

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. Most cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housekeeper who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very desirable, and not possessed by any other—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: *Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your* PANACEA and HUMOR WASH. *Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named."* ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

LOVE HAS NO WINTER.

A little bird, one sunny day,
Over the hills and far away,
Flying, sang so sweet and clear:
"Farewell! to-day I far from here,
Far, far,
Fly to where spring's roses are."

I listened to his song so glad;
It saddened, yet it made me sad.
With painful joy, with joyous pain,
My heart beat high, then sank again:
"Heart, hear,
Feel but of joy or pain the smart!"

Tumult of pain: this, quick a tide
Of tears made plain. "Alas!" I sighed,
"The swallow, summer guest, departs;
So love perchance flies out our hearts,
So, so,
Flies away with youth's spring glow."

But winter back in round soon runs,
My bird comes back with brighter suns;
He brushes away my tears with his wing,
"Love has no winter," I hear him sing.
"No, no,
Love's spring roses ever blow."

SIEGE OF BELGRADE

The following is probably the most complete specimen of alliteration extant. In the lines the whole alphabet is fathomed, and each word in each line claims its proper initial:

An Austrian army, awfully arrayed,
Boldly by battery, besieged Belgrade.
Cossack commanders cannonading come,
Dealing destruction's devastating doom!
Every endeavour engineers envy,
For fame, for fortune fighting, furious fray;
Generals 'gainst generals grapple—gracious God!
Men monsters theaves heroic hardihood—
Infuriate, indiscriminate in ill,
Kindred kill kinsmen, kindred kindred kill!
Lustfully long for jewels lettered, long for lawless fleece—
Men march mid mounds, mid moles, mid murderous mined
Now a big, noxious foul bars notice bought
Of outward obstacles opposing ought:
Poor patriots—partly purchased, partly pressed—
Quite quaking, quickly quarter, quarter quest:
Reason returns, religion's right redounds,
Swearing slops stock sanguinary sounds.
Truce to thee, Turkey—triumph to thy train!
Unjust, unwise, unmerciful Ukraine!
Vanish vain victory, vanish victory vain!
Why wish we warriors? wherefore welcome were
Xerxes, Ximenes, Xanthus, Xavier?
Yield! ye youths! ye yeomen yield your yell!
Zeno's, Zarpater's, Zoroaster's zeal,
And all attracting arms against appeal.

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the satisfaction of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrofula, Gonorrhœa, Gleet, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful swellings and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervous Irritability, Premature Decay, Pimples on the Countenance, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Persons who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotin, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic disease of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians of Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, and send for it and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet presented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purpose.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, mild and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

DR. GOODALL

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TREADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BENNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with **Neatness and Dispatch.** All other operations in Dentistry, I will do at the usual rates.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every inn fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

THE NORTH AMERICAN REVIEW, for January, 1864. Boston: Crosby & Nichols.

'Ticknor's life of Prescott' is an article on that book, issued by Ticknor & Co. The second article is a consideration of the Bible view of Slavery. The writer says of the system of slavery here:

"The gigantic selfishness of this system is less surprising than the bold and shameless avowal of it here, in republican America, and in the high noon of the nineteenth century. Servitude, or the consequent subordination of the weak to the strong, of the ignorant to the intelligent, of the poor to the rich, in some form, has existed in all ages, and must exist, so long as superior ability of mind and body creates disparity of condition and social inequality. The Egyptians, the Hindoos, the Persians, the Greeks and the Romans, held men as chattels, at every period of their history, from the rudest to the most refined. The slave trade, domestic and foreign, flourished among them, and their laws were identical in spirit, frequently in positive provisions, with those of our Southern States."

But in the laws of the Hebrews there was an exception to this; there was a humane spirit in their law: restraints were imposed on the authority of the master, not found in the codes of pagan nations; they permitted the slave to be a witness; he was regarded as a member of the family, and the power of the master was not greater than that of the father over his wife and child.

There is a plea for the ambulance system. There is a historical article on the Bibliotheca Sacra.

The writer in the article on universality in politics says, "The Society which could circulate Bishop Hopkins's Plea for Slavery to promote some political education, were ready for any treachery against the principles of our national life."

Hon. Robert C. Winthrop's book is also noticed in a good article. The Sanitary Commission has its excellent labors placed in a high record. The writer of the article on Reenan's Life of Jesus says:

"There must be a more clear and settled understanding of the meaning of inspiration. Until we get that, our belief in the miraculous Messiah and his miraculous life will continue to be what it has hitherto been with such a vast proportion of men, a barren wonder."

The article on the President's Policy says, "with peace restored, slavery rooted out, and harmony sure to follow, we shall realize a power and prosperity beyond the visions even of the Fourth of July orator."

TRADE OF PORTLAND.—The Price Current assures us that the business of the past year has been of unexampled prosperity, notwithstanding the disturbed times. In all branches of trade there has been increase. The foreign exports during the year amounted to $5,018,365.37, being $900,000 in excess of the year previous. The value of foreign exports the past week amounted to $239,167.75. Among them we notice were 443,320 feet of lumber, 224,500 lbs. butter, 146,868 do tobacco. The number of vessels entered from foreign ports was 587 during the year, clearances 710. Entries coastwise 395, clearances do 678. Number of arrivals 3,843.

A few of the principal articles exported: Lumber, 10,787,266 feet; deals, 6,946,551, feet; hoops, 1,496,363; sugar box shooks, 882,753; shingles, 1,499,740 M.; butter 963,160 lbs.; cut meats 16,307,354 do; lard, 1,536,496 do; cheese, 325,192 do; beef, 496,200 do; hams 1,310,829 do; flour, 93,015 bbls; petroleum, 282,660 gals.—There have been built and registered in the District 29 vessels of an aggregate tonnage of 10,904 tons.

☞ The Bangor Whig says that there were purchased recently in that city a rare lot of American bald eagles, such as have not been seen in circulation for thirty years. They are part of a deposit which has been buried in the town of Frankfort for fifty years, and recently taken up by the heirs of the estate to which they belonged.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for them that he can offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are warned that by consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery, it contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it—35 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Nichol's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A.M. to 8 P.M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. THURSDAY, JANUARY 7, 1864.

SPECIAL MESSAGE.

President Lincoln sent the following Message to Congress on Wednesday, Jan. 5:—

By a joint resolution of your honorable bodies, approved Dec. 22d, 1863, the paying of bounties to veteran volunteers, as now practised by the War Department, is to the extent of $300 in each case prohibited after the 5th day of the present month. I transmit for your consideration a communication from the Secretary of War, accompanied by one from the Provost Marshal to him, both relative to the subject above mentioned. I earnestly recommend that the law be so modified as to allow bounties to be paid as they now are, at least until the ensuing 1st day of February. I am not without anxiety lest I appear to be importunate in thus recalling your attention to a subject on which you have so recently acted, and nothing but a deep conviction that the public interest demands it could induce me to incur the hazard of being misunderstood on this point. The Executive approval was given by me to the resolution mentioned, and it is now by a closer attention and a fuller knowledge of facts that I feel constrained to recommend a reconsideration of the subject.

The Secretary of War, in a letter accompanying the message, says:—

No one seems to doubt the necessity of increasing the military force for a speedy termination of the rebellion, and although much difference of opinion exists in respect to the merits of the system of raising troops by volunteering and the payment of bounties, and the system of raising an adequate force by draft, yet two things are certain—1st, that whatever may the weight of argument or the influence of individual opinion, a large proportion of the people in every State prefer the method of contributing their proportion of the military force by bounty to volunteers rather than a draft; 2d, that veteran soldiers who have become inured to service, even when paid bounty, constitute a cheaper force than raw recruits or drafted men without bounty.

He also states that the purposed stop in the bounties checked volunteering at once.

The Provost Marshal General says:—

It took some time after Oct. 17th to get the people roused to the subject of volunteering. They are now, in most of the States, earnestly engaged in it, and I have reports for October and November, and part of December, showing that 42,529 men have been enlisted, and the daily average of enlistments is increasing. Under these circumstances, I respectfully suggest the propriety of a reconsideration of the act forbidding bounties after Jan. 5.

These communications were referred to the Committee on Military Affairs.

On the same day, in the Senate, Mr. Wilson introduced a bill restoring the $400 bounties to veterans, and $300 to volunteers, until the 15th of February, and a bounty not exceeding $100 to persons of African descent, residents in States now in rebellion, during such time as the President may determine. The bill exempts those who are physically disabled, and also makes the following exemptions: "The Vice President, the Judges of Courts, the heads of Executive Departments, and the Governors of States. It receives as substitutes only those who are not liable to the draft, and a penalty of $100 to $1000 fine, and 30 days to six months imprisonment is provided as the punishment of enrolling officers who are engaged directly or indirectly in procuring substitutes.

☞ The House of Representatives have passed a bill to pay Bounties till March 1.

A correspondent of one of the New York papers speaking of the miserable condition of the freed blacks in the southwest, says—"the whole tendency of this experiment is towards the utter extermination of the black race." With that termination there will be no doubt about the abolition of slavery. It is the opinion of many sensible persons that slavery and the negro will go together. Very well; it will be a benefit to the white race, even at that, though it is hard on the poor darkey.—*Exchange.*

Men may deceive themselves with dreams of colonizing a few millions of men by some artificial process;—and perhaps with dreams of exterminating a race, or of extirpating four millions of the same in a given country. But they are only dreams. The first dream has already vanished;—and the second will disappear at the end of the civil war, or before.

Circumstances, apparently accidental, are really governed by the Ruler of all things, make colonies. Peoples, or races, rise or sink, increase or diminish, by their own virtues and vices, wisdom and folly, strength and weakness, working together, and all controlled by the Supreme Governor.

Our duties, in the present crisis, are plain! Let us do them, and the events will be cared for and ordered by the Higher Power. U. T.

☞ The validity of the National Banking Law, as practically operative within the State of New York, has been affirmed by the Supreme Court for the Onondaga District, in a case made against "The First National Bank of Syracuse." A debtor to the bank attempted to resist the collection of his protested note, on the plea that the bank could have no legal existence in the State, outside of the general banking laws. The Court, however, decided the organization as regular and valid under the act of Congress.

THE REBELLION.

At headquarters Army of the Potomac, Jan. 3, nothing important transpiring. All endeavoring to keep comfortable. Three inches of snow. Pleasant but cold.

The enrolment of citizens in the army is nearly completed, including whites and blacks. The number subject to draft will be very considerable.

Gen. Patrick has issued the following order:—"Sutlers will hereafter obtain printed invoices from, and have approved by the Quartermaster General, the same as when they hauled their goods by teams."

The Richmond Whig of the 9th ult. says: "In Danville five dollars in gold were sold at auction, a day or two ago, for one hundred and forty dollars in Confederate notes." This was twenty eight dollars of Confederate paper for one of gold.

Col. Carter, late commander of the famous Virginia black horse cavalry that made the furious charge on our lines at Bull Run, is now a prisoner in Camp Chase prison.

At the same place, some nights since, a large-sized tiger cat walked into a tent on one of our picket posts and comfortably ensconced himself between two of the men who were lying down. There was a sudden "double quick" movement.

A book has been published in England, called "The Cruise of the Alabama." In it the confession is frankly made that she was manned by English sailors, as well as built and armed in England, and that many of the vessels destroyed were laden with grain, destined to supply the wants of Englishmen.

A dispatch from Chattanooga says the weather there has been stinging cold for three days. Two soldiers were frozen to death at Bridgeport, Alabama, on the 30th ult.

The soldiers are re-enlisting in large numbers. The rebel lines are twenty-five miles from Chattanooga.

Governor Bramlette of Kentucky has issued a proclamation, ordering military commanders, where loyal citizens are taken off by guerrillas, to arrest at least five rebel sympathizers in the vicinity of the outrage.

EXCHANGE OF PRISONERS.—A Washington dispatch of Monday says Secretary Stanton has determined to enlarge the powers of Gen. Butler and confirm his agency by putting all the rebel prisoners under his care. There will be 30,000 of them at Point Lookout within three weeks. The policy is resolutely decided upon by insisting that the exchanges should take place through Gen. Butler, and that none shall take place except through him. Jeff. Davis was in favor of recognizing him, as Commissioner Ould had already done.—Benjamin, who wrote the proclamation outlawing Gen. Butler, carried a majority vote in the cabinet against dealing with him, on the ground that he was an outlaw.—President Lincoln's last proclamation outlaws the whole Richmond Government.

NEW YEAR'S DAY RECORD IN NEW YORK.—Two police officers were shot in that city on Friday afternoon, while endeavoring to protect a poor Chinaman. An unknown man was stabbed to death in Chatham Square the same evening. A negro was shot dead in Laurens street.

A member of a gang of rowdies, while attacking a female keeper of a concert saloon, was dangerously shot by her.

There was a desperate fight the same night in a dance house in Mercer street, in which several persons were shot and beaten shockingly—one fatally.

☞ The Eastport Sentinel says the reports in the papers of the excitement in Eastport in consequence of the rumor of a raid from St. John "Roughs," are considerably exaggerated. Fifty persons didn't keep guard at the Frontier Bank. But our people prepared to give the raiders a proper reception if they should come. Their execution would have preceded their trial.

☞ The steam-frigate Niagara came up to the New York Navy-Yard on Monday to be dismantled. The extraordinary weight of metal on board sunk the vessel so low that she was almost useless. She has on board no less than 22 11-inch guns, each weighing 14 tuns, and ten or twelve 200 pound Parrott guns, almost as heavy.

☞ Senator Sumner has framed an amendment to the Conscription bill retaining the $300 commutation, but providing that every person so exempted shall pay during the term for which he was drafted a per centage on his income, as follows:—Ten per cent. on all income over $600, and not over $2000; twenty per cent. on all income over $2000 and not over $5000, and thirty per cent. on all incomes over $5000.

☞ Abel Stearns, of Los Angelos, Cal., lost about seven thousand head of cattle, through want of food, during the last few months. That gentleman is believed to be the largest stock and land owner in the United States. He owns this year forty-eight thousand cattle, besides nine thousand calves.

— Christmas seems to have been celebrated by a general drunk in Richmond.

— Russia has ordered its supply of Blakely guns, evidently meaning business.

— Bears are unusually numerous in Michigan this winter.

— The people of Skowhegan have sent 91 barrels of potatoes to the soldiers.

— Philadelphia consumed last year 97,974 beeves, 222,199 sheep, 179,580 hogs, and 6650 cows.

— Between October 19 and November 26, 23,619 bales of cotton were shipped from Memphis.

— A foreigner in New Hartford wanted to escape the draft, and so took medicine to produce symptoms of dropsy. He escaped the draft, but died of dropsy.

— "Jennie June" is an independent little body. She says New York must issue Fashions in future. It does, and very shocking ones, too.

— A young lady in Chardon, Wis., has just obtained a verdict of $10,000 damages against a gay deceiver, who, after courting her *fourteen years*, neglected to marry her.

— The Richmond Whig, in referring to General Butler, says:—"This cross-eyed Yankee has in him the cunning of the Evil One."

— The Commissioner of Agriculture has received a letter from Washington, Iowa, in which the writer says he made twelve hundred pounds of cotton to the acre this season.

— Thirty seven members of the U. S. Senate are now thoroughly identified with the Republicans. This would be a majority of the Senate if all the States were now represented.

— The large Dodge Tannery in Freedom, Me., was entirely consumed by fire on the 4th inst., together with all the manufactured leather and stock. Loss $15,000—supposed incendiarism.

— A recruit of African descent was received in Norwich, Ct., a few days since, who was 20 years of age, measured six feet six inches in height, and wore No. 15 shoes. We shouldn't think twould take many such to fill their quota.

— The Washington correspondent of the N. Y. Tribune says that no letter from Gen. Grant, giving his views as to how the war should be conducted, has been received at the War Department, nor is any such letter known to have been written.

— It is a singular fact that the statue of Freedom which now surmounts the Capitol at Washington, was cast by slaves. The work was done by the slaves of Clark Mills, the artist, before they were emancipated by the act of Congress removing slavery from the District of Columbia.

—A passenger train from Cincinnati and a train from Dayton, on the Cincinnati, Hamilton and Dayton Railroad, collided near Dayton Ohio, Wednesday morning.—The trains are badly smashed up. Three killed and thirty-five wounded—all from Ohio. Twenty others are reported very slightly injured.

— Brigham Young has hitherto prevented the prosecution of mining in Utah, fearing that a large number of emigrants, who are not "saints," would come into the territory. But Brigadier General Conner, commanding our forces there, has issued an order promising protection to miners. It is thought that the mountains of Utah abound in mineral wealth.

END OF THE WAR.—If the conflict in this country was one between nations, the mode of its termination could be easily apprehended by all intelligent people. An armistice would be succeeded by negotiation, and negotiation perhaps by peace.—Distinct before becoming embroiled, each, upon the return of amicable relations, would resume its former state. The strife having been caused by international difficulty, the task of concluding peace would be embarrassed by no complications like those which are peculiar to civil war, or rebellion by a number of confederate States against the others. There are causes of a chronic kind in our case not found in international strife, and therefore it is idle to suppose the war is to be brought to a speedy close.

From the frequency with which the question is put, "How long do you think this war will last?" there is no dubt many people take a wrong view of the nature of the strife. They regard it as they would a war between this country and a power in western Europe, while it is a conflict between a Government and a portion of the people who owe it allegiance. There is no such power on earth as "The Confederate States of America," and can not be until the United States give over this controversy, and conclude a peace with men who have defied the Government of which they are subjects, and declare the purpose never to lay down their weapons of rebellion.

The war is a question of national honor or national disgrace; and while there would be peace at no distant day if the leaders of the revolt were out of the way, so on the other hand, the war may last just so long as is required to bring back, piecemeal the deluded peoples who, in an evil hour, and through thirty years' inculcation of the pernicious heresey of which John C. Calhoun was the author, were enticed into a conflict, of the height and depth and length and breadth of which they had no adequate conception.—*N. H. Statesman.*

☞ At a recent entertainment in a town in Connecticut, the programme contained a tableau of the "Babes in the Woods." The curtain rose and disclosed as the babes, the three heaviest men in town, whose aggregate weight exceeded eight hundred pounds. It was tho't by the amused assembly that the "robins" must have nursed with great fidelity.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H Eddy has made for me THIRTEEN applications, in all, for one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may select the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. They embrace 40 different shades, and include all the new and fashionable colors—and are perfectly *fast*. Samples on silk and wool can be seen and the colors procured of THACHER. ja20

Carrier Wanted!

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ The year 1863 was a year of great mortality in Portsmouth.—Rev. Mr. De Normandie, of the Unitarian Church, attended 24 funerals during the year; Rev. Mr. Patterson, of the Universalist Church, attended 80; the funerals in St. John's Parish, Rev. Mr. Davis, Rector, were 38; in the North about 20. Of the other societies we have no bills of mortality; and no complete City Bill could be made of them if we had. The city records, and those of the hearse, will give us the number. It is a matter of some interest, however, to have the number of funerals attended by each clergyman.

☞ Duprez & Green's Minstrels gave a tip-top Concert last evening, to a large and delighted audience. They perform again to-night, with a new and rich programme.

☞ See Auctioneer Hackett's notice of a large sale of farming and household goods at Newington, this forenoon.

☞ Last week a number of persons called at this office to subscribe for our paper, to be sent to friends in the army.—They could not have done their absent ones a greater favor. All may not know that news papers can be sent to persons in the army with as much regularity as to subscribers about town.

☞ During the absence of Major Plimpton, 3d N. H. Vols., at the North, Gen. Gilmore has appointed Capt. Geo. Francis Towle, 4th N. H. Vols., Inspector General 1st Brigade, to fill in addition the position of Inspector General of all the U. S. forces, forts and batteries on Morris Island.

☞ The New Hampshire Republican State Convention met at Concord on Wednesday, and was largely attended.—Governor Gilmore was nominated by acclamation, and Person C. Cheney, of Peterborough, for Railroad Commissioner by 340 votes out of 401.

They also passed resolutions, in which Gov. Gilmore's course and that of the President were approved, and Abraham Lincoln declared the choice of the Convention for the next Presidency.

WASHINGTON ITEMS.—A special dispatch from Perley, Jan. 6, says:—

Although speculating agents have sent reports from here of additional issues of legal tender notes, it is doubtful whether Congress can be prevailed upon to thus extend the currency; and it is certain that Secretary Chase will not use any more notes, having provided for all payments by certificates of indebetedness, interest-bearing notes or loan.

Gen. Burnside leaves on Wednesday to resume command of the department of the Ohio, to relieve General Foster, who is reported to be in bad health.

An officer of the Government, from Newbern N. C. reports that the occupation of abandoned plantations works admirably, those rented producing quite a revenue, besides relieving the Government of the support of thousands of poor whites and colored.

Gen. Butler's call for negro cavalry created much enthusiasm, and the 24 regiment was receiving over 100 recruits a week. In addition to the two regiments of colored cavalry, a light battery is rapidly filling up.

☞ When the first exposure of the plot to release the rebel prisoners on Johnson's Island was made, a great laugh was raised at those who gave it credence, and all the Copperheads and may other persons pronounced it a ridiculous hoax. For the edification of these astute judges we quote the following paragraph from the regular annual report of the rebel Secretary of the Navy, Mr. Mallory:—

During the months of July and August I sent 27 commissioned officers and 40 trustworthy petty officers to the British Provinces, with orders to organize an expedition and to co-operate with army officers in an attempt to release the Confederate prisoners confined on Johnson's Island, in Lake Erie. From time to time I learned that the arrangements made were such as to insure the most complete success. A large amount of money had been expended, and just as our gallant naval officers were about to set sail on this expedition, the English authorities gave information to the enemy, and thus prevented the execution of one of the best planned enterprises of the present war.

A CITY.—A correspondent of the Portland Courier, who has just visited Morehead City, N. C., describes it thus:—

Morehead is smaller than Augusta. It has about five or six inhabitants and twelve hundred negroes with bad colds in the head. They eat boiled oysters and wear some portions of the Federal uniform. The best of them are getting on the war trail, two regiments having been already raised, in and about Newbern.

☞ It is announced that Prof. Agassiz has received a long and cordial autograph letter from the Emperor of Brazil, in which that monarch manifests the deepest interest in the Zoological Museum, and offering most freely his imperial services in procuring specimens for the valuable collection at Cambridge.

LOST—On Wednesday afternoon between Davis' wood yard and Cadet street, a BOOT. The finder will be suitably rewarded on leaving it at Davis' wood yard or at this office.

THE SATURDAY EVENING POST.—This popular Weekly has obtained a reputation all over the country as one of the best literary papers published. The stories of Mrs. Wood, Miss Braddon, Marion Harland, Miss Virginia F. Townsend, and numerous excellent writers, have been generally regarded as possessing the greatest merit and the most absorbing interest. A new novel commenced in the first paper in January, by Mrs. Wood, author of "East Lynne," &c. The story is called "Oswald Cray."—To any person sending thirty subscriptions and sixty dollars, will be given one of Wheeler & Wilson's celebrated sewing machines, such as they sell at forty-five dollars. Terms, $2 a year in advance, or two copies for $3. Specimen numbers sent free.—Address Deacon & Peterson, No. 319 Walnut street, Philadelphia.

A GLORIOUS RECORD.—Upwards of two hundred millions of dollars have been subscribed voluntarily by the people of the loyal States, in aid of the armies in the field since the commencement of the war! The history of the world cannot furnish a parallel to this munificent generosity. Shall such a people be divided and their country destroyed?

☞ Piscataqua Engine Co., No. 4, will give another Assembly this Thursday evening, at Irving Hall.

☞ We learn that Mr. Davis' Singing School Exhibition and Festival, will take place at the Temple Wednesday evening, Jan. 20th. Upwards of two hundred children and adults, will probably take part—and the programme will consist of glees, choruses, &c. The occasion will be one of great interest to all lovers of music.

SEVEN HUNDRED VOLUNTEERS SICK IN CAMP.—Young men, be warned in time, supply yourselves with Holloway's Pills and Ointment. They are guaranteed to cure the worst cases of sores, blowers, scurvy, fevers and bowel complaints. Only 25 cents per box or pot. 218

THEY ARE COMING BACK.—Hundreds of poor maimed fellows from the battlefields are limping and groaning at our doors. Now, what more Samaritan act can be given by the benevolent than a box (25 cents) of Grace's Celebrated Salve? A timely application of it may prevent many a foul ulcer, or cure those already established. For burns, scalds, flesh wounds, strains, bruises, contusions, vegetable poisons on the skin, insect bites and piles Grace's Salve is a sovereign remedy. It contains nothing noxious, and is already famous for its cures.

THE CRAIG MICROSCOPE.—Rev. Daniel Wise, D. D., of New York, in noticing this instrument, says: "Its simplicity, cheapness and great magnifying power struck me with surprise. I was examining a fly's eye by its aid, and was struck with wonder at the skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope magnified one hundred diameters and could be bought for two dollars, I thought it was one of the many humbugs of the hour—for I had paid $20 for a microscope not long before. But now I find it to be a really valuable instrument, which I should like to see introduced into the families of our readers, in place of the manifold useless toys which please for an hour and are then destroyed." Price $3, by mail 2.95, with six mounted objects 3.00. C. H. Wheeler & Co., 5 and 7 Essex street, Boston, agents for New England States.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

LEAD, KINDLY LIGHT.

Lead, Kindly Light, amid the encircling gloom,
Lead Thou me on!
The night is dark, and I am far from home—
Lead Thou me on!
Keep Thou my feet; I do not ask to see
The distant scene—one step's enough for me.

So long Thy power has blessed me, sure it still
Will lead me on,
O'er moor and fen, o'er crag and torrent, till
The night is gone;
And with the morn those Angel faces smile
Which I have loved long since, and lost awhile.
—[Lyra Apostolica.

The diligence from Bologne to Calais had arrived recently at a place called La Chausee, five miles from Calais, when the postilion and conductor got down and entered a wine shop to take a drink. A terrible storm of wind, hail and rain was raging at the time, and the five horses, probably tired of remaining inactive when exposed to the severe weather, suddenly dashed off, and, getting at once into a gallop, continued their speed over five bridges, across the railway, through the three gates of the fortifications of Calais, and along the streets of the town until they reached the Grande Place, where, after passing around an omnibus standing in the way, they stopped at last, apparently perfectly satisfied with their clever piloting. As to the travellers, six in number, they remained quiet and escaped unhurt.—*Paris Correspondence of N. O. Picayune.*

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, in a first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, Original Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are such to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotiles, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt had greater experience in the care of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. DOW is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Persons requiring the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

Would respectfully announce to his patrons and the public that VULCANIZED RUBBER, as a base for Artificial Teeth, promises all the advantages of Gold, yet costs only half as much. My experience has been highly satisfactory in its use, and I have no hesitation in *WARRANTING PERFECT SATISFACTION* in all cases.

Teeth inserted on Gold and Silver, and all other operations performed as usual.

Teeth extracted positively without pain, by inhaling Nitrous Oxyd Gas!

He is fully convinced that it is a perfectly harmless anæsthetic, its effect being that of an exhilarant, the whole operation being completed generally in three minutes, without the least pain, and the patient feeling as well, and usually better than before inhaling the Gas.

He would cordially invite all who wish teeth extracted *without pain*, or any *possible* injurious results, to call and be convinced.

I take pleasure in referring the public to Dr. TRADWELL, Dr. BOARDMAN, Dr. OLIVER and Dr. BURNETT, for particular success in extracting Teeth. Teeth extracted without pain and with perfect safety, with Ether. Teeth polished to their natural whiteness without pain or injury to the Enamel. Regulation of Adults' and Children's Teeth will receive particular attention.—All whole and partial Sets of Teeth repaired with Neatness and Dispatch. All other operations in Dentistry, I will do at the usual rates.

ESTABLISHED 1852. PORTSMOUTH, N. H. FRIDAY JAN. 8. 1864. VOL. 24. NO. 7.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged. Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

☞ A most exciting scene took place in the French Senate a short time since on the discussion upon the address to the Emperor. The Marquis de Boissy, an eccentric politician, criticised the conduct of the Government in a manner that so astounded M. Troplong, the President, and the Ministers, that they almost lost their senses, and quite lost their presence of mind. The Marquis spoke in the most sarcastic terms of the politicians who had sacrificed honor for the sake of honors, and whose servility had been recompensed with titles and more substantial rewards. He then proceeded to warn the Emperor that if he did not mend his ways his dynasty would share the fate of the Bourbon and Orleans dynasties, and that as Louis XVI, did not leave the crown to his son, as the "King of Rome" did not succeed to the first Emperor of France, as the crown of his ancestors did not descend to the Duke of Bordeaux, and as the Count of Paris still lives in exile where Louis Philippe died, so the Prince Imperial would not succeed to the throne of Napoleon III., unless that sovereign were better advised.

LABOR, WAGES, AND CONTENT. To have some regular work, to do it well, to have fair pay,—and be there with content,—are all good things for the individual laborer and for the contry where he lives. They are well described in the following communication which we find in the Boston Post:

I am a mechanic—I work the raw to the fabric; from coarse to fine. My wages are two dollars per day by the year. Sick days and legal holidays are the only ones I lose. I live well and manage to have something to show at the end of the year—say one hundred and fifty dollars. It is insignificant compared with the large sums your columns make mention of as the yearly gain of the trading classes. I am aware of it, and what is fortunate, it fails to disturb me in the least, for I remember that healthy thrift is like a tree—at first only the twig—then the trunk, followed by branches, and not too hurriedly neither, lest the toughening process be overleaped, the firm, solid, capacious Tree is matured. The lesson is, that real growth comes from below and works up. Gold in the beginning and fine gold later in the day. Industry and day wages have laws—I know it. To my next year's earnings I unite my last year's savings—and with the same expenditure of effort my gains enlarge.

So saith the law of thrift. I don't live meanly, I assure you. Good food is my victuals—and liquor isn't my drink—the tobacco market I never seek—I go to church all day Sundays and am none the worse for it; and pay my pew rent. I have time there, among other privileges, to see who goes, and think of those who stay away, and calculate a little about them, too. Conclusion—that those who attend pay the smallest pew tax and get the least harm into the bargain. Another item is worth knowing in these fast days, namely: not to indulge in likings for all the dazzles art and cunning invent and fling temptingly before every dollar that is earned. To go without this, and go without that, may cross a little, but it has in it virtue, force, to sweeten later periods; it isn't neither a self-acting one, it comes like its sister virtues, by acquirement only—it is an accomplishment. Thus reasoning, I am content to work well at day wages—not disturbed to repeat that A or B makes yearly $50,000 or $100,000, for beside the luxury of toil, there is luxury of thought, that growth comes from labor, while waste wears away at the top. Primarily, Day wages—Growth; secondarily, Ease—*Decay.* DAY WAGES.

CALCUTTA.—An English paper says "it is possible, even probable, that before the new year begins the telegram may announce that Calcutta, the single trading port of Bengal, having direct communication with the sea, is inaccessible to any ship over six hundred tons, that is, to any ship not greatly below the average of those employed in the trade." The river Hoogly, which connects Calcutta with the sea, brings down with it, at the season of the floods, an enormous volume of sand, which forms bars, obstructing navigation. Several channels at the mouth of the river have already been rendered impassable by these bars, and now the only remaining channel is rapidly filling up.

COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quanity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually!
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private disease, at his Old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such that in correspondence with the most eminent Physicians of the Old World, of obtaining the safest as well as the best remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Rose, Blotches, &c., he has been more than ordinarily successes, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been cured in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed their vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. A broken down or ruined constitution, or any thing that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published.—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr. TELLER has devoted a lifetime to the cure of those diseases upon which his books treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichoit's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package. On the receipt of patients, Dr. Teller will forward $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 2 to 5 P. M.
N. B.—Persons at a distance may be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice.—N. B.—No students or boys employed. Notice this, address all letters to

Morning Chronicle.

Portsmouth, N. H.

FRIDAY, JANUARY 8, 1864.

THE REBELLION.

Our forces in North Carolina, had a sharp skirmish recently. The expedition under Col. McChesney, of the 1st N. C. regiment, from Greenville, met the enemy on Thursday night, near Washington, N. C. Both parties were surprised. Lieut. Adams charged on and routed the rebels, killing a lieutenant and 5 men—all of whom were left on the field—and captured ten men, one cannon, one caisson with horses, of Star's Battery. Our loss was Lieut. Adams killed, and five men wounded.

A Washington despatch reports that Gen. Butler has received full powers in the matter of exchanging prisoners. The nature of these powers may be gathered from the following telegram to the Tribune:

"The mission of Gen. Butler here has a much wider reach than has yet been stated, and relates to future plans of the utmost importance, the nature of which must remain secret till subsequent action on the part of the rebels causes their development. Gen. Butler had another protracted interview to day with the President, Secretary Stanton and Gen. Halleck, and is understood to have received their indorsement of his proposed course, and had full powers given him to carry the same into effect. That all the rebel prisoners, about 38,000 in number, are to be transmitted to his Department, is true, and retaliatory measures to a proper and legitimate extent, have been determined upon. There is also embraced in Gen. Butler's scheme a move in the game which the rebels little think of, and, which cannot fail to bring them to terms. He has prepared a counter move to every possible contingency, and whether they refuse to hold communication with him or not, the result will be the same."

Chattanooga correspondence of the 29th ult. states that the supply train of Gens. Ward and Sheridan, while en route to Knoxville, was attacked by the rebel Gen. Wheeler's cavalry, 1500 strong, on the 29th the small guard was driven back, and the train fell into the hands of the enemy. Before the rebels could profit by their victory, Col. Lang, who commanded the expedition, sent 150 men across the river, when a counter-charge was made, and they obtained the wagons again and drove the enemy some distance away. Col. Sheibert halted his men in line of battle, the rebels wheeling as if for another charge, but remained idle. The suspense continued but for a moment, when the brigade of Col. Long, 1200 men, arrived at the scene and made a sabre charge on the enemy which they were unable to withstand for a moment, but broke in confusion. The rebels lost 123 taken prisoners, and 47 killed and wounded. Our loss is half a dozen wounded and one missing.

A dispatch from Cumberland Gap, Jan 6, to the Cincinnati Commercial, says an overwhelming force under Sam Jones attacked our troops at Jonesville, Va., on Sunday, numbering 300 men. After a desperate resistance our men surrendered, losing 30 killed and 30 wounded, one gun and two small howitzers.

The World's correspondent says it has leaked out that the official reports put the Union loss in killed, wounded and missing at Chancellorsville, at the appalling figure of 28,000.

Gen. Burnside has been ordered to New York, to await some command which is being looked up for him.

Gen. Dodge writes from Pulaski, that those regiments under his command who come within the requirements of the veteran act are re-enlisting.

☞ Perley telegraphs from Washington, Jan. 7, that it is very doubtful if the bill relating to the extension of the time for the payment of bounties, which was so unanimously hurried through the House, will be passed by the Senate, as it is asserted that it will necessitate an additional issue of legal tender notes.

☞ At a recent pay-day of the 1st Regt. Wild's, African Brigade, Col. James C. Beecher, now stationed at Folly Island, S. C., one company, Lieut. H. N. Batchelder formerly of Mass. 23th commanding, forwarded to Boston, for deposit in the Savings Bank, a large share of their wages.—Thus these men in the first stages of a life of freedom, are not only learning the art of earning money, but the higher one of saving it.

☞ The central arsenal of the rebel government has been removed from Richmond to Columbia, South Carolina, which act is supposed to preface an begira of the government of the Confederacy and the establishment of its headquarters in the hotbed of secession.

☞ A New Year's ball was enjoyed by the servants of the Astor House, New York. The proprietor at 12 o'clock, midnight, wished all present a "happy new year," and Adjt. Gen. Thomas, who was present, made brief remarks, saying that "slavery is dead and can never be brought to life."

☞ In Cincinnati, Ohio, the receipts of the Sanitary Fair are estimated at $200,000.

NEW HAMPSHIRE ITEMS.

—In the Republican Convention, Col. Tappan, the President, stated it as his belief that there was to be a hard fight with the Democrats, who intended to make one more tremendous struggle. He hoped they would not conceal their platform or position, but take the ground they really held—an effort for an ignoble peace which would result in the dismemberment of the country. He wanted them to nail their black flag to the mast, and the Unionists would meet and conquer them under the old stars and stripes. He congratulated his hearers upon the improved aspect of things in the field, and the fact that the crushing out of the rebellion was only a question of time.

The following resolutions were passed with great applause:

Resolved, That the Hon. Joseph A. Gilmore, by the ability, fidelity and energy with which he has discharged the duties of the office of Governor the past year has largely added to the appreciation and confidence which led to his selection, and that this Convention, with great satisfaction and by acclamation, now present him to the people of the State as a candidate for re-election.

Resolved, That Abraham Lincoln by the exercise during the severest trials and most dangerous crisis in the nation's history, of unequaled sagacity and statesmanship, of a moderation and prudence which experience has shown to be the highest wisdom, by his spotless integrity of personal character, above reproach and above suspicion, and by his slowly formed yet unalterable determination, that the triumph of the Constitution and Union over secession and treason shall be the final triumph of liberty throughout the nation, has received and merited the abiding confidence of the people to an extent never awarded any other public man since Washington; that the best interests of the country demand that the complete destruction of the rebellion and the restoration of peace, prosperity and the Union should be achieved under his administration of the government, and that we therefore declare Abraham Lincoln to be the people's choice for re-election to the presidency in 1864.

The resolution was carried with thunders of applause, the delegates rising to their feet and waving their hats with the wildest enthusiasm.

☞ Some of our exchange papers are busy finding fault with the government, especially with the emancipation and amnesty measures; some are groaning at the apprehension that the destruction of slavery will knock the bottom out of the Constitution, which, they pretend, guaranteed the safety of that beautiful institution; and one of them is actually pitching into old John Brown and his friends. The people of the country, however, mean to stand by their own government against the rebel sham; they mean to keep the Constitution as it is, and let slavery go to its own place; and they don't feel half so anxious about John Brown as they do about Gen. Lee and Jeff. Davis.

☞ Andrew Jackson Donelson, candidate for the Vice Presidency in 1856 on the American ticket, has been heard from down in Mississippi. He professes to be loyal, and is very bitter against the Confederate government, by whom he had been arrested and imprisoned at Vicksburg on a charge of high treason. One specification in the charge was, that he had said on divers occasions that he could not trust Jeff. Davis further than a blind mule could kick, "or words to that effect." He admitted that he had said so, and offerd to substantiate his belief by evidence bearing upon certain events connected with Jeff.'s political dishonesty in former years; but his proposition was ruled out. The other specifications he said he was ready to prove if allowed to bring witnesses. Ultimately he was released, when, upon returning to his plantation, he found the rebels had carried off all his corn and bacon.

☞ The Chattanooga correspondent of the Cincinnati Gazette says there is a settled conviction in the army that the end is drawing nigh, and if our veterans are treated as they deserve they will nearly all re-enlist. A furlough of thirty days will go further than bounties in inducing them to re-enlist. The force which lately returned from the relief of Knoxville say that a strong, but hitherto suppressed, Union sentiment prevails among the people between Chattanooga and Nashville. The Union army was everywhere welcomed.

1863 A GLOOMY YEAR TO THE REBELS.— The Richmond Examiner of the 31st ult. says that the gloomiest year of the struggle has been concluded; that neither the hopes of intervention, which buoyed up the spirits of the rebels in 1861, nor the victory of Fredericksburg in 1862, cheers them at the conclusion of the past year. It admits that the check given to Gen. Meade at Mine Run, or Longstreet's partial success at Bean Station, are a poor set-off to the severe losses which the rebels suffered in the murderous assault at Knoxville.

☞ In the Massachusetts Legislature, on Wednesday, Mr. Field was re-elected President of the Senate, and Mr. Bullock Speaker of the House, both of them by a unanimous vote. The old Clerks, Mr. Gilford in the Senate, and Mr. Robinson in the House, were unanimously re-elected.

— The 1st-Long Island and 40th Mozart regiments arrived home in New York Jan. 6—having re-enlisted.

— One of the persons who had their pockets picked at the White House on New Year's Day, was a detective policeman.—Who shall guard the shepherds?

— Gov. Buckingham of Connecticut has received authority from Washington to raise a second negro regiment in that State. One has already been nearly filled.

— At Leicester, Vt., on the 27th ult., the wife of John C. Bullock died; on the 28th his daughter deceased, and on the 29th the husband and father followed them to the grave. All were victims of diptheria.

— The ice obstructions in the Delaware and Susquehanna rivers have been overcome, and all trains are now running thro' over the Baltimore and Ohio R. R. with regularity.

— In Virginia, there is reason to believe that Early's movement in the Shenandoah valley is for no other purpose than to protect that section and the railroad south of that point from our cavalry raids.

— A Brooklyn gentleman has agreed to contribute to the proposed New York Sanitary Fair the sum of $250 in money and a cotton-gin, which he designs to keep running during the continuance of the exhibition.

— A "snow-slide" from the roof of a block at Lowell, Friday morning, carried away a tall chimney, the ruins of which were sent through the entrance of Huntington Hall, doing damage to the amount of $100.

— There are now living in Marulan, in New South Wales, two persons, husband and wife, aged respectively 111 and 107 years. They are extremely feeble and bed-ridden, but are in possession of both sight and hearing.

— The message of Gov. Seymour, of New York, is of a very coppery hue on National subjects. Nothing suits him.—Not a word of congratulation on the victories that have crowned the national arms during the year is uttered, only a brief allusion to them for the purpose of banging an argument thereon.

— The muskets that were imported during the first year or two of the rebellion are going back to Europe in large quantities. The steamer Bavaria took out 20,000 on her last trip. The speculators found they would not "go off" at satisfactory prices. American gun makers are furnishing a better article so plentifully.

ROMAN AND AMERICAN SLAVERY.—It has been well remarked that such passages as the following from Mr. Bancroft's essay on "the decline of the Roman Empire," written in 1834, and describing a society which existed more than two thousand years ago, present in many particulars a curiously exact description of our slave States before the war:

"When Tiberius Sempronius Gracchus, on his way to Spain to serve in the army before Numantia, travelled through Italy, he was led to observe the impoverishment of the great body of citizens in the rural districts. Instead of little farms studding the country with their pleasant aspect, and nursing an independent race, he beheld nearly all the lands of Italy engrossed by large proprietors; and the plow was in the hands of the slave." * * "He saw the inhabitants of the Roman State divided into the few wealthy nobles, the many indigent citizens, the still more numerous slaves. Reasoning correctly, he perceived that it was slavery which crowded the poor freeman out of employment and barred the way to his advancement."

Again he writes:—

"The aristocracy owned the soil and its cultivators. The vast capacity for accumulation, which the laws of society secure to capital in a greater degree than to personal exertion, displays itself nowhere so clearly as in slaveholding States, where the laboring class is but a portion of the capital of the opulent. As wealth consists chiefly in land and slaves, the rates of interest are from universally operative causes, always comparatively high; the difficulty of advancing with borrowed capital proportionally great. The small landholder finds himself unable to compete with those who are possessed of whole cohorts of bondmen; his slaves, his lands, rapidly pass, in consequence of his debts, into the hands of the more opulent. The large plantations are continually swallowing up the smaller ones; and land and slaves come to be engrossed by a few."

COMPLIMENT TO PUBLISHERS.—The following tribute to a young Boston publishing house is clipped from the Philadelphia City Item of the 26th ult.:

Among the book publishers who have risen to eminence by their industry and enterprise, Walker, Wise & Co. of Boston may be ranked. In less than four years they have extended their name all over the country, and their catalogue of publications is large and valuable. As a specimen of the vigor with which they have aroused the public attention, we may mention their announcement of the publication of Henri Martin's great 'History of France.' This work is in seventeen volumes, and is the most complete on France extant. As we have no translation of French history, this announcement will be welcomed with pleasure, for it will supply a vacancy long felt. It will be translated by O. W. Wight and Mary L. Booth, and will certainly meet with a great success.

SENATOR SEBASTIAN OF ARKANSAS.—A correspondent of the St Louis Republican, who has lately had a conversation with Sebastian, represents him as saying: "I have no seat in the Senate. I was expelled by a resolution which was passed on the false statement that I was at the time colonel of a rebel regiment." He denied that he ever participated in the rebellion in any way whatever; but added: "I cannot put myself in the position of going to Washington as a mendicant for a seat in the Senate."

THE LATE FIRE AT SUMTER.—The Charleston Courier has the following account of the recent explosion at Sumter, by which 11 men were killed and 41 wounded:

A small magazine in the southwest angle of the fort, containing about 150 pounds of powder and a quantity of small arms and ammunition, exploded, and ignited all the materials in the room attached, killing or wounding all those in the immediate vicinity. The wounded were burned with greater or less severity. The passages were instantly filled with dense volumes of smoke, introduced by a blast of great strength, which prevented any prolonged or successful attempt to extinguish the fire.

☞ The Cape Ann Advertiser remarks that, besides the six fishing vessels destroyed by the piratical barque Tacony, there have been but three of the Gloucester fleet lost during the year 1863, viz: the schooners William Parkman, Alfalfa and Mary E. Hiltz. The total amount of the losses for the year foots up about $30,000. The fishing season of '63 is considered the most successful on record.

☞ Mr. Bailey of Malden, under examination for the alleged murder of Converse, has been discharged; there being no evidence against him.

American and Foreign Patents.

R. H. EDDY.

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but brought its invaluable advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

Have, besides, his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his business, made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

PISCATAQUA LODGE.

A public installation of the officers of Piscataqua Lodge, No. 6, I. O. O. F., took place at the Temple on Monday evening last, under the direction of the R. W. Grand Lodge of the State of New Hampshire.

A procession was formed by Piscataqua Lodge, attended by Strawberry Bank Encampment of Patriarchs and New Hampshire Lodges, and escorted by the Portsmouth Cornet Band, which proceeded to the Temple where the services were performed in the usual impressive manner.—After which the audience listened to a poem by P. G. B. P. Shillaber, and speeches by P. G. B. F. Bowles of Hillsboro' Lodge, Manchester; G. Rep. J. Kidder of Hillsboro' Lodge, Manchester; and Br. A. J. Patterson of Piscataqua Lodge, Portsmouth.

A larger number of Odd Fellows were present than had appeared in public for several years, the Order being in a very prosperous condition. The Temple was crowded to its utmost capacity by the invited friends of the brethren. The performances by the band added much interest to the occasion.

The Grand Officers present were Wm. P. Buel, M. W. G. Master of Nashua; J. S. McFarland, R. W. D. G. Master, Concord; Ira Doe, R. W. G. Warden, Rochester; J. B. Smart, R. W. G. Secretary, Concord; J. H. Gardiner, R. W. G. Treasurer, Portsmouth; J. E. Rider, G. Marshal, Portsmouth; S. S. Davis, G. Chaplain, Nashua; N. T. Kimball, G. Guardian, Rochester.

The officers installed were Joshua E. Eldredge, N. G.; J. J. Laskey, W.; James W. Wingate, V. G.; A. K. P. Deering, C.; Henry T. Curtis, Sec.; B. M. Parker, O. G.; Isaac Dame, Treas.; C. A. G. Holmes, I. G.; J. L. Rice, R. S. N. G.; I. Hahn, R. S. V. G.; C. J. Marshall, L. S. N. G.; D. Parry, L. S. V. G.

☞ The following officers for the ensuing term, were installed on Wednesday evening in New Hampshire Lodge, No. 17, I. O. O. F.:

N. G.—Edward I. Moulton.
V. G.—Edward D. Coffin.
R. S.—John H. Morrill.
P. S.—Joseph H. Gardiner.
T.—Moses H. Tilton.
W.—Samuel French.
C.—Joseph Fernald.
Chaplain—I. F. Waterhouse.
R. S. N. G.—Jesse N. Wilson.
L. S. N. G.—Wm. Hanscom.
R. S. V. G.—John R. Foster.
L. S. V. G.—Daniel D. Wendell.
R. S. S.—Wm. Varney.
L. S. S.—Martin Sleeper.
I. G.—Charles E. Leach.
O. G.—S. D. Scriggins.

SERENADE TO MISS CLUER.—The Lyceum Orchestra gave a Serenade to Miss Susie C. Cluer, on Wednesday evening, which, despite the cold weather, was rendered in a fine manner, and was agreeably received by the lady and her friends, with whom she is making a visit for a few days. The usual hospitalities were shown to the band, which ended in a social and very agreeable entertainment to all parties.

☞ Hon. Chas. Levi Woodbury in his lecture on Tuesday evening traced the rise of the Mechanic Arts from the feudal ages up to the time when inventors were first protected by patent laws, and shew how by fostering and encouraging mechanical ingenuity these laws have served to advance the civilization of the world.

☞ We understand that Wendell Phillips is to lecture both Tuesday and Wednesday evenings of next week. This arrangement is made to accommodate the public who would not be able to gain admission to the Lyceum Lecture. An admittance fee will be charged at the second lecture.

☞ The ship New Hampshire, which was to have been launched on the 8th of January, (to-day) still remains in the shiphouse, and the launching is postponed to some future day, not yet known.

☞ Rev. Mr. Waterhouse, of the Christian Church, attended 28 funerals in this city the last year.

☞ The boilers of the Augumenticus at the Portsmoth Navy Yard, are safely stowed on board that vessel, and she, with her immense weight of wood and iron will soon be started from her long resting place by the powerful hydraulic engine at the Head House, launched into the Dock, and from thence into her future element. She will be the heaviest craft ever in the Dry Dock. It will consequently afford a good opportunity to test the capacity and depth of the basin so called.

☞ Upwards of 120 volunteers have been secured on Portsmouth's quota, and the rest will come in due season. Don't be afraid of the draft, boys.

P. S.—We learn at a later hour that the quota is nearly or quite full.

☞ Nath'l Wiggin, of Dover, has been appointed Provost Marshal, 1st N. H. District, and relieves Acting Provost Marshal Capt. Ripley, at Portsmouth.

☞ Lieut. J. Albert Sanborn, of this city, has been appointed on the staff of Col. Steere, acting Brig. Gen. at Portsmouth, Va.

☞ Miss Cluer, who was so favorably received at the Lyceum, is to come before a Portsmouth audience next Monday evening, with an evening's entertainment of Readings, as advertised in another column, among which will be "Poor Joe," by one of our own poets, which she reads admirably. Miss C. was a favorite reader here, some time ago.—and she has greatly improved her speaking talents and powers since then.

The Music on the occasion will be appropriate to an in-door audience and a lady's performance; strict order will be preserved, and the whole entertainment made attractive and pleasant.

☞ Mr. Wendell offers a superb Piano at auction to-morrow, which may be seen at his rooms this morning. Some people seem to think that because an article is sold at vendue, it must be below par—but there never was a greater mistake, for there can be no better or fairer way to dispose of the best goods even than, than under the public hammer,—as everybody knows, who is "posted." Mr. Wendell's advertisement and sale are worthy the attention of all interested.

☞ All the blowing, puffing and claptrap frequently employed to bolster up a weak concern, are *true* of Duprez & Green's talented Minstrel Troupe, which will give their third and last Concert at the Temple this (Friday) evening. "Immense success!" "Crowded houses!" Great applause!" &c. Go and hear 'em—all ye who enjoy such things, and don't fail. New and splendid bill to-night.

☞ By Dr. Perry's annual bill of mortality we learn that the whole number of deaths in Exeter the past year was 73, in a population of 3300. Of the deceased 19 were under five years of age, 3 from five to ten, 6 from ten to twenty, 8 from twenty to forty, 13 from forty to eighty, 5 from eighty to ninety, and 2 upwards of ninety years of age.

☞ We learn that Mr. Davis' Singing School Exhibition and Festival, will take place at the Temple Wednesday evening, Jan. 20th. Upwards of two hundred children and adults, will probably take part—and the programme will consist of glees, choruses, &c. The occasion will be one of great interest to all lovers of music.

SEVEN HUNDRED VOLUNTEERS SICK IN CAMP.—Young men, be warned in time, supply yourselves with Holloway's Pills and Ointment. They are guaranteed to cure the worst cases of sores, ulcers, scurvy, fevers and bowel complaints. Only 25 cents per box or pot. 218

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambucci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LAST AND BEST.
THE MODEL COOK,
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE, as cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

RYE, N. H., Feb. 26, 1856. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health. M. LOWD.

From ELDER I. CRESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CRESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

Morning Chronicle.

A RESTORATION OF THE SOUTH.—The New York Tribune estimates the number of Southern Unionists now living in New York city at twenty thousand, which would give, at a fair calculation, more than half a million in the free States exclusive of those in the army. Many of these will return to Louisiana, Arkansas, Tennessee, and Virginia, and, with the Northern emigration already begun, will decide the destinies of these States. The war, by the agitation and distribution of population, will inevitably take the political power from the few slaveholders and give it to the many workingmen. The plan of the President for the restoration of the Southern States will prove to be effectual, because of these great social changes in the condition and character of the people of the South, and the destruction of the tyranny of the great plantation oligarchs.

GOV. SEYMOUR.—The Traveller's special correspondent at New York says:

"Gov. Seymour's message is a verbose and petulant document. He opposes the draft and hints that the war is needlessly prolonged. He says that while the President controls the army the latter will of course make our Presidents. The Governor disapproves of the National Banks and the Emancipation policy."

The New York News did not know where the Governor stood, a week ago.—According to this version of his message, he *stands aghast* at his dismal political prospects.

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, in the first instance, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal, such as impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Gravel, Strictures, Bubal Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest siliings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the Head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted perceive some evidence of perfect health.

Dr. Dow has no doubt had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

N. B.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness, and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cutter, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. SATURDAY JAN 9, 1864. VOL. 24. NO. 8

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—It common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

TEMPERANCE LAWS.—Some of our exchanges are urging the repeal of the present liquor law, and it is generally believed that its repeal will be strongly urged in the next Legislature. The old story—at the end of one expedients again for the suppression of a great evil, and now the expedient urged is to regulate the evil by a license law.—The Newburyport Herald says:—

"The sale of spirituous liquors cannot be stopped, and ought not to be; the traffic should be regulated and abuses punished; and that is all that can be done."

The Lawrence Sentinel, in an article upon this subject, says:—

"The statute popularly known as the 'Maine Law,' has signally, and disastrously to the temperance cause, failed to promote the objects of its enactment. It has been the parent of many crimes; and by paralyzing with apathy the moral labors of reformers, it has promoted the vice which it was expected to cure."

Another contemporary remarks that the present law "has proved a disappointment and a failure, and has set back the cause of temperance reform a quarter of a century."

The regulation of the evil by a license law was the first thing undertaken in the early stages of the temperance reform.—This expedient failed, and its non enforcement was as much a matter of complaint as is the non-enforcement of the present law. The idea often urged in favor of a license law is, that the community can be rid of the "low grog holes," as none but "respectable dealers" will be allowed to control the traffic, and the licensed sellers would have an incentive to labor for the suppression of an illicit traffic. Does not the present law contain a special act for the closing up of "liquor nuisances," and also a provision making the holders of real estate liable for leasing their property for such purposes? If such place cannot be closed under the operation of the present law, then there is little hope of ever accomplishing anything by law. But it is urged that the Maine Law is opposed to the practice of nearly all the people. If this be true, then is it useless to talk about the regulation of the evil by law. A greater agency than law is needed, and the sooner the reformatory power is used at home, and in the church, the better for the due observance of all laws, and the best interests of the State and nation.—*Amesbury Villager.*

—The Old Colony and Newport Railroad Company, who had been paying the laborers on the line at Newport, R. I., $1 50 per day, struck on Saturday for lower pay, proposing in future but $1 25. The men are consequently idle.

SATURDAY, JANUARY 9, 1864.

THE REBELLION.

Deserters from the rebel army daily come into our lines at Chattanooga. Among the poorer classes of Georgians a fearful state of destitution is said to exist; and the denunciation of the rebellion and the rebel government is loud and emphatic, especially where there is no military surveillance over them. Refugees from the interior of the State estimate that fully two-thirds of the total population, if allowed a fair expression of opinion, would elect to return to the Union. Such statements must be received with considerable allowance, but there is doubtless a good deal of discontent among the people.

The N. Y. Herald's Army of the Potomac dispatch of the 7th states that 2125 veterans of the 3d Corps have re-enlisted.

The roads are hard and solid, but rough, and artillery can be drawn over them as expeditiously as it was in the revolution of 1776.

The rebel soldiers are becoming more discouraged, and are daily deserting. Ten deserters from Alabama and North Carolina regiments were sent to Washington.

It is stated that the President's Amnesty Proclamation is freely discussed among themselves, and that whole brigades would come into our lines at once if the facilities for severing themselves from Lee's army were safer.

New Orleans advices to Dec. 31 say another secret expedition left there on the 30th, the strength and destination of which remains unknown. Probably Pascagoula, ultimately Mobile.

On the 18th the bones of Capt. W. W. Montgomery, of the 1st Union Texas Cavalry, a Union officer captured and hung by the rebels, were picked up and interred in the presence of all our troops. The loyal Texans have taken an oath of vengeance on his murderers.

Recruiting is rapidly going on. Refugees are continually coming into Brownsville, and all join the army.

A mass meeting of loyal people in Louisiana had been called for the 8th of January to form a free State government. Guerrilla firing has entirely ceased on the river.

☞ Western advices bring details of the severe storm and cold in that part of the country. Ten colored soldiers were frozen to death at Island No. 10; three white soldiers were frozen near Fort Pillow, and a number of persons lost their lives near Cairo. The Mississippi is closed, and the Ohio, although open, is full of ice.

ENGLISH ITEMS to Dec. 26, by the Africa.—Thackeray, the author, is dead.

An old lady nurse, girl and four children were burnt to death at Birmingham on the 25th.

The American Ministers at London and Paris are making persistent efforts to prevent the sailing of the Rappahannock from Calais.

The Messrs. Lairds refused to sell the Mersey rams.

☞ In the U. S. House of Representatives, Thursday, Jan. 7, Mr. Baldwin, of Mass., offered a preamble setting forth that the organized treason, having its headquarters in Richmond, exists in defiant violation of the Constitution, and has no claim to be treated otherwise than as an outlaw; therefore,

Resolved, That any proposition or negotiation with the rebels ought to be rejected without hesitation or delay.

The resolution was adopted by a vote of 88 yeas to 24 nays.

The preamble was then agreed to unanimously.

Mr. Rogers, of N. J., offered a resolution declaring for a vigorous prosecution of the war, but at the same time asking for peace, conciliation, and compromise, so far as consistent with honor, and most earnestly recommending the co-operation of the President and Senate in sending commissioners to Richmond, in order that the war be brought to an honorable close.

On motion of Mr. Stevens, of Pa., the bill was laid on the table by a vote of 77 to 42.

In the U. S. Senate, on the same day, Mr. Carlisle offered a lengthy resolution stating that as a result of a compact of States, each State for itself adopted the Constitution of the United States, as it adopted its own State Constitution. Laid over.

Mr. Howard's resolution that the Judiciary Committee consider the propriety of repealing the joint resolution of July 17th, 1862, which prohibits a forfeiture of real estate beyond the natural life of the offender, was adopted.

Mr. Howe offered a resolution that the President of the United States be requested to call out a million of volunteers for 90 days to carry freedom to every captive in the rebel prisons, and that Gen. Grant be assigned to the command of said troops.—Referred to the Military Committee, and ordered to be printed.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Dunbar, Belcher, John Rindge,—Boundary of Massachusetts and New Hampshire,—Annexation controversy 1737-9.

In the execution of the office of Surveyor-General, Dunbar had excited a strong prejudice against him in the minds of the people. They regarded the trees which grew on their land, as their own property; notwithstanding they were reserved for the use of the royal navy; and they felled and conveyed them to the mills. Dunbar seized the lumber, and in several instances, riots ensued, and the Surveyor was obliged to desist.

It was a great object with those, who opposed Belcher's administration, to effect an entire separation of the governments. They were desirous of having a governor, who would reside constantly among them; and devote himself to the affairs of the province. They paid great attention to Dunbar, whose situation was unpleasant; and under the impression that he had influence enough at Court to obtain the office, his friends encouraged his embarking for England, to solicit the appointment. He accordingly took passage early in the spring of 1737.

The Counsellors of the province were generally appointed upon the recommendation of the Governor, and were commonly his particular friends. In some instances where they were not agreeable to him, he had suspended them until he could by representation to the ministry, procure their dismission. When the suspended Counsellor had powerful friends at Court, he had sometimes been reinstated. The number of the Council was not limited, but depended wholly on the pleasure of the King. In the year 1738 John Rindge, Esq. received the appointment. The mandamus to the Governor is as follows:

George R.

Trusty and Well beloved, We Greet you well. We being well satisfied of the Loyalty, Integrity, and ability of Our Trusty and Well beloved John Rindge, Esq. have thought fit hereby to signify Our Will and Pleasure to you, that forthwith upon receipt hereof, you swear and admit him, the said John Rindge to be of Our Council in Our Province of New-Hampshire, in the room of Benjamin Gamlin, Esq., deceased. And for so doing, this shall be your warrant. And so We bid you Farewell, Given at Our Court at Kensington the Twenty Second Day of July, 1738, in the Twelfth Year of Our Reign.

By His Majesty's Command.
Hollis Newcastle.

Which writ was directed, To our Trusty and Well beloved Johnathan Belcher, Esq. Our Captain General and Governor in Chief of Our Province of New-Hampshire in America, and in his absence, to Our Commander in Chief, or to the President of Our Council of Our said Province for the time being.

The fees to be paid for a writ of mandamus, were about thirty guineas.

Whilst the contest respecting the boundary line between the province of New-Hampshire and Massachusetts was in agitation, Governor Belcher used all his influence to prevent its being settled, and to counteract the intention of those, who were strenuous for it; he proposed to have the two provinces united under one government. One method, which he took to effect the union, was to procure a petition from the inhabitants of New Hampshire to the King, praying that they might be annexed to Massachusetts. This petition was privately circulated by the Governor's friends and adherents, and several persons were induced to sign it. But as soon as it was publicly known, "a meeting of the freeholders and other inhabitants of the town of Portsmouth, legally notified, was was held on the 23d day of July, 1739, and the following resolution and vote were passed.

"Whereas it is reported that a petition or an address to his most excellent majesty hath lately been privately handed about many parts of this town, and some unwary persons without due consideration have been prevailed upon to sign the same, praying, as we have been informed, to be annexed to the Massachusetts' government, or to be continued in the same situation as to Government we at present are, which seems calculated to frustrate his majesty's most gracious intentions of having the boundary lines settled and to obviate any other benefit this province may receive thereby, all which we apprehend may be attended with very pernicious consequences to this province, if not timely prevented, the said petition having never been communicated to the town at any public meeting, but hath been obtained from the few that have signed it in a very private and unusual method—Therefore voted—That the town in public meeting assembled do utterly disallow of and protest against the said petition, and against its being preferred to his majesty as the request and desire of this town—And also that this vote be recorded at length in the records of this town, and a fair copy thereof made by the Clerk, and that the same be sent to John Thomlinson, Esq. agent for this province, who has the affairs of this government (now depending before his majesty in council) under his care and arrangements, in order to the same being laid before his majesty, in case said petition or address should be preferred to his majesty, that thereby his majesty may be truly informed of the inclinations and desires of his most dutiful and loyal subjects, the inhabitants of this town."

LETTER FROM NEW YORK.

NEW YORK, Jan. 5.

Dear Chronicle:—

Of the safe return of your peripatetic correspondent this communication certifies. One or two incidents of that Christmas trip may be in season here. On boarding the Stonington boat, I encountered my old friend and business associate, Mr. R. A. Peverly, formerly in the employ of one of your leading houses, and now very advantageously connected with the New York branch of Messrs. Jordan, Marsh & Co.'s establishment. We state-roomed and cars-travelled together, and mutually enlivened the trip till our debut in your new and very creditable depot.

The day before our departure an order had been issued requiring passes from all steamers going thro' the Sound. In pursuance thereof a gunboat is at anchor off Throg's Neck, and toward her we steamed, Christmas eve about 6, minus the desired passes; and third in line, the "City of Boston" leading and the Fall River boat intermediate. The Boston hugged the further-most shore, and when abreast the gunboat, flash! came out of the port-hole—a blank charge. The Boston "couldn't see it," and steamed on, when flash number two came from the port-hole and a round shot skipped across the Sound, but far enough from the mark to prove—unless an intentional miss—that those gunners need practice seriously. Flash, again, came from the gunboat—this time for the "Bay State" of the Fall River line, who not disposed to duplicate the effort of her successful predecessor, steamed directly in front of us, and alongside the war craft; our engineer backed his engines, but we glided on gracefully, and just as gracefully took five feet of stern-rail off the Bay State. Neither of the captains could show passes, but after sampling profanity with the commander of the gunboat, the question was compromised and we passed on.

Apropos of this incident, the Stonington steamboat property has recently been purchased by a new corporation, in which Jordan, Marsh & Co., Francis Skinner and Jas. M. Fiske figure prominently. The rumor of a new line to Boston was only a scare devised by the above, to shade the price down.

Among the changes in business firms during the week may be noticed Allen & Paine—Mr. Paine retires and becomes the head of a new concern—Paine, Berry & Co.—for the importation of cloakings and woolens, and the manufacture and jobbing of cloaks. Ubsdell Pierson and Lake, senior partners, retire from active connection, and the firm name becomes Lake & McCreevy. Claflin, Mellen & Co. becomes the firm of H. B. Claflin & Co.—Mr. Mellen retiring, a polished gentleman and one of the finest merchants of the metropolis. The concern has transacted business to the amount of $15,000,000 within the past year, has paid in full all its liabilities extended in 1860-61, and closes the season with a very handsome surplus.

$10,000 has been subscribed for the erection of a tower, and completion of the Unitarian (Dr. Bellows) church on Fourth Ave. $7000 more are wanted. Dr. Bellows speaks of the Emancipation Proclamation as a "*Providential coup d'etat*," and slavery as the millstone about the neck of the nation." On Sunday last he closed the twenty-fifth year of his ministry over the church, and in allusion to this circumstance, he remarked:—

Catholicity of ideas, motive and action has always been my aim through life. * * * May I not congratulate myself that I have done somewhat to break down the barriers between the sects, between the world and the church, between work and play, piety and sin, man and man, and man and his Maker. * * * I have always endeavored to argue on both sides of the leading theological, social and political questions of the times, that I might more impartially consider their character, and have frequently incurred the charge of vacillation from those who have viewed my position as they would the pendulum of a clock, first on one side, then on the other, without considering the fixedness of the centre of the mechanism.** May God bless you—bless the memory of those, so few of whom remain with us, who who first heard my words of counsel and advice, bless those who in the years to come are to be the pillars of our church, and may we continue and pass on together unto that guardian of the flock, who left his under shepherds to gather his lambs unto the fold.

N.

MAINE.—Gov. Cony's message recommends an increase of the State tax, the passage of an effective militia law, attention to educational interests, and calls attention to the establishment of an agricultural college. He calls attention to existing laws relating to capital punishment, and says 12 convicts are now in the State Prison under the penalty of death, and that murders are alarmingly increasing, and recommends making it imperative on the Executive to issue death warrants at the expiration of the year of grace. He recommends that soldiers in the field be allowed the right of suffrage. He says further legislation is necessary relative to the Reciprocity Treaty, the benefits of which are all on the side of the Provincials. He thoroughly endorses the emancipation proclamation.

—In Durham, on Monday last, as two children of Mr. Isaac B. George were on their way to school, the little boy, named Willie Smith George, about seven years old, jumped upon an ox sled loaded with wood, which was passing by, and slipped off, when the sled passed directly over his body, killing him instantly.

☞ Nathaniel Wodell of Westport, who mysteriously disappeared in 1816, has returned after an absence of *forty-seven and a half years*, looking hale and rugged, though more than eighty years old. He has been wandering about the western country ever since his sudden and uncere-monious leave-taking. So says a correspondent of the New Bedford Standard.

☞ Military nominations for promotion were sent in to the Senate on Friday, and referred, as follows:

U. S. Grant, major general of volunteers and brigadier general of the regular army, to be major general in the regular army, to date from the fall of Vicksburg; Col. Geo. H. Thomas of the regular army, major general of volunteers, to be brigadier general in the regular army, to date from the battle of Chickamauga; Meade, McPherson and Sherman of the regular army, all major generals of volunteers, to be brigadier generals in the regular army, the former's promotion to date from the battle of Gettysburg, and the latter's from the fall of Vicksburg.

☞ At Halifax, Jan. 5, the steamer Chesapeake was placed in Admiralty, by order of the Provincial Government.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)

76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or determining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL. At THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SEVEN NEW ARTICLES, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent adding attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be accorded, to COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHITIS AND ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Local.

☞ The Agawam,—the famous Portland built side wheel steamer,—is still lying at the Navy Yard wharf, undergoing extensive repairs. If Uncle Sam didn't get pretty well sold on this craft, we err in judgment. Her air-port lights have all been taken out to be re-modelled and repacked, a general store-room is being built, bilge-cocks put in the magazine and ammunition rooms, (the vessel being without any such safe-guard prior to her arrival here,) besides a large amount of general carpentering, caulking and joinering, which must be done before the craft will be seaworthy. She makes a very neat appearance, but her construction would seem to be rather sham.

Business on the Portsmouth Navy Yard is getting slack, and soon, if no orders are received for the prosecution of work upon those vessels just commenced, none relative to launching those nearly finished, and nothing coming in for repairs, there will be a general suspension of mechanics and laborers employed there. There are facilities for doing all kinds of work, and as skilful mechanics as will be found in other yards, to perform it, and all that is necessary is just to send it this way. We are informed that there are some nine or ten vessels of different classes now lying at Baltimore waiting to be repaired, and it is stated that every department is so crowded that it is impossible to accomplish a large portion of work sent to that locality. Enough has been said in relation to this matter, by newspaper scribblers of various papers to secure the attention of our representative men or of the Navy Department itself.—A similar complaint has been made by the Boston press in relation to the yard at Charleston, business there being relatively as dull as at the Portsmouth Yard. We trust that the matter will be laid before the Department by the proper persons, and at once be attended to.

THE NATIONAL GUARD.—A meeting of the National Guard was held at the City Rooms last Wednesday evening. The clerk's report was read and accepted, and officers were elected to fill vacancies. Remarks were made by Messrs. Alfred W. Haven, John W. Stavers, Jas. H. Head, George W. Pendexter and others, on the benefits and necessity of a military company in Portsmouth. It was unanimously voted that the organization be kept up until the close of the war. Committees were appointed to raise additional recruits, select a new armory, and take measures to have the company brought into the N. H. State Militia Regiments. The meeting adjourned to Monday evening, Jan. 11th, at the City Rooms.

CITY FARM AND ALMSHOUSE.—Benj. Norton, Esq., Superintendent of the City Farm, has just presented his Annual Report to the City Government, showing a good state of things in that important institution. From this report it appears that the average number of inmates of the House during the year has been 93; present number 91. The number of Commitments to the House of Correction during the year has been 77. Number of visitors to the House, 633. Receipts for produce and labor from the Farm for 1863, including $948.92 for hay raised in 1862, $3685.12. Net income of the Farm, $4672.42, being the largest net income from the farm since it has been owned by the city.

An actual and careful inspection of the premises enables us to say that the order of the House is equal to the goodness of the farm; and that the cleanliness, health and comfort of the inmates are judiciously and successfully cared for by the Superintendent, Matron and family, who appear to be admirably fitted for their station, and who perform its duties with great industry, kindness and fidelity.

☞ The following officers for the ensuing year were installed on Wednesday evening in St. John's Lodge, No. 1, Masons:

W. M.—Benj. F. Webster.
S. W.—Thomas O. Mervin.
J. W.—S. S. Fletcher.
Secretary—Geo. P. Eday.
Treasurer—Isaac Dow.
S. D.—Oliver G. Fernald.
J. D.—Amos Pearson.
Tyler—B. F. Weeks.
Stewards—B. F. Martin, Wm. Merrill.
Marshal—A. J. Hill.
D. Marshal—J. H. Gardiner.

☞ The annual Missionary meeting will be held in the Methodist Church to morrow (Sabbath). Rev. Bishop Baker, of Concord, and Rev. Dr. Cobleigh, editor of Zion's Herald, late President of McKendree College, will occupy the pulpit during the day. Services in the evening—commencing at 7 o clock. Addresses by several gentlemen.

☞ The Ballot's correspondent says, that "at a legal town meeting in Rye, Jan. 2d, the town appropriated $10,000 if needed, to procure the quota of volunteers." (Rather late, wasn't it?)

"Rev. S. S. Fletcher of Exeter delivered a course of lectures on the subject of Phrenology last week. The weather was unfavorable and the audiences were small. Mr. F. is an interesting speaker and thoroughly understands his subject."

☞ The Democratic State Convention met at Concord Friday, Jan. 8. A ballot was had for Governor. E. W. Harrington of Manchester had 529 out of 535 votes cast. Three cheers were given for Mr. Harrington. The committee on resolutions made a report declaring that the Democrats are true to the Union, and that their opponents caused the war,—denouncing the Emancipation Proclamation as unconstitutional and absurd, which was adopted.

A. J. Vaughan, of Laconia, was nominated for Railroad Commissioner.

Hon. Edmund Burke offered resolutions opposing the war, denouncing the Administration, declaring a willingness to maintain their rights at the ballot-box by force of arms, if need be, and recommending the matter to the consideration of the National Convention. They were adopted with great enthusiasm.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other saleratus. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and it less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes. The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. When draft is applied, the Boiler, one of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept through the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

DEATH OF REAR-ADMIRAL STORER.

In another column we record the death of Rear Admiral GEORGE WASHINGTON STORER, on Friday morning.

He was a native of Portsmouth, a gentleman in the highest sense of that term, exerting a Christian influence wherever the light of his countenance shone. He was a nephew of Col. Tobias Lear, the private Secretary of George Washington. In 1789, when General Washington was in Portsmouth, he visited the house of Col. Lear on Hunking street. The whole family were present in the room of reception, among them was a babe presented who had been christened "George Washington." The President placed his hand upon the infant's head, and expressed the wish that he might "be a better man than the one whose name he bears." In early life Admiral Storer entered the Navy, and has been an efficient and successful officer in the various grades through which he has passed to the highest rank—enjoying the confidence of the government which he has at all times patriotically sustained. He has honored the name he received, and that early personal blessing of Washington has seemed to have had an influence on his whole life. We trust a proper tribute to his memory will be made in a just obituary.

THE DRAFT.

We learn from the Provost Marshal's Office on Friday morning, that of the 150 quota of Portsmouth, 129 names have been entered at the office. The names of those who re-enlist from the army will probably nearly make up the balance.

The whole quota for the District is 1890. Of these, 710 have been enrolled here, and it is said that about 300 more have been entered at Concord for this District. There seems little doubt that the whole quota will be made up without a draft.

Hon. Nath'l Wiggin of Dover, has been appointed Provost Marshal for this district. Mr Wiggin was formerly Sheriff of Strafford county, and is a man of good business experience and qualifications.

GOLD MINE IN PORTSMOUTH.—The lots of gold which has appeared in the hands of many individuals the present week, has led us to inquire for the mine. It appears that the MECHANICS AND TRADERS BANK, in addition to its 5 per cent. semi-annual dividend, paid on Monday a dividend of $20 per share of its capital stock, and a further dividend of $33 per share in gold from the surplus profits. The par value of the stock is $50.

The ROCKINGHAM BANK, which six months ago paid a dividend of five per cent. has just declared another semi-annual dividend of six per cent. 11 per cent. per annum is doing very well.

THE REBEL CONGRESS affect great *contempt* for the President's Proclamation. Says a Mr. Miles, "The only treatment which that *miserable* and *contemptible* DESPOT, (Lincoln) should receive at the hands of this House, is silent and unmitigated *contempt!*"—So they tabled several Resolutions expressive of their "*contempt.*"

This contempt will be enhanced a hundred per cent. as the rebel States one after another are restored to the Union. The new correspondent of the London Times must also come in for a share of this contempt, as, writing from Richmond, Nov. 14, in which he speaks of "the faith, stronger than death, which the Northerners have exhibited" in their cause, and that "no parallel faith has ever been exhibited by the Confederate States in their failure;" and more especially when he speaks of "the fact that three dollars in *greenbacks* will buy two dollars in gold, while it requires *thirty* paper dollars of the Confederacy to buy a like sum!"

CITY COUNCIL.

In board of Aldermen, Thursday evening, the Standing Committees were announced.

A petition was received from Joshua Stackpole and Samuel W. French, asking that they be admitted to seats in the Board from Ward 3 in place of Ald. Rider and Wendell. Referred to a committee consisting of Ald. Brown, Broughton and Shannon.

An Ordinance was passed, extending the Bounty provisions of Ordinance No. 87, to such time as the quota of the city may be filled.

A communication was received from the City Marshal in relation to matters charged against him Dec. 24, 1863. Referred to Ald. Wiggin, Broughton and Brown.

In Common Council, a petition from the Republican candidates of Ward 3, for seats in the Council in place of the present incumbents was read and referred to a committee consisting of Messrs. Wherren, Marston and McIntire.

The ordinance extending No. 87, was passed under suspension of rules.

The Standing Committees were announced.

Col. Jacob Storer, son of the late Rear Admiral Storer, who was seriously injured at New York by the cars a few weeks since, is now in Portsmouth, and is fast recovering from the effects of the disaster.

WAY TO BUY A FARM.—Twenty-seven young men in the small town of Stoneham, Me., engaged in shaving red oak staves, held a consultation, which resulted in throwing down their implements and enlisting, in a body. More money, they said, and more glory and honor. The money would buy each a farm.

OUR NATIONAL THANKSGIVING, observed in the principal cities by Americans in Western Europe, was also celebrated in *Constantinople*, by a Sermon from one of our Missionaries, and addresses by the American Minister and others,—with "invited guests," no doubt—grave Mahomedans and modern Greeks.

A large General Assessors' meeting has been held at Cleaveland, Ohio. They recommended to Congress a large list of new taxes, and a great advance on spirits, tobacco and other *luxuries.*

Morning Chronicle.

TO MY WIFE.

The following ballad was written by Joseph Brenan, an Irish exile, who died in New Orleans several years ago of consumption, then only 28 years of age:

Come to me, dearest, I'm lonely without thee;
Daytime and nightime I'm thinking about thee;
Nighttime and daytime in dreams I behold thee—
Unwelcome the waking that ceases to fold thee.
Come to me, darling, my sorrows to lighten,
Come in thy beauty, to bless and to brighten.
Come in thy womanhood, meekly and lowly,
Come in thy lovingness, queenly and holy.

Swallows will sit round the desolate ruin,
Telling of Spring and its joyous renewing;
And thoughts of thy love and its manifold treasure
Are circling my heart with a promise of pleasure.
Oh, Spring of my spirit! oh, May of my bosom!
Shine out on my soul till it burgeon and blossom.
The past of my life has a rose root within it,
And thy loveliness alone to the sunshine can win it.

Figures that move like a song through the cream—
Features lit up by a reflex of heaven—
Eyes like the skies of poor Erin, our mother,
Where shadow and sunshine are chasing each other;
Smiles coming seldom, but childlike and simple,
Opening their eyes from the heart of a dimple;
Oh, thanks to the lavishness that ever thy seeming
Is left to the exile to brighten his dreaming.

You have been glad when you knew I was gladdened;
Dear, are you sad now, to hear I am saddened?
Our hearts ever answered in tone and in time,
Love,
As octave to octave, and rhyme unto rhyme,
Love—
I cannot weep, but your tears will be flowing—
You cannot smile, but my cheeks will be glowing—
I would not die without you at my side, love,
You will not linger here when I have died, love.

Come to me, dear, ere I die of sorrow.
Kiss on my gloom like the sun of to-morrow—
Strong, swift, and fond as the words which I speak love,
With a song on your lips and a smile on your cheek, love.
Come—for my heart in your absence is weary,
Lonely—for my spirit is sickened and dreary.
Come to the heart that is throbbing to press thee,
Come to the arms that would fondly caress thee.

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal, and impure blood, such as Chronic, Secondary, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases of a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Debility, Dull Aches in the digestive functions, Symptoms of Consumption, &c. The (earth) effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all illnesses incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt, had greater experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Disease and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow has now and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and air-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headaches so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the dome can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any persons desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment; and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

—ARE—
Pure Ingredients,
Careful Distillation,
Delicate Flavor,
Uniform Character.
IT CONTAINS IN A CONCENTRATED FORM
THE DISTILLED JUICES
—OF—
WHEAT, RYE AND CORN,
free from all deleterious substances.

Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Physicians and Connoisseurs.

Golden Sheaf Whiskey

is the refined distillation of the most carefully selected WHEAT, RYE and CORN, and combines NUTRITIVE, MEDICINAL and RECUPERATIVE properties which render it deservedly popular as a **Strictly Pure Stimulant.**

This celebrated Whiskey is put up by the subscriber in cases, containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for any quantity required to the General Depot for its sale,

91 Washington street, Boston.

Each bottle is enclosed in a neat pasteboard box, to ensure its safe transportation.

SPEER'S SAMBUCI WINE.
PURE AND FOUR YEARS OLD.
OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL.

The Great Remedy for Kidney Affections, Incontinence, Chronic Complaints.

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children.

AS LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

Daily Morning Chronicle

ESTABLISHED 1852. PORTSMOUTH, N. H. MONDAY JAN. 11, 1864 VOL. 24. NO. 9

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every man fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. If in a spirit not to be encouraged, its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In government of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

PLANK.—The democracy of Belknap County are getting out timber for their political platform with "perfect impunity and great boldness." At a recent Convention, they resolved that "the present unnecessary and ruinous war upon *our kindred* and *former political associates* ought to be closed up at the earliest day possible," and that they were in favor of a "*free offer* to the South to return to their old family relations, without the loss or abridgement of old rights," &c.—That is to say, these traitors, from Jeff. Davis downward ought to be begged to come back into the Union, and crack the slave driver's whip over the North as of old;—have all their losses occasioned by their war upon the Union made up to them, their runaway slaves restored, and the debt which they have piled up in endeavoring to destroy the Union paid in full, while that which our Government has created in its efforts to put down the rebellion, of course, should be repudiated; for it would be manifestly unfair to make "our kindred and former political associates" South, pay one or two thousand millions of dollars which have been spent in an "unnecessary war", upon their "old rights." That would not be a "free offer" to them to return to their "old family relations" at all, and without it the Southern "kindred" of the Belknap copperheads would scorn the invitation.—*Dover Enq.*

CALIFORNIA.—In his inaugural Address, at the begining of a four years' terms, Gov. Low justly congratulates the people of California on the firm support which they have given to the National cause:

20,000 majority for Representatives in Congress, known to be the ardent friends of liberty and Union, must finally destroy all hopes which foreign or domestic foes of the United States may ever have entertained of receiving aid and sympathy from the Pacific coast. Our position on this great question has now been four times announced by ballot since the commencement of the Southern Rebellion, and our times has the popular will here emphatically declared against any other peace than that which will follow upon the submission of the rebels to the Nation's rightful authority.

He firmly belives not only in the suppression of the Rebellion, but "in the proper and safe solution of the great problems involved in this terrible conflict." The method by which reconstruction is to be accomplished may be left for future decision, but it is none the less sure that, "with the triumph of our arms, must come the destruction of the order of things, by which a resort to them was compelled."

A FRENCH AGENT AT THE WEST.—Recent St. Louis papers state that Capt. Pigard, formerly a post captain in the naval service of France, and at present an attache of the French Embassy in London, has been in St. Louis for several days past.—He went to the West, it is supposed, on an important mission for his government. He represents that it is no less than examining into the practibility and means of supplying the Emperor Napoleon's forces in Mexico with commissariat necessities via the Mississippi river.

Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies of these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syhilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords Bubo, Ulcerated Throat, Sore Nose, Tender Shin Bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Chemic Medicines, and have been tested in more than 20,000 cases annually, with immense Success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are cordially invited to consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delicacy of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Happy. WASHINGTON ITEMS.—Perley writes to the Boston Journal, Jan. 9,—There are startling developments about the New York Custom House. An investigation of Mr. Stanton's case shows that he was the victim of a conspiracy, and there is reason to believe that an official who has been conspicuous in bringing Palmer, Collector Barney's private secretary to justice, will prove to be the greatest villain that ever infested a revenue department. An investigating committee is upon his tracks.

The World's dispatch says that during the debate on the conscription bill in the Senate, the fact came out that the terms of enlistment of only 20,000 veteran volunteers expire before the 1st of next July in all our armies.

We learn that the Solicitor of the War Department expressed the opinion that with the existing laws further legislation will be necessary in order to secure the enrollment of slaves in the loyal States. No enrollment of slaves has thus far been made without an agreement with their masters. A bill will soon be introduced to meet the requirments of the case.

It is said that there is a large party in Congress disposed to raise the revenue tax on whiskey to one dollar per gallon, instead of seventy cents, the highest tax proposed in the committee.

The U. S. garrison at Petersburg, Va., was surrounded by rebel forces Jan. 8.—Cumberland, Md., was threatened on the 9th. Our troops have attacked the rebel Gen. Imboden's forces at Winchester, Va., and driven them back.

The Herald's Army of the Potomac dispatch says: "Veterans are re-enlisting with enthusiasm. Thousands who have no expectation of going home on furlough, have signified their intention to re-enter the service when their present term expires. The motives which animate them are pride and patriotism.

Later dispatches say the rebels have retreated from Petersburg towards Staunton,—and the Baltimore and Ohio trains run regularly.

BY TELEGRAPH, SUNDAY.

The arrest of Mr. Palmer, secretary of Collector Barney, of New York, will result in startling developments. Mr. Palmer was merely the instrument of others, whose names, we are promised, will be published during the inquiry, which will commence on Tuesday next. There are indications that the investigation will give a history of the blockade runners which have left New York for several months past.

The Court of Admiralty was in session at Halifax, N. S., on Saturday. In opening the Chesapeake case, the Judge stated that the cause was entertained on the ground that the seizure of the vessel was a piratical act. His opinion was that the vessel ought to be given up to her owners.—The counsel for the Confederates asked the Judge to contemplate the probability of an application from the Confederates for her. His Honor declared that he would not entertain anything of the kind. The Confederate counsel then gave his interpretation of the law upon the validity of the seizure, contending that any citizen of the Southern Confederacy, with or without a commission, has an absolute right to seize any vessel belonging to the Federals, and it would be a lawful prize. The Advocate General said there was prima facie evidence that the capture was piracy; his opinion was that the vessel should be delivered over to her owners. Adjourned over to the 13th inst.

The N. O. Pic has received from Matamoras "a mountain of a potato, big enough for the dinner of a company of famished soldiers," weighing eleven and three-quarter pounds.—*Boston Post.*

If the company was full, the soldiers must have been very much famished, to weigh so lightly.

SUPPOSED MURDER.—We learn from the Traveller that Mr. John Parker of Derry, N. H., who has been missing for three weeks, was on Friday night found in North Andover woods, about six miles from Lawrence, with his skull broken in a shocking manner. He is supposed to have been murdered by a Frenchman, who was last seen in his company.

—At a great discount in Mahon—a certain Count.

— Numerous women are recorded as freezing to death in Canada this year. A gin-bottle is almost always in the case.

— From Texas we learn that the Union feeling is rapidly gaining ground throughout that State and Arkansas.

— A mother was arrested at New York recently for forcing her four-year-old boy to steal shoes from a shop door.

— A well-known stock broker is reported as having committed suicide in New York, and short sales of gold are reported as the cause of the casualty.

NEW HAMPSHIRE ITEMS.

—— A Washington correspondent of the N. H. Statesman says J. W. Dodge, Esq., of Hampton Falls, came there three days since, in behalf of Abel Eaton, private in the 6th regiment, from Seabrook, condemned to be shot on the 8th inst. for desertion. Senator Clark took him directly to the President, who gave the case prompt and kind hearing, and assured him at once that he should be pardoned on some terms. Eaton was at home and overstayed his furlough. He has served through the war, and been a good soldier. Great sympathy was felt for Mr. Dodge, in his humane errand, upon which he came without money or price. Senator Wilson manifested special interest in the matter before the fortunate return of Senator Clark, whose offices effected the result stated above.

—— The friends of Rev. Asa Randlet, pastor of the F. W. Baptist Church at Contoocookville, called on him New Year's eve, and presented him with wheat, corn, potatoes, butter, cheese and *greenbacks* to the amount of seventy dollars. Each of the minister's six children was presented with a gold dollar by one of the donors.

About the same time another visit occurred at Contoocookville. A sheriff paid a most unexpected visit to Moore's restaurant and Chase's hotel; and, after examining the premises, imperatively invited the two gentlemen to appear before the Police Court of the city of Concord: each gave bail to the sum of $1500 for appearance before a higher court, to answer to the charge of illegally selling liquor.

—— In Wilton, December 15, the three Churches, Unitarian, Trinitarian and Baptist, united in observing the Centennial anniversary of the organization of the first church. The services were held in the Unitarian Church at the centre of the town. A large congregation, many of whom were from adjoining towns, were present. A historical discourse was preached by the Pastor of the 2d Church; clergymen of the three denominations represented, taking part in the exercises. After the services the congregation repaired to the Town Hall, led by the Wilton Cornet Band. A free, bountiful collation was partaken of, after which letters were read from former pastors, and natives of the town; appropriate sentiments were responded to by clergymen and others. Wilton has furnished many educated and eminent men.

—— The Statesman also contains the following letter from Drum Major Pike, which is too good for abridgment:

HILTON HEAD, S. C., Dec. 25, 1863.

I have just seen your very kind and flattering notice of me in your paper of Nov. 13, and as you refer only to my services in the 1st N. H. V., I would state that I have since then been in the service of my country in the gallant 4th, and am now Drum Major of the best band in the department, the famous Post Band, which, during the past summer, has been on special duty at Maj. Gen. Gilmore's headquarters on Morris and Folly Islands, but now stationed at this post, and of which Prof. G. W. Ingalls, of your city, is its accomplished leader; and I would also say that the same old "sky scraper," to which you allude, still crowns the glory of my office; every individual feather of which is erect in the proud dignity of its position. And the silver globe of the "*baton*," unlike the "sun in the orrery at Cambridge Observatory," is a meteoric, revolving system itself, and frequently dazzles the eyes and startles the nerves of the most profound generals the world ever saw. In conclusion, let me add, that it in our hands are not found weapons "red with human gore," we have those which cheer the heart's of New Hampshire's brave and devoted sons, and are serving our country as truly and faithfully as the proudest can boast. Yours very respectfully,

F. H. PIKE, Drum Major, Post Band.

MINNESOTA INDIAN MASSACRE.—The Commission appointed for the relief of the sufferers by the Indian hostilities in Minnesota, consisting of Col. Aldrich and Messrs. White and Chase, were in session at St. Peters, Minn., for about five months, working from twelve to sixteen hours per day; 2940 claims were presented and examined.

The above claims amounted to $2,458,000. The commission awarded $1,370,458. The $200,000 appropriated at last session for the immediate relief of the most needy sufferers were paid to 1400 persons, many of whom were made widows or orphans by the Indians. Nearly 11,000 witnesses were examined, and their testimony, reduced to writing, covered about 16,000 sheets of legal copy paper. The testimony shows that over 800 men, women and children were butchered by the Indians. Thousands who had purchased homesteads of the United States and paid for them, were driven away, and are now refugees, it being unsafe to return to the frontier.

It is estimated that $5,000,000 will not reimburse the people for the damage inflicted by the Indians on the frontier of Minnesota. The government holds about $3,000,000 annuities forfeited by the rebellious Sioux. It is proposed to use this sum in the above claims, and a bill appropriating $1,100,000 is being prepared to meet the balance due in the amount awarded by the commission.

☞ A Chattanooga correspondent of the New York World says that the Confederacy is wasting away in many respects, but in none more than its industrial energies.—He adds that the rebels give unmistakable evidence of speedily succumbing, however loud the bravado used by leaders in public speeches, in leading articles in various journals, or in official documents.

WESTERN NORTH CAROLINA.—Mr. J. A. Seddon, the rebel Secretary of War, has issued very positive instructions to a Quartermaster General to press the people of certain counties in North Carolina for the tenth part of their produce exacted by the rebel government. He says that "all the western counties of that State have ever evinced a disposition to cavil at, and even resist, the measures of the government, and it is quite time that they, and all others similarly disposed, should be dealt by with becoming rigor." These counties border on East Tennessee, and the same love for the Union prevails on each side of the boundary line. In twenty-three of these counties there were in 1860 only 20,665, slaves, or only one slave to every ten free persons. And that is the cause of the indomitable Unionism of that mountain section.

MARYLAND.—Gov. Bradford's message says the finances of the State are in a prosperous condition. No new debt contracted—more than $100,000 of old debt extinguished, and upwards of $371,000 paid the General Government: there is a balance of more than $1,000,000, exclusive of cash to to the credit of the sinking fund. He recommends making a pension for the soldiers of the State in the way of aiding the families of volunteers and drafted men. He recommends a revision of the militia law of the State. Referring to the Constitutional Convention he says:—

I believe to-day as I have done for years, that if we had long ago provided for the gradual emancipation of the slaves of the State, we should now be, as regards the natural elements of prosperity, in advance of our present position. The products of our State, and its natural resources are not such as are adapted to or can be developed by slave labor. I am satisfied that the people of the State, in their moments of calm and deliberate reflection, long since came to the same conclusion. When the conspiring leaders at the South lifted their hands against the Union, and pointed to slavery as an institution upon which their visionary republic was to rest, they struck a blow at its very vitals in every border State, under which it has continued to languish, and which must inevitably result in its ultimate destruction.

He goes on to recommend as speedy emancipation as may consist with safety and comfort.

VERMONT.—It appears, on good authority, that Vermont has raised her quota under the last call of the President, and nearly three hundred to spare, and this without taking into account the re-enlistments in the field, of which there are already reported, unofficially, several hundreds. These listments have been mainly from the best class of her laboring population. Foreign enlistments and substitute brokerage have found little favor in the State.

GLOOM.—The following is from the Richmond Examiner:—

Another daring Yankee raid has been carried out with comparative impunity to the invaders, and immense capitalists may well pause before they nibble at eligible investments in real estate situated far in the interior.

That interior has been fearfully narrowed by Federal march through Tennessee; and owing to the deficiencies of our cavalry service, Lincoln's squadrons of horse threaten to be as universal a terror—as pervasive a nuisance—as his squadrons of gunboats were some months since.

The Confederacy has been cut in twain along the line of the Mississippi, and our enmies are steadily pushing forward their plans for bisecting the eastern moiety. No wonder then that the annual advent of the reign of mud is hailed by all classes with a sense of relief.

Meanwhile the financial chaos is becoming wilder and wilder. Hoarders keep a more resolute grasp than ever on necessaries of life.

Non producers, who are at the same time non-speculators, are suffering more and more. What was once competence has become poverty, poverty has become penury, and penury is lapsing into pauperism. Any mechanical occupation is more profitable than the most intellectual profession. The most accomplished scholar in the Confederacy would be glad to barter his services for food and raiment, and, in the complete upturning of our social relations, the only happy people are those who have black hearts or black skins.

Unreasoning confidence has been succeeded by depression as unreasoning, and the Yankees are congratulating themselves on the result, which they hawk about as the 'beginning of the end.' We all have a heavy score to pay off, and we know it.—This may depress us, but our enemies need not be jubilant over our depression, for we are determined to meet them.

THE AMNESTY AT THE SOUTH.—A letter from Natchez says that persons recently from the interior South are of the opinion that the President's offer of free pardon will have an excellent effect as soon as it becomes known. Prominent Mississippians say the plan for reconstruction will be gladly accepted by the people of that State as soon as a sufficient portion of the territory is in our hands to allow a tenth part of the voting population an opportunity to express themselves.

THE PAPER DUTY.—The Washington correspondent of the World says the proposition to repeal the paper duty, now before the Committee on Ways and Means, has more friends than the similar measure had last session.

☞ In the U. S. Senate, Friday Jan. 8, Mr. Hale moved the reconsideration of the resolution instructing the committee on naval steamer engines, lately constructed for the use of the Navy, the mode of securing supplies, and the conduct of the department generally, and that they have power to send for persons and papers.

Mr. Hale desired the investigation, in view of the charges contained in the speech of Mr. Dixon. Those charges cannot fail to leave their effect unless they are investigated. While he did not indorse the sentiments therein expressed, from the intercourse he had with conservative men they said they were heart sick and despaired of the navy, as now conducted.

Mr. Grimes said that the Secretary of the Navy desired an investigation. He had no doubt that it would turn out that we had not only as fast but faster vessels than any other nation in the world. A debate ensued—in which Mr. Hale said it would do infinite injury to shrink from an investigation. All the departments should be as open as the day,—and mentioned that the Navy Department had paid very much higher for supplies than they could be brought for in open market.

Mr. Grimes showed that this was the fault of Congress in requiring supplies to be procured by contract from the lowest bidder. Further consideration of the resolution was postponed.

Mr. Wilson, of Massachusetts, introduced a resolution providing for the expulsion of Senator Davis, of Kentucky, owing to the sentiments put forth in a resolution by the latter, which, in the opinion of Mr. Wilson, incites the people to treasonable insurrection and rebellion. Stripped of its verbage this, Mr. Wilson said, was the purpose o the resolution.

Mr. Davis explained to the Senate that the language quoted in Mr. Wilson's resolution was a garbled version of his own resolution. What he (Davis) proposed was that the people should rise at the polls and take the power of this government into their own hands. Mr. Davis repeated that the terms of Mr. Wilson's resolution were against the terms of his own and were false in fact.

The subject was then passed over and the Senate resumed the consideration of the amendment of the Enrolment act.

DR. HALSTED of Round Hill Watercure, Northampton, Mass., has so far perfected his "Motorpathic System" of treatment, that many cases of incipient *prolapsus* uteri, kindred weaknesses and ulcerations can be cured by one consultation and the following of his instructions. The plan and remedies for self or home treatment are potent and restorative. They dispel pain and weakness in the back, strengthen the nerves, tone the stomach, and obviate indigestion and constipation.

Confirmed cases and bed ridden patients can be so much relieved by one visit as to give them faith of ultimate recovery at his institution. Water treatment may be used to tone the system or it may not; but supporters, caustic, or harsh treatment, never. The organ once only motorpathicly adjusted no ordinary exertion will displace it, and after a short treatment its healthy condition becomes fixed and permanent.

This method is so simple and reliable that it is working a revolution in the treatment of woman's diseases. Physicians are cordially invited to test its value. Their attention is also called to his treatment for neuralgic and spinal difficulties by which the vital forces are renewed, strength and elasticity restored, and broken down constitutions renovated. The names of thousands of invalids who have been cured at his institution are on record, with a history of their sufferings. Further information will be given if desired.

Dr. Halsted will be in Manchester at the Hon. M. Moulton's, 32 Walnut street, on the 20th and 21st insts., where he will be happy to see his friends and meet inquirers. 1td&w

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers for Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the novelty or utility of patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on record rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor* by the Commissioner of Patents.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which BRONCHIAL and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper thereto."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

Carrier Wanted!

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ We are officially authorized to say that the quota of Portsmouth *is filled*. 130 new recruits have been enlisted in the city, perhaps a few more elsewhere. Six of the dozen or so Portsmouth boys in the ranks of the N. H. 2d regt. will enlist again; there are one or two more elsewhere in the service, to be credited to us; and, finally, as a surety, if needed, 32 more privates of the said 2d, belonging elsewhere, will enlist for us if necessary. But it is thought by those best informed, that 136 will make the full quota.

HON. C. L. WOODBURY.—We have already briefly referred to this gentleman's appearance before the Citizens' Lyceum of this, his native city, on Tuesday evening of last week. But we desire to say a word more now, at our first opportunity—to add that the lecture was a very interesting and valuable one, finely written and well delivered, and entirely free from all that buncomb and cheap patriotism, which, though ever so common, and never so much in favor with a certain class,—to us seems more in place of the caucus or political meeting than in the Lyceum.

We regard Mr. Woodbury's effort as in most respects a model; and when we state that the gentleman refused any remuneration for the same, other than the satisfaction of appearing before his old townsmen, and aiding the gentlemen of the Lyceum in their commendable efforts, our readers will all the more highly appreciate it, we are sure. We hope to hear Mr. Woodbury again, on a like occasion.

☞ The sight of a large citron in the window of Mr. Shores's bookstore, on Saturday, carried the minds of those to whom the fruit was familiar back to the sunnier climes where (with their upright smooth stems, branchy heads and large, spear-shaped leaves) the citron trees groan beneath their golden load. But the illusion was momentary; imagination is powerless to contend with the frigid realities of our climate; and, with an additional shudder, the poor dreamer awoke to a sense of existence in a land of snow and ice. The specimen on exhibition was sent from Florida by Mr. Clifford Boardman of this city.

For the Chronicle.

Mr. Editor:—Permit me through your columns, even at the risk of my little reputation for gallantry, to say to two ladies who occupied one of the seats near the entrance of the Temple, on Tuesday evening, that the incessant chattering of their tongues was exceedingly annoying to people in their immediate vicinity, who wished to hear the lecturer;—and that on future occasions of a like character, if they will deport themselves more in accordance with the rules of propriety, one of two results will follow as a benefit, viz: either they will avoid the necessity of inquiring, as one of them did of her companion at the close of the address of Mr. Woodbury, "What has he been talking about?" or, those in their vicinity will be better prepared to impart to them the desired information. "A word to the wise, &c." A TICKET HOLDER.

☞ The ship Mary Annah, of 488 tons burthen, built at this port in 1850, was to be sold at auction in Liverpool Dec. 22.

POLICE COURT, Saturday, Jan. 9—Before Justice Odell,—James Kehoe, for assault on Euzel Degreenay, was fined $10. cost, $4.80. Paid.

☞ We understand that the town of Newington has filled its quota of 7 volunteers under the last call.

☞ Mr. Davis' Singing School Concert and Musical Festival, Jan. 20th, at the Temple, will, no doubt, be one of the most interesting occasions of the sort ever given here. More anon.

☞ Schoolmaster Foss and his little girl scholars enjoy their sleigh-rides about town, don't they? Glad of it—we like to see a man's heart interested in his business. But what a lot of the "fathers" of our city in one capacity or another are so only in name?

☞ J. A. Stickney, Esq., has been appointed Cashier of the Great Falls Bank, vice D. H. Bufford, Esq., resigned.

TENNESSEE.—The Memphis Bulletin says Gov. Johnson will soon announce a plan for restoring Tennessee to the Union.

☞ Hall's Journal of Health for January 1864, No. 1. Vol. 11, has a leader entitled Poetry, Music, and Health.—

A garrulous barber being required to shave a celebrated wit, asked him, "How shall I shave you, sir?" "In silence," was the reply.

— In the vicinity of Norfolk the secessionists are returning, under the recent proclamation of amnesty, to claim their houses and land.

— Hon. John P. Hale's Senatorial term will expire in March, 1865; and his successor will be chosen next June. He has been in the Senate for three terms, and was previously in the House two years.

PORTENTOUS.—The New York Times New Orleans correspondent says:

"A letter from a Secesh lady in this city to a friend in Mobile, I think, was recently captured, and reveals the fears of the Secessionists better than anything I had yet seen. Among other remarks of the kind, occurs the following amusing and significant passage: The work of spoliation is going on rapidly, and the Yankee officers are locating their families with an air of permanency truly distressing."

☞ In Maryland Legislature, Jan. 8, Ex-Governor Hicks was elected U. S. Senator to fill the unexpired term of Senator Pierce, to which he had been appointed by the Governor.

ONE OF MANY.—"This is to certify that I purchased one box of the SAPONIFIER or CONCENTRATED LYE, of the agents, and with the amount of grease required, had no trouble in making one-half barrel of good soft Soap, at the first trial, and at a very trifling expense, and would recommend it both for its quality and economy. JACOB PARKER,
New Bedford, Mass."

The above is one of many of the testimonials we are receiving every day of its virtue and simplicity. It is no humbug, having stood a practical test, and has been patented for eight years, and has now reached an enormous sale in the Middle and Western States. It is only recently that it has been introduced in the New England States, but needs only a trial to be appreciated.

SEVEN HUNDRED VOLUNTEERS SICK IN CAMP.—Young men, be warned in time, supply yourselves with Holloway's Pills and Ointment. They are guaranteed to cure the worst cases of sores, ulcers, scurvy, fevers and bowel complaints. Only 25 cents per box or pot. 218

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambucl Grapes for Spear's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose will be generally One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

No second no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

VICTOR COAL STOVE.

We offer this beautiful coal burner to the public with full confidence in its merits.

It was brought into market three years since, and has come rapidly into use.

The Victor is one of the handsomest parlor stoves in the market, and is perfect in its operation.

The arrangement for dumping the ashes is very fine—no dust need escape into the room—a continuous fire may be kept throughout the winter—the coal all burned and no clinkers made.

The quantity of fuel used is very small indeed.

We have sold a large number of Victor Stoves in this city, and they receive the highest commendation from those who are using them.

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of Dr. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 1 High street, Portsmouth, N. H., promptly attended to. may26

☞ As a means for protecting commerce, and to render the navigation of the river safe, it is contemplated by the Government to establish a line of signal stations from Cairo south along the Mississippi river, in order to give information that may prevent depredations by guerrillas. These stations will each have a small garrison for defense, and signal each other and the gunboats in case of danger.

☞ The Memphis Bulletin reports the sale on Saturday of 375 bales of cotton at 70c. for good middling, and 73 for middling fair. The shipments during the week were 1748 bales.

369 bales arrived at Cairo, Jan. 6th, mostly for Cincinnati, but boats cannot ascend the Ohio in consequence of its being frozen.

— Large quantities of rebel correspondence were intercepted during Gen. Grant's late campaigns. The letters gave about equal evidence of ignorance, poverty and despondency. The best quality of paper was torn from old account books, as shown by the red and blue ruling.

— Dr. French, the newly chosen Mayor of Lawrence, Mass., while reading his inaugural address to the City Council, Monday, was suddenly attacked by severe illness, became insensible, and was taken to his residence, where it required the efforts of several physicians to restore him to consciousness.

IMPORTANT TO THE AFFLICTED

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of pronouncing the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND GLEET.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Gonorrhœa, Gleet, Gravel, Stricture in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings and their attendant Gravel, Pains, symptoms attending this class of disease, are made to become as harmless as the simplest allings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, extinct energy, aversion to society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your case. Dr. Dow has also for sale the French Capsules warranted the best preventive. Order by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, or difficult menstruation, Leucorrhœa, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new medical treatment, that the most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt, had more experience in the cure of diseases of women and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., as above, upon all difficult and chronic diseases of every name and nature, having, by his unwearied attention and extraordinary skill, gained a reputation, which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH CAPSULE. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler, and cast-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, if any, have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue one inch warm to the touch can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the potter part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE ORCHARD FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS FREE OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

As a DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Foreign Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

WE REFER TO

ESTABLISHED 1852. PORTSMOUTH, N. H. TUESDAY JAN 12, 1864. VOL. 24. NO. 10

The Chronicle.

"Boundto no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

☞ Speaking of Gov. Seymour the New York Tribune says:

The whole tenor of his two Messages implies that President Lincoln and his supporters are the real Rebels; hence he has forty words of rebuke and condemnation for them to one, far softer, for Jeff. Davis & Co. But the People understand him.

Of course, he is opposed to "conscription" on our side, as every one who has prophesied and hoped that the Rebelscould not be vanquished must naturally be. He parades the small number of actual Conscripts compared to that of Volunteers, knowing as well as we do that, had there been *no* conscription in the background, the *bounties* would never have been offered, the efforts never made, whereby these Volunteers were obtained. And now, just proclaim that there is to be no more conscription at any rate, no matter how urgent the National need, and we should be very near the end of Volunteering.

So with regard to the National Finances and Debt. The great end assiduously sought by His Excellency is such a paralysis of the National energies as will bring the Government to a dead lock and compel it to sue the Rebels for Peace, as Fernando Wood recently proposed and the Democrats in Congress generally voted. The National credit and the National Banking system are formidable obstacles to the success of this design, and tend strongly to prove Seymour a false prophet when he predicted that the Rebellion could never be subdued. Of course, he assails and maligns, but he will not succeed in destroying them. They rest securely upon the broad basis of the National loyalty and the National life.

The amount of whiskey made in this country is enormous. It is estimated by the Bureau of Internal Revenue at 100,000,000! Ohio alone produces 40,000,000; New York, 25,000,000 Philadelphia, 10,000,000; Illinois, 5,000,00. We verily believe that whiskey has slain more loyal men since the war began than the rebels. The use of it in our own neighborhood is truly alarming, and becoming daily more open and common. Men daily visit the places where it is dealt out, without shame, who twenty years ago, would have felt that such a charge would have been a base stigma upon their character. Is such the result of a reliance upon law and the abandonment of every moral effort? It is time the old temperance societies should be revived.—*Amherst Cabinet.*

$100 REWARD!
For a Medicine that will cure
COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quanity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "come up" the above recommend, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, JANUARY 12, 1864.

☞ The Traveller's dispatches of Monday evening stated that on Saturday night government detective arrested at Yonkers, N. Y., three men implicated with Olmstead (before reported arrested,) in contraband trading. One is worth $100,000, and another is proprietor of the Getty House in Yonkers. They shipped goods to Havana and thence by blockade runners.

Charleston papers say, the Mills House and another principal hotel were about to close for want of provisions. The congregations of two churches invite a third to join them for the reason that the edifices of the former are in danger from Federal shells. All the warehouses and piers are emptied and abandoned.

The U.S.Senate and House will probably compromise on the bill offering bounties to volunteers, agreeing to extend the time to Feb. 1st.

NEW ORLEANS AND TEXAS.—Steamer Colombia, at New York, has New Orleans dates to Jan. 3. A paper of that date says information has reached there from three or four directions, that all the rebel troops which have been operating in Western Louisiana, on the banks of the Mississippi, and, in fact, the whole force of the enemy, are gathering in Central Texas, and uniting to form one large army to attack our new acquisitions on the coast of Texas. They will number at least 20,000. The most ample preparations have been made to meet this force as well as possible with the number of troops in the Department. There will soon be news of great interest from Texas.

The 19th Army Corps still remains at New Iberia. Nearly every regiment has re-enlisted as veterans. The agent of the State of Connecticut is at New Iberia, paying every man from that State who re-enlists $300. The 12th Connecticut has re-enlisted en masse.

Cairo dispatches to the 10th mention the arrival of two steamers from Memphis with 187 and 247 bales of cotton.

The steamer Connecticut, from New Orleans, 1st inst., has arrived with 20 bales of cotton, 655 pounds sugar, and 49 barrels of molasses. She met ice 67 miles below Helena.

Gen. Banks has issued a General Order embracing the President's amnesty proclamation, such parts of his message as explain its limits, and the oath of allegiance prescribed by the President. Gen. Banks informs the people that all desirous of receiving the amnesty and taking the above oath can do so at once, and all the Provost Marshals are instructed to administer it.

The New Orleans Era says the last night of the old year was the coldest ever known in that latitude.

WASHINGTON ITEMS.—The statement that S. M. Clark, the Chief of the note bureau in the Treasury Department, has been suspended from duty, is totally without foundation, and there is authority for this denial. There will probably be a vigorous examination as to the motives of the circulation of this report.

The Democratic and Conservative members of Congress met on Saturday evening in the Capitol. Hon. John L. Dawson of Pennsylvania in the chair, and unanimously adopted the following resolution, offered by Hon. James Brooks of New York:

Whereas, Gold or silver is paid to our Ministers, Consuls and Commissioners representing the nation in foreign countries, and gold and silver are received from the people at the Custom House in payment of duties, and whereas, the people are taxed to pay capitalists their interest in specie on their investments in the National debt, therefore be it

Resolved, That the officers, soldiers and sailors in the Army and Navy should be paid in gold and silver, or their equivalent in amount.

And be it also resolved, that the chairman of this meeting be instructed to prepare an amendment to the Army and Navy bill to this effect.

The following resolution from a committee appointed to consult on political matters likely to come before Congress was also adopted:

Resolved, That the President's proclamation of the 8th of December, 1863, is unwise, inexpedient, revolutionary and unconstitutional, and is therefore disapproved.

A private dispatch received at Washington Saturday night, from Cumberland, says: "All is quiet, and the railroad is perfectly safe there."

☞ A dispatch of Jan. 8, from Cairo, says,—Of three hundred recruits from Springfield on their way here on the night of the 6th, a large number were rendered inactable by men who enlisted for the purpose of robbing them. They succeeded in taking away nearly $1000 in money, besides watches and other valuables. One recruit died from the effects of the poison. The robbers left the train between Centralia and Cairo.

THE NEW HAMPSHIRE DEMOCRATS held their convention to nominate State officers, on Friday, the 8th inst. Hon. Edmund Burke was temporary chairman. A few years ago Mr. Burke was one of their chiefs—a member of Congress and afterwards Commissioner of Patents; but he fell out of line and was repudiated; now he is in full fellowship again. Hon. William H. Duncan of Hanover was made permanent President. The convention was large and determined. E. W. Harrington of Manchester received 518 out of 568 votes for Governor, and was afterwards unanimously nominated; and O. A. J. Vaughan of Laconia was made candidate for Railroad Commissioner.

The resolutions were very emphatic—against secession, and hailing with delight any manifestation of any seceded State to return, and pledging to receive such on the basis of the Constitution; against the emancipation proclamation, and the late message and proclamation of the President, "as absurd, unconstitutional, barbarous and revolutionary." They denounced other acts of the administration; and called upon any and all States to resist even by arms, any abridgment of the right of suffrage or interference with the ballot box, and in such a struggle pledged their lives and fortunes and honor. This was an invitation to such States as Delaware, Maryland and Missouri, to resist to revolution the test oaths, and promising to aid them in such resistance.

Whether the people of New Hampshire have reached that point, or these were merely the words of the political leaders, we may live to see. The whole action indicates that they are determined to make a great struggle for the ascendency in March, and we look for a warmer and harder contest than was ever had there before. It is the first election in the Presidential contest, and both parties will do their best to win. It is possible that the Democrats may carry, for they no where hold on so hard; but we don't see it.—*Newburyport Herald.*

GEN. MEADE'S ACCOUNT OF HIS LAST RETREAT.—Rev. S. H. Ball of Dover, N. H., recently visited the army of the Potomac, and called upon Gen. Meade. He asked the General to explain his last campaign, and the General was kind enough to do so, as follows:

I went over the river to fight, and if my orders had been obeyed I am confident that Lee's army might have been defeated. My plan was to cross at Germania Ford, take the road to Orange Court House and push on rapidly. If Lee should send forces to stop me, to attack him in force and destroy that portion of his army before he could concentrate the whole of it to oppose me. But one of my corps commanders failed. He was commanded to march at 6 o'clock in the morning, but did not move until 8 o'clock; he was directed, if Lee sent forces to oppose him, to attack at once; Lee did send Ewell down to Orange Court House road, just as I expected, but my General stood and looked at him all day, and did not fight. So we lost twenty-four hours, and that gave Lee notice and time to concentrate his army, and take so strong a position that it could not be carried without great loss and risk of losing our army. Such a fight would have damaged us and encouraged the rebels, and prolonged the war, and I gave the order to retreat.—The corps commander referred to was Gen. French, who was probably too drunk to know or do his duty.

AN ILLUSTRATION.—General Bruce, of New York, once made an apt illustration, in his speech before the Eight Ward Union Meeting, held at Horticultural Hall. In speaking of the position assumed by the politicians who are endeavoring to mislead the masses in regard to national affairs, he said: Suppose, fellow citizens, the block of buildings below here were to burst into a flame; our first impulse would be to rush to the scene, and go to work with a will to put out the fire, and save as much of the property as we could. Perhaps we might all be horrified to learn that women and children were yet in that burning block. It would be natural, under these circumstances, to redouble our energies and save them if possible. Your steamers, your hose carriages, your hooks and ladders, all manned by your brave firemen, would be there in full activity. No one would stop for a single moment to ascertain what caused the fire, whether it was the work of design or the result of accident. Under circumstances such as these, what would you think of a class of men, who might chance to meet a short distance off, in the very presence of the heat and glare of the conflagration, and pass resolutions such as these:

Resolved, That the fire appears to be increasing, and that it is not possible for the firemen to extinguishing it.

Resolved, That we are not in favor of such a fire, and that it ought to be put out.

Resolved, That fire engine No. 1 ought to take water from a plug around the corner, and, instead of playing a big stream on the burning property, should play on the building on the south side of the way.

Resolved, That the lives of the women and children in the burning buildings ought to be saved, but the method adopted by the firemen to do so does not meet with our approbation.

Resolved, That the people are in danger of losing a supply of water from Fairmount, unless the firemen stop using it so freely to put out the fire.

Resolved, That we are in favor of putting out the fire by more conciliatory measures than throwing water upon it.

It may be needless to say that this happy exposition met with rounds of laughter and applause.

☞ Letters from East Tennessee of the 28th ult., to the N. Y. Herald state that our forces have been driven back from Bean Station by Longstreet. Our losses in four days' skirmishing reached about 200, besides a few wagons. Rebel prisoners state that Longstreet has been reinforced by Ewell's corps, and that he has been ordered to take Knoxville at all hazards. Longstreet has about 40,000 men. Gen. Foster is at Knoxville, and Gen. Park commands in the field.

— The Rockland Democrat states that 520,000 casks of lime were manufactured in that place last year—an increase of $100,000 over the previous year.

— The first Lord Ashburton gave the following disinterested advice to a friend, afterward a millionaire, "Always keep £100,000 at your banker's."

— The Charleston Mercury says that since last March the Arsenal in that city has melted up 900 tons of iron, and cast more than 16,000 projectiles, exclusive of grape and canister.

— There is an old gentleman living in Bolton, Ct., who has in the United States service four sons-in-law, seven grandsons, thirteen nephews and one daughter (as hospital nurse)—in all twenty-five of his family connections. A good representation.

— "Don't you believe the Lord is on our side?" said a strong rebel to a not over-confident friend, some time since. "Don't you think, now the Lord's on our side?" "Well, y-e-e-s," responded the other; "y-e-e-s, but He's acting mighty strange about it, mighty strange!"

— The ladies of Paris have adopted a fashion for the winter of wearing their dresses drawn up over colored jupons, light woolen materials of striped patterns, with a band of plaid or a narrow plaited flounce near the edge. They have thus given up the practice of sweeping the streets.

— Washoe must be a very pleasant residence for a timid man, according to the Virginia City Bulletin, which says: "On Saturday night last we saw around the stove at the theatre, warming themselves, no less than five men who had each killed a man within the past two months."

— From the far West, even from Nevada Territory, where the streets are paved with silver, comes news of highway robberies, whose details remind the remind the reader of the freaks of "Captain Thunderbolt," *alias* Mike Martin, the whilom Portsmouth distiller. One would think that in a country where the precious metals are so abundant, a livelihood might be obtained in an easier manner than by taking the road.

MOURNING TURNED TO JOY.—The Auburn (Me.) Advertiser says Mr. Ferguson, of that county, hearing of the death of his son, a member of the 3d Artillery, went to Newbern for the purpose of bringing home his remains, which were obtained and brought home at an expense of about $250, and buried. A few days since the son, alive and well, returned to his home, when it was of course discovered that the remains were those of some other person. The joy of finding the son alive more than repaid the outlay incurred in transporting the body.

MR. BALDWIN'S RESOLUTION.—The following are the preamble and resolution offered in the National House of Representatives, on Thursday, by Mr. Baldwin of Mass.

"*Whereas*, The organized treason, having its headquarters at Richmond, exists in defiant violation of the Federal Constitution, and has no claim to be treated otherwise than an outlaw;

Whereas, The Richmond combination of conspirators can have no rightful authority over the people of any portion of the National Union, and no warrant for assuming control of the political destiny of the people of any State or section thereof, and no warrant but that of conspiracy and treason for any assumption of authority whatever; therefore

Resolved, That any proposition to negotiate with the rebel leaders at Richmond, sometimes called the 'authorities at Richmond,' for the restoration of loyalty and order in those portions of the Republic which have been disorganized by the rebellion, is in effect, a proposition to recognize the ringleaders of the rebellion as entitled to represent and bind the loyal citizens of the United States whom they oppress, and to give countenance and support to the pretension of conspiracy and treason, and therefore, every such proposition should be rejected without hesitation or delay."

Mr. Marcy of New Hampshire voted in the negative, but Mr. Sweat of Maine voted in the affirmative. Cox of Ohio was the man who moved to lay the resolution on the table. The resolution was adopted by 89 votes against 24, and the preamble unanimously. The House has thus settled, so far as itself is concerned, one good principle.

THE MOCK AUCTIONEERS.—We find the following in the Washington correspondence of the New York Commercial Advertiser:

"We have a distinguished arrival from New York, Mr. P. Funque, who has opened an establishment at Pennsylvania Avenue, where he delights a crowd of soldiers and contrabands by offering his real double-back-action gold watches, with sixteen holes full jeweled, at "sixteen dollars and a-half, and a-half, and a-half!" This I have heard in passing, but no one has seemed to bid "and three-quarters," so it may be that the auctioneer of the Mosaic dispensation is the veritable *Juif Errant*, marching to the tune of "sixteen dollars and a-half, and a-half, and a half!" Perhaps when Congressmen arrive, or the sailors at the navy yard get their prize money, or Invalid Corps receive their bounty, the New-Yorker, with the prominent nasal organ and long, black locks, may sell that watch.—Meanwhile, "who'll say sixteen and three-quarters?"

☞ A lot of prisoners just arrived in Washington, including one of Mosby's lieutenants, confirm what was heretofore said as to the effects of the Amnesty Proclamation. Refugees from Dixie go down almost daily, taking their wives and children with them.

American and Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (*under the Act of 1837.*)

76 State street, opposite Kilby street,

Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which THROAT and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

OUR QUOTA,—A letter received in this on Monday, by Hon. J. B. Adams, from Col. Bailey of the 2nd N. H. Regiment, gives the names of *forty* members of the gallant Second, who are ready to re enlist towards the quota of Portsmouth; This shows that our city authorities have *not* been asleep, nor counted without their host; that the croakers who prophesied a draft, are of no account at all; and that our good old city stands well yet with the soldiers, and will still keep in line with the most patriotic towns in this or any other State. Good so.

WENDELL PHILLIPS lectures before the Lyceum to-night,—and to-morrow evening "the *rest* of mankind" will have a chance to hear him,—that is, if they secure their tickets early enough. It is a rare treat, indeed, to hear Mr. Phillips talk on any subject; and those announced in the advertisements will especially interest the people at this time. We advise all who can't come in to-night to lose no time in getting tickets for Wednesday evening.

☞ We are requested by the Committee of Arrangements to remind members of Mr. Davis' Singing School, that there will *not* be any meeting of his classes this week; but that a full rehearsal is to be held at the Temple at 2 o'clock on Wednesday, Jan. 20th, the day of the concert, which all members are requested to attend.

POLICE COURT, Jan. 11.—Odell, J.—Patrick Griffin, for brawl and tumult. fined $3, and costs $4.80. Paid.

Thomas O'Brien, same fine, same offence, &c. Paid.

☞ Mr. Dessauer advertises to visit Portsmouth again next week; and he will wake up the spectacle users, not to mention the sellers. Where's Bodge.

☞ The collection, at the Methodist Episcopal Church in this city, on Sunday last, for the cause of Missions, amounted to the handsome sum of $350.

☞ Ensign A. S. Laighton, of this city, has been ordered to U. S. gunboat Chenango, at New York.

☞ At the public installation of officers of the lodge of Odd Fellows in Peterboro', on the 5d inst., as we learn from the Transcript, "Grand Master Buell introduced to the audience W. Grand Marshal John E. Rider, of Portsmouth, who gave a very excellent address upon Odd Fellowship, which was listened to with marked attention."

THE REBELLION.

Major Cole, in command of a battalion of Maryland cavalry, encamped in Loudon county, West Virginia, was attacked Jan. 10, by the guerrilla Mosby, with a force of 400 men. After a severe fight for an hour Mosby was repulsed, leaving his killed and wounded on the field. Four rebel commissioned officers were killed. Our loss is reported at 2 killed and 11 wounded. Gen. Sullivan has sent a force in pursuit.

Advices from New Orleans report the return of Gen. Andrews' foraging expedition to Humboldt Island from Port Hudson, with a large number of fowls, hogs, and 2000 bushels of corn. 700 exchanged prisoners had arrived from Natchitochez.

The steamer Morning Star, which left New York on the 26th ult., was closely pursued on the next day near Cape Hatteras by a rebel cruiser of English build, a propeller lying low in the water, carrying two masts and an unusually high smoke stack. The Morning Star outran the pirate.

WASHINGTON ITEMS.—The N. Y. Herald's Washington dispatch says it is not thought that the enemy can accomplish anything in the Shenandoah valley at present. The river is almost impassable with floating ice; it is not likely from the position of our forces that the enemy can construct a bridge.

The President is engaged in inaugurating measures to carry out the terms of his amnesty proclamation and secure the speedy organization of governments in the seceded States, that are to any considerable extent occupied by the Union forces.

At the latest dates, the siege of Charleston was yet in progress.

DEATH WHILE RINGING A CHURCH BELL.—While Mr. Hezekiah Turner of West Dedham was ringing the bell of the Unitarian Church in that town, last Sunday morning, the congregation were alarmed by the overturning of the bell and the sound as of some one falling heavily in the porch, and on going out, Mr. Turner was found lying dead upon the floor. Death is supposed to have been occasioned by disease of the heart.

☞ A drunken soldier got possession of a ten-pound Parrott shell, and took it to the guard-house of the "Soldiers' Rest" at Washington, a few nights ago. Opening a red-hot stove he thrust in the shell, exclaiming, "That is what tries men's souls." An explosion was the almost immediate result, rending the stove to pieces, and tearing the plaster off the wall all about the room. Fortunately no person was injured.

☞ Under the contemplated tax by Congress on the circulation of State Banks, the burden would be quite onerous on the banks of New Orleans, amounting to $60,000 per year on the present circulation of the Louisiana State Bank. There is talk of memorializing Congress to exclude the banks of that State from the operation of the intended law, a large share of their circulation being scattered over the country, where it cannot be immediately presented for payment. The banks of New Orleans seem desirous of returning all their promises. The Citizens' Bank has paid bill-holders $1,000,000, and depositors $1,600,000 within the last seventeen months; the Canal Bank has reduced its liabilities $400,000; one bank has paid all demands in coin, and another is paying old issues in coin and new issues in legal tender notes.

☞ It is reported from Richmond that a member of the Virginia Legislature is shortly to introduce before that body a proposition, which cannot fail to create a sensation all over the South. He proposes that the State of Virginia shall pass a law granting the right of property to men of color held in a state of bondage, and making that property reversible to his children, who in consequence of that law, shall not be hereafter liable to be sold or separated violently from their parents.

ANOTHER ILLEGAL ENLISTMENT CASE. The Boston Chief Police received a telegraphic dishatch from Portsmouth, to arrest one William Gallagher and a minor named Charles Clifford, who, it was alleged, Gallagher had brought to Boston to enlist. Detective officers Hunt and Calder found the two at Dooley's Hotel in Portland street, arrested them and committed them to the Toombs.—*Herald.*

The friends of young Clifford state that Gallagher got him drunk, and then induced him to go off.

ONE OF MANY.—"This is to certify that I purchased one box of the SAPONIFIER or CONCENTRED LYE, of the agents, and which the amount of grease required, had no trouble in making one-half barrel of good soft Soap, at the first trial, and at a very trifling expense, and would recommend it both for its quality and economy. JACOB PARKER,
New Bedford, Mass."

The above is one of many of the testimonials we are receiving every day of its virtue and simplicity. It is no humbug, having stood a practical test, and has been patented for eight years, and has now reached the enormous sale in the Middle and Western States. It is only recently that it has been introduced in the New England States, but needs only a trial to be appreciated.

SEVEN HUNDRED VOLUNTEERS SICK IN CAMP.—Young men, be warned in time, supply yourselves with Holloway's Pills and Ointment. They are guaranteed to cure the worst cases of sores, ulcers, scurvy, fevers and bowel complaints. Only 25 cents per box or pot. 218

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

☞ The Funeral Services of Mrs. Mary Dickson will take place at the Middle Street Church, this (Tuesday) afternoon at 2 o'clock.

☞ The Funeral services of the late Rear Admiral Stovell, will take place at the Stone Church on Wednesday Jan 13th, at quarter past 12 o'clk.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much ado is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

LAST AND BEST.

THE MODELCOOK,

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to economize its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1863.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

GOOD WORDS FROM A FOREIGNER.—The following is from a private letter of Rev. Newman Hall, D. D., of London—one of the earliest and bravest defenders of the Union cause in Great Britain—has enough of general interest to warrant its publication. Few, men are more competent to speak on the ruling sentiment of England than Dr. Hall. He is a man of the people, and a leader in every good undertaking. He writes:—

Be sure that the heart of England has always been right. Whatever some of our editors may say, let this be the test: there have been hundreds if not thousands of public meetings enthusiastic for Union and emancipation. Not one has been convened for sympathy with the South. In your letter you expected that by spring the rebellion would be merely a history of the past. The devil fights hard! It is now or never—a death struggle! Perhaps the continuance of the strife was needed to unite your nation more thoroughly on an emancipation policy. God grant that slavery may soon cease, and with it the war. Some people talk here of the wickedness of the war! I hate war, except when waged to prevent what is worse. But when did this country ever wage, since Cromwell's day, a war for so glorious an object!

IMPORTANT TO THE AFFLICTED.
DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a
PRIVATE OR DELICATE NATURE.
By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting to the afflicted with remedies that have never, since he first introduced them, failed to cure the most alarming cases of
GONORRHŒA AND SYPHILIS.
Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Chordee, and distress in the region of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Bubons, Irrighital Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest stings of a child.
SEMINAL WEAKNESS.
Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded, loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.
Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.
Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Apostole, warranted the best preventive. Order by mail. Three for $1 and a red stamp.
Highly Important!
To Females in Delicate Health.
DR. DOW, Physician and Surgeon, No 7 & 9 ENDICOTT STREET, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are all treated upon new pathological principles, and speedy relief guaranteed in a few days. So immediately certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.
Dr. Dow has no doubt, had greater experience in the cure of Diseases of women and children, than any other physician in Boston.
Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.
Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain four red stamps, or they will not be answered.
Office Hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Dr. Dow is consulted daily, from 8 A. M. to 9 P. M., as above, upon all difficult and chronic diseases at every same day having by his unwearied scientific and extraordinary success gained a reputation which calls patients from all parts of the country to obtain advice.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an able and skilled physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and air-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelful up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the best part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

SPEER'S SAMBUCI WINE.
PURE AND FOUR YEARS OLD.
OF CHOICE OPORTO FRUIT.
For Physicians' Use.
FEMALES, WEAKLY PERSONS, INVALIDS
SAMBUCUS TREE, OF PORTUGAL.

The Great Remedy for Kidney Affections, Rheumatism, Chronic Complaints
Excellent Wine for Females.
Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Diaphoretic. Highly esteemed by eminent physicians, used in European and American hospitals, and by some of the first families in Europe and America.
As a DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.
SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.
A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

The Chronicle.

"Bound to no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address.*

☞ Capt. Randolph, of the 3d S. C volunteers, in the U. S. service, tells the following story of a prisoner:—

Last February, when the United States troops penetrated to Jacksonville, Fla., some "Confederate" soldiers were captured. A motley crew they were, whose picturesque variety of ragghedness bore here and there some indications of aim at military style, but nothing of what could be called "uniform." Two men claimed exemption from capture as being civilians. One of the two owned to having been impressed into the Confederate Army; but alleged that he had got his discharge and was then a civilian. "How long were you a soldier?" asked Capt. Randolph. "Three years," replied the prisoner. "The Confederate Army has been three years in the field—eh?" asked the Captain. "No," answers the "cracker," "but I was in the State of Florida service part of the time." "How long were you a soldier for Florida?" "Two years," said the ex-conscript. "And how long has this war been going forward?" asks the Captain again. "Well, I suppose going on fifteen years," replied the prisoner. "Are you sure of that?" his captor inquires. "Now, I han't kept no strict tally," the Floridian veteran answers; but this I do know—sartein: we've been agin' the durned Ab'linnists a durned sight longer time nor that: well—bout's long's I kin remember!"

How a Fat Man Reduced His Flesh.—An Englishman named Banting has just published in London an account of his struggles against corpulency, showing how he grew fatter and fatter to his great disgust, and how, by a determined effort in the right direction, he finally succeeded in reducing his weight to the standard of ordinary men. Not long ago Mr. Banting measured five feet five inches, and weighed about fourteen stone and a quarter. He owns that he had a great deal to bear from his unfortunate make. In the first place, the little boys in the streets laughed at him; in the next place, he could not tie his own shoes; and lastly, he had, it appears, to come down stairs backwards. But he was a man who struggled gallantly, and whatever he was recommended to do he honestly tried to carry out. He drank mineral waters, and consulted physicians, and took sweet counsel with innumerable friends, but all was in vain. He lived upon sixpence a day and earned it, so that the favorite recipe of Abernethy failed in his case. He went into all sorts of vapor baths and shampooing baths. He took no less than ninety Turkish baths; but nothing did him any good—he was fat as ever. A kind friend recommended increased bodily exertion every morning, and nothing seemed more likely to be effectual than rowing. So this stout warrior with fat got daily into a good, safe, heavy boat, and rowed a couplpe of hours. But he was only pouring water into the bucket of Danaides; what he gained in one way he lost in another. His muscular vigor increased, but then, with this, there came a prodigious appetite, which he felt compelled to indulge, and consequently he got even fatter than he had been.

At last he hit on the right adviser, who told him what to do, and whose advice has been so successful that Mr. Banting can walk down stairs forwards, button his old clothes quite over the suit that now fits him, and, far from being made the victim of unkind or ill-judged chaff, is universally congratulated on his pleasant and becoming appearance. The machinery by which this change was effected was of a very simple kind. He was simply told to leave off eating anything but meat. It appears that none of the physicians he consulted penetrated so far into the secrecy of his domestic habits as to have discovered that twice a day he used formerly to indulge in bowls of bread and milk. The Solomon who saved him cut off this great feeder of fat, and since then Mr. Banting has been a thinner and a happier man.

Hunnewell's Tolu Anodyne.—This justly celebrated preparation, which has so truly earned the name and fame of a True Anodyne by results in cases which had baffled every other attempt at relief in Neuralgia, Rheumatism, Gout, Nervous Head Ache, Tooth and Ear Ache, Cholera Morbus, Pains in the Stomach or Bowels Hysteria, Distress after Eating, Loss of Sleep, General Nervous Debility, Paroxisms in Asthma and Whooping Cough, now declared to be largely Nervous, and for the pains in Monthly Menstruation, also declared to be one of the most important points in medicine. A lady writes from New York: "Were it ten dollars a drop, I would not be without it in my family, or be [illegible] without it."

WEDNESDAY, JANUARY 13, 1864.

THE REBELLION.

U. S. gunboat Fahkee, and other vessels of the Wilmington squadron, have destroyed the blockade runner Bandigo, in Folly Inlet. Nineteen blockade runners have been captured or destroyed by that squadron, since July 5.

The Maryland State Senate passed a resolution appointing a committee to wait on the President, to protest against the operations of Gen. Birney in seizing slaves in Maryland. The House refused to concur by a vote of 27 to 26—20 members not voting.

The Tribune's Morris Island correspondent says the rebels have in Charleston harbor two iron-clads of close imitation to the New Ironsides and Dunderberg. Charleston takes fire space, and burns for hours, from the effect of the bombardment. In one mass of obstructions hauled away from the beach of Morris Island are 16 bars of T iron rails, the obstructions being removed by natural causes. The rebels are building two iron-clads on the Dunderburg plan.—U. S. steamer Nipsic destroyed a schooner laden with turpentine, 60 miles north of Charleston.

The Herald's Folly Island correspondent states that Col. Bell's experiments to obviate the explosion of Greek fire shells until the proper moment, have succeeded. A persistent bombardment of Charleston may soon be opened. The gunboat Huron captured an Anglo-rebel schooner in Doboy Sound, Ga., from Nassau.

WASHINGTON ITEMS.—At the sale of confiscated property in Virginia on Monday, Arlington was bid in by the Government, at $26,800. For this estate the Government had three or four competitors. The Lewis mill farm was purchased by M. E. Cannigan, at $4100. There were in all thirteen sales, amounting to $50,000.

A bill introduced by Representative Stevens on Monday, the consideration of which was postponed until February, provides that within all the territory of the rebel States, which has been or may be conquered by the Federal arms, all laws and parts of laws which permit slavery are henceforth abolished, and that slavery shall never again be established in said territory; that hereafter no portion of it shall be admitted into the Union as a State, or be represented in Congress, excepting by delegates, if the same should be authorized, until the people within the territory forming such State, shall, by its organic law, forever prohibit slavery therein.

Senator Wilson's bill, which was passed Monday, provides that all money received from commutation shall be paid directly into the Treasury, and paid out on requisition for expenses of the draft and the procuration of substitutes.

The bill of Senator Lane, of Kansas, to set apart a portion of Texas for persons of African descent, assigns the region between the Colorado and the Rio Grande, in which they are allowed the privilege of the Homestead Law. The officer in charge of emigration, to be appointed by the President, is charged with the execution of the act, and the appropriations heretofore made for colonization purposes are placed in the hands of the President to carry its provisions into effect.

The English schooner Sally, of Nassau, and the rebel steamer Cristosia, captured on the 20th of December, have arrived in Washington, and are now in the custody of the Marshal of the District of Columbia.

A bill to reimburse Pennsylvania for expenses incurred in repelling invasion, provides for payment of audited cases involving $700,000.

The House Committee on Expenditures, to examine into the alleged frauds and shipments of contraband in New York Custom House, consists of Messrs. Hulburt, Broomall, Le Blond, Julian, Lazear, Blair, Rollins of New Hampshire, Rogers and Harris of Illinois. An investigation into the New York Custom House, which has led to the imprisonment of certain officers, has been in progress some time, under Mr. Denison, Naval Officer of that port.

☞ From Mexico, via San Francisco and the telegraph, we have dates from the City of Mexico to Dec. 22d, and San Luis Potosi and Morelia to the 18th. On the 17th, Gen. Uraga, with 5000 Mexicans, attacked the French army entrenched at Morelia, and was repulsed with the loss of 1000 killed and wounded.

On the 6th, the Mexican traitor Tobar, with 3000 men, near Guadalagara, was defeated by an equal number of loyalists, under Col. Rasos; 500 prisoners, 800 horses, and a large amount of arms and ammunition were captured by Rasos.

Juarez is aiming to wear out the French by a guerrilla warfare.

— The Prince of Wales has built a private theatre for his wife and her friends to amuse themselves in.

NEW HAMPSHIRE ITEMS.

—— Mrs. Mary Brockway of East Washington, who has reached the advanced age of ninety-four years, is still able to perform her "stint" of spinning five skeins of a yarn a day. She frequently walks to her neighbor's, a mile and back, and last fall rode fifty miles in one day to visit her children.

—— Rev. S. S. Hunting, formerly of Manchester, a few months since was removed from his office of chaplain of a Michigan regiment by the commanding general, for expressing in a private letter his indignation that the regiment was ordered to capture runaway slaves belonging to the rebels. He has lately been restored to his office and is now on duty in East Tennessee.

—— Mr. John Parker of Derry, who was found murdered in the woods at North Andover, Mass., had recently been engaged as a substitute broker and has furnished several men for the towns in this State.—In this business he associated himself with a Canadian Frenchman who lived in Lawrence. The latter has been to Canada once or twice to procure volunteers to enlist in the United States service. It has been ascertained that about three weeks ago he told Parker he knew of two Frenchmen who were engaged in chopping in the woods at North Andover, who could be induced to enlist. At his suggestion Parker hired a team, and they proceeded to visit the wood choppers at North Andover. In the evening the Frenchman returned alone with the team, and the next morning started with his family for Canada. It was known to him that Parker had a large sum of money about his person, and it is supposed that he murdered him to obtain possession of it. Parker was about 40 years of age and leaves a wife and six children.

The wood chopper whom Parker was enticed to visit, was a Frenchman and a brother-in-law of the one associated with the deceased, who rode out to the woods with him. This man has also left for parts unknown.

REBEL ARMY IN ARKANSAS.—Dispatches from Fort Smith, Arkansas, Jan. 10, state that a deserting officer from the rebel army, Lieut. W. A. Britain, of the 3d Arkansas regiment, of Fagin's brigade, came into our lines on that day with a squad of his command. He left Price's headquarters at Longwood, 20 miles west of Calden, on Christmas day. Gen. Holmes is in command of the trans-Mississippi Department, and Gen. Price commands the army in the field, which Lieut. Britain says does not exceed 12,000 men. Of Price's Missourians only 3000 or 4000 remain, and but few of these belonged to the army which he took out of Missouri. The veterans of Lexington and Pea Ridge are nearly all in their graves. The Missouri troops consist of Shelly's cavalry and Parsons' infantry brigade.

The rebel troops have issues of only fresh beef and corn meal with one ration of flour per week. They are badly clothed, have no tents, and suffer greatly.

The weather there is the coldest ever known. The thermometer has stood from 10 to 15 degrees below zero for several days, and the snow is six inches deep.

Our cavalry crossed the river on the ice and intercepted a rebel mail, the letters in which speak of an immediate advance of the rebel forces as far northward as possible.

☞ In the U. S. House of Representatives on Monday, Jan. 11, Fernando Wood offered a resolution of investigation and a string of censures in the form of a preamble,—one of which was as follows:—

Whereas it is apparent that general demoralization and incapacity prevail in the executive branch of the Government, &c.

The proposition was laid on the table on motion of Mr. Stevens of Pa. 77 to 68.

On motion of Mr. Fenton of N. Y. a resolution was adopted that the charges of official misconduct in the New York Custom House and the alleged shipment of contraband supplies be referred to the Committee on Public Expenditures.

Mr. Brownall of Pa. offered the following:

Whereas the burdens of the Government should be made to fall nearly as equal as possible in all parts of the country, and

Whereas the Southern portion has provided but little means and money towards the support of the Government, and

Whereas in every black man enlisted in the South, some man from the overburdened North will be exempt from the draft, and

Whereas the only way to effect this is to get the black man, therefore

It is duly declared to be the sense of this House that the Government should use strenuous efforts to procure those used as slaves in rebel territory by giving them full pay and bounty as to other soldiers, and guarantee them at once freedom on enlistment.

☞ In Connecticut, from returns received at the office of the Paymaster General of the State, it is shown that the quota of Connecticut, under the last call of the President, has been filled, and there is a surplus of 500. Meanwhile the 30th Connecticut regiment is being recruited, and enlistments both in the field and at home are progressing rapidly. The 8th and 11th Connecticut regiment have re-enlisted, and are on their way home on furloughs.

MUSICAL CONVENTION.—The Grand State Musical Convention which is to be holden in Concord, commencing Tuesday, Jan. 26, and continuing four days, will afford singers, teachers, choristers, and lovers of music, throughout the State, a rare opportunity for the study and practice of sacred music. This Grand Festival will be under the direction of Prof. L. O. Emerson, assisted by Mrs. Minnie Little, Vocalist, of Boston.

The exercises of the Convention will begin on Tuesday morning, Jan. 26, at 10 o'clock, in the new and beautiful Eagle Hall. Three Grand Concerts will be given on Wednesday, Thursday, and Friday evenings. Several of the sessions of the Convention will be holden in the Universalist Church, the use of which and its fine organ have been kindly tendered the Convention.

Arrangements for board free of charge or at a very moderate price, have been made. Members' Tickets to the Course, including Concerts—Ladies, 25 cts.; Gentlemen, 50 cents. Tickets to any single session, 15 cts. Concert Tickets, 25 cts.—Fare one way over the several railroads.—Mr. Emerson's new Church Music Book, the "Harp of Judah," with the "Opera Chorus Book," and the Oratorio of the "Messiah," will be furnished for the use of the Convention free of charge. All having the above are requested to bring them. No pains will be spared to make this gathering one of unusual interest and profit, and we are glad to learn that a good delegation from Portsmouth propose to attend.

☞ The Boston Courier says that the telegraphic account of a defeat of the Federal troops at Bean's Station, in East Tennessee, published Monday, was merely a new version of an old story. The letter in which the affair is reported is dated on the 13th ult., not the 28th. The latest rebel accounts from East Tennessee, dated Dec. 23, state that Longstreet was unable to follow up the Federal troops, as a large number of his men were without shoes. It appears, however, that the full extent of loss by the capture of our trains, near Cumberland Gap, was not stated in the first accounts. But no new defeat has happened there.

THE CHESAPEAKE PIRATES.—In the Admiralty Court at St. John, N. B., Jan. 9, in the Chesapeake case, Charles Walters testified that he attended a meeting in St. John. Captains Parker, Robinson, Seely, McKenny and others were present. Captain Parker said he wanted a crew to go to New York, and stated that he had a commission from the Confederate government, and witness understood the crew was to be engaged for the Confederate service. This closes the evidence for the prosecution, and the court adjourned until Monday.

On the same day in the examination of Almon, Keith and Smith, in the Police Court, Policeman Hutt testified that he showed Almon a warrant which he held in his left hand during the attempt to make the arrest. As soon as he saw Wade in the boat he made for him, and called to the boatman to stop, but the crowd shouted "go on." He then pointed a pistol and the boat begun to back, when Almon seized his (Hutt's) arm, and Keith tried to get possession of the pistol. Smith also seized hold of him. During the struggle the boat moved off. He (Hutt) said he did not intend to fire and was prevented from making the arrest through the interference of these three men.

The City Marshal testified that the warrant was issued by the Mayor and given to Hutt. He said he was present, and corroborated Hutt's statement. He said he also called to the boatman to stop, which they did until urged to go on by the crowd.

At Halifax, Monday night, the (Chesapeake) Wade rescue examination was continued and closed. Witnesses of defense were examined, but did not shake the evidence of the policemen. Dr. Almon, for Wade's champions, gave a lengthy defence, chiefly abuse of the American people. The prisoners were ordered to appear Wednesday and give bail.

— The wife of Stephen A. Douglas is engaged as a clerk in the Treasury Department at Washington.

— James Bgal, who pleaded guilty of attempting to take the life of a colored boy in Thomas street, New York, during the riots in July last, has been sentenced to two years' imprisonment.

— Mr. Sumner gave notice in the Senate on Thursday that on the first appearance of Senator Bayard upon the floor he should insist upon the adoption of the resolution requiring Senators to take the test oath of loyalty prescribed by Congress last session.

☞ The 59th and 66th N. Y. regiments arrived at New York City on Monday with about 150 men each, nearly all of whom reenlisted. The 20th regiment, United States colored troops, is full. The Loyal League at N. Y. is authorized to recruit another regiment.

☞ The Engineer and two firemen, captured from the Star of the West, have arrived in New York, having made their escape from the prison at Richmond. An ordinary suit of blue cloth, worn by the Engineer, cost him $1000 in rebel money at Richmond.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory of which DYSPEPSIA and LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive technicalities, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL and ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest respectability, and from invalids, can be seen at my office by all interested.

TRIBUTE TO ADMIRAL STORER.

IN COMMON COUNCIL.
Jan. 11, 1864.

The following resolutions were adopted and sent up for concurrence.

L. W. BREWSTER, Clerk.

IN BOARD OF ALDERMEN.
Jan. 11, 1864.

Passed in concurrence, and Ald. Shannon, Broughton and Wendell were empowered to carry the resolutions into effect.

MARCELLUS BUFFORD, Clerk.

CITY OF PORTSMOUTH.

Whereas, It has pleased Divine Providence to remove by death our distinguished and highly esteemed fellow citizen, Rear Admiral GEORGE W. STORER, of the United States Navy, therefore

Resolved, That we have received with deep regret the intelligence of the death of our distinguished townsman.

Resolved, That the long and valuable services of the deceased, his unswerving patriotism and devotion to his country, his undeviating integrity and his high Christian character, render this loss one of unusual severity to the city and the nation.

Resolved, That we most respectfully tender to the bereaved family of the deceased our most sincere sympathies in this their severe affliction.

Resolved, That the bells of the city be tolled and the flags displayed at half-mast on the day of the funeral; and that the City Government attend the funeral services in a body.

Resolved, That a copy of these resolutions be forwarded to the family of the deceased.

NOTICE.

All persons in the city having Flags are respectfully requested to display them at half-mast, this day (Wednesday), on the occasion of the Funeral of Rear Admiral GEORGE W. STORER.

Per order of the Committee.

CONFIDENCE GAME.—A tall sharper calling himself John E. alias E. G. Johnson, was brought before Police Justice Odell, on Monday, and committed to jail for trial, on charges of supplying himself without leave or pay, with a pair of new boots at J. C. Carr's; and obtaining money on false pretences, of various persons. It appears that he "lacked just two dollars" of money enough "to pay the freight on a lot of butter he had at the Eastern depot;" and so he borrowed that amount at *several* places, to make all sure! He so promptly repaid two small loans previously had of Mr. Wolcott, at Oxford's grocery, that Mr. W. lent him $10 on Monday evening, which said Johnson forgot to return.

He also borrowed the loan of a "couple of dollars," of Charley Carter at his saloon, to pay for that butter-freight at Jackson & Co.'s express. He accosted our good natured confectioner so familiarly, with "Carter, lend us two dollars, just to make out the express on a lot of butter I have in here at Jackson & Co.'s," that Mr. Carter, although suspicious all was not right, let him have the money; but sent a boy to follow him, who returned and said he *did* go into the express office. But it afterwards appeared that "Johnson" first asked Tripp, outside, who the expressman was inside, and then went in and asked Mr. "Jackson" to lend him that inevitable "two dollars, to make out the freight on that lot of butter at the depot." C. C. J. did so, and then saw the last of *that* 2-spot. Johnson also procured $4 of Mr. Lamprey, at F. W. Rogers & Co.'s, "for half an hour, and would pay him 20 per cent. interest," as he wanted to pay the aforesaid butter-freight. He also tried mine host of the Franklin House, Mr. Douglass of Bridge street, and others,—with what success we did not learn.

But he carried his game a little too far, and officers Joy and Johnson got on his track; and after hunting most of the night, finally found him in bed at Mr. Jordan's boarding house in Hanover street, and arrested him. He had stated when he came home that he had made $40 since supper, on some stuff he received in the train;" but only $15 could be found, which was in a wallet secreted between his beds. He was held for trial in $50 for stealing, and $100 for false pretences.

☞ The Lyceum Lecture of Tuesday evening, by Wendell Phillips, was one of his ablest, and was welcomed by the great lyceum audience of this successful year.

This same lecturer of unsurpassed eloquence will lecture at the Temple this evening, when those who did not hear him last evening for want of room, may get in, and others also—if they get tickets in season.—There is no need of asking a full house for him.

☞ Camilla Urso, the wonderful mistress of the Violin, with competent assistants, will give one of her fine Concerts at the Temple next Friday evening.

☞ The Brookings Brothers, of Newburyport, accomplished gentlemen and accomplished musicians, are to give a Concert in this city on Wednesday evening of next week, at the Temple.

☞ We are requested by the Committee of Arrangements to remind members of Mr. Davis' Singing School, that there will *not* be any meeting of his classes this week; but that a full rehearsal is to be held at the Temple at 2 o'clock on Wednesday, Jan. 20th, the day of the concert, which all members are requested to attend.

ROCKINGHAM COUNTY BIBLE SOCIETY. The exercises of the Annual Meeting, this day, Wednesday, Jan. 13, will commence at 11 A. M. in the vestry of the Unitarian Church, on Court street.

In the afternoon, at 2 o'clock, addresses in regard to the Bible-work in Turkey and Italy.

The sermon (instead of being in the evening) is to be at 3 o'clock P. M. by Rev. Dr. Peabody.

In the evening, there will be an address from the Rev. Mr. Butterfield, of Great Falls, upon the supply of the Army, the hospitals, the prisoners of war, the rebel army, and the contrabands, with the Word of God.

☞ We are assured by a gentleman who ought to know—that the remarks of our correspondent a few days since, respecting the Portland-built U. S. Steamer Agawam, were incorrect in many particulars—that she was built in all respects according to specifications and contract, in a thorough manner; that the alterations now being made, are either additions to the original design, or work reserved by agreement to be done at the Navy Yard, at the contractor's expense; that the Agawam is a good staunch, boat, but was strained a little in heavy weather during her cruise after the Chesapeake; and that the complaints of her are not made by those in authority, but are mere outside gossip, the result either of ignorance of the facts, or of jealousy towards a "foreign" built vessel.

Speaking of the Agawam, the Portland Advertiser of Monday says,—

We do not know anything in regard to the internal arrangements of the steamer. We presume she was built according to the contract. As for her sea-going qualities, a gentleman who was on board when she went in search of the Chesapeake, and who is eminently qualified to speak on the subject, says he never knew a vessel behave better than she did in the terrible storm she encountered. If there was any "selling" in the matter, it must have been by those who planned her and not by the builders.

☞ We are glad to learn that Mr. Charles Dann, of Dover, who jammed his foot in such a shocking manner a few weeks since at the Portsmouth Navy Yard, is rapidly recovering, after suffering the amputation of his leg just below the knee. Fears were entertained at one time that he would lose his life in consequence of mortification of the limb.

SEVEN HUNDRED VOLUNTEERS SICK IN CAMP.—Young men, be warned in time, supply yourselves with Holloway's Pills and Ointment. They are guaranteed to cure the worst cases of sores, ulcers, scurvy, fevers and bowel complaints. Only 25 cents per box or pot. 218

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and curdy dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the proper form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Pieces!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress in the stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of those complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.

B. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him also, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office." EDMUND BURKE,
Late Commissioner of Patents.

Mr. B. H Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. B. H. EDDY.

Morning Chronicle.

MORNING.

From rounded hills and dimpling vales
Night's shadowy shrouds unfold,
And the lonely star of morning pales,
And the mists are latticed in gold.

Soft breezes are breathing from the west
Over the spring corn,
And the ruby lips of the sun is prest
On the white brow of the morn.

The flowers shake off their dewy sleep,
And the petaled eyes unclose
With innocent looks on the calm blue deep
That curtains their repose.

From nestling homes, all leaf-embowered,
The birds pour matin songs,
And fields and river-banks are showered
With new-born incense throngs.

All things are glad at the wakening breath
That heralds the day,
When sleep, so nearly akin to death,
Fleeth upon its way.

The sweet forebodings of that waking
When under heavenly skies,
While the work of another life is breaking,
We shall open these dark-sealed eyes.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, Nos. 7 and 9 ENDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never yet since be first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beside his treatment, all the forms of venereal, and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of prostration, inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and limbs, Dizziness of the head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion of society, self-distrust, timidity, &c., are among the evils produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with full directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Thirty for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Endicott Street, Boston, is consulted daily for all diseases incident to the female system, Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppressions, and other menstrual derangements, are all treated upon new and philosophical principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted perceive soon relief in perfect health.

Dr. Dow has no doubt had greater experience in the cure of Consumption, Females and children, than any other physician in Boston.

Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1827, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 8 A. M. to 9 P. M.

CERTAIN CURE

In all cases, or No Charges Made.

Dr. Dow is consulted daily from 8 A. M. to 9 P. M. as above, upon all difficult and chronic diseases of every name and nature, having by his unwearied attention and great success, gained a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should call on Dr. Dow.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail, inclose two red stamps, and a stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and cut-iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR-WARMING

FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

PIANO-FORTES FOR SALE.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

GOLDEN SHEAF WHISKEY.

THE DISTINCTIVE FEATURES

OF

GOLDEN SHEAF WHISKEY

ARE

Pure Ingredients,
Careful Distillation,
Delicate Flavor,
Uniform Character.

IT CONTAINS IN A CONCENTRATED FORM THE DISTILLED JUICES

OF

WHEAT, RYE AND CORN,

free from all deleterious substances.

Possessing these qualities, it has become a standard article, and is highly recommended by Chemists, Physicians and Connoisseurs.

Golden Sheaf Whiskey

is the refined distillation of the most carefully selected Wheat, Rye and Corn, and combines NUTRITIVE, MEDICINAL and RECUPERATIVE properties which render it deservedly popular as

A Strictly Pure Stimulant.

This celebrated Whiskey is put up by the subscriber in cases, containing one dozen bottles each, and offered to the Trade by his Travelling Agents throughout the country, and also kept on hand in his warehouse in Boston, in barrels, half barrels and kegs.

Individuals desirous of procuring a pure, reliable article of BOURBON WHISKEY at a reasonable price, have only to inquire of any respectable Grocer or Druggist for "GOLDEN SHEAF WHISKEY," or send their orders for any quantity required to the General Depot for its sale,

SPEER'S SAMBUCI WINE.

PURE AND FOUR YEARS OLD,

OF CHOICE OPORTO FRUIT,

For Physicians' Use,

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE, OF PORTUGAL,

The Great Remedy for Kidney Affections, Rheumatism, Climatic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

As a DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and is admired for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

A few well known gentlemen and physicians who have tried the Wine.

The Chronicle.

"Boundless party—to sect confined;
The world our home; our brethren, all mankind.
Love truth; do good; live just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

☞ The Bath Times estimates that $3,000,000 in gold, have been paid for Bath ships sold since 1860;—and says "that of the registered tonnage owned in this Collection District at the close of the year 1860, and built since that period within this District more than fifty thousand tons have been sold, and how much more, cannot at present be readily determined, except by the original owners. A large percentage of these have been new and valuable ships—very old and worthless ones have not found a ready sale in Europe. If we should call it only fifty thousand tons at $60 per ton, we have a total of $3,000,000. Of course all the Bath ships have not yet been sold, for it appears we have over one hundred thousand tons still remaining.—Some people begin to croak now, that all the Bath ships are being sold off to foreigners. We "don't see it"—in precisely that light. There are some ship owners that won't sell their ships; they have faith to see the good time coming, "when this cruel war is over;" and are going to be all ready to step in and make their pile. They will do it; all honor to their patriotism and their keen foresight. Meanwhile, if those who merely build to sell, can supply all the world with Bath ships, bully for them; let them strike while the iron is hot. These ships being sold, can't come back when the war is over. Hundreds of our ships will be immediately demanded."

ONE OF LORD LYONS' PREDICTIONS.—An idea of the clear and unprejudiced manner in which Lord Lyons has regarded our struggle, may be formed from the following extract from a despatch from him to Earl Russell, written on the 18th of December, 1860, before secession had begun to develope itself openly:

"I am afraid very little moderation is to be expected from the people of the cotton-growing States. Great as is the real importance of their staple, their own notions of the influence it will secure to them have become so exaggerated as to be preposterous. They seem to think that the necessity of obtaining a sufficient supply of this commodity will oblige all Europe, and especially Great Britain, to treat with them on any terms which they may dictate. They talk of withholding their cotton as a means of coercion, forgetting that their own prosperity depends much more upon selling it, than that of the Northern States and of Europe can ever depend upon buying it. They do not choose to remember the lesson so often taught by experience, that stopping the supply of a commodity from the ordinary sources, results in stimulating and giving success to endeavors to produce it elsewhere, and to provide a substitute for it. In answer to all arguments they are apt to repeat their senseless cry that 'Cotton is King.'"

Does any one believe that, if the Democrats had carried Pennsylvania last October, and if they had 17 Senators to 16, and one of their Senators were a prisoner at Richmond, and the Senate thereby tied, so that it could not be organized, Mr. Jeff. Davis would refuse to exchange that Senator for one of his own officers, so as to let the Democrats organize the Senate and go ahead?

If any one *does* believe this, will he please to make it manifest.—*Exchange.*

THE REBELLION.

A Chattanooga dispatch of Jan. 12 says a heavy cavalry fight occurred near Strawberry Plains last Monday. The enemy were repulsed with serious loss. Longstreet has been heavily reinforced from Lee's and Johnston's armies. Forrest has been badly handled in West and Middle Tennessee, but has managed to escape with most of his command. The rebel army in our front has been largely increased by conscripts.—Johnston maintains a bold front at Laurel Hill. Gen. Grant has left Knoxville via Cumberland Gap, making a complete circ-

The news from Kanawha valley is encouraging. The river is frozen over and the heavy snows in the mountains prevent any military operation on either side in that direction.

In a late raid in Western Virginia, the rebels treated friends and foes alike, going into houses and taking whatever they pleased; they completely stripped the inhabitants of bed clothing. They also took cattle and corn wherever they found them.

There are said to be rebel iron clads in James river, and in Charleston Harbor.

Gen. Foster, of this department, having reached Knoxville via Chattanooga. The army is in good condition. We have plenty to eat. The weather is fearfully cold, but there is little sickness.

Washington letters report that the rebel capitol is to be removed from Richmond to Columbia, S. C.

The Times' Washington dispatch says Gen. Hancock has gone North to arrange in the several States where his corps was recruited, measures to increase its number by new enlistments to 50,000, the whole destined for special service. Gen. Burnside has authority to do the same.

☞ An intercepted rebel letter of Dec. 31, states that Longstreet's forces are with Lee, and that the latter has matured, and is about to consummate, a series of maneuvers, and bloody battles too. The writer says the day cannot be far off when we shall embrace each other in Maryland, in the old homestead, in Baltimore, beneath the victorious cross of the free and reorganized South

☞ At the County and Councillor Convention, held at Exeter, on Wednesday, Benj. Scribner, of Fremont, was nominated for County Treasurer, Hiram Smart, jr., of Plaistow, Register of Deeds, Caleb Moulton, of Hampstead, for County Commissioner, and John W. Noyes, of Chester, for Councillor.

— The National Democratic Committee have decided to hold their convention in Chicago on the 4th day of July next.

— Gold opened in New York, Wednesday morning, at 153 7-8. At one o'clock gold was quoted at 153 1-2.

— Chief Justice Taney is much better. He will resume his seat on the bench in a few days.

— There is much excitement in the Brooklyn Navy Yard. All the clerks decamped from the Engineers' department.—The books are now being overhauled.

— The N. Y. Times' Washington special says the Republican members of the Maine, Illinois and Indiana Legislatures will nominate Lincoln for the Presidency on the 22d inst.

— Michael O'Brien, a laborer upon the Webster and Southbridge railroad, was found dead in Webster last Monday. Cold weather and the contents of some bottles found empty near him, were the cause.

— The N. Y. Herald's Army of the Potomac dispatch says the commissaries are issuing undiminished rations, which proves that the army has not been depleted by furloughs.

— At Fort Snelling, Iowa, the mercury was fifty degrees below zero on the 2d instant. In Wisconsin, the mercury in the thermometer froze. Such intense cold had only been reached twice in that region since 1821.

—At Cincinnati, on Saturday night, two young girls named Hill and Johnson, took some live coals to their room in an iron vessel, on going to bed, for the purpose of warming the room. The next morning they were both found dead in bed, from the effects of the fumes of the charcoal.

☞ Messrs. Oakley & Tompson, Boston, (F. F. Oakley, and John G. Tompson, jr., the latter formerly of Portsmouth) have removed from 204 Washington street, to spacious Chambers in Simmons' Block, corner of Water and Congress streets, (over the Hide and Leather Bank) where they are prepared to execute orders for lithography in all its branches; also plate and card engraving and printing. They will, as heretofore, give particular attention to designing, engraving and printing labels, pattern and show cards of every description, for manufacturers and other purposes. With their increased facilities, they are prepared to execute this branch of work as well and as promptly as it can be done at any establishment in the United States.

BOSTON CORRESPONDENCE.

[From our Regular Correspondent.]

BOSTON, Jan. 11th, 1864.

Editor Chronicle:—A short trip to Concord last week resulted in a cold, and no letter from your correspondent. On visiting the "cattle pen," Tuesday, in a driving snow storm, I found Col. Stevens answering the many questions and demands of the newly arrived volunteers in a truly business like style. All the men have comfortable quarters, such as they will wish for many times ere they return from the wars. Gen. Hinks is an able and energetic officer, performing the duties of his office with strict impartiality. Capt. Durgin, of the 12th N. H., lately on duty at Concord, has been transferred to the Invalid Corps with the rank of 1st Lieut. Capt. Durgin was long known as "Elder Durgin," in Strafford Co., where he preached for many years. He was severely wounded at Chancellorsville, and has not fully recovered. Capts. Wallace and Clough, of Dover, arrived from the 4th N. H., on Tuesday, and on Wednesday were sent to Kentucky in charge of 300 recruits for the 6th N. H. Sergeants McIntire, Carr and Perkins arrived from the 3d N. H. at the same time: the latter is from Hampton. 5 companies of the 13th U. S. Invalid Corps are on duty at Concord. One company reported for duty Christmas from Wenham, Mass. 699 recruits were received at Concord in November last, and 1943 in December. Tuesday, Jan. 5th, the following commissions were made out for the 3d N. H. regiment: "Captains—H. S. Dow, Jonah Seibly, jr., Geo. Sterns, R. W. Houghton. 1st Lieuts.—W. H. Trickey, J. H. Edgerly, E. J. Button, R. W. Woodbury, S. N. Lamprey, J. M. Parker. 2d Lieuts.—C. A. White, J. H. Tredick, M. J. Connolly, Wm. L. Dodge, Wm. Davis, J. H. Hitchcock, D. W. Eldredge." One vacancy of Captain still remains, it being undecided whether S. M. Smith, formerly a Lieut. in the 3d, or 1st Lieut. David Wardsworth, jr., shall receive the position. Of the above list, 1st Lieut. Lamprey is from Exeter, 2d Lieut. John H. Tredick from Portsmouth, and Wm. L. Dodge from Hampton. Your correspondent from Port Royal once spoke of the soldierly appearance of Lieut. Tredick, while a sergeant, and he has now received a well-merited promotion.

In this city, 100 recruits were obtained during the week ending Jan. 2d, and 135 last week. The city had obtained 673 of its quota of 3350, up to yesterday.

Mr. George T. Bailey, of Malden, who was arrested on complaint of "Count Joannes," for the murder of young Converse, at the Malden Bank, was discharged last Wednesday, after an examination of 2 days He received quite an ovation from his fellow citizens. Much indignation has been expressed against Judge Warren, who issued the warrant on such insufficient evidence. No clue to the murderer has been discovered, but the detectives are as active as at first. Last Friday a well known gambling house in Howard street was searched, the managing director of the Bank having received an anonymous letter saying he would find some of the $100 bills there, that were lost by a gambler soon after the murder; but no bills on the Malden Bank were found in their pile of $10,000, a suspicious fact.

In the State Senate, last Thursday, Rev. A. A. Miner, of the School street church, (Universalist) was elected Chaplain. Rev. L. R. Grimes (colored) received 6 votes in a total of 38.

The loss by fires in Boston in 1863 was $94,000—insurance about $80,000. Expense of widening the streets in 1863, $10,358. 55 claims settled, and $4381.80 unsettled.

Gen. Rosecrans' official report of the battle of Chicamauga has just appeared, and is read with interest. The General expresses his opinion that the rebel loss exceeded ours. The following is the official report: "Union killed 1644, wounded 9262, missing 4945; total, 15,851. Rebel killed 2297, wounded 18,269, missing 1900; total, 19,479"—a loss of 3628 men more than ours,—a dear bought victory for the few advantages gained.

I am glad to see by the Chronicle tonight that the quota of Portsmouth is filled. Portsmouth should be credited for the many men she has sent into the Navy. Sometime since a resolution was presented in Congress to allow cities and towns to be credited on their quotas with naval enlistments, but it was voted down by the Western members. Those men who enter the navy are just as much in the service of their country as those who enter the army. In such a place as Portsmouth it is the general tendency of young men to enter the navy rather than the army, causing a large deficiency in the number of men of the class from which a draft must be made. The Representative from your District should not allow the subject to rest till Portsmouth receives credit for the many gallant sailors she has given for the defence of our government.

Reports from the last census show that 44,085 natives of New Hampshire are residents of Massachusetts. 43,031 natives of Maine, 18,532 of Vermont, and 13,326 of Rhode Island have also emigrated to the Old Bay State.

It is reported that Major Drew, of the 4th N. H., has been promoted to Lt. Col. of same Regt., and Capt. Sawyer, of Dover, to be Major. It was hoped by the many friends of Capt. Frank Towle, of Portsmouth, that he would be promoted to the latter position. He had strong recommendations from high officers in the Department of the South, but *rank* appears to have obtained the promotion.

The coming political contest in New Hampshire will be watched with much interest. The Democrats have nominated a strong man, but Gov. Gilmore has performed the duties of his office too well not to receive the deserved compliment of a re-election—and he will receive it. J. T. M.

☞ When Senator McDougal was sent to Congress from California, some of the papers called him a "Peace Democrat":—and the Boston Post raised a query as to what party was meant. On Monday last, he offered a joint resolution in relation to the French occupation of Mexico, which says that it is an act unfriendly to the United States; that it is the duty of this Government to demand the withdrawal of her armed force from the Mexican territory, and that unless the withdrawal shall take place prior to the 15th day of March next, it is the duty of this Government to declare war against France.

He aims then, it seems, to get France as a *warlike* ally of the rebels, to promote the empire of the latter,—and this is his kind of peace.

WASHINGTON ITEMS.—It is said Secretary Chase contemplates the issue of twenty bonds when the present series of five-twenties are exhausted, and that in order to meet the demands upon him for payment of veteran bounties he will resort to a loan, and continue the issue of 5 per cent. interest bearing notes.

The Times' correspondent says at least five Major Generals and over twenty Brigadiers will be restored to civil life by consent of the Senate.

It is believed that the House Committee on Elections will report against the cases of gentlemen claiming seats from East Virginia.

☞ On Tuesday, Jan. 12, the U. S. Senate concurred with the House in the passage of the joint resolution authorizing the continuel payment of bounties. The resolution provides that "the bounties heretofore paid under the regulation and order of the War Department, to men enlisted in the regular or volunteer forces for three years or during the war, shall continue to be paid from the 5th of January, 1864, till the 1st of March next, anything in the act approved Dec. 23, 1863, to the contrary notwithstanding; this resolution to be in force from and after its passage." The bill passed the Senate in the precise form in which it left the House, and therefore only waited the President's signature to become a law—which it now is.

NORTH CAROLINA.—Advices from Newbern Jan. 7, states that the 2d regiment of North Carolina Union Volunteers is rapidly organizing.

Perry Carter, a prominent Unionist and influential citizen of Murfreesborough, N. C., was arrested a few days ago by Confederated soldiers and sent to Weldon, charged with treasonable correspondence. So great was the indignation excited by this outrage, that Mr. Carter was immediately released and returned home.

While the various rebel commands near our lines are fast being depleted by desertion, it is a remarkable fact that the First Loyal North Carolinia regiment has so far lost but one man by desertion, and the Second regiment not one.

The 1st of January was celebrated by the colored people of Eastern North Carolina at Beaufort. An oration was delivered by A. H. Galloway, and resolutions were passed in favor of negro suffrage in the reorganization of the State Government in North Carolina.

— There are two kinds of family jars: into one you put your sweet meat, and into the other you put—your foot.

☞ All the rebel prisoners in our hands are to be sent to Gen. Butler's department; and the Traveller says he is to experiment on them in these ways:—first, select from the 28,000 a certain number whom he will turn into some open place, of course under proper guard, where, without shelter of any kind, they will have an opportunity to acquire the experience with which our prisoners on Belle Island have been so long familiar. It is believed also that all the rebels will be deprived of coffee, with which they have been heretofore supplied; and should the Richmond authorities persist in dealing out insufficient food to the Union soldiers in their hands, Gen. Butler will without doubt diminish the rations of all the prisoners placed under his control.

☞ The Potomac is completely ice-bound—the first time in seven years. A large number of vessels are frozen in between Alexandria and Aquia Creek, and a large fleet is detained at anchor further below. The ice is some places is several inches thick. Provisions and supplies for the Potomac flotilla have to be sent via Baltimore, as communication between the Washington navy yard and the flotilla by river is impossible. Several gunboats, sheathed with heavy iron, despatched from the yard with supplies, have been unable to get through the ice, and put back for repairs. The ice dealers in Washington, for the first time in their lives, are filling their cellars from the Potomac.

—— Capt. Edward M. Emerson, of Nashua, has been made Chief Commissary of Gen. Dana's Corps, now on the Rio Grande.

—— Daniel George, Esq., an enterprising citizen of Sunapee, on Monday, the 4th inst., descended to the wheel pit of his grist mill, with his son, to remove the ice, and while there received a fall which rendered him insensible. He died a short time after, probably from internal injuries.

☞ It is reported from Memphis that two high rebel officers offer to sell all the Confederate cotton, take greenbacks for pay, and give the money to such officers as are not pardoned by the Amnesty;—these officers to retire to Mexico! The St. Louis Republican seems pleased with the scheme: but it is easy to see what the rats wish to do by going to Mexico,—viz: to be perpetual enemies on our border. Still, the offer is encouraging. Let our people, our government, our army press forward, finish the work, and give us peace by breaking down the cause of the war.

☞ The N. O. Pic. acknowledges among its New Year's presents a ripe watermelon grown in the open air in Jefferson City.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.

—The basis of this truly wonderful preparation, now of such well-earned celebrity, is a freedom from every component calculated to debilitate, and by such to allow the greatest freedom of use, day or night, as the only true theory by which BRONCHIAL AND LUNG COMPLAINTS can be effectually cured. To prevent asking attention to long stories of great cures, and to long descriptive testimonials, I would ask confidence which will be sacred, in COLDS, COUGHS, HOARSENESS, SORE THROAT, BRONCHIAL AND ASTHMATIC COMPLAINTS, to all THROAT and LUNG COMPLAINTS, which, when neglected, end in CONSUMPTION. Testimonials from Physicians of the highest responsibility, and from invalids, can be seen at my office by all interested.

Probate Advertisements.

The language of the law relating to the publication of Probate Notices is:

"The party required to publish any notice ordered by the Judge of Probate to be given in a newspaper, may *select* the paper therefor."

Will our subscribers remember this, and when they have occasion to do business at the Probate Office, if agreeable, request that their notices may be ordered for the Chronicle or the Gazette; otherwise a different paper may be selected.

Our terms are as low as those of any other paper.

☞ The *Domestic Dyes* prepared by Geo. H. Reed & Co. offer the simplest and most perfect means of dyeing household apparel ever presented the public. PRICES.—The following, from the Bath Times, we adopt and fully endorse; and will merely add, that because a man has had a newspaper for ten years for half its real cost in money and wear and tear, is no reason so far as we can see, that he should expect it in the future for one quarter of the same. And any set of customers of any sort, who won't pay a fair price for goods, (paper or what not,) and don't pay when you want the money, are not worth having. We rejoice to say that *our* lists of patrons were never so good as now—and that a long row of them are credited on our books to 1865; while to the few who can't (won't) stand the pressure of our necessarily increased prices, we cheerfully bid adieu.

[From the Bath Times.]

Sometimes a person comes into our office and says: "If you will let me have your paper at the price I have been paying, I will continue to take it." When we reply: "We cannot," then he remarks: "You must recollect I have always taken it." Very well; thank you; you have always got your money's worth and more too. Now we cannot go into a grocery store and say: "We will buy some sugar, or tea or flour, if you will sell at prices which you did a year ago; you know we have always traded with you." "No, sir," the trader will reply; "cannot do it; glad to have custom, but our goods cost us more now, and we cannot pay our expenses at former rates."

Now if the argument will not cause the grocer to sell his goods at former rates, no more should it the printer. These persons expect to pay increased prices for provisions; why should they not for the newspaper, when the blank paper costs twice what it did a year and a half ago, and telegraphic dispatches are 30 per cent. higher?

SONS OF TEMPERANCE.—*Messrs. Editors*:—The Portsmouth Division Sons of Temperance, by a delegation, proceeded to Dover last Thursday, for the purpose of attending the Divison there. At two o'clock we found ourselves in an omnibus-sleigh, drawn by four horses, gliding over the frosted ground. Passing many a beautiful spot, and through Greenland, &c., we soon found ourselves in the town of Newmarket, where we stopped awhile, and found refreshments handy. Again we started, up hill and down,—singing, laughing, joking, &c., we passed away the time, till at last our team stopped at the American House, in Dover, where we "stopped." After waiting there about half an hour, we proceeded to the Hall of the Union Division, and, as we entered, our eyes fell upon an anchor, with the word "Hope" inscribed underneath; and all around that large and splendid Hall were mottoes too numerous to name,—but all we saw and heard taught us that the members of this Division are striving to save the intemperate.

After being called to order, and transacting their business, we had the pleasure of seeing the officers installed for the ensuing quarter, under the managemebt of G. W. P. Earle of Dover, and G. C. Hatch of Portsmouth. The officers appeared to us as true and faithful men for the cause of Temperance.

After the installation, we were invited to sit down at a well-filled table where we could *work* for ourselves in a faithful manner (as we did) after a long and tedious ride. Then we again found our way to the Hall, where we listened to remarks, singing declamations, &c. which were performed to suit every one.

And here let me say that the Union Division at Dover are doing a glorious work; we were greatly surprised to see them in such a prosperous condition. This being their first anniversary, they looked back to see what good they had done; they now number 270 members. I ask if this is not encouraging? Certainly it is: and if they do as well in the year to come, they will be numbered among the foremost Divisions of the State. Some of their members were but recently following drunkards' lives, but now stand numbered among the true and temperate. Shall not this Division be supported? Yes, and long may they live and grow; may those who now drink of the poisonous cup arise and join this noble order. The people of Dover ought to be proud of such a glorious institution, where their fathers, brothers, sons, husbands, wives, sisters and daughters can be saved from a drunkard's grave.

I must not pass without saying a word in regard to our Division here in Portsmouth. While other Divisions can rejoice at their great success, we can do the same. Never has our Division been in such a prosperous condition since I became a member. We are trying to do our duty for the caused of Temperance, and I rejoice to say that 27 asked for admission in one night.

At half past 12 we left the city of Dover for our homes, arriving here at 5 o'clock in spite of Jack Frost, who stood without.

I am yours, H.

☞ We mentioned the other day that Rev. Mr. Patterson, of this city, attended 80 funerals in 1863. We now add, as a counterpart, that the same gentleman also solemnized 42 marriages in the year 1863.

☞ See advertisment of Mr. Davis' Singing School Concert next week, for additional attractions and particulars.

☞ The funeral of Admiral Storer, which was attended on Wednesday, at noon, was private and civil, without military pomp, in strict accordance with the known preference of the deceased. It was attended, however, by the officers of the Army and Navy, by the City Government, and by many citizens, as mourners; who thus expressed their respect and veneration for one of our most quiet and unobtrusive citizens, and one of the most trusty and faithful officers of the Navy.

The religious services at the Stone Church, consisted of appropriate and excellent music by the choir and organ, select scriptures read by Rev. Mr. DeNormandie, and prayer and eulogy by Rev. Dr. Peabody.

An honorable officer, a worthy man, and a beloved husband, parent and friend has thus gone to his rest in the ripeness of age, and the fulness of honors.

☞ Before W. H. Y. Hackett, United States Commissioner, the hearing of the complaint against Joseph Perkins, Paul Perkins, Joseph Dearborn and Barker Wiggin, was resumed at the Commissioner's room in the United States Court House in this city on Wednesday, 6th, and concluded Friday morning. The respondents, it will be recollected, were prosecuted for resisting the draft and counselling drafted men not to report, &c. The first three men were held for trial, and ordered to recognize in $600 each. Nol. pros as to Mr. Wiggin. Hatch & Webster for respondents, Rand U. S. Att'y for Government.

☞ At New Castle on Tuesday night, the drinking shop of a man said to be a foreigner, was entered by a number of persons, who amused themselves by smashing barrels, bottles and jugs, doors, windows and fixtures, till every destructible thing on the premises was a mingled mass of ruins. We have not learnt the name of the actors or the sufferer;—but we presume nobody but the owner will suffer much by the loss of R. G.

☞ It is now officially stated that the U. S. ship New Hampshire, (late Alabama) will be launched from Portsmouth Navy Yard, on Saturday Jan. 23d at 11 o'clock—provided always, this order be not countermanded again.

☞ The Concert by the Brookings Brothers quartet club, at the Temple, it will be seen is advertised for Monday evening next, and not Wednesday, as our notice of yesterday had it. These gentlemen are considered among the best singers in Newburyport, and will, without doubt, give a very agreeable entertainment.

☞ Wives, mothers and sisters, whose husbands, sons and brothers are serving in the army, can not put into their knapsack a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment.—They insure health even under the exposures of a soldier's life. Only 25 cents a box or pot.

GRACE, 'TIS A CHARMING—not *sound* but *Naise*. We refer to *Grace's celebrated Salve*, an invention of the 17th century, and the famous domestic remedy of the 19th. The good old Dr. Grace, of King James's time, could he rise from his grave, would rejoice to see the blessings his wonderful Salve has conferred on humanity. It cures burns, scalds, flesh wounds, old ulcers, abscesses, saltrheum, ring worms, felons and all skin diseases. Every one is now keeping it by them. 25 cents a box only.

THE BELLEVUE STEREOSCOPE.—Now that the holidays are over—if any of our readers have not been so fortunate as to receive one of these beautiful Stereoscopes as a present—we advise them to be generous and make themselves a present of one—for certainly in all the range of interesting things which we have seen, we have seldom met with anything more captivating. In the landscape, every rock and tree seems as if actually before your eye, and in the case of statuary or parlor groups, the statue or individual is there not as a picture but as a matter of fact. Indeed every view is one of surpassing beauty. The Stereoscope is sold for $2; sent by mail for 2.40. Pictures in great variety at 25 cents each. C. H. Wheeler & Co., 5 and 7 Essex street, Boston, are the proprietors.—Trade supplied.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another columns, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fire is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Back and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

RYE, N.H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years and that she was so badly as to prevent her labor, or even rest at times; she was in great pain for several years. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since. I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress in my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWEETS PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with profuse bleeding, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISAAC CHESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (until the *4th of Mar.* 1861.)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments and all Papers for Securing Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to ascertain the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him also, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending, such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

MARKET STREET,

PORTSMOUTH.

IMPORTANT TO THE AFFLICTED.

DR. DOW continues to be consulted at his office, No. 7 and 9 EDICOTT STREET, Boston, on all diseases of a

PRIVATE OR DELICATE NATURE.

By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of

GONORRHŒA AND SYPHILIS.

Beneath his treatment, all the horrors of venereal and impure blood, Impotency, Scrotula, Gonorrhœa, Ulcers, pain and distress in the regions of procreation, Inflammation of the Bladder and Kidneys, Hydrocele, Abscesses, Humors, frightful Swellings, and the long train of horrible symptoms attending this class of disease, are made to become as harmless as the simplest ailings of a child.

SEMINAL WEAKNESS.

Dr D. devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Some of the sad and melancholy effects produced by early habits of youth, are Weakness of the Back and Limbs, Dizziness of the Head, Dimness of sight, Palpitation of the heart, Dyspepsia, Nervousness, Derangement of the digestive functions, Symptoms of Consumption, &c. The fearful effects on the mind are much to be dreaded; loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c., are among the ills produced. Such persons should, before contemplating matrimony, consult a physician of experience, and be at once restored to health and happiness.

Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.

Medicines sent to all parts of the country, with all directions for use, on receiving description of your cases. Dr. Dow has also for sale the French Capotins, warranted the best preventive. Under by mail. Three for $1 and a red stamp.

Highly Important!

To Females in Delicate Health.

DR. DOW, Physician and Surgeon, No 7 & 9 Edicott Street, Boston, is consulted daily for all diseases incident to the female system. Prolapsus Uteri, or falling of the Womb, Fluor Albus, Suppression, and other menstrual derangements, are treated upon new pathological principles, and speedy relief guaranteed in a few days. So invariably certain is the new mode of treatment, that most obstinate complaints yield under it, and the afflicted person soon rejoices in perfect health.

Dr. Dow has no doubt, had greater experience in the cure of diseases of women and children, than any other physician in Boston. He has Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment.

Dr. Dow, since 1845, having confined his whole attention to an office practice, for the cure of Private Diseases and Female Complaints, enjoys advantages no superior in the United States.

N. B.—All letters must contain four red stamps, or they will not be answered.

Office Hours from 9 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Dr. Dow is consulted daily, from 9 A. M. to 9 P. M. as above, upon all diseases and chronic diseases of every name and nature, having by his unwearied attention and extraordinary success confined a reputation which calls patients from all parts of the country to obtain advice.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street, Boston. Those who need the services of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

THE MAGEE COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the

CELEBRATED AND UNEQUALLED

MAGEE COOK STOVE,

as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.

There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.

The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.

For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.

We would refer to the following purchasers:

"MAGEE'S PATENT"

VENTILATING & AIR WARMING FURNACES.

The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would invite those about remodelling or erecting buildings to examine this truly valuable invention.

For economy, purity of air and ease of management it has no equal; producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other furnaces, is entirely obviated.

The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.

To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the

MAGEE FURNACE.

The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the best in the fuel.

No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the best generated, making the chimney the hottest part of your dwelling.

This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.

These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.

For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.

They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world, and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles A. Mendum,
Henry F. Wendell,	John Sise, and others.

CALENDAR CLOCKS.

These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.

Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.

Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

For Physicians' Use.

FEMALES, WEAKLY PERSONS, INVALIDS

SAMBUCUS TREE OF PORTUGAL.

The Great Remedy for Nervous Affections, Rheumatism, Chronic Complaints

Excellent Wine for Females.

Every Family should use the SAMBUCI WINE celebrated in Europe for its medicinal and beneficial qualities as a gentle Stimulant, Tonic, Diuretic and Sudorific, highly esteemed by eminent physicians, used in European and American Hospitals, and by some of the first families in Europe and America.

AS A DIURETIC, it imparts a healthy action to the Glands and Kidneys, and Urinary Organs very beneficial in Dropsy, Gout and Rheumatic Affections.

SPEER'S SAMBUCI WINE is not a mixture or manufactured article, but is pure from the juice of the Portugal Sambucus, cultivated in New Jersey, recommended by Chemists and Physicians as possessing medical properties superior to any other Wines in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefitting ladies and children.

A LADIES' WINE, because it will not intoxicate as other wines, as it contains no mixture of spirits or other liquors, and admirable for its rich peculiar flavor and nutritive properties, imparting a healthy tone to the digestive organs, and a blooming, soft and healthy skin and complexion.

"Bounds no party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

☞ For the first two days of this month, in New Orleans, the weather made a violent effort to manufacture creole ice, and with some success. In tubs and still places the ice was formed to the thickness of an inch, and from the drippings of cisterns icicles gathered and grew into magnificent pendants, rivaling in their hues and purity the brightest of diamonds. Altogether the spectacle was a rare one for sunny Louisiana. We have been unable from our files to discover the exact degree of cold experienced there, but on New Year's day the thermometer did not get higher than 23° above, in sunny places.

—"So you are going to teach school?" said a young lady to her maiden aunt. "Well, for my part, sooner than do that, I would marry a widower with nine children." "I would prefer that myself," was the quiet reply, "but where is the widower?"

A BOSTON MUTUAL ADMIRATION COTERIE.— The following, from the Boston correspondence of the Springfield Republican, is eminently characteristic of the "Hub of the Universe:"—

An entertainment delightfully Bostonian is regaling the *creme de la creme* this winter. A women of genius invites her choicest friends to assemble in her parlor for six successive Wednesday evenings, and listen to some remarks upon social ethics. Every guest goes, Cambridge professors, poetry, learning, art. At her appointed hour the lady enters, and reads an essay of her own production; the philosophers say it is poetry, the theologians, it is religion. She has the finest mind of any American woman, exclaims a Cambridge professor.

☞ There are several important cases at the suit of underwriters pending before the federal courts, against masters of vessels for attempted frauds on insurance companies, by destroying their ships. The New York Herald says: the underwriters, who have associated to suppress these crimes, have in course of prosecution the captain of the ship Senator, on a charge of scuttling that vessel when freighted with food from New York for the poor of Ireland.

"TIME WORKS WONDERS" in American politics, and one of the most remarkable changes of modern days is that of the unterrified democracy of New Hampshire, which now defends banking institutions and other chartered corporations. The coppers heads of the Granite State, at their late convention, among other grounds of complaint against the administration, charged it with being "bank-destroying." These men have hitherto claimed to be especial admirers of "Old Hickory," and have passed nearly the whole of their political lives in denouncing corporate monopolies.—*Boston Trans.*

— There have been a great many astute speculations respecting the hole through which John Morgan escaped from the Ohio Penitentiary. Prentice says that the message of Gov. Tod puts an end to the vexed question. His Excellency announced that Morgan escaped *through a misunderstanding!* This is official, and so of course correct.

— An exchange truthfully says: "You may insert a thousand excellent things in a newspaper, and never a word of approbation from the readers; but just let a paragraph slip in, even by accident, of one or two lines not suited to their taste, and you will be sure to hear from it."

☞ Some colored troops belonging to a Rhode Island heavy artillery battalion, recently arrived in New Orleans, have already been the cause of considerable excitement, all the police that could be spared being wholly unable to control them, and white soldiers had to be sent for to quell them.

— Horace Mann very beautifully remarked that a brother's tender relation to a sister was designed by Heaven as a preparation and a prophecy of that holier relation for which one shall forsake father and mother, and brother and sister.

— There are not emigrant ships enough on the other side to bring the thousands over who are waiting to come to this country. It is said that the boarding houses in Liverpool are full of people waiting for passage to the United States.

FRIDAY, JANUARY 15, 1864.

THE REBELLION.

An Alexandria paper says that a number of guerrillas made their appearance in the neighborhood of Woodlawn, Monday forenoon, and captured two citizens and four horses. Four members of the Accotink home guards, and four members of the 1st Michigan started in pursuit, overtook the guerrillas, recaptured the two citizens and four horses that had been taken, besides one of the guerrillas, and six horses belonging to them, with all their accoutrements. They afterwards chased the guerrillas who escaped, some three miles through the woods.

A Cairo dispatch of Jan. 13, says, over 3500 refugees from various parts of the South have passed through Cairo since July, last, 3000 of whom have received pecuniary aid from the U. S. sanitary agent here.—Six thousand dollars have been thus applied from funds specially contributed by the people for the purpose. Persons wishing to contribute to this noble charity can address N. E. Chapman, U. S. Sanitary Agent, Cairo, Illinois.

The World's Chattanooga letter intimates that our cavalry will soon make a raid to Montgomery, Ala.

A special dispatch to the Tribune from the Army of the Potomac, 13th inst., says nothing important is stirring.

The North Carolina troops in the rebel army have been sent back to Orange Court House and are not allowed to do picket duty on the Rapidan.

The sales of property for taxes in insurrectionary districts of Virginia will be continued on the 20th inst.

A Washington letter says the rebel government has declined to assent to a scheme to make the wealthy turn their silver plate and jewels into the treasury.

The rebel prisoners at Johnson's Island are said to be restless and attempt to be insubordinate.

Near Wilmington, N. C., last Sunday, U. S. gunboat Iron Age got ashore and the rebel batteries fired on her.

THE CHESAPEAKE PIRACY.—At Halifax, Jan. 13, in the Admiralty Court, Judge Stewart, C. B., gave a written statement of his view. Referring to the possibility of a plea being submitted in behalf of the Confederates, he said:

But am I, sitting as Judge of a Court of Admiralty and representing Her Majesty in it, to sustain the plea of men who have violated her proclamation of neutrality, offered an affront to her dignity, or who have grossly, wilfully and steadily violated her territory, and sold goods therein; who have with revolvers and lawless force violently resisted the officers seeking to execute a process of her magistrates, and who are at this moment fugitives from justice?

After some conversation with counsel his Lordship stated to the Court that under the facts before him, unless altered by evidence, he would treat the case as piracy throughout.

☞ The Tribune Almanac and Political Register for 1864 is well stored, as usual, with political statistics, very convenient for every editor, politician and business man.

☞ Rev. Mr. Atwell, late pastor of the Universalist Church in Newburyport, has formally dissolved his connexion with that denomination, purposing to become a member of the Episcopal Church, perhaps a minister thereof.

☞ Mr. Harris, of Maryland, who died of small pox at Baltimore on Monday, is said to have been the only avowed Secessionist in Congress. But every man who contends that each State is *Sovereign*, and that the United States government is not, really lays the foundation on which secession and other absurdities are built.

☞ Peter Sinclair, whose visit to this country some years since as a temperance lecturer from England, will be remembered by many of our readers, has once more arrived on our shores, bearing letters of commendation from some of the truest and best friends of the American cause in Great Britain.

☞ An anonymous dispatch from New York to the Boston papers, says that Samuel Sears, merchant and native of Massachusetts, died on Tuesday, from congestion of the lungs, induced by the administration of laughing gas, for the purpose of extracting a tooth.

☞ A Government agent named Bonham was recently fleeced of the sum $3000 by certain gamblers in St. Louis, whereupon Gen. Fiske seized all the gambling houses in the city and ordered the furniture and effects to be sold at auction. A compromise was finally effected, the money lost by Bonham was refunded, and the property seized was restored to its owners.

☞ Gen. Magruder is much troubled for the safety of the slaves in Texas. In a proclamation to the slaveholders in that region, he tells them that Gen. Banks' army has brought arms or from five to ten thousand slaves, to be mustered into the service; and he exhorts the planters to move back all the able-bodied slaves from the seacoast and the rivers, to fifty miles in the interior. He tells them it is better to make a partial than a total loss.

☞ A letter writer from Chattanooga, gives the Philadelphia Press several items of news from the rebel States, and says of the people in the confederacy,—

There is a general desire for peace, and were it left to the will of the people, it becomes more and more evident that the war would soon end. But they have no hope that hostilities will cease until the coming Presidential election at the North, when, hoping that the anti-Republican party will elect a peace candidate, and, according to pledge, and to have been made to the rebel government, they (the anti-Republicans of the North) would inaugurate a policy tending to the acknowledgement of the independence of the Confederate States.—Vallandigham is said to have pledged himself and the future influence of his party to this effect. This seems to be their greatest hope, and one of the principal reasons why the rebel leaders persist in their present course.

☞ A Cairo dispatch contains an account of a daring robbery which was perpetrated in the cars between that place and Centralia, on the night of the 6th inst.—The particulars are given as follows:—

"A large number of recruits were on the train en route from Camp Yates to Vicksburg. They were known to have a considerable amount of money in their possession, and it appears that three men, who had enlisted and started with the rest, conceived the design of robbing their comrades. To accomplish this they procured a quantity of whisky, which they drugged and placed in bottles and canteens. After the train had left Centralia, these men entered one of the cars which was filled with soldiers, and distributed the liquor. The night being quite cold, the soldiers drank freely, and it was but a short time before every man of them, including the guards, fell into a state of unconsciousness.

The villains then extinguished the lights, and proceeded to rob their victims of all their money and valuables. They took $150 in money, a gold watch, and a revolver from one man, who died from the effects of the drug taken in the liquor. About $9,000 was taken from the soldiers, who awoke from unconsciousness to find that they had been robbed.

The scoundrels who committed the robbery got off the train immediately after, somewhere between Cairo and Centralia. I did not learn their names, but suppose all three are known. One was formerly a mate on a lake steamer, another the son of a prominent and wealthy citizen of Chicago."

AGITATION IN ITALY.—The N. Y. Post says, late news by private letter and otherwise, from Italy, gives information of an intended agitation on the Venetian question. Garibaldi has issued a proclamation from Capreera, urging the people to be faithful to the leadership of Victor Emmanuel. The Italian army is permeated with the idea of a speedy war for the deliverance of Venice. During the past winter the opening of the spring of 1864 has been looked to as the signal for the beginning of a final effort to make Italy free in fact as well as in name, and the next few months may bring as the most exciting news from Venice and Rome.

NEW JERSEY.—The Message of Gov. Parker discusses the question of pacification. He says the war should be prosecuted by all constitutional means to destroy the power of the rebellion, and for the re-establishment of national authority over the whole country. He disapproves of the plan of the President's Amnesty Proclamation, arguing for conciliatory measures and a restoration of State governments as they existed before the rebellion. He also disapproves of the Emancipation Proclamation, as an obstacle in the way of peace. The war should be prolonged no longer than is necessary to effect its legitimate objects. The Governor argues at length that the old Union and old Constitution alone are its legitimate objects.

HINTS FOR THE SEASON.—We are requested to call attention to the importance of persons having a care as to putting cold bits into a horse's mouth at this season.—Every body knows the effect of putting the tongue on cold iron in the winter, and we know not why it may not be just as bad to put cold bits into a horse's mouth; we can but regard it as great cruelty to do it. If people don't believe it, let them try the experiment on themselves, and see how they like it. One person suggests to breathe on the bits till the frost is completely out; but another suggests, and we think it is a better way, to cover the bits with leather. We throw out the hint, hoping some who have not thought of the subject will take heed thereto.—*Bath Times.*

Many years ago it was our custom to take the beadstall into the kitchen over night, when we were to ride early in the morning;—and when at any other time the bits were very cold, to hold them in the hand, with a mitten, or carry them to the fire for a few minutes. And when haste was required, to rub the bits smartly with a woolen rag, mitten or brush. A frosty bit should not be put into the mouth of a horse. O. K.

PAY FOR THE HERALD IN ADVANCE.—Persons who pay for the Herald for 1864, during the month of January, are considered as paying in advance, and we allow a discount to such of ten per cent. The price of the Herald is five dollars a year; and those who pay for it in January will save the discount for the year on that; but unless the times change before July, by which paper, type material, and labor shall be at less cost, we shall then have to advance the price of the Herald. It is now one dollar less than the cheapest daily paper in the State, and our subscriptions scarcely pay for the white paper we use.—*Newburyport Herald.*

—Women can keep a secret; but it generally takes a good many of them to do it.

— Gen. Gantt, of Arkansas, wrote to a meeting assembled in Cincinnati on Thursday last, that in "four months Arkansas will resume her relations with the national government, under a constitution excluding forever negro slavery from her soil."

— A clergyman, travelling in California, encountered a panther, of which he subsequently wrote as follows: "I looked at him long enough to note his brown and glossy coat, his big glaring eyes, his broad and well-developed muzzle, and his capacious jaws, when both of us left the spot, and I am pleased to add, in opposite directions."

— "Did he not make several visits after the patient was out of danger?" was the question of a lawyer in cross examination of a witness called to prove a doctor's bill, in one of our courts a few days ago. "No, replied the witness, "I thought the patient was in danger as long as he continued his visits."

— In Indiana, about thirty miles south of the Michigan State line, a German family consisting of seven persons, were frozen to death during the recent severe storm at the West. Their house was burned to the ground, and the inmates, thus turned out into the deep snow, wandered a short distance, and finally perished.

—The number of common schools in Pennsylvania, not including Philadelphia, is 12,161. The whole attendance of pupils, including that city, is 708,453, and the total cost of the system, $2,888,199. There were last year 717 less male teachers and 739 more female teachers than the year previous, owing to the war.

LUNSFORD LANE; or Another Helper from North Carolina.—This work is a volume of 304 pages, written by the Rev. William G. Hawkins, A. M., son of John Hawkins the Washingtonian, and the author of the "Life of Hawkins." It is published by Crosby & Nichols, Boston, in their usual good style, and has a portrait of Lunsford Lane as a frontispiece.

The author is a Southerner by birth, and knows the location where Lane lived. Lane himself tells his interesting story very well;—and the author of the book has had the good sense to preserve and arrange the facts and documents in a good readable shape.

The story is not one of the horribles;—but is a fair picture of chattel slavery in one of its mildest forms, and under the most favorable circumstances. It is commended to the purchase and careful perusal of every candid man. It cannot be read in that manner without benefit. U. T.

☞ In Boscawen, N. H., on Saturday last, Mr. James H. Marsh was felling a tree, when a branch broke and falling on his head cut it open from the top to the chin. The unfortunate man bled to death in a few moments. Mr. Marsh was a steady, industrious man, and was 63 years old. He leaves a wife and five children, who were supported by his labor.

☞ A letter from New Iberia, La., under date of 30th ult., says:—

About two weeks since, Maj. Gen. Taylor, commanding the rebels in Western Louisiana, sent a communication to Gen. Franklin, of our army, in relation to the exchange of prisoners captured by their forces. The reason for this request was the inability of the rebel authorities to properly provide for our men. The terms of the cartel were satisfactory to both parties, and were immediately signed. Several days ago the prisoners thus exchanged, numbering in all about seven hundred, returned to New Iberia, having traversed on foot the entire distance from Natchitoches, on the Red river.

☞ A correspondent of the Traveller states that two companies of the 2d Battalion Mass. Cavalry have been transferred from Beaufort to Hilton Head. Re-enlistments are the order of the day among the troops. Whole regiments have volunteered, including the 6th Maine. The freedmen of the department are very prosperous, and are buying up condemned government horses at the rate of $75 to $140 each.

Hon. J. H. Butler, of Nottingham, one of the most enterprising citizens, largely engaged for years in the wood and timber trade, has purchased the Sherburne Blake farm in Raymond, and intends to reside on it.—*Ballot.*

TOWN AND HOLBROOK'S PROGRESSIVE SERIES OF SCHOOL BOOKS.—Teachers and School Committees desirous of obtaining the *best* books for the use of their Schools, before making a change, would do well to wait and examine the *improved* edition of the Progressive Series, compiled by Salem Town, LL. D., and Nelson M. Holbrook, A. M.

The lower numbers of the Series, we learn, will soon be issued from *new* electrotyped plates, with many *new* and beautiful illustrations; but no changes will be made in the text to prevent their use with the old editions.

A *new* number, entitled "The Progressive Intermediate Reader"—a sequel to the Second Reader—has just been added to the series, for the purpose of furnishing additional reading matter for Primary and Intermediate classes in graded schools. It has been prepared on the same general plan of the other numbers of the series,—a plan which bears the *test* of the school room, as the best teachers in every part of our country have uniformly testified.

To the Fourth number of the series, fifty-two pages of very choice selections have been added; and, so far as we are acquainted, no similar work now embraces so great a variety of *rhetorical* exercises, which are so *well adapted* to the grade of scholars for whom this Reader is designed.

The Fifth, or Elocutionary Reader, now the most complete and practical work published, we understand, is also to be enlarged by the addition of several pages more of the most popular standard pieces in the English language, embracing every variety of style appropriate to school purposes.

With all these improvements and additions this series of Readers, in connection with the Progressive Speller and Definer, which is believed to be the *best* and *cheapest* Speller in the country, will unquestionably long hold its present position in the estimation of the public, as superior to all others in point of mechanical execution, artistic skill in the illustrations, literary merit, high-toned morality, and its admirable adaptation to every grade of schools.

In this improved edition, we are glad to see that the authors have carefully avoided making needless expense to pupils and parents. The old editions now in use can be continued in connection with the *new*, until the books are worn out, without any serious inconvenience to classes or teachers.

The Progressive Series has been before the public about six years, but has undergone no change until the present time. This fact, when taken in connection with the fact that it is more extensively used in New England than all the other series combined, is highly complimentary to the authors; for it evinces both their peculiar qualifications for the work, and the *progressive* and *practical* character of their books. Let no one fail to examine the improved edition of this series.—*Boston Traveller, Jan. 9, 1864.*

HUNNEWELL'S ECLECTIC PILLS —*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

JOHN H. WENDELL,
Supt. of City Hearse.

There were several children who are not included here, and a few burials by others than the city hearseman, so that probably 200 deaths is just about the number, from our population of ten thousand more or less.

☞ The lecture on Wednesday evening, by Wendell Phillips, was well attended, but not crowded. The subject was "The Times," handled in a way to show that the orator is now as he has ever been, a radical democrat in the strict sense of the word; not in a party sense, for no party owns him, and no party could own him. His doctrine is, that the negro should be a freeman, as a matter of right,—not because he is black, but because he is a man, and because all man should be free.

He maintains also that emancipation is our true policy; that the soldier should be a voter,—and that the lands in the rebel States should be open for sale in small lots, to laborers of all colors and nations. He is of course opposed to the old Border State policy, to sending away our soldiers and laborers, and to land oligarchies and aristocracies in general.

☞ The Ballot's Boston correspondent says, respecting Messrs. Wm. Gallagher and Charles Clifford, of Portsmouth, who were arrested in Boston, as it was supposed that Gallagher had brought Clifford there to enlist him—that "next forenoon the detectives who arrested them took them from their confinement and released them—for what reason the prison keeper doesn't know. The object of their visit to Boston was not probably understood."

☞ "None so deaf as those who won't hear," Br. Whittem, nor so blind as those who won't see. And "people who live in glass houses, should not throw stones," should they? Well, we will take your advice and be careful how we throw ours,—and we hope we haven't hit our friend of the Ballot already. But "what does he know about war," any how?

☞ The fortnight's sickness of our assistant editor and book-keeper (whom we regret to say we have not seen on duty this year,) especially at this season, obliges us to omit or defer many matters of business and record, not to mention the invites and incites to pleasure, this fine winter weather. Any lack of attention on our part, may be laid to this.

CITY COUNCIL.—*The Board of Aldermen* have re-elected Hon. Jos. B. Adams Chairman of their Board. On Thursday evening at the regular meeting a petition was presented, signed by Messrs. Stackpole and French, asking to be admitted to seats at the Board in lieu of Messrs. Wendell and Rider, members from Ward 3.—Referred to a special committee, consisting of Ald. Brown, Broughton and Shannon.

An ordinance was passed extending the time for paying bounty to such time as the quota of the city may be filled.

In *Common Council* a petition was received, signed by Messrs. Wm. G. Nowell, Charles E. Lord, Jos H Gardner, Job Woodsum, Charles E. Blunt and J. Johnson, claiming to be allowed to have seats in the Council instead of the present incumbents from Ward 3. The petition was voted to be referred to a special committee. The President appointed as such committee Messrs. Wherren, Marston and McIntire, to which committee, by vote of the Council, the President was added.

A joint resolution providing for the revision of the city ordinances, received from the Aldermen, was concurred in by the Council, and a committee appointed on their part.

The ordinance extending the time of paying bounties, was passed under a suspension of the rules.

The Standing Committees were announced by the President.

The two Boards adjourned at an early hour, and went into a committee of the whole in relation to the condition of the shell-fish market, in which the subject was taken from the table and amply discussed. —*Ballot.*

☞ A New York daily paper, in a navy article, says, "The Sacramento, built at Portsmouth, N. H., has made 13 nautical knots, or 14 ordinary miles, an hour, as stated in a letter from Capt. Boggs, her commander."

The Sassacus, also built at Portsmouth Navy Yard, has made 17 ordinary miles an hour, with the current against her, but in comparatively smooth water, and her engines were not working to their extreme force at all. He commander feels confident she can in ordinary weather make a like speed at any time.

The Agawam, built at Portland and sent to chase the Chesapeake, before she got into rough water, made 11 and 12 knots easily.

The fire in Brentwood, which we mentioned last week, destroyed the saw, planing and box mill of Mr. Stephen Fellowes.—The loss is estimated at $3000, on which Mr. F. had no insurance.—*Ballot.*

☞ Wives, mothers and sisters, whose husbands, sons and brothers are serving in the army, can not put into their knapsacks a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment.—They insure health even under the exposures of a soldier's life. Only 25 cents a box or pot.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. ly.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.
These pans are greatly in demand for baking the New Bread, about which so much stir is being made.
This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.
The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.
Every housekeeper should have one.

LAST AND BEST.
THE MODEL COOK,
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!
At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.
The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.
The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.
A Water Tank and Hot Closet can be applied to either size, when needed.
In short, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.
It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.
No family, large or small, where economy, convenience and dispatch are desirable, should be without one.
We refer to some parties who have purchased the Model Cook:

RYE, N. H., Feb. 28, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years; sometimes at the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the best celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicines can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress after my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. SWETT'S PANACEA, which has ever since kept me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. CROWD.

From ELDER I. CHESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humors, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest, by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHESLEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)
76 State street, opposite Kilby street,
Boston.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, not surpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove this to be the MORE SUCCESSFUL AT THE PATENT OFFICE than any solicitor; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has no other reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person more *competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. I can unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

BRIGHT DAYS IN WINTER.

Bright days in winter are as jewels set
Within the dark rim of an iron crown;
Or as a rich smile, almost never met,
Upon a face stern habit trains to frown.

The birds are joyous, and would fain forget
Their scanty food and limbs numbed by the weather,
Warbling low notes, which seem to say, not yet
Dare we pour forth our true love melodies.

The leafless trees, adorned with shining moss,
And silver lichens on their ragged roots,
In the bright sunlight, dell redeem the loss
Of their spring robes or richer autumn suits.

Are not spring days stray links of the great chain
Of beauty that encompasses the year?
They gently lead our memory back again,
And make the duller moments feel less drear.

The wild fowl, standing in the warming rays,
Plume their gay feathers or plunge within the pool,
Hiding their lustre in the sparkling sprays
They scatter from the water clear and cool.

The cattle move more freely o'er the plain,
The rocks around with cheering, careless sound,
And old men seek the genial air again,
And can light leave the lowest from the ground.

MISTAKES WILL HAPPEN.—A clergyman met a thousand miles from Newburyport, whose secular duties keep him busy during the week, on Saturday afternoon last, engaged a horse and sleigh to be sent to his place of business. At the appointed time the team was left as directed, and another team was also there at the same time. Our clerical friend soon made his appearance and took the first team he came at. Some time had elapsed after his departure, when a prominent four dealer doing business in this city, had occasion to use his horse, which he had left sheltered in front of the aforementioned place of business, and to his surprise found that he had been taken away. The Police were notified and scouts sent off in pursuit.

The divine all this time was unconscious of the alarm which he had occasioned, being wholly engrossed in preparing his mind for the duties of the Sabbath, and was not awakened from his reverien until he had arrived at Amesbury on his return, when an individual who had been in pursuit of the lost team accosted him with the enquiry, "where did you obtain this turnout?" This of course passed by as a joke, and nothing more was thought of the matter until arriving at the stable, when he was asked, where he had swapped teams? The mistake was soon made apparent, and the horse which he should have taken was quietly standing where he had been left.—*Newburyport Her.*

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for permeation in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelring up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 20 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world.—and would refer them to the following named gentlemen, who have them now in use:
Samuel Greene, Esq., Albert E. Hatch, Esq., Aaron C. Hill, Charles H. Mendum, Henry F. Wendell, John Sise, and others.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure to all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

"Boundless party—to no sect confined;
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all;
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

A YOUNG THIEF AND HYPOCRITE.—In the Boston Police Court, a few days ago, a boy named James Downing waived examination on a complaint for stealing an overcoat valued at $40 and a number of law books valued at $40, the property of Benjamin F. Russell, Esq., and he was committed for trial. James was employed by Mr. Russell as "office boy," and until a few days since was believed to be an honest and remarkably good boy. About a week ago, James, with tears in his eyes, and apparently in much distress, informed Mr. Russell that his mother died that morning and was to be buried next day, and that he was very sorry to leave him, but he must leave as he was going to have a home with his aunt in the country. Mr. Russell paid him his wages and $2 extra, and was greatly surprised a day or two subsequently on being told that James said he was staying at home with his mother for a week because he (Mr. Russell) was very sick. Mr. Russell also learned that James' mother was alive, well and hearty, and on examining his library, he found a large number of book covers minus their original treaties on law, neatly arranged among his books, James having torn out the pages and sold them for old paper. James acknowledges having stolen Mr. Russell's coat, but stubbornly refuses to tell what disposition he made of it.

A NOBLE WITNESS FOR JESUS.—Among the testimonies of the great cloud of witnesses who have attested to the value of the great salvation, and the power of Christ to support in death, must be ranked as not among the least, that of the late Archbishop Whately. The following is an extract from a letter in the Christian Observer:—

His (the Archbishop's) last illness showed his principles; then he spoke plainly to one, who, observing his sufferings, asked him if he suffered much pain, he said, "Some time ago I should have thought it great pain, but now I am enabled to bear it."—His intellect was unclouded by illness. He could think and speak. Some one said to him, "You are dying as you have lived, great to the last." The reply was, "I am dying as I have lived, in the faith of Jesus." Another said, "What a blessing that your glorious intellect is unimpaired!" He answered, "Do not call intellect glorious; there is nothing glorious out of Christ." Another said, "The great fortitude of your character now supports you." "No, it is not my fortitude that supports me, but my faith in Christ." With such a witness on his lips and in his acts, Archbishop Whately passed away.

☞ Chicago is THE city of the West It covers an area of about 30 square miles; has 772 streets, with an aggregate length of 406 miles: 90 miles of sewers; 105 miles of water-pipe; 94 hotels; 92 churches; 900 licensed draymen and 492 expressmen; 9 convents; 18 public schools; 4 universities; 4 medical schools; 5 law schools, and various other institutions, too numerous to mention, among which are 1119 liquor shops licensed for the public good.

Mr. Mark True, a mechanic in Mr. John Currier's ship yard, whose garden on Merrimack street, Newburyport, in the summer season, attracts the gaze of every passer, by the great taste displayed in its arrangement, and the variety and beauty of the flowers, has just completed a green house adjoining his dwelling, at a cost of one thousand dollars, which is provided with steam pipes, &c., for the preservation and propagation of roots, shrubs and flowers.—*Her.*

— To a friend who recently rallied Gen. Grant about the persistent use of his name by the N. Y. Herald for the Presidency, he said: "I aspire only to one political office. When this war is over I mean to run for Mayor of Galena (his place of residence). And if elected, I intend to have the sidewalk fixed up between my house and the depot."

SATURDAY, JANUARY 16, 1864.

THE REBELLION.

The Knoxville correspondent of the N. Y. Herald writes under date of 29th ult.:

Gen. Sturgis has signalized his assumption of command of the cavalry corps by the utmost activity, and our advance guard is again in possession of Bean Station. On Friday last the enemy surrounded a brigade of cavalry near Newmarket and captured two pieces of artillery. Gen. Sturgis sent reinforcements, and a combined attack and charge were made upon the rebels, who retreated, leaving the two guns and a number of prisoners in our hands. Col. Elliott, with his cavalry, made a dash into the rebel camp night before last, capturing some prisoners and wagons. The cavalry on the south side of the Holston have driven the rebels beyond Talbot Station. It is to be regretted that we cannot attack from this direction for some time yet. Clothing is sorely needed, and without it our army cannot move.

A re-enlisting mania has taken possession of the regiments here. Of the old Ninth corps, fully three-fourths of the troops entitled to do so, have subscribed for three years more of service. Of the Twenty-third corps, there is one instance where a whole regiment—the 14th Kentucky—came forward and re-enlisted.

A Charleston, S. C., dispatch of Jan. 8 says, "There has been no firing to-day.—The Yankees are busy repairing the damages caused to their batteries by the storm."

A Wilmington, N. C., dispatch of Jan. 11, to the rebel Gen. Cooper, says the steamer Hero was run ashore after landing the naval officers. One Yankee steamer was blown up. The report was heard in town. 74 prisoners were captured. No particulars have been received.

A telegram from Gen. Lee announces the capture in Hardy county of 123 cattle, 125 mules and 200 Yankees.

Adjt. Adjutant General Townsend has made a report containing a list of all known desertions of non-commissioned officers and privates from the regular army to the rebels. The number is only 28, of whom 20 are from the 8th infantry. He has also compiled a list of the regular officers of the army who have left the service by resignation or desertion to engage in the rebellion. The total is 277, of whom 183 have entered the rebel service, 22 are presumed to have done so, 1 was dismissed for surrendering his command in the face of the enemy, and 1 made an attempt to desert to the rebels; 242 have resigned, 26 were dismissed and 9 dropped.

The Herald's army dispatch says it was reported at Culpepper Thursday evening that the rebel Gen. Stuart, with 5000 cavalry, had crossed the river far to our right, and reached Leesburg. Our forces were falling back to Fairfax. Whether his object is to cut the railroad near Bull Run, or the Baltimore and Ohio Railroad near Point of Rocks, was not known, but it is possible he will meet with superior forces. The health of the army is good. The 25 men of the 1st Mass. cavalry, captured by guerrillas a few days ago, escaped and returned Thursday.

Fourteen rebel officers, including Capt. J. S. Lee, nephew of Gen. Lee, were sent from the Old Capitol Prison to Fort McHenry for confinement.

It is denied that Longstreet has been reinforced from Lee's army. A letter from a general officer in the Potomac army says Lee's army is being organized by conscripts. Efforts to organize and recruit their cavalry for offensive operations in the Spring are being made. The rebel army is encamped between Orange Court House and Gordonsville, and is well provided with provisions, though suffering for clothing.

At Washington, Wm. M. White, an army contractor, was sentenced to pay a fine of $3000, and be imprisoned not exceeding two years.

The National Union Committee, appointed by the Chicago Convention, have been summoned to meet at Washington Feb. 22.

ANOTHER PIRATE SEIZED.—The schooner Joseph L. Gerety has arrived at Belize, Honduras, having been captured by rebel passengers on the trip from Matamoras for Havana. The Governor has offered $500 reward for the capture of the leaders in this piracy. J. F. Brown and Thomas Hogg are the rebel officers. The vessel was under seizure and anchored under the guns of the Fort.

Brown and Hogg, after selling part of her cargo, and getting $7000 therefor, from merchants of Belize, left for parts unknown. The purchasers of cotton stand ready to indemnify its owners.

Four rebel schooners, with cotton from Texas, had arrived within the past two months.

The four sailors who assisted Brown and Hogg had taken passage in the Hamburg brig Carlos, for Liverpool, previous to the discovery of the piracy by the authorities.

— The report that Mrs. Douglas is engaged as a clerk in the Treasury Department at Washington is denied. A foolish "story." Though not wealthy, she is beyond such necessity.

NOTES OF FORMER DAYS.

Collected and Collated — By UNCLE TOBY.

Petitions again, Gov. Belcher, 1739—*Town Clock*, 1740.

Great exertions were again made to remove Governor Belcher, and to have New-Hampshire erected into a separate government. The Duke of New-Castle objected to the former application, because it was made by persons of no reputation.

This year 1739, many new petitions were drawn up and signed by the principal persons in the eastern country, and were transmitted to London; one from this town was assigned by Joseph Gulston, Richard Chapman, John Thomlinson, merchants, and Benning Wentworth, one of his Majesty's Council, in behalf of themselves and sundry others, that they had many valuable ships, lying and building in the river Piscataqua, and that the province was in a most naked and defenceless situation.—Their only fort at the entrance of the river, was quite useless and ruined; their militia neglected and destitute of proper arms, so that upon the least rupture with the French, all their effects and shipping, as well as the whole province, would become an easy prey to their French and Indian neighbors, which event would much distress his Majesty's service, by losing this useful province, from which the Royal Navy was chiefly supplied with masts. A gentleman from Portsmouth, who was in London when this petition was presented, confirmed the statements, saying that the fort was in a most ruinous condition, without powder, and although there were forty good cannon, yet no pains were taken to mount them; that the militia had no arms, and were not exercised above once in two years, and then only a small part of those, who ought to bear arms.—These evils were represented to exist more on account of the government being connected with Massachusetts Bay, than of any neglect of Governor Belcher, who could not visit Portsmouth but once a year, owning to the distance from Boston to that place, as well as to the badness of the roads.—The petitions which followed, were not so moderate in their statements; they said, that the garrisons and forts in the eastern parts of New England had been dismantled by Governor Belcher, that he had also denied his protection to his Majesty's Protestant subjects, and, that if a new Governor were not speedily sent over to New-England, the poor people in the east will be cut off, and his Majesty lose the woods, reserved for the use of the Royal Navy, to which Governor Belcher never was a friend.

With the petition of Wentworth and others, Thomlinson sent a short letter to the Duke of New-Castle's Secretary (Mr. Stone) saying, "the natives of Massachusetts, believe it their interest to prevent the settlement and growth of the province of New-Hampshire, and that the present Governor, hath done every thing in his power to that end; therefore what we should have proposed, would have been, to have his Majesty's province of New-Hampshire made a separate government."

While these endeavours were making for Governor Belcher's removal, his friends were not less active in his behalf; and no individual more so than his Secretary, the Honorable Richard Waldron, who drew up a petition, in which he eloquently set forth the many services of Governor Belcher, that he had expended a large portion of his private fortune for the good of the province, and had suffered much from the persecution of his enemies.

Richard Tartridge, brother-in-law of the Governor, presented a memorial in behalf of many of his Majesty's subjects in New-Hampshire, with several addresses thereto annexed from the freeholders and inhabitants of said province, praying to be continued under the present Governor, and also to be annexed to Massachusetts Bay, and praying in regard to their poverty, that they may not be put to the charge of maintaining a Governor for this province only.

December 27th. 1739, Sarah Simpson and Penelope Kenny were executed for the murder of an infant child. They were both permitted to attend public worship, the morning of the execution. Sarah Simpson attended at the south parish, where the Mr. Shurtlief preached a sermon from Luke, 23d chapter, 42d verse. Penelope Kenny, a foreigner, at Queen's Chapel, where the Rev. Mr. Brown preached from Proverbs, 22d chapter, 6th verse. These sermons were published. The Court, who tried these persons were, Henry Sherburne, Chief Justice, Nicholas Gilman, Joseph Sherburne, and Ellis Huske, Justices.—Thomas Packer was the Sheriff who executed these sentences. These were the first executions which ever took place in New-Hampshire.

In 1740, The north parish gave permission to any person, or number of persons, disposed to procure a clock at their own cost, to set it up in the steeple of their meeting-house, so that the hammer of said clock might strike on the bell; and the proprietors of said clock, also had liberty to remove it at their pleasure. The parish likewise appointed a committee to treat with a committee of the south parish to reconcile existing differences between said parishes.

[Reported for the Boston Journal.]

Anniversary of the Governor's Horse Guards of New Hampshire.

CONCORD, N. H., Jan. 14, 1864.

The annual ball and levee of the Governor's Horse Guards of New Hampshire always forms a golden period in the civic and military history of the "Granite State." The fourth anniversary of the Corps, which was celebrated in this city last night, was in every respect a magnificent success. In point of numbers, as well as in music and decorations, the levee just closed surpassed, by far, all previous entertainments given by the Guards.

The attendance exceeded the most sanguine expectations. From "Old Monadnock" to the mountain land of Coos, there was scarcely a town but that was represented by fair ladies and gallant men. Delegations were also present from Boston, Lowell, Worcester, Lawrence, and other Massachusetts cities. Civil and military gentlemen of the highest rank graced the occasion with their presence. Among those in attendance were Gov. Gilmore, Hon. Onslow Stearns, President of the Senate; Hon. Allen Tenny, Secretary of State; Mayor Smyth, and Hon. E. W. Harrington, of Manchester; Brig. Gen. Hinks, Col. Donahoe of the 10th regiment, and Col. Stevens of the 13th. The music, both in spirit and character, was all that could be desired. It was furnished by Hall's Boston Brass and Quadrille Band.

THE DECORATIONS

were arranged by Col. Beals, of Boston, and were rich, tasteful and beautiful. The elegant "Eagle Hall," where the levee was held, seemed changed into a palace of Eastern gorgeousness. Over the stage was a splendid floral arch encircling a motto with the words: "Organized January, 1860."—Lines of floral adornments radiated in all directions from the arch, while above was a gilt eagle, surrounded with a "glory of flags." From the central point above, magnificent tri-colored streamers extended in all directions to the walls of the building.—On the front of the building was a finely-executed portrait of Gov. Gilmore. The remaining portion of the gallery, as well as the windows and ceilings, were profusely decorated with mirrors, paintings, miniature flags and national emblems. The *tout ensemble* of the decorations was extremely beautiful and imposing.

THE BALL PROPER.

At precisely nine o'clock, strains of sweetest music rose from the band, and was followed by a general promenade about the hall. After this the dancing commenced in good earnest. The floor managers, with a few exceptions, were prompt and efficient. The chief director was Col. Nat. Head, who performed his part admirably. After a few dances had been enjoyed, Gov. Gilmore entered the Hall amidst considerable enthusiasm. He was supported on the right and left by Cols. Head and Wright, and was attended by his aides-de-camp in full uniform, and also by Brig. Gen. Hinks, who was accompanied by his staff. There was now a brief pause in the exercises, which was busily improved by the hundreds who paid their respects to the Chief Magistrate. The pleasures of the hour were afterwards resumed, and "music's voluptuous swell" rose and fell responsive to the cadences of swiftly moving feet. When the ball was in full progress, the glittering uniforms of the Guards, the sylph-like motions of the dancing throng, and the brilliant decorations flooded with tremulous light, all united in forming a scene of bewildering and enchanting beauty.

The pleasantest and most observed episode of the evening was the fact that Gov. Gilmore and Hon. E. W. Harrington, of Manchester, (the Democratic nominee for the gubernatorial chair,) were several times seen promenading the ball arm in arm, and conversing as good naturedly as could be imagined. The circumstance had the happiest effect upon the assembled throng, and held in check those partisan feelings and prejudices which so frequently mar the pleasures of public entertainments.

At 11 o'clock a considerable delegation of Worcester people entered the hall. It consisted of Capt Ivers Phillips and sixteen members of the "State Guards," of Worcester. They were all accompanied by ladies, and their number increased to a considerable extent the already large concourse in attendance.

Soon after midnight the dances were half concluded, and an intermission was taken for refreshments. Suppers, embracing all the delicacies of the season, were in readiness at the principal hotels in the city. At two o'clock the lovers of the terpsichorean art were again in their places, and the dance was once more resumed. The "wee sma' hours" stole on, but the remaining portions of the programme were promptly carried forward to completion. At length the lights began to pale, the music to die away in soft echoes, and the guests to depart one after another, bearing with them to near and distant homes, the happiest and pleasantest recollections of the fourth anniversary of the Governor's Horse Guards of New Hampshire. The entertainment, from its inception to its close, was a great success, and has added another laurel to the social and military fame of the "Granite State."

The annual meeting of the corps was held yesterday in the afternoon. The following is the list of the newly elected officers:

Colonel, Henry O. Kent; Lieutenant Colonel, Albert R. Hatch; Major, Josiah B. Sanborn; Adjutant, Eleazer Jackson; Paymaster, Frank W. Miller; Quartermaster, Geo. A. Pillsbury; Surgeon, Charles P. Gage; Assistant Surgeon, Joseph C. Eastman; Chaplain, J. H. Eames; Assistant Chaplain, Charles Burroughs; Judge Advocate, Anson S. Marshall; Commissary, S. H. Dumas; Treasurer, S. G. Sylvester; Standard Bearer, True Garland; Chief Bugler, Natt. Head; Clerk, J. E. Lang.

Co. A—Capt. Edward H. Rollins, Lieuts. C. C. Webster and Warren Clark.

Co. B—Capt. V. C. Gilman, Lieuts. Wm. Barrer and Gust. Walker.

Co. C—Capt. M. C. Burleigh, Lieuts. Marcellus Eldredge and A. L. Bennett.

— The Commercial Advertiser intimates that a powerful steamer is building at New York, ostensibly for a tug, but if allowed to get away, will be found engaged in a very different business.

HUNNEWELL'S ECLECTIC PILLS.—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, that griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, CONSTIPATION, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

THE NEW DIRECTORY.—We have just received a copy of the Portsmouth Directory for 1864: by W. A. Greenough, jr., published by James F. Shores, jr., and very neatly printed and bound. It contains the Alphabetical List of Citizens; a Business Directory; an Almanac for the year; the Population of New England by towns and counties; the Roll of Portsmouth Volunteers in the U. S. Army and Navy; Corporate and Society Lists, and lots of Advertisements.

It is, no doubt, as correct as such a work can readily be made, though errors will creep in, as they always do, in any Directory. The author is entitled to credit for getting out so good an edition of a useful book—and should reap a good profit by its sale.

The new Directory is now being delivered to advertisers and subscribers, and will be on sale at the Bookstores in a few days.

"CARRYING COALS TO NEW CASTLE." Card's Great Island Express does this often, as "we notice in passing."—By the way, Mr. Card lost a valuable horse the other night, in his stable, from internal cramp; and about the same time, another horse for which he had bargained to mate one of his, got loose in one of our city stables at night, and was so kicked by another horse, as probably to be worthless.

FAIR AT GREENLAND, *for the Benefit of the Sanitary Commission.*—We learn that the ladies of Greenland are to hold a fair at the Academy Hall, Greenland, for the benefit of the Sanitary Commission, on Thursday and Friday evenings, Jan. 21 and 22. Mr. J. H. Head has very kindly offered his services in aid of the undertaking, and will superintend the exhibition of a series of tableaux, and will furnish an excellent club of singers for the occasion.—We wish the projectors success!

Miss Susie C. Cluer, of Boston, has also offered her services to the cause, and will read on each evening.

☞ Yankee Glunn and Marshal S. Pike's Dramatic and Concert Troupe give an entertainment at the Temple, to-night, (Saturday,) and it will not fail to be well worth attending, too. Mr. Pike has composed many of the most beautiful and popular songs and glees; and if it is "better to laugh than be sighing," why go and see Yankee Glunn.

☞ There will be a lecture by the Pastor at the Universalist Church to-morrow (Sunday) evening, at 7 o'clock. Subject—"Scriptural Doctrine of the Judgment."

☞ Mr. Gallagher utterly denies having any instrumentality in getting young Clifford drunk; as stated by the friends of the latter in order, it was said, to enlist him.

IN THE BOARD OF ALDERMEN, Jan. 14, a resolution was passed, condemning and censuring the conduct of ex-City Marshal Bragdon, in enlisting one James Hare, a deserter from the House of Correction.

The Portsmouth Chronicle says a grog shop at Newcastle, N. H., was entered on Tuesday last, and every destructible thing demolished. The loss should be estimated by a widow who has a drunken son who has been accustomed to get his liquor at that place.—*Portland Press.*

ACCIDENTS ON THE OLD COLONY RAILROAD.—On Tuesday, Capt. Cushman, the Depot Master at Kingston, on the Old Colony & Newport Railway, fell from a freight car, fracturing his skull and probably receiving fatal injuries. Wednesday afternoon, William Richmond, a brakeman on the freight train, was run over by the cars near South Abington, and survived the accident but a few hours. Elijah Weston, also employed on the same train, was instantly killed Thursday morning by coming in contact with a bridge near Kingston.

☞ Mr. George Bullock, of the firm of Bullock Sons, woolen manufacturers of Philadelphia, presented to the soldiers of Gen. Birney's division, 3d army corps, 7000 pairs of woolen gloves. The firm of the Messrs. Bullock has heretofore made munificent donations for the comfort of the troops in the field and in transitu. The gloves were received at the headquarters of the Army of the Potomac on Wednesday night.

☞ Among the contingent expenses of the War Department for 1863, as exhibited by the report, is an item of $1000 paid the widow of the pilot Pedrick, of the steamer Escort, as a reward for the relief of the beleagured garrison at Washington, N. C. The entire sum of contingent expenses is $177,000.

☞ It appears that Hon. John Minor Botts has been urged to accept the appointment of Senator from Virginia in Congress at Washington; also that he has written a letter in response, stating, in effect, that he is unwilling to accept the honor intended to be conferred, hoping that the time is not far distant when he can stand as the connecting link between North and South.

☞ Rev. Mr. Burlingame has become pastor of the F. W. B. church in North Berwick; and E. P. Fernald of the church at Kittery Point.

TO OPIUM EATERS AND STIMULANT TAKERS.—The unhappy sufferers dependent upon such means for keeping up the spirits or strength, or of warding off mental or physical oppression or pain, who desire to break from habits so ruinous to health and their mental well-being, are informed that this can be done with comparative ease under the vitalizing and health sustaining effects of Motorpathy, mountain air and cold and hot baths at the Round Hill Water Cure in Northampton, Mass.

The low spirited, dyspeptic, nervous or organically weak also find in this treatment the invigoration so much needed. In the cure of sleeplessness, debilitating dreams and loss of memory, its success is unparalleled. A circular giving information of this treatment, and of the great favor in which the Turkish, chemical, medicated and various hot baths, (seldom found in water-cures or hospitals) are held, is particularly commended to the profession. Those personally acquainted with the treatment, recommend it to persons beyond the reach of home prescription.

These baths are of great benefit in freeing the system from impurities of the blood and the injurious effects of mineral medicine. Their value can scarcely be overestimated in the treatment of incipient consumption, rheumatism, gout, paralysis, and the breaking up of many usually considered incurable maladies.

Dr. Halsted will be in Manchester at the Hon. M. Moulton's, 32 Walnut street, on the 20th and 21st insts., where he will be happy to see his friends and meet inquirers. 1tdaw*

☞ Wives, mothers and sisters, whose husbands, sons and brothers are serving in the army, can not put into their knapsacks a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment.—They insure health even under the exposures of a soldier's life. Only 25 cents a box or pot.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambucci Grapes for Spear's Wine. It is and an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

French Roll Pans.
A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

LAST AND BEST.
THE MODEL COOK.
AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Air Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT STOVE, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

RYE, N. H., Feb. 26, 1846. "I hereby certify that my daughter has had the salt rheum for a number of years, and at times so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since I have acted as agent for the sale of it. JONAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up what of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I took one bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CHELEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel it duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CHELEY.

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWETT, No. 7 High street, Portsmouth, N. H., promptly attended to. may26

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the Claim of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to those offered by others elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE. Every subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to obtain late a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him also, beyond question, the most superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents. R. H. EDDY.

ATHANASIA.

The ship may sink,
And I may drink
A hasty death in the deep salt sea;
But all that I have
In the ocean grave
Can be slipped and spared, and no loss to me.

What care I,
Though falls the sky,
And the shrivelling earth to a cinder turn?
No fear of doom
Can ever consume
What never was made nor meant to burn.

Let go the breath,
There is no death;
To the living soul, nor loss, nor harm.
Not in the clod
Is the life of God;
Let it mount, as it will, from form to form.

☞ The mountainous region of North Carolina, like that of Tennessee, Virginia, and other slave States, has few blacks—Being agricultural and not planting, slavery does not pay. The 22 western counties, that have a white population of 166,000, have only 20,665 slaves, or little more than one to each ten free persons. Of course that section does not sympathise with the Rebellion.

A witty fellow happening to step in at a little ale-house one day, called for a glass of the refreshing beverage. After drinking it, he said to the landlady, with the air of one who has some great secret to communicate, "Mrs. D., I'll tell you how you can sell a great deal more ale than you do."—"How is that?" she asked. "Don't sell so much froth," was the reply.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer, them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq.,
Aaron H. Hill, Charles H. Mendum,
Henry F. Wendell, John Rice, and others.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment—and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be put up in any part of the city, and regulated without extra charge.

The Chronicle.

"Boundless prairie—to no nest confined:
The world our home; our brethren, all mankind.
Love truth; do good; be just and fair with all:
Exalt the right, though every law fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of party." generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

BEN. WOOD ON GOV. SEYMOUR.—In Mr. Wood's paper, the New York Daily News of Jan. 12, we find an editoral opinion of Gov. Seymour, from which we make some extracts, which need no comment:

GOVERNOR SEYMOUR—A MISTAKE.—Governor Seymour seems to have disappointed alike his friends and his enemies—the latter because they expected him to become weak in the knees at a much earlier hour of his political career; the former, because they thought he had backbone, which it seems he has not. In his gubernatorial career, if not one of the "Miserables," he is among the "unfortunates." When, in his first message, he took strong ground against the usurpations of Government, and when he denounced in terms so indignant the arrest and mock trial of Mr. Vallandigham, the people of New York deemed they had a Governor, and a fine portrait was got up and rapidly sold of "HORATIO SEYMOUR, *the Champion of the People's Rights*." The "champion," like Heenan, has gone under—has failed in the hour when most it was necessary that he should fight the good fight for the people. * * *

Other counsels prevailed, timidity did its perfect work, and the result is, Governor Seymour is a lost star—"fallen, fallen from his high estate," and no longer shines among the galaxy of the great and the true men of the Confederacy. "*Sic transit gloria*" *Horatio!*

* * * Facts, patent to every discriminating mind, force us to the sad conviction that Governor Seymour is a "*mistake*," and in his selection, as the standard bearer of the Great Democracy of the State, the people were mistaken. We have an abundance of charity for a man who acts wrong and knows it not, yet for him who thinks right yet acts wrong, we have none whatever.

SHORT AND SWEET.—The Lewiston (Me.) Journal is accountable for the following happy incident, furnished by a correspondent:—

"A gentlemen of that city on Christmas day came from Augusta to Lewiston in a sleigh, in company with an officer of the 29th Maine from that city. On the way the gentleman in a sportive mood said he would stop and introduce him to a farmer's buxom daughter of his acquaintance, saying that she would make a fine match. The gentleman accordingly stopped, introduced the officer, and then went out into the kitchen with the old folks, leaving the officer and the young lady in the parlor—it being the first time they had ever met. In a short time both of the gentlemen left the house and drove to Lewiston. The next day the officer concluded he would go to one of the towns between Augusta and Lewiston to recruit. He went, but took a clergyman with him, drove to the house visited the day before, was married to his new found love, and went on his way rejoicing."

LOVE, to be glorious, must be whole-hearted,—transcendently ample and complete, without a reservation; and it must be blinded by the power of passion to the faults of the object in which it centres. Without this blindness, there is no happiness—no romance, and no pleasing reality. Not a boy of sixteen years lives, who has soul enough to save, that will not feel the intuitive force of this truth. And not a man of genuine worth, and who eschews the instincts of brutality, and cleaves to the laws of divine inspiration, will ever deny that the principles of love, as it is inherent and normal in human nature, is and must be, superior to the arguments and experience of practical life. It is idle to say that the poet's ideal of love is unreal. It is in fact the highest type of manhood, which confesses and yields to the principle of true love. That God-given trait of human character, which cannot cheat itself, but which is watchful, constant, every nervously at work by day, and in dreams by night, is but the unripen quality of this life which culminates in the glory of the future. There is such a thing as pure love in this world, and he is no dreamer who feels and respects it most.—*Gloucester Tel.*

$100 REWARD!
For a Medicine that will cure
COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
in a quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the preference over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. No Family should be without it. It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "crack up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident, that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Portsmouth, N. H.

MONDAY, JANUARY 18, 1864.

THE REBELLION.

The Washington Star of Friday evening says,—accounts received to-night from the Army of the Potomac, say that the reported movement of Stuart's cavalry occasions no alarm, as it is not believed that he has a sufficient number of men even for a less arduous duty than a campaign on our right. If a cavalry movement is progressing in that direction, it cannot be of much magnitude. Trains are running to and from our army in Virginia as usual, and nobody anticipates any interruption.

A Chattanooga dispatch of Jan. 11, says Longstreet is fortifying at Bull's Gap. He is reported to have been reinforced by 12,000 infantry. His entire force is estimated at 34,000. A squad of rebel cavalry went into Cleveland last Saturday, and conscripted every man able for service. The railroads between Chattanooga and Bridgeport are in running order this week.

All the officers of the civil government of Norfolk and Portsmouth, Va., are ordered to make reports to Gen. Butler's he adquarters in detail, of the monies received by them in fees or otherwise, whence received and the amount expended, since the organization of said governments, the reports to be made under oath on or before the 20th inst.

John Ford, of Norfolk, convicted of violating his oath of allegiance, by corresponding with the enemy and endeavoring fraudulently to avoid confiscation of rebel property at Norfolk, has been sentenced to confinement at hard labor in Norfolk jail for one year, and to wear a 24 pound iron ball attached to his leg by a chain 3 feet long, and to be employed in cleaning the streets, or other hard labor, and at the end of said term to be sent beyond the limits of the Department, never to return.

The New York correspondent of the Boston Journal writes:

"I have just seen a gentleman from the South. He has in his possession an original letter from the rebel Secretary of War to Gen. Kirby Smith, authorizing him to trade with the Federal Government for the necessaries of life.

The schedule annexed is interesting and affords an insight into the strength and sufferings of the rebel army. The requisitions are based on the requirements of thirty thousand men. Thirty thousand coats, pants and shoes, sixty thousand shirts, and food of all kinds, including meats.

The Secretary of War authorizes Kirby Smith to exchange three pounds of cotton for four pounds of meat! He expresses his regret that he is obliged to break his own rules, but that necessity knows no law."

A letter from the squadron off Wilmington reports the chase and destruction of the blockade running steamer Dare by the Montgomery and Aries. Her crew ran her ashore 13 miles north of Georgetown Lights, and then escaped to the shore. A boat's crew from the Montgomery and Aries boarded and burnt her. Both boats got ashore, and the crews were made prisoners by rebel cavalry. The Dare was a good steamer, 700 tons burden.

Robert J. Walker writes from England that a resolution is going on there among financiers in favor of the resources and wealth of the Union, and its consequent ability to pay the debt now being contracted. He also states that by a little exertion half a million of European emigrants can be brought across the ocean this year.

Near Mosey Creek, Tenn. Jan., 11, part of Col. McCook's cavalry attacked the 8th and 11th Texas regiments, killing 14 and taking 41 prisoners.

No information of any rebel cavalry raid has yet been received at Washington and it is thought that a sufficient force is posted along the Upper Potomac to prevent mischief.

WASHINGTON ITEMS, by Perley.—New England distillers are here in order to obtain a discrimination in favor of liquor distilled from molasses over that distilled from corn, but they have but small chance of success.

The report that Mrs. Senator Sprague has been injured by a railroad accident at the West is entirely false, as that lady is in this city.

Secretary Chase, upon recommendation of Senator Brown, is about to remove restrictions on the trade of Missouri.

Gen. Butler will remove his headquarters to Norfolk. Mayor R. P. Ueber has been ordered there as Chief Paymaster of that Department.

NORTH CAROLINA.—The Raleigh Standard publishes a letter from "a gentleman of substance and character," strongly urging efforts to close the war by negotiation, and warning the Legislature that if they return to their constituents without making such efforts, they will be held to a serious accountability.

☞ In Congress, the Committee have determined to strike out of the naval bills all appropriations for iron-clads.

What is the difference between an alley gate and an alligator? The one you bolt, the other bolts you.

☞ The Tribune's Washington dispatch says about 1000 rebellious Sioux, fleeing from the Union army in Minnesota, were causing much trouble in Selkirk, British America. Some time ago permission was asked of the British Government to cross the line and prevent such outrages. The permission has been declined.

☞ The examination in Halifax, of the Chesapeake case is adjourned to the 21st inst., in consequence of the counsel for the prisoners not being prepared to proceed, in the absence of some documents for which he had applied to the Governor of the Province, and the latter requiring time to consult his legal advisers.

☞ Mrs. McMahan, of Portland, was accidentally drowned a few days since. She took a pail, and went to the cistern to get water. The water being low, she was obliged to use a chair to reach the top of it, and then to bend down to get the water.—It is supposed that in leaning over she became dizzy, lost her balance, and was precipitated into the water.

☞ The Times' Paris letter says the pirate Florida was ready to sail from Brest. She lies in the bay very close to the Union gunboat Kearsarge. It is not probable that the latter will be able to stop her, for if in port when the Florida sails, the twenty-four hour rule will be applied; while if she remain outside, the Florida, which is faster than the Kearsarge, can easily steal out some dark night.

☞ On Friday, Jan. 15, Malcolm Campbell, a prominent member of the New York bar, was arrested by order of Gen. Dix.—He acted as counsel for Benjamin, who is charged with shipping contraband goods to Havana and Nassau, and the government desires to get certain books and papers belonging to the latter, which Campbell refuses to give up.

A verdict of $5500 was given in the Common Pleas Court to a party for loss of property in the July riots.

☞ A Washington letter writer says:

Simon Cameron is here as the bearer of the resolutions of the republicans of the Pennsylvania Legislature favoring the re-election of Mr. Lincoln. Mr. Cameron's claim to the credit of having procured the passage of these resolutions, has taken the friends of Mr. Chase completely by surprise, as he was surely counted among the strongest advocates of the election of Mr. Chase. The sudden transfer of his affections and efforts from the financier to Old Abe has created no little chagrin among the particular adherents of the former.

☞ Two ladies, refugees from Georgia, are now in Boston, where they have friends. Their experience in Georgia, is given in the Boston Traveller, from which we copy the following paragraph.

The citizens talk freely of the Confederacy as "The Land of Starvation," but still refuse to bear one word about yielding, and say they will die rather than submit. They generally talk confidently of success, but at times their faith seems to be shaken.—The papers talk about suffering here at the North, of business prostrated, the citizens voting at the point of the bayonet, and the government seizing horses and supplies wherever they can find them. The people implicitly believe this, and our informant, although much better informed of affairs here than her neighbors, was surprised to find these statements altogether false.

☞ A letter from Knoxville, Tenn., says that Gen. Sturgis is very active with his cavalry force, and our advance guard is again in possession of Bean Station, from which it was recently driven by Longstreet. The cavalry on the south side of the Holston have driven the rebels beyond Talbot Station. Gen. Foster's wound, received in Mexico, becomes daily more painful, owing to the severity of the climate. The General was lately thrown from his horse, which aggravated the wound, and it is doubtful if he can remain in command. The troops are re-enlisting ingreat numbers. Three-fourths of the old 9th corps have re-enlisted for three years.

☞ Last Monday, the Maryland House of Delegates established the position of the members on emancipation. Mr. Hobb introduced a preamble and resolution declaring that the true interests of Maryland demand that the policy of emancipation be immediately inaugurated within her borders, that the Legislature submit to the people at an early day a call for a Constitutional Convention, to carry such a policy into effect, and requesting our Senators and Representatives in Congress to use all honorable efforts to secure the passage of a law by Congress whereby all loyal owners who have suffered a loss of their slaves shall be reimbursed. By a vote of 42 to 22 the rules were suspended, and the resolution passed to a second reading.

A proposition was made to amend the last resolution by striking out the words "loyal owners," and inserting "all who own slaves, and have not engaged in actual hostilities against the government of the United States, or given aid and comfort to those engaged in hostilities against said government." Rejected—yeas 19; nays 51. The preamble and resolutions were finally adopted by a vote of 51 to 15, seven members being absent, or not voting.

The Senate will probably dissent from a part of this;—but they have just voted to send a joint committee to confer with the President on these topics.

CONNECTICUT.—On Friday the 8th and 11th regiments from Connecticut arrived at home. Their reception was a perfect ovation. Cannon fired, bells rang, &c.

COTTON.—At Cairo, Jan. 15, one hundred and seventy-nine bales low middling cotton were sold at auction by the U. S. Marshal at 65 1-2c. The sale produced $50,000, which goes as prize money to the Navy. Thirty-eight mules were sold on the same account, and brought $3440.

MONEY MATTERS.—The advance in gold which started up this week, is accounted for by the very large importations of foreign merchandise at New York last week, which alarmed the importers and led them to make a rush to secure the means of paying for their goods. The imports at New York last week amounted to $5,431,554 in gold valuation, equal to about $8,200,000 in legal tender currency. The exports during the week were $1,916,398 in legal tender currency equal to $1,500,600 in gold.

— Although it has been decided that the amnesty of the President does not extend to prisoners of war as a class, nevertheless he is prepared to give such individuals among them its benefits, when an examination into their individual cases demonstrates the propriety of the act on his part.

The recent deaths of two Catholic Archbishops, Fenwick of Baltimore, and Hughes of New York, leave the United States without clerical controlling heads. The Pope of Rome appoints, and the materials are abundant, if the selections are to be made from the Bishops. But Popes, shorn of temporal power, behave much better than in the days of the Inquisition, and before the light of Protestantism.—*Nashua Telegraph.*

☞ Gov. Parker of New Jersey, (not heretofore considered a War Democrat,) in his late message, replies as follows to those who believe that continued war will destroy all hope of Union, and that it is best for the interests of the whole country that our armies should be withdrawn:

The policy they recommend, however sincerely entertained, would certainly result in perpetual disunion, and we would emerge from the present war only to be involved in other conflicts not less bloody, which would inevitably flow from separation. The withdrawal of our armies would be a confession of weakness, and the Confederacy would at once be acknowledged by foreign powers.

PROTECTION FROM COLD.—A correspondent of the Chicago Times says that one of the ordinary fine wire gauze masks, such as are frequently worn at masquerades, put over the face, is a sure protection against cold. The writer says he tested one in a ride of three miles against the wind, with the thermometer sixteen degrees below the zero, and therefore he knows whereof he affirms.

We add something cheaper;—having saved a face from freezing by covering it with a newspaper, put over the head, and kept on by the hat. The paper hung down over the face,—and with holes to see through, made a cheap mask, as comfortable as need be for a cold night.

CURIOUS MONUMENT.—The Portland Press has what purports to be a faithful copy of a drawing made by an eminent civil engineer, of a late monument erected at Williamsport, Penn. The drawing is that of a colt in the act of kicking the unfortunate Henry Harris in the bowels. The inscription runs thus—which we give *verbatim et literatim* :—

Seacred to the memory of Henry Harris. Born june 27th 1831, of Henry Harris and Jane his wife. Died on the 4th of May 1837 by the kick of a colt in the Bowels, peacable and quiet, a Friend to his Father and Mother and respected by all who knew him and went to the world where horses can't kick, where sorrow and weeping is no more. TAYLOR & SHUCK.

— America produces one hundred millions of gallons of whiskey per annum, and drinks most of it herself.

Speaking of the great organ, Quilp says some admire Bach's music; the taste of others does not go back so far.—*Punt*

HUNNEWELL'S ECLECTIC PILLS.—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in the development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

Carrier Wanted!

A BOY 10 or 12 years old, to carry a morning list before school—at the Chronicle office.

Local.

☞ The concert of last Friday evening will be a delicious memory indeed, to the comparatively small audience who were favored in hearing. The threatening weather and bad walking decreased the attendance no doubt; but wouldn't anybody have supposed that the old Temple would have been crowded with devout worshippers at the shrine of Camilla Urso's transcendent genius, with tickets at only a quarter,—utterly regardless of wind or weather? To be sure, in the absence of any advance agent the affair was not thoroughly advertised—but that weird magician of the violin ought not to need any further advertising among live people. The piano-playing of Mr. Dow,—who has improved much in appearance and performance since his last visit here with Madame Varian James—was very creditable and satisfactory; Mrs. Cary sang sweetly, pleasingly and well; and the whole entertainment was very enjoyable, despite the clipping of pieces, which was to be expected with so small a house.

But the wonderful tones that Mmlle Urso called forth from her viol,—as she always does, and as only she ever can hope to—it would seem could never be exceeded in sweetness and purity, even by the angels at the right hand of the Throne, when they "strike their harps of gold." And what a rude awakening—what a nightmare—to all who really heard and felt her "Dream,"—all who accompanied her to dream-land, and dreamed with her—was that untimely clapping of hands and encore immediately after! How anything but mute rapture could be incited by such an exquisite performance of that statuesque, inspired prophetess of "the music of the future," is beyond our ken. F.

☞ Among all the other musical attractions of the week—don't forget the glee concert of the Brookings Brothers, to-night, Monday. It is rarely we have an entertainment of this good old sort—and we have no doubt this will be a fine concert. This quartet of "brothers"—all actually from one family—have a high reputation at home in Newburyport, and we hope they will be greeted with a full hearing here.

☞ Mr. Davis' Musical Festival, for Wednesday evening, promises to be a great success. The young ladies mean it shall be—and when did they ever fail? We expect the only question at the last will be, how to get seats—and the only way is, to secure tickets in season. See the bill of attractions in the advertisement.

☞ We learn that Miss Susie C. Cluer will give an entertainment of Reading from the Poets, at Armory Hall, in Kittery on Tuesday evening of this week. She will be assisted by a Quartet Glee Club from this city. We congratulate the citizens of Kittery on having an opportunity of having this pleasing Reader. Her readings in Portsmouth and other cities have been well received by large audiences.

THE ROCKINGHAM QUARTERLY MEETING will commence its session on Wednesday, Jan. 20, at the Freewill Baptist Church in Pearl street, and continue two days.

Twelve churches are represented in this quarterly meeting. Reports will be given of the present condition of the several churches,—to be followed by sermons and other exercises. Meetings open for the attendance of all.

Rev. Mr. Haskell is the present pastor of this Church, as the successor of Rev. Mr. Reed, whose earnest labors for the upbuilding of the Church during the four years of his ministry here, have been crowned with signal success, in nearly freeing the new house from debt, and establishing the general prosperity of the Society.

Rev. Mr. Haskell, who commenced his labors here about four months since, has met with encouraging success, and the present prospects are every way favorable. D.

☞ Lieut. Oliver Knight, formerly of the 1st Minnesota, now of the 22d U. S. colored troops, stationed at Fort Wm. Penn, Philadelphia, is in town on a few days' furlough.

☞ Our friend "William H. Hackett, Esq.," seems to be a most important personage, a *sine qua non*, as "President" of all sorts of bodies, meetings and conventions—much the same as "John E. Rider" appears essential to the constitution of any efficient "Committee," and "James H. Head" *must* direct all sorts of "decorations, tableaux," &c. Live men, all of them, and got plenty of business of their own to attend to—but like all such, while never neglecting that, always find plenty of time to help along any good cause. Success to 'em.

☞ John M. Davis & Co. advertise for sale four new houses, of just the kind of which our city is so much in need,—small, new tenements, not too big and costly for common mechanics to own; and the more of which are owned by the occupants, the better for the prosperity of any city. Buy them, young men, and have a home of your own.

The traveling public will learn with pleasure that the directors of the Portland, Saco & Portsmouth Railroad have appointed Mr. Payson Tucker, Conductor on that road.—He takes the position long and most acceptably filled by Mr. Wm. Akerman, whose continued ill health we regret to learn, has compelled him to resign. Mr. Tucker has in part supplied the place of Mr. Akerman for the past three or four years, and by his energy, promptness and affability has fully shown that he possesses those qualifications which are so necessary to constitute a good and faithful conductor.—*Portland Argus.*

Fact, every word of it, "So say we all of us."

☞ Never before, probably, were four Concerts, by different companies, advertised in Portsmouth at one time. John Smith says his bill-boards are all full, and he can't find a corner to stick another poster. Who says we are not a musical people?

FAIR AT GREENLAND, *for the Benefit of the Sanitary Commission.*—We learn that the ladies of Greenland are to hold a fair at the Academy Hall, Greenland, for the benefit of the Sanitary Commission, on Thursday and Friday evenings, Jan. 21 and 22. Mr. J. H. Head has very kindly offered his services in aid of the undertaking, and will superintend the exhibition of a series of tableaux, and will furnish an excellent club of singers for the occasion.—We wish the projectors success!

Miss Susie C. Cluer, of Boston, has also offered her services to the cause, and will read on each evening.

☞ Wives, mothers and sisters, whose husbands, sons and brothers are serving in the army, can not put into their knapsacks a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment.—They insure health even under the exposures of a soldier's life. Only 25 cents a box or pot.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—Much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambuci Grapes for Spear's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared; but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,

WITH TWO OVENS,

And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either side, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

DISTRICT OF NORTHERN ARIZONA.

We have recieved a copy of the general order to regulate affairs in the newly discovered gold fields of the above portion of New Mexico, on the San Francisco mountains, where many are now flocking. The 4th regulation is as follows:

4. The troops to go to the new gold fields will establish at or near them a military post, which will be known as fort Whipple, in honor of the memory of Brig.-Gen. Amiel W. Whipple, who fell in the battle of Chancellorsville, and who, as a First Lieutenant of Topographical Engineers, 1853 explored the road leading from Albuquerque, N. M., through the country of the new gold fields. Since that period the road has been known as the Whipple Route.

This compliment to the memory of one of our citizens, Gen Whipple, shows that his valuable services in that region are borne in grateful remembrance.

THE COLD WEATHER AT THE WEST.—A WHOLE FAMILY FROZEN TO DEATH.—The Western papers come to us filled with terrible tales of suffering from the extreme cold. Throughout Missouri, Illinois, Wisconsin and Indiana the thermometer indicated from 23 to 35 below zero, and hundreds are reported as frost-bitten. The damage to stock has been very great. One of the most heartrending incidents of the severe cold we ever remember to have read, is narrated in the Chicago Tribune as follows:

"About thirty miles from the boundary line between Michigan and Indiana, in the latter State, about midway between Centreville and Crown Point, lived a German, with his wife and five children, named Krutzer. The oldest was a boy of seven years of age, the next a boy of five, and three girls—all of less age than the boy—the youngest but an infant.

The country where the family resided is very rolling, and the snow had drifted into the hollows making the roads almost, if not wholly, impassible for pedestrians.

The driver of the stage coach coming from Crown Point to Lake, via Centreville, found the Krutzer's dwelling had been burned to the ground. It is supposed the night previously, but none of the family were to be seen. About a mile further on, however, he was horrified to find the father and two boys frozen to death. The boys were in the father's arms and it is supposed that he had fallen with them having been so far affected with the frost as not to be able to proceed.

The three corpses were placed in the stage, but before it had proceeded more than a quarter of a mile on its destination the body of the oldest boy was found in a snow drift, with a shawl wrapped closely around it, where it had doubtless been deposited by its weary mother while yet alive, in the hope that some chance traveller might rescue it from an impending fate. This corpse too was placed in the coach, and again it started on its way, only to find, after travelling a short distance, the lifeless remains of the mother, with the two youngest children. The body of the mother was standing erect in a snow drift, with the children in her arms, the youngest one being at the breast.

The seven lifeless bodies were conveyed to Crown Point by the driver of the stage, and there they were decently interred by the inhabitants.

LAUNCH OF THE "NEW HAMPSHIRE."—This venerable ship of the line, which for about forty-five years bore the name of the "Alabama 74," has been quietly resting in one of the Ship Houses at our Navy Yard since 1818, will be launched on Saturday next, Jan. 23. Her tonnage is 2633.

When her predecessor, the Ship of the line Washington of 2000 tons was launched from the Yard in 1816, thousands of people from the neighboring towns came in to see the sight. Naval architecture has made great progress since the keel of the New Hampshire was laid.

LIEUT. REISTLE.—Among the privates who left Portsmouth in the 2d Regiment, was Mr. Eugine Reistle, a book-binder, of this city,—a man of good habits and good reputation. We were highly gratified to meet him in Portsmouth this week, in the blue coat and bright buttons of an officer. He has been promoted to a Lieutenancy in the 22d colored troops,—is at present stationed at Fort William, near Philadelphia. He will make a good officer, and well deserves his position.

THE MIDDLE-STREET CALV. BAPTIST SOC.—At a meeting last Thursday evening, a very unanimous invitation was extended to Rev. Henry F. Lane of Cambridgeport, late Chaplain of the 43d Regiment, Mass. Vols., and formerly of Lawrence, Mass., to become their Pastor. As the meeting was about closing, it was suggested that an old debt of $875,00 be liquidated before a new minister was called; and was promptly acted upon. Within fifteen minutes $729,00 were subscribed by those present, and the balance will be readily made up.

A CASE OF CONSCIENCE.—A friend hands us the following letter which he received through the Post Office this week, enclosing a dollar bill:

"Mr. ——: Years ago I took from you a trifle of less value than a dollar. I am very sorry. Here is the pay for it. Will you forgive me? and I hope God will.

Yours, A REPENTING SINNER."

The person to whom it was sent desires us to say that he not only forgives the man, but esteems so highly the spirit of the note, that he earnestly desirous to give him the warm hand of fellowship as a brother man, and will be glad to refund the money to him.

A YOUNG LADY'S SOLILOQUY.

Uselessly, aimlessly drifting through life,
What was I born for? "For somebody's wife,"
I am told by my mother. Well, that being true,
"Somebody" keeps himself strangely from view;
And if sought but marriage will settle my fate,
I believe I shall die in an unsettled state.
For, though I'm not ugly—pray, what women is?
You might easily find a more beautiful phiz;
And then, as for temper and manners, 'tis plain
He who seeks for perfection will seek here in vain.
Nay, in spite of these drawbacks, my heart is perverse,
And I should not feel grateful, "for better or worse,"
To take the first booby that graciously came
And offered those treasures his home and his name.
I think, then, my chances of marriage are small,
But why should I think of such chances at all?
My brothers are all of them younger than I;
Yet they thrive in the world—why not let me try?
I know that in business I'm not as sharp,
Because from such matters most strictly I'm kept.
But—this is the question that perplex my mind—
Why am I not trained up to work of some kind?
Uselessly, aimlessly drifting through life,
Was should I want to be "somebody's wife?"

— Wendell Phillips pays as high a compliment as one mortal can to another, when he says Abraham Lincoln has inscribed his name so high on the roll of fame that he can afford to be told of his errors. Mr. Lincoln will regard this as one of the most complimentary sayings ever expressed in relation to his character, and will be the last man to complain of Mr. Phillips' olden severe but well intended criticisms.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall Stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and about one-fourth larger than usual. The oven plates are covered with plaster, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and and broiler combined, by which the odor of cooking meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate, are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shoveling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:
Portsmouth.
J. Woodman Moses, George Hillbrook, George L. Treadwell, John H. Piper, Asel Quimby, Robert King, John W. Wiggin, James Shaw, James Pender, G. C. Moses, Albert F. Merrill, William R. MAGEE PARLOR STOVE
with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pot is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 30 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:
Samuel Cleaves, Esq., Albert R. Hatch, Esq., Aaron H. Hill, Charles H. Mendum, Henry F. Wendell, John Shea, and others.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
A person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good Time Keepers as can be obtained for the same price without the Calendar attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be sold by any agent of the city, and regulated without extra charge.

"Boundto no party—to no sect confined:
The world our home; our brethren, all mankind.
Love truth, do good, be just and fair with all:
Exalt the right, though every ism fall."

"Let me warn you in the most solemn manner against the baneful effects of the spirit of Party, generally. It is a spirit not to be encouraged.—Its common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of the popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

A GRITTY KENTUCKIAN.—Willard Davis of Richmond, Kentucky, who minutely describes himself below, has written the following letter to the Provost Marshal of the Eighth District of that State, in answer to a call to such as were enrolled to show cause, if any, why they should be exempted:

"I have seen your advertisements giving the people desiring exemption from the coming draft an opportunity to lay in their complaints, &c. Now, sir, I have never had the honor of your acquaintance, but I can refer you for the truth of what I am about to say to my worthy friend, James D. Foster, surgeon and a member of your honorable board. My complaints are as follows viz:

I have no broken limbs. I have no chronic diseases, such as inflammatory rheumatism, chronic inflamation of the stomach, phthsic, white swelling, &c. I am not blind in either eye. I am not knock-kneed. I am not brandy shanked. I am not bow-legged. I have no bad teeth, and can bite off a cartridge. I stand straight on my pastern joints. I have never been drilled in the Southern army, and never been so fortunate as to be a member of the sympathizing party in Madison. I have no impediments in my speech. I am neither near-sighted nor far-sighted. I can hear well—the ring of a musket as well as the ring of a silver dollar. In short, I am sound in wind and limb. I am about 28 years old. I am a housekeeper, and have a wife (a good Union woman), and no children living. I am a citizen of Madison County, Ky., from which you want 259 soldiers. I am as brave as any man who is no braver than I am. One of my legs is as long as the other, and both are long enough to run well. I am for the last man and the last dollar, nigger or no nigg, especially the last man. If you have a good musket marked U. S., send it down, and I am ready to bear it in defense of the Union. I am no foreigner, and claim all the papers that entitle me to go in."

GEN. MCCLELLAN'S REPORT.—This document, so remarkable for its length, has elicited the following criticism from the N. Y. Times:

The original document will, probably, never meet the eyes of one of a thousand of our readers. Its enormous bulk of a thousand printed pages precludes general circulation. The book, properly speaking, is not an official document at all. It has none of the succinctness and simplicity which belong to that class of productions. Military annals, either in Europe or in America, may be searched in vain for any report of a general in command, of one-tenth part of the magnitude of this.

Wellington, though seven years in the Peninsula, never wrote a paper that would fill twenty of these pages. Grant, though his achievements have been a hundred times greater, has told them all in reports the whole collection of which may be read in sixty minutes. This report is, in fact, nothing else than the *Military Memoirs of George B. McClellan*, printed at the expense of the Government. What Gen. McClellan was, or what he did that entitled him to so much unexampled self-display, may sorely puzzle the future historian.—For his benefit we may as well say that this huge parade don't appertain at all to anything Gen. McClellan is, or anything he has done as a military man. The inflation is all political. It comes from his aspirations to be a Presidential candidate.

EXECUTION OF A WOMAN.—The English papers contain an account of the execution of Alice Hewitt at Chester, for the murder of her mother. She induced a neighbor to personate her mother, and by this means obtained an insurance upon her life. She then killed her mother by the administration of poison. Some three or four thousand persons were present at the execution. She fell upon her knees and prayed that her infant child might be spared a similar late, and that her death might be a warning to others. Executions of females in this country are of rare occurrence. Last year one was executed in Canada, with her husband, for murder. In Boston during the last century, a woman was hung for theft.

☞ The Newburyport Herald says the Rev. Dr. Gardiner Spring of New York has come to the same views with Garrison on the slavery question. He has avowed that we shall have no peace till slavery is abolished, and that in his former action against the anti-slavery movement he was wrong. This indicates the revolution in opinion that is going on, and which increases in power every day. How strange that any party, looking to the popular vote for support, should fail to see this, and govern themselves accordingly.

COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them the
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.* ☜
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In cases of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "back up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

TUESDAY, JANUARY 19, 1864.

THE REBELLION.

The report that Stuart was on a raid near Leesburg is confounded. Maj. Cole, of the Maryland cavalry, has returned to his headquarters from a scout to Leesburg, and reports that not an armed rebel was seen or heard of within 40 miles of Leesburg.

TERRIBLE CATASTOPHE.—The Cathedral in Santiago, Chili, caught fire on the 14th ult., when densely crowded with human beings. The church contained 20,000 lights, from some of which fire was communicated to the drapery of the gigantic image of the Virgin and the pasteboard devices. In an instant a sheet of flames rushed along the festoon of lights to the roof, and directly spread to all parts of the building. The people rushed to the principal door, and it was soon blocked.—Most of the men escaped by the sacristy and side door. But a few minutes elapsed ere the lights, suspended so plentifully from the roof, poured a rain of liquid fire on the people below, and in less than fifteen minutes, over 2000 persons, mostly females, were blackened corpses.

The Tribune's Army of the Potomac dispatch says 200 rebel cavalry attacked our pickets at Three-mile Station, on Thursday evening. After a short fight the rebels retreated, leaving 3 killed and 12 wounded. Our loss was 1 killed, 1 wounded and 1 captured.

The Herald's dispatch says Col. Sewall's cavalry brigade has returned from a reconnoissance to Snickersville, Brigsville and Leesburg. No traces of Stuart's cavalry.

It is rumored that an independent command of 50,000 men is to be given to one of our fighting Generals, who will be authorized to take Richmond in his own way.

The Tribune's dispatch from Sandusky, 17th, says a scout has just returned from a reconnoissance towards Point Pelee, Canada, and reports 2000 or 3000 rebels there ready to make a dash on Johnson's Island. Gen. H. D. Terry has everything in readiness to received his expected visitors.

FROM THE SOUTH WEST.—A refugee from Richmond, who traveled via the Wilmington, Mobile and Ohio Railroad to Okolona, gives the Memphis Bulletin a long account of the condition of affairs in the Confederacy. He describes society in Richmond as terribly demoralized in all classes. The same demoralization existed in Mobile.

A proposition had been made in the rebel Congress to conscript negroes for soldiers, but it was vigorously opposed by members from Virginia, Georgia and South Carolina.

President Lincoln's Amnesty Proclamation caused much excitement among the people and soldiers, and it was feared that many would accept it and abandon the rebel cause.

Lee's army and Longstreet's troops were estimated at 60,000 strong

Bishop Polk commands the department of the Mississippi, in place of Gen. Johnston. It is the intention of the rebel government to concentrate all the forces possible at that point, check the advance of Gen. Grant and drive him back if possible.

Two regiments of prisoners taken at Port Hudson are declared exchanged and supplied with arms. Gen. Lee's headquarters are at Brandon, Miss.

☞ The amendatory Enrolment Bill corrects some of the faults in the present laws, and renders them more efficient in their operation. The only persons specially exempted from the draft are the Vice President of the United States, the judges of the U. S. Courts, the heads of the several Executive Departments, and the Governors of States, and, by implication, such persons as are mentally or physically unfit for service, according to prescribed army regulations. The two classes for enrolment and draft are merged into one, which is made to include persons between the ages of 20 and 45. Credits are to be given to cities, towns and wards, so as to equalize as far as possible the draft throughout each district. The commutation is increased to $400, those who pay it to be exempted from the present draft, but liable to be called on in the next. In other words, they are in the condition of a reserved class. Drafted men may, if they prefer, be transferred to the navy, such transfer being credited to the respective localities. Alterations are made in the old act for conducting the draft, and attorneys or agents are restricted to the fee of $5 for preparing the necessary exemption papers.

☞ The Traveller's dispatch of Jan. 18 says several delegations from New York are in Washington urging the removal of Collector Barney and Postmaster Wakeman.

Richmond papers, 15th, say that 10,000 women and children in Charleston are suffering for food. Collections are being made for them in other places. These papers apprehend an attack on Savannah.

— The U. S. steam frigate Vanderbilt arrived at New York on Sunday.

— A new sign for a tavern has recently been invented—Dewdrop Inn (dodrop in).

— Coal fields have been discovered in Brazil.

—We hear of games of chess bequeathed in Spain from sire to son.

— The Iowa Legislature has re-elected Hon. James W. Grimes U. S. Senator.

The veil which covers the face of Futurity is woven by the hand of Mercy.

Some one calls the high-crown hat, which has been so long in fashion, the "cylinder of civilization."

The first ingredient in conversation is truth, the next good sense, the third good humor, and the fourth wit.

A leading maxim with almost every politician is always to keep his countenance and never to keep his word.

— Large gangs of carpenters have been sent to Tennessee, and the railroads there are to be put in complete working order.

— The enrolment bill passed the Senate on Monday without any important amendment. Ayes 30, nays 10.

Good men have the fewest fears. He has but one who fears to do wrong. He has a thousand who has overcome that one.

THE RUSSIANS ARE COMING.—Mayor Lincoln of Boston has received a letter from Admiral Lessoffsky, announcing that in the Spring the Russian fleet will visit Boston.

The Davises, Jeff. and Garret, are at the head of two co-operating fractions. Jeff. leads the rebels, and Garret the copperheads.—*Transcript.*

— The population of the Slave States in 1860 was twelve millions. It is estimated that six millions of the twelve are now under the Union flag.

A celebrated philosopher used to say—"The favors of fortune are like steep rocks—only eagles and creeping things mount to the summit."

DEATH OF MRS FARCHILD.—The widow of the late Rev. Joy H. Fairchild died on Thursday at his residence, Fourth street, South Boston, after an illness of nearly four months.

— 81,281 applications for pensions had been received up to the 1st inst. 28,557 have been finally acted on, and 29,009 acted on so far as is within the power of the office.

A warrant for town meeting in Londonderry in 1730 contained this article: "To see what the town will do about John Moore." In the record: "The 8th article deferred, because John Moore is dead."

— A Union refugee from Richmond asserts that on Christmas morning at an early hour, persons passing by the house of Jeff. Davis, saw standing in front of the door a coffin with a rope laid on the top of it.

— A New York stage proprietor has recovered $5000 from the New York and Harlem Railroad Company for the loss of fifty horses, who caught the glanders from being stabled near sheds where the railroad company kept diseased horses.

— On his late raid in Western Virginia, Gen. Averill found the country people in complete ignorance as to the status of the rebellion. They had not heard of the opening of the Mississippi, or of the success of Gen. Banks in Texas.

— Leading Texas rebels have invested largely in English funds. Col. James Duff is reported to have purchased near £40,000 worth of Sterling Exchange, and Gen. Hamilton P. Bee, a South Carolina chevalier by birth, is said to have invested to the amount of £30,000.

— Somebody met Ben Butler a few days ago on a railroad train, and said to him "General, the best way to relieve our prisoners is to take Richmond; and if you do that you will be the next President." The General instantly replied "Well sir, that would be a very great work for very small pay."

☞ Evidence taken before the Senate Judiciary Committee shows that Senator Hale has, for years, been employed as consulting counsel, and that he has been retained as such by parties in New York, Boston and other places. It is also shown that members of the Cabinet and of Congress have, since the commencement of the government, acted similarly as counsel.

☞ Major General John Sedgwick has written a letter to Gen. French of the 3d corps, exonerating him from the charge of drunkenness during the battle of Locust Grove, preferred by some letter writer, who professed to have received the statement from Gen. Meade. Gen. Sedgwick pronounces the charge "wantonly false in every particular."

The Londonderry Times says: "As long ago as the pastorate of Rev. William Davidson, it was not thought improper even for deacons or clergymen to take an occasional 'drop.' One day Mr. D. and Deacon M., after having made several pastoral visits about the parish, during which the ancient hospitalities were not dispensed with, reined up at the door of William Orr. Orr came out, and seeing that they were a little 'tight,' accosted them as follows: Alight men, and come in and take something to eat, for I see you dinna need anything to drink."

THE BOUNTY QUESTION.

WASHINGTON, January 16, 1864.

To J. A. GILMORE, Governor of N. H.,

The agreement announced in telegram from Provost Marshal General, dated November 5th, to the effect that if the State of New Hampshire or the towns should pay the bounties offered by the U. S., and take an assignment from the recruit, that the Government would pay these bounties to the State or town, instead of to the man—will be carried out in good faith, and General Hinks will receive orders accordingly.

Experience has developed difficulties in this connection, which were not foreseen by the Department; and the arrangement will terminate on the 15th of February next.

(Signed) EDWIN M. STANTON,
Sec. of War.

—— A Washington correspondent states that the New Hampshire Battalion of Cavalry, which has been connected with the 1st Rhode Island Cavalry for the past 26 months, has at last been detached, and will come home to form the nucleus of the 1st N. H. Regiment of Cavalry. This is considered an act of great justice to this well-tried and gallant battalion. It has been in all the principal engagements which the cavalry has experienced during the war.—Almost every man has signified his intention to re-enlist, provided they can serve in a regiment from their own State. All of the glory which they have heretofore gained has been accredited to the State of Rhode Island. The 1st N. H. Cavalry may well feel proud of these men. They return as veteran cavalry, and will form no mean portion of the new regiment. [New Orleans advices, however, stated some time since that the 8th N. H. regiment of infantry had been changed to cavalry, and was known as the 1st N. H. regiment of cavalry.]

—— A little girl, 8 years old, whose father is at the war, was so seriously burned in Manchester on Friday by her clothes taking fire, that it is doubtful if she survives.

—— Maj. George H. Chandler, of the 8th Regiment, has arrived home at Concord. He has been appointed on the staff of Gen. Hinks.

—— The extensive saw mill at the Scythe Factory Village, Littleton, known as the "Cate Mill," was burned on the 4th instant. It was owned by Mr. Cate and Mrs. Cutler, and was one the best mills in that neighborhood. The loss is heavy—Mrs. Cutler's half insured for $900, Mr. Cate's not at all.

—— 52 1-3 inches of rain and melted snow fell in Laconia during the year 1863. At Lake Village, four miles south, 48 1-3 inches fell.

—— Some ladies in Amherst have made arrangements for a course of six Lyceum lectures.

—— It is stated that the alumni of Dartmouth College have subscribed an annuity of $1200 for ex-President Lord.

SPEECH OF THE DRUNKEN CONGRESSMAN.—The Washington correspondent of the Journal of Commerce alludes more fully than any other writer to the disgraceful scene in Congress, which has been suppressed, or only alluded to in a mysterious manner by other writers:—

An unheard-of circumstance took place in the House of Representatives yesterday afternoon. After Mr. Brown, of Virginia, had concluded a solemn eulogy upon the death of his colleague, Senator Bowden, a member who shall be nameless took the floor and commenced a most preposterous tirade against the dead Senator and the custom of remembering the departed with respect. The first impression was that the speaker had become insane, but it was soon ascertained that he was only intoxicated.—The members of the house were horrified, and felt that they had been disgraced, and none of them were more distressed than the Republicans themselves. It was a sore shame.

You can stop a clock at any moment, but you cannot stop a watch. This same remark, my brethren, applies to the stopping of the talk of a man and of a woman. He is a great, coarse, ugly machine, but you can silence him. She is a beautiful, fragile, jeweled thing—but she will run on until she stops herself.

UNDER THE SNOW.

I am sitting in the twilight,
And thinking how bright, how serenely bright,
Were the hours in the "long ago,"
And as softly I muse of the loved and lost,
They are hovering round I know,
While two are lying, with white hands crossed,
Under the fleecy snow.

Another sleeps in a southern clime,
Where the flowers are ever in bloom;
The flowers, the beautiful southern flowers,
Breathe fragrance above his tomb.
He closed his dear eyes wearily,
On a world of pain and woe,
And they buried him in the balmy south,
Far away from the dreary snow.

Another, dearer than all to me,
Sleeps in an ocean grave;
He cannot hear the wailing wind,
Nor the moan of the restless wave.
I was sitting as now in the twilight gray,
When the tidings came to me,
And I mourned for him as a sister might
For a brother lost at sea
When they ask me why my cheek grows pale
And my eyes with sad tears dim,
I may not say that my heart is down
In the deep blue sea with him.

The tall old trees, with a mournful wail,
Bend softly over me now,
And whisper—"The spirits of those you love
Are not beneath the snow."
They meet together over my head,
And whisper softly to me,
That the spirit of him I loved the most
Is not beneath the sea.
But purer than show are their brows to-night,
And sought of the drear sea's moan
Blends with the notes of their golden harps,
Before our Father's throne.

☞ According to Gen. Halleck's report, a re-mount for the whole service once in two months is the rate at which our cavalry horses are used up, by want of skill, and often culpable neglect of the animals; 435,000 horses will be needed for the coming year, if the evil remains unchecked.—The stock breeders declare that if this goes on, it will permanently injure the breed of horses in this country.

HUNNEWELL'S ECLECTIC PILLS—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting such quantities of indigestible drugs into the stomach, the griping pains so generously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. epuo

PORTSMOUTH SHOOL COTTON.—Few of our citizens have an idea of the extent and importance of this manufacture, now being carried on in our city—of which we shall have something to say hereafter.—"Amory's Enamelled Thread" is winning a name equal to the best cotton in the market, wherever it is introduced. It will be seen that Messrs. C. H. Mendum & Co. have it on sale, to the trade or at retail.

☞ We learn that Col. Edwin R. Goodrich, U. S. V., has returned from Tennessee, and will make Portsmouth his headquarters for some months, for the purpose of attending to recruiting for the Ninth Army Corps, which has been increased by an addition of 20,000 men.

☞ The frigate Vandalia has been hauled into the stream and moored off Pumpkin Island, to be used as a receiving ship in this harbor.

☞ N. K. Walker & Son are bound to make the fur fly. See their advertisement of low prices. Now is your time to buy furs—and winter's cruel reign is not over yet, by a great sight.

☞ That grand S. R. P. to the A. H A. B., will come off on Thursday afternoon of this week, the 21st inst., wind and weather permitting, &c.

☞ The grand combination Singing School Concert and Festival, at the Temple to-morrow (Wednesday) evening.—Great attraction, we tell you. See programme.

☞ Sam Sharpley's Minstrels at the Temple Thursday evening next.

☞ Bachman & Co. advertise to give away Dry Goods, &c., almost—or to sell for a very little money.

☞ Dr. Dessauer, the optician and Spectacle man, will be in town to-day and the rest of the week. See his advertisement.

☞ The Atlantic's give one of their popular Social Assemblies to-night, Tuesday.

☞ The size of those houses advertised by Mr. Davis is larger than was stated in the advertisement. They are 20 by 30 feet, and are thus even better fitted than was thought, being "just about large enough" for the use of young men.

☞ Thousands of readers, far and near, will be interested to learn that Hon. Thos. B. Laighton, of Appledore House, Isles of Shoals, has recently been stricken with palsy, so that one side of his body is numb, and he is seriously ill.

THE TRADE OF NEW ORLEANS.—The receipts of sugar at New Orleans are quite large, for this early period of the winter, as the new crop seldom comes in much before Febuary. During the last week of December, the receipts of cotton, as given in the New Orleans papers, were 1598 bales, and 2198 bags in the seed. Of sugar the receipts in the same week were 4009 hhds. and 1991 bbls., part new crop. This shows that unobstructed cultivation must have been carried on to a considerable extent on the sugar plantations, notwithstanding all the hindrance and destruction of the war.

THE ALLEGED REBEL COTTON PROPOSITION.—The Washington correspondent of the Philadelphia Ledger says there is not a shadow of truth in the report telegraphed from St. Louis to the effect that the rebel authorities had made "propositions to the United States government" for the exchange of cotton in the Red River district for a given amount of greenbacks. Instead of any such "propositions" having been received, we have intelligence that the rebel authorities are engaged in the removal of all the cotton likely to fall within our reach next spring and summer, the object being to have the cotton to fall back upon as a reserve cash fund when the war is over.

The New York Custom House has long furnished facilities to rebel sympathizers for supplying the South with articles of necessity and luxury. The fact was as notorious in England as it was at Nassau, and is alike disgraceful to the Treasury department and to Collector Barney. It is worthy of note that the information which has led to the arrests that have been made, has come thro' other sources than those officers whose especial duty it was to guard against treasonable practices on the part of shippers to Nassau. So far as we have information, when the first arrests were made some weeks ago, many of the New York officials took more pains to whitewash the culprits than to ferret out new offenders,—of whom there were scores. It is to be hoped that every pretended Republican found guilty in this matter will be punished to the full extent of the law. They should be sent South, and compelled to live among the people to whom they have rendered important aid and comfort,—while they were living upon the bounty of that government they were daily defrauding under circumstances which make them the meanest of perjured traitors—*Transcript.*

COMING HOME.

They are coming! they are coming!
Those brave-hearted, sturdy men,
Over hill and over valley
To their Northern homes again.
They have scented of the battle,
Bivouacked upon the ground;
They have heard the bullet's rattle
And the cannon's thundering sound.

☞ The attention of Towns is called to the copy of an official telegram which we print this morning, relative to the bounty or substitute question—by which it is shown that the Government *will* carry out their agreement to the people in full—all the croaking to the contrary, notwithstanding.

—Gold in New York, Monday, 59 a 59 1-8 premium.

☞ We learn that Miss Susie C. Cluer will give an entertainment of Reading from the Poets, at Armory Hall, in Kittery on Tuesday evening of this week. She will be assisted by a Quartet Glee Club from this city. We congratulate the citizens of Kittery on having an opportunity of having this pleasing Reader. Her readings in Portsmouth and other cities have been well received by large audiences.

THE ROCKINGHAM QUARTERLY MEETING will commence its session on Wednesday, Jan. 20, at the Freewill Baptist Church in Pearl street, and continue two days.

Twelve churches are represented in this quarterly meeting. Reports will be given of the present condition of the several churches,—to be followed by sermons and other exercises. Meetings open for the attendance of all.

☞ Mr. Davis' Musical Festival, for Wednesday evening, promises to be a great success. The young ladies mean it shall be—and when did they ever fail? We expect the only question at the last will be, how to get seats—and the only way is, to secure tickets in season. See the bill of attractions in the advertisement.

FAIR AT GREENLAND, *for the Benefit of the Sanitary Commission.*—We learn that the ladies of Greenland are to hold a fair at the Academy Hall, Greenland, for the benefit of the Sanitary Commission, on Thursday and Friday evenings, Jan. 21 and 22. Mr. J. H. Head has very kindly offered his services in aid of the undertaking, and will superintend the exhibition of a series of tableaux, and will furnish an excellent club of singers for the occasion.—We wish the projectors success!

Miss Susie C. Cluer, of Boston, has also offered her services to the cause, and will read on each evening.

☞ Wives, mothers and sisters, whose husbands, sons and brothers are serving in the army, can not put into their knapsacks a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment.—They insure health even under the exposures of a soldier's life. Only 25 cents a box or pot.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of soda.—It is much better. Try it. Grocers and Druggists sell it.

☞ See you fair maiden in another column, picking Sambucl Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y.

French Roll Pans.

A further supply just received by the subscriber. Persons who have been waiting so long for them, can now be supplied.

These pans are greatly in demand for baking the New Bread, about which so much stir is being made.

This bread is the most economical and healthful ever made, and is very palatable when properly prepared, but much depends upon the manner in which it is baked—and the peculiar form of these pans is just what is required for the purpose.

The Roll Pans are very useful also for baking corn cakes, drop cakes, muffins, gingerbread or anything requiring a quick and light bake.

Every housekeeper should have one.

LAST AND BEST.

THE MODEL COOK.

AN AIR-TIGHT STOVE,
WITH TWO OVENS,
And Five Boiling Places!

At the present high prices of fuel it is very desirable to lessen its consumption. This can be best accomplished by using a MODEL COOK STOVE. More cooking can be done in one with a single ton of coal, or cord of wood, than with double the quantity in any common stove or range—and in less time also.

The fire being placed in the centre of the stove, with an oven on either side (which may be thrown into one at pleasure), all the heat from the fuel is made available for cooking purposes.

The oven doors are lined with tin, and jackets are provided for the bottom and back of the stove, thus retaining much heat, ordinarily wasted. A check draft is applied, by means of which much fuel is saved, and a continuous fire may be kept as long as desirable.

A Water Tank and Hot Closet can be applied to either size, when needed.

In fact, no pains or expense have been spared to make this a PERFECT Stove, and we think it surpasses all others for Economy, Durability, Capacity, Convenience, Beauty of Design and Perfection of Finish.

It is equally well adapted for Coal or Wood; Summer or Winter use; excellent in a family where help is employed, and invaluable to the housewife who does her own work, lightening it at least one-half.

No family, large or small, where economy, convenience and dispatch are desirable, should be without one.

We refer to some parties who have purchased the Model Cook—

RYE, N. H., Feb. 26, 1546. "I hereby certify that my daughter has had the salt rheum for a number of years—some of the time so badly as to prevent her labor, or even rest—as it affected her hands very much. A large sum had been expended to the most celebrated physicians, for Sarsaparilla Syrup, &c., &c., but she obtained no relief until I procured some ten or twelve bottles of DR. SWETT'S PANACEA, and several bottles of his Humor Wash, which have effected a cure. There can be no mistake, as this cure was effected more than three years ago. No other medicine can equal Dr. Swett's in removing the various kinds of humors. I have sold it to a number of my acquaintances, who were afflicted, and witnessed many full cures effected by it since. I have acted as agent for the sale of it. JOSIAH JENNESS.

PORTSMOUTH, April 21st, 1862.

I have for several years been afflicted with distress at my stomach, loss of appetite, and often vomited up all of my food immediately after eating it, and all medicine failed to give any relief until about a year ago, when I first took bottle of DR. S. SWETT'S PANACEA, which fully cured me, so that I have not had the least trouble from any of these complaints since, and I enjoy good health. M. LOWD.

From ELDER I CRESLEY, *Lee, May* 31, 1841.

DR. SWETT: Permit me to testify, as I feel in duty bound to do, that my daughter was afflicted with scrofulous humor, and that previous to your visiting our house in the spring of 1840, she had been confined for a number of months, without her natural rest by day or night. She had applied to a number of physicians, but continued to grow weaker till she commenced using your PANACEA and HUMOR WASH. Since then, she has recovered her health so far as to rest quietly by night, and labor by day. I esteem your medicine one of the best that can be found for the disease above named." ISRAEL CRESLEY

☞ Any one returning the remainder of a bottle or box of Dr. Swett's medicines shall have pay for it, if it do not agree with his case, or if not worth the price. All orders directed to DR. S. SWEET, No. 7 High street, Portsmouth, N. H., promptly attended to. mav26

American and Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of U. S. Patent Office, Washington, (under the Act of 1837,)
76 State street, opposite Kilby street,
Boston.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none are MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All ancestry of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot entrust to a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges." JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS; EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents. R. H. EDDY.

CHARGE OF THE MULE BRIGADE.

[On the night of Oct. 28, 1863, when Gen. Geary's division of the Twelfth Corps repulsed the attacking forces of Longstreet at Wauhatchie, Tenn., a number of mules, affrighted by the noise of battle, dashed into the camp of Hampton's Legion, causing much dismay among the rebels and compelling many of them to fall back under a supposed charge of cavalry.]

Half a mile, half a mile,
Half a mile onward,
Right toward the Georgia troops
Broke the two hundred.
"Forward the Mule Brigade,"
"Charge for the rebs!" they neighed;
Straight for the Georgia troops
Broke the two hundred.

"Forward the Mule Brigade!"
Was there a mule dismayed?
Not when the long ears felt
All their ropes sundered;
Theirs not to make reply;
Theirs not to reason why;
Theirs but to make them fly.
On! to the Georgia troops,
Broke the two hundred.

Mules to the right of them,
Mules to the left of them,
Mules in front of them,
Pawed, neighed and thundered.
Breaking their own confines,
Breaking through Longstreet's lines,
Into the Georgia troops
Stormed the two hundred.

Wild all their eyes did glare,
Whisked all their tails in air,
Scattering the chivalry there,
While all the world wondered.
Not a mule back bestraddled,
Yet how they all skedaddled!
Fled every Georgian.
Unsabred, unsaddled,
Scattered and sundered;
How they were routed there
By the two hundred.

Mules to the right of them,
Mules to the left of them,
Mules, mules behind them,
Pawed, neighed and thundered;
Followed by hoof and head,
Full many a hero fled,
Pale in the last ditch dead,
Back from an "ass's jaw,"
All that was left of them,
Left by the two hundred.

When can their glory fade?
O, the wild charge they made!
All the world wondered.
Honor the charge they made,
Honor the Mule Brigade,
Long-eared two hundred.

— It is said that the safe return of the expedition under Col. Wells to Harper's Ferry, when having at one time been nearly surrounded by a superior force of rebels, was due in part to a letter from a Yankee school-mistress at Harrisonburg, who wrote to the Union commander, revealing at a critical moment the position and plans of the enemy's forces.

THE MAGEE
COOKING STOVE.

The subscribers, having received their Fall stock of Stoves, would especially call the attention of the public to the
CELEBRATED AND UNEQUALLED
MAGEE COOK STOVE,
as the very best Stove yet made, and would invite those about purchasing or exchanging Stoves, to examine this, believing it to be far superior to any other Stove yet invented, the castings being heavier, and the oven larger than usual. The oven plates are covered with plastic, which renders it equal to the old-fashioned brick oven for perfection in baking.
There is a new style and very superior broiler and sad iron heater combined, by which the odor of broiling meats are prevented from escaping into the room. With the extension top there is a large copper Reservoir for hot water; also a large tin warming-closet attached, in which any article can be kept warm, while the other parts of the Stove are occupied for other purposes.
The arrangements for sifting the coal and cleaning the grate are far superior to those of any other Stove now in use, as no dust can possibly escape into the room, and the shovelling up of the ashes is entirely dispensed with. The fire is regulated in the same manner as in the MAGEE PARLOR STOVE, and can be continued day and night for weeks together, thus saving the expense of re-kindling every day.
For economy, durability, ease of management, cleanliness and perfection in cooking, it cannot be surpassed by any other Stove, as hundreds of families in this city and vicinity, who are now using them, are willing to testify, and speak of them in the highest terms of praise.
We would refer to the following purchasers:

with and without ovens, which are too well known to need any recommendation.

"MAGEE'S PATENT"
VENTILATING & AIR-WARMING
FURNACES.
The subscribers, being the Sole Agents in this vicinity for the manufacture and sale of this valuable Furnace, would ask those about remodelling or erecting buildings to examine this truly valuable invention.
For economy, purity of air and ease of management it has no equal, producing a current of warm air, moist and agreeable;—and as none of the air which comes in contact with the fire-pots is used for respiration, the tendency to produce headache so much complained of in other Furnaces, is entirely obviated.
The objects aimed at by the constructors of heating apparatus have been to obtain the greatest amount of heat from a given amount of fuel, and to prevent the escape of heat to the smoke pipe or chimney.
To accomplish this many complicated and expensive heating arrangements have been constructed, some possessing but little improvement over former methods, while many have proved a total failure. The reason for this is obvious. The combustible gases being lighter than the air, pass off into the pipe or chimney without being consumed. This objection, so common in other Furnaces, is obviated in the
MAGEE FURNACE.
The flue or pipe in this Furnace being below the fire-pot, the gases, from their specific gravity, cannot descend, and are burned up by the admission of cold air through the fire-pot, which ignites them as they pass off from the coal, thus saving at least 20 per cent. of the properties of the heat in the fuel.
No heating apparatus with the smoke-pipe or flue on the top of the cone can be made to consume the gases of the coal, as they pass off with a large amount of the heat generated, making the chimney the hottest part of your dwelling.
This Furnace does away with the great number of pipes and angles for the radiation of heat, which are so liable to fill up and get out of order, thus simplifying, while it increases the surface of radiation.
These Furnaces consume all the coal, make no clinkers, the sifting of coal is entirely dispensed with, and they will save from 30 to 50 per cent. of fuel over common Furnaces.
For ease of management, economy and purity of air, these Furnaces have no equal. They can be regulated so as to give any amount of heat required, and the fire may be kept the entire season without once going out.
They give entire satisfaction wherever used. We have in store the different sizes, Brick and Portable, to which we invite the attention of those in want of the best Furnace in the world,—and would refer them to the following named gentlemen, who have them now in use:

Samuel Cleaves, Esq.,	Albert R. Hatch, Esq.,
Aaron H. Hill,	Charles H. Mendum,
Henry F. Wendell,	John Sise, and others.

CALENDAR CLOCKS.
These Clocks are reliable Time Keepers and Calendars combined, and require the winding of the time movement only, to secure all the required changes of the Calendar at midnight; showing the day of the week, the month, and day of the month, including the 29th day of February of leap year, perpetually and with unfailing certainty.
Having taken the Agency for the sale of these Clocks, we would invite the public to call and examine them.
Any person desirous of purchasing a Clock will find it to their advantage to examine these before purchasing elsewhere, as we warrant them as good time-keepers as can be obtained for the same price without the Calendar Attachment and those not in want of a clock will find the Calendar alone worth more than the price of the clock. They will be set up in any part of the city, and regulated without extra charge.

ESTABLISHED 1852. PORTSMOUTH, N. H. WEDNESDAY JAN. 20, 1864. VOL. 24. NO. 17.

The Chronicle.

...sundo no party—to no sect confined:
...world our home; our brethren, all mankind.
...truth, do good, be just and fair with all:
...it the right, though every lam fall."

Let me warn you in the most solemn manner against the baneful effects of the spirit of Party. Generally. It is a spirit not to be encouraged.—Common and continual mischief is sufficient to make it the interest and duty of a wise people to discourage and restrain it. In governments of popular form, it is seen in its greatest rankness, and is truly their worst enemy."—*Washington's Farewell Address*

EMIGRATION.—There are not emigrant ships enough on the other side to bring the hundreds over who are waiting to come to this country. It is said that the boarding houses in Liverpool are full of people waiting for passage to the United States. The N. Y. Herald says "we should not be surprised if, in the first five years after the termination of the war, the emigration from all parts of the world to the United States were to present one of the most remarkable movements of population on record. During that period we shall probably add from three to four millions to our numbers from abroad, and these composed of these classes which contribute most to the wealth and prosperity of a country."

☞ Hon. Isaac N. Arnold of Illinois, in his speech in the House of Representatives last week, thus answered the question, "How shall the extinction of slavery be secured?"

"First—I reply, in the border States, by the action of the States, themselves. This action will be speedy and decisive.

Second—In all the territory in rebellion slavery has been already substantially abolished by the Proclamation of Emancipation. Confirm by Congress this proclamation by prohibiting its re-establishment, and abolish it in that part of the rebel States not included in the proclamation.

Third—Slavery being thus everywhere abolished, amend the Constitution, prohibiting its re-establishment or existence in every part of the United States."

☞ Artemas Ward, one of whose peculiarities as a lecturer is that he touches upon almost every conceivable subject except the subject of his lecture, is delivering a lecture on "Ghosts," which he concludes with a capital hit at the disunionists North and South. "The last subject of which I thought," says Artemas, "was the war.' When I was an apprentice to the printing business, in New Hampshire, having had a controversy with my employer, I ran away. I had no money, and would not beg, so I called at a farmhouse and asked if they had any clocks to mend. They said yes, and wished I would fix it. I took the clock to pieces, ate my dinner, and then looked at the table, where lay the countless wheels. I knew that I never could put that clock together again. So I told the folks I was dizzy, and would go out and get some fresh air, and I fled across the field like the bright-eyed gazelle, or anything else that goes quick. Those politicians who went to work to take the Union clock to pieces to get their dinners, never meant to put it together again. They have stolen their dinner, but they will not restore the clock. I hav'n't told you much about the ghosts, and it is so late now that there is not time."

FINAL RETREAT OF THE REBELS.—What if the Yankees take and occupy Lookout Mountain? The sacred code which guarantees and recognizes the right of the South in the interest and institution which now excite against her the hungry howling horde of Yankee miscreants, was, uttered, not from "Lookout," but from Mount Sinai. Will the Yankees scale that?—*Charleston Mercury.*

To this specimen of arrogance and blasphemy the Louisville Journal thus aptly replies:—

"Now rebs, just evacuate all the mountains, valleys, and plains on this continent, and pitch your tents upon the top of Sanai, and we will agree not to attempt to storm that mountain. We suppose you will have to do chiefly with the Arabs. Please count us neutral.

$100 REWARD!
For a Medicine that will cure
COUGHS, INFLUENZA,
TICKLING IN THE THROAT,
WHOOPING COUGH,
Or relieve CONSUMPTIVE COUGH,
as quick as
COE'S COUGH BALSAM.
OVER FIVE THOUSAND BOTTLES have been sold in its native town, and not a single instance of its failure is known.
We have, in our possession, any quantity of certificates, some of them from
EMINENT PHYSICIANS,
who have used it in their practice, and given it the pre-eminence over any other compound.
It does not dry up a Cough,
but loosens it, so as to enable the patient to expectorate freely.
☞ *Two or three Bottles will invariably cure TICKLING IN THE THROAT.*
A HALF Bottle has often completely cured the most
STUBBORN COUGH.
And yet, though it is so sure and speedy in its operation, it is perfectly harmless, being purely vegetable. It is very agreeable to the taste, and may be administered to children of any age.
In case of CROUP we will guarantee a cure, if taken in season. **No Family should be without it.** It is within the reach of all, the price being
ONLY 25 CENTS!
And if an investment and thorough trial does not "pay up" the above statement, the money will be refunded. We say this, knowing its merits, and feel confident that one trial will secure for it a home in every household.
Do not waste away with Coughing, when so small an investment will cure you. It may be had of any respectable druggist in town, who will furnish you with a circular of genuine certificates of cures it has made.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JANUARY 20, 1864.

☞ Richmond papers state that a British blockade runner ship named the Silvanus was captured in Doboy Sound, Georgia, on the 3d inst., by the gunboat Huron. She was loaded with salt, cordage, &c., from Nassau.

The Wilmington Journal announces the beaching of two more blockade runners, viz: the steamers Ranger and Adair.

The Richmond Whig thinks the future of the South is involved in the next spring campaign in Northern Georgia.

The Richmond Enquirer gives a report that 5000 Yankees landed at Kinsale, Westmoreland county, Va., on the 12th, and destroyed all the salted provisions provided by the citizens for the use of their families.

From Nashville, last Sunday, Gen. Grant telegraphed to Gen. Halleck, as follows:—

On the 14th inst., Gen. Vance made a raid towards Temsville, and captured a train of 23 wagons. He was promptly pursued by Col. Palmer, who recaptured the wagons, and took one ambulance loaded with medicines, 150 saddle horses, and 100 stand of arms. Vance, his adjutant general and inspector are among the prisoners.

A Hilton Head letter of the 15th says a few vessels of the new expedition are moving out of the harbor.

The siege of Charleston is temporarily suspended, except from Morris Island, where a sufficient force is kept for defence and to work the guns, and where more batteries are being erected, to reduce the city to ashes.

A large negro force accompanied the expedition, the War Department having authorized Gen. Gilmore to recruit all the negroes in his Department as troops under white officers.

A Hilton Head letter says Adm. Dahlgren is on the lookout for rebel rams from the city, and will receive them in proper form.

A Confederate Quartermaster has been discovered to be a defaulter to the amount of five millions dollars.

☞ The U. S. Senate, Monday, Jan. 18, adopted a resolution requiring the Corporation of Georgetown and Washington to establish a general system of vaccination.

Mr. Howe introduced a bill to establish a Bureau of Emancipation. Referred to the select Committee on Slavery.

Mr. Sumner introduced a resolution to abolish the color qualification in carrying the mails.

The joint resolutions of thanks to Major Generals Banks, Burnside, Hooker, Howard and Meade, and officers and soldiers of their command, were passed.

The resolution of Mr. Wilson to expel Senator Davis of Kentucky, was referred to the Judiciary Committee.

The Enrollment Bill was passed.

In the House a resolution was agreed to, for a joint committee on the conduct of the war, contracts, &c.

Mr. Dawson offered a resolution of reconstruction, with guarantees, &c. Laid on the table—75 to 56.

Mr. Cox's resolution to treat with the Southern authorities with a view to an immediate exchange of prisoners, and taking the matter out of Gen. Butler's hands, was, on motion of Mr. Washburne, of Illinois, laid on the table by a vote of 91 against 56.

WASHINGTON ITEMS.—The N. Y. Post's special dispatch from Washington says it is believed in the best informed quarters that the rebels will refuse to give up Major White of Pennsylvania in exchange. Maj. White is a member of the Pennsylvania Senate.

The ice in the Potomac is gradually breaking up with the warm weather.

Another sale of confiscated lands will take place at Alexandria on Wednesday next.

The Committee on Rebellious States had a special meeting on Monday morning.—The Committee will undoubtedly agree to a bill reorganizing the States in insurrection.

☞ The New York World states the story that the son-in-law of Wendell Philips, Mr. Smalley, connected with the New York Tribune as an editor, signed as surety a bond for $50,000 given by a person exporting goods to Nassau, intended for the rebels. Mr. Smalley obliges the World to retract the libel, it appearing that the person who signed the bond is a W. A., while the editor in question is Geo. A. Smalley.

☞ A Fortress Monroe letter says that on the 13th, Maj. Mulford left there for City Point with a flag of truce and a communication from Gen. Butler, that unless his message was received he would at once retaliate upon the rebel prisoners in our hands for the cruelty practised upon our unfortunate prisoners. To this communication Gen. Butler has as yet received no answer.

☞ A heavy snow storm raged on Monday night and Tuesday, at Buffalo, and Cleveland, Ohio.

—Louis Bible died last week, in Tippecanoe County, Indiana, at the advanced age of 107 years. He was born in Virginia in 1756, and has sons over seventy years of age. His faculties and senses were not greatly impaired at the time of his death.

—The prisoner Capell, who escaped with Hutchinson from Fort Preble, Me., was arrested at Camp Berry on Tuesday. He had re-enlisted and received his bounty, but was recognized and taken back to Fort Preble.

☞ We have received the January number (No. 1,) of the Freedmen's Advocate, a large newspaper, whose name indicates its character and object. It contains much interesting matter, and is to be issued monthly.

— The City Marshal of Newport, Ky., went to Pike's Opera House, in Cincinnati, last Friday night, for the purpose of "keeping an eye on any thieves who might be about." He had scarcely entered when his pocket-book was extracted, containing $142.

☞ In New York harbor on Monday, a heavy fog prevailed all day, and at night it increased in density accompanied by rain. Navigation on both the East and North rivers was suspended, except by the ferry boats, whose trips were very irregular and uncertain.

PLEASURES OF LIFE.—The loftiest, the most angel-like ambition, is the earnest desire to contribute to the rational happiness and moral improvement of others. If we can do this—if we can smooth the rugged path of one fellow traveller—if we can give one good impression—is it not better than all the triumphs that wealth and power ever attained?

☞ By the latest arrival from Europe it appears that the rebel steamer Florida had completed her repairs at Brest, and was anchored about 200 yards from the Kearsarge. She will sail in Esboary. A French vessel will accompany each steamer during the 24 hours interval between their sailing.

☞ George H. Hart and L. A. Hendricks, correspondents of the New York Herald, captured on the Rappahannock, have been released by the rebels. Mr. S. T. Bulkey, another of the Herald correspondents, and Messrs J. H. Brown and A. D. Richardson of the Tribune, remained at Castle Thunder. They were well.

☞ The suffering common people in North Carolina are weary of the Confederacy, into which they were forced by the "soul-drivers" of Virginia, as John Randolph styled them. The Raleigh Progress has editorials proclaiming that peace only can prevent starvation. The masses of the hard working people want and will have peace.

☞ The army of the Potomac correspondent of the New York Herald says that several unusually intelligent deserters have come into the lines of the army within the past few days, who agree in the representation that dissatisfaction with the service, loss of confidence in the rebel cause, and a determination to liberate themselves from the army, are becoming more universal every day. The letters received from the families, who write of their destitution and sufferings, add to the discouragement of the soldiers. The line officers, who march weary miles with the privates, are grumbling at the shirkers who stay at home and speculate on the miseries of both citizens and soldiers. The opinion of these deserters is that a vigorous spring campaign against the rebels will overthrow the rebel fabric.

☞ Speaking of re-enlistments among the veteran troops of the army of the Potomac, the New York Times says that if any combination of circumstances could weary our brave men of the war for the Union, the campaign in Virginia, during the last three years, would have accomplished this result, yet these soldiers show no signs of discouragement, no desire to shift to the shoulders of others the work they have undertaken. Each one of them feels that in camp, on the march, and on the battlefield, he has done his duty to himself and to his country, and, leaving the responsibility of failure with those to whom it properly belongs, he declares his willingness to risk his life again in the sacred cause for which he has already suffered so much. The Times further says:—

Very few of those men re-enter the service because they are enamored of the hardships of a soldier's life, or because they prefer army rations to the food they could so easily earn if they choose to resume the occupations which they abandoned when they first enlisted. They have had opportunities of learning the temper of the rebel soldiers, which we at home do not enjoy, and they have a well founded conviction that Gen. Lee will find it difficult to keep his army in Virginia during another campaign. Gettysburg did much to break the resolutions of these champions of the rebel cause; but the fire in their rear at Vicksburg and Chattanooga has effected still more, and they will fight in the future with the determination of despair, and in the hope of postponing that submission to the government which they see is inevitable, rather than with expectation of achieving substantial triumphs for the Confederacy.—It is not strange, therefore, that the soldiers who have suffered so much to accomplish this very result, should be determined to reap the fruits of their labors.

— In a recent encounter in the Shenandoah Valley, the rebel artillerists fired railroad iron and old horseshoes fastened together with telegraph wire, at our troops.

— A Potomac army letter says we will have by next spring the strongest and best drilled army since the beginning of the rebellion; but the cavalry is deficient.

— Among the quaint sayings charged to Old Abe is one that "you cannot, to-day, buy a poor horse in Pennsylvania." The explanation is that all the bad horses have been sold to the government.

— Out of twenty-one Iowa regiments and five Iowa batteries in General Dodge's command of General Grant's army, nineteen regiments and four batteries have re-enlisted.

— A family of Rocky Mountain rats recently stole six hundred and forty pounds of candles from a mining tunnel at Gregory Point. They carried off the candles and secreted them among the rocks.

— A terribly fatal fever is prevailing at Carbondale, Pa. It is called the black or spotted fever, and with the exception of a very few cases, has completely baffled the skill of the physicians. From six to eight deaths a day occur, the victims dying within a few hours after being attacked.

— A squad of 20 men of the 10th Connecticut regiment, under command of Lieut Walker of the 24th Mass., were captured Dec. 30th, near St. Augustine, Florida, by a rebel cavalry company. Lieut. Walker was wounded, and is reported dead. It was thought he was wounded by our own troops.

— Both the Philadelphia Press and Inquirer of Friday announce that they have good authority for stating that Senator White will, in all probability, soon resume his seat in the State Senate. The terms of his exchange have been determined, and it is not unlikely that he will be in Harrisburg in the course of a week. His return will enable the Pennsylvania Senate to organize.

HOW GLASS CHIMNEYS WERE INVENTED.—Argand, the inventor of the famous lamp, which bears his name, had been experimenting for some time in trying to increasing the light, but to no purpose. On a table before him lay the broken neck of an oil flask. This he took up carelessly and placed it, almost without thought, over the wick. A brilliant flame rewarded this act, and the hint was not lost on the experimentalist, who proceeded to put his discovery into practical operation at once.

THE REBEL DESTITUTION.—The proposition reported to have been received from the rebel authorities to barter cotton for needed supplies, will probably remind President Lincoln of an anecdote. A Dutch and an English man-of-war were engaged in mortal combat. The latter getting out of ammunition was on the point of surrendering, when the captain bethought himself of the trading propensities of the Dutch, and sent a proposal, under a flag of truce, to buy of his adversary a supply of powder and ball. The Dutch captain consented to the trade, and with the ammunition thus purchased the Englishman renewed the conflict and captured the Dutch vessel.—The moral of this anecdote will not probably be lost upon President Lincoln.

THE COLORED CAULKER AT THE CHARLESTOWN NAVY YARD.—The introduction of a colored man into the gang of caulkers at the Charlestown Navy Yard, some weeks since, created quite an excitement, and several of the white caulkers refused to work by the side of the black man. But the subject of this baseless prejudice worked on without reference to the feelings with which he was regarded by those in the same department. He has proved himself so capable to discharge the duties incumbent upon him, and his conduct has been so uniformly courteous and correct, that the aversion of his fellow-workmen has been completely overcome. On a recent occasion, the caulkers presented him with a silver goblet, and eleven of the workmen who had previously struck contributed to its purchase. *Transcript.*

MEMORY.—Sir William Hamilton tells some marvellous stories in his lecture on "Memory." Ben Johnson could not repeat all he had written, but whole books he had read! Niebuhr in his youth was employed in one of the public offices of Denmark, where part of a book of accounts having been lost, he restored it from recollection. Seneca complains of old age, because he can not, as he once did, repeat two thousand names in the order they were read to him; and avers that on one occasion, when at his studies, two hundred unconnected verses having been pronounced by different pupils of his preceptor, he repeated them in a reversed order proceeding from the last to the first uttered. A quick and retentive memory, both of words and things, is an invaluable treasure, and may be had by any one who will take the pains. Theodore Parker, when in the divinity school, had a notion that his memory was defective and needed looking after, and he had an immense chronological chart hung up in his room, and tasked himself to commit the contents, all the name and dates from Adam and the year one down to Nimrod, Ptolemy, Soter, Heliogabalus, and the rest. Our verbal memory soonest fails us unless we attend to it and keep it fresh in order. A child will commit and recite *verbatim* easier than an adult, and girls than boys.—To keep the verbal memory fresh, it is capital exercise to study and recite new languages, making them a part of our mental wealth.

☞ **Twenty-Two Star Performers.** ☜

The Cream of the Profession under the immediate supervision of

MR. SAM SHARPLEY,

The most Original and Popular Performer of the age, whose success during the past two years has eclipsed all the efforts of his cotemporaries.

These Monitors of Minstrelsy and Original Iron Clads will appear as above, introducing a New and Brilliant Programme, entirely different from any ever offered to the public.

—:o:—

A CARD,—The manager trusts the public will not confound this matchless organization with any of the itinerant humbug troupes who perambulate the country, gull the people and injure the business of Legitimate Artists. To those who have never seen us, we would only say, ask those who have had that pleasure.

☞ The Troupe will march in procession, upon their arrival, from the Depot to the Hall, and discourse their New Music, affording the citizens a rare Musical Treat, and an ample opportunity of judging the instrumental abilities of this Mammoth Company—*The Largest Ever Organized in the World!*

HUNNEWELL'S ECLECTIC PILLS.—*The true Type of Cathartic.*—By the application of true Pharmaceutical Laws, both Character and Economy are combined in this valuable Pill. To prevent putting much quantities of indigestible drugs into the stomach, the griping pains so erroneously judged to be the evidence of thorough action, and to require from 4 to 6 Pills, to get a decent cathartic, was the study in this development. The dose seldom exceeding One, and never more than Two Pills, settles the question of economy, and character can be best known by confidence to test them in DYSPEPSIA, COSTIVENESS, BILIOUSNESS, LIVER COMPLAINT, all derangements of the stomach and Bowels, and as a Family Pill. spno

REPUBLICAN SENATORIAL CONVENTION,—DISTRICT NO. 1.—This Convention met at the Court House in Portsmouth on Tuesday, and organized by the choice of Darius Frink, Esq., of Newington, as temporary chairman, and J. Clement Weeks, of Greenland, as Secretary.

Messrs. C. C. Whittemore, of Portsmouth, E. G. Hill, of South Newmarket, and David Berry, of Newington, were appointed Committee on credentials.

The Committee on permanent organization, reported a list of officers, as follows:—For President, Benj. Brooks, Esq., of Newmarket; Vice President, J. Clement Weeks, of Greenland; Secretary, Samuel W. French, of Portsmouth.

On motion, Hon. Charles W. Hatch, of Greenland, was nominated by acclamation as candidate for Senator. Messrs. C. H. Hayes, Jas. Miller, of Portsmouth, and J. C. Weeks, of Greenland, were appointed a Committee to wait upon and inform Mr. Hatch of his nomination, and request his acceptance. The committee subsequently introduced Mr. Hatch to the Convention, when he accepted the nomination in a neat speech.

William H. Hackett, Esq., of Portsmouth, moved that the Resolutions passed at the late Republican State Convention be adopted by this Convention, with the following additions:—

Resolved, That we have full confidence in the ability, patriotism and integrity of Hon. Chas. W. Hatch, of Greenland, our candidate this day nominated, and will use all honorable means to effect his re-election.

Resolved, That Gov. Joseph A. Gilmore, by his untiring zeal, his devotion to the interests of our State, his careful regard for our soldiers in the field, and his admirable business qualities, displayed in the administration of our State Government, merits the unqualified support of every patriotic voter in the State.

The Resolutions were unanimously adopted with much applause.

Addresses were made by Messrs. Hackett of Portsmouth, Weeks of Greenland, Frink of Newington, and the President, when the Convention dissolved.

☞ Besides the attractions of Mr. Davis' programme, in the advertisement for to-night's entertainment, there will be several interesting features not down in the bill.—All who enjoy good music, and especially those who feel interested for our home music, should be there. Mr. Davis has "done what he could" for the cause here, as elsewhere; and merits, and will undoubtedly receive, full public countenance and support.

☞ That sleigh-riding party will hardly go Thursday, or at any rate will go hard, if the weather doesn't soon change from what it is at this present writing, (Tuesday morning;) but Mr. Davis' Singing School Festival will be held to-night, Wednesday, weather or no!

P. S.—At sunset, things look better for the sleighing.

☞ The concert by the Brookings Brothers quartet, at the Temple, Monday evening, passed off well as could be expected to a rainy-evening audience.—These performers are courteous and well-appearing gentlemen, have fine voices, and blend well, and render their words distinctly. It is a rare thing to see four brothers "harmonize" so well together.

☞ We learn that on account of the severe storm, the entertainment of Readings by Miss Susie C. Cluer, at Kittery, is postponed until Monday evening, Jan. 25.

OPTICAL INSTRUMENTS.—Until within a few years past, we have been dependent upon European manufacturers for our best optical instruments. Indeed, it has been supposed that the glass from which the lenses of microscopes and telescopes are made, could not be manufactured in this country of sufficient purity. But we now have abundant evidence that such ideas are erroneous. Not only can the rare materials, which compose them, be well prepared here, but the finish and perfection of the instruments will favorably compare with any which are made in Europe. We have lately had an opportunity of examining some very fine microscopes, telescopes, magnifying glasses and other optical instruments, which were manufactured for the use of physicians by Mr. L. Dessauer, No. 4 London street, in this city. They are not only well made, but are sold at very low prices. There is no necessity of importing instruments of the kind, when they can be obtained in such perfection, in this country, as those examined.—*Boston Medical Journal.*

Mr. L. Dessauer, whose optical instruments are so highly spoken of above, by a journal whose commendation should be sufficient, has arrived in town, and may be seen at the Franklin House, from 8 A. M. till 8 P. M., until Saturday afternoon. Ladies unable to visit his office, by sending their address, can be waited upon at their residences. 1t

☞ The ship New Hampshire, at the Navy Yard, will be launched at half-past 11 o'clock A. M., on Saturday, should nothing occur to prevent. A large crowd will doubtless be present to witness the launching of this homely, ancient old craft.

☞ Sam Sharpley's Minstrels at the Temple Thursday evening next.

☞ We hear hints that Mr. Davis is to receive beautiful and appropriate presents from his friends in this city—which those who are *present* to-night can see for themselves.

Fanny Kemble says in her recently published journal: "I have always thought that the death I would prefer to all others, would be to break my neck off the back of a horse at a full gallop on a fine day."

A Vacant Mind invites dangerous inmates, as a deserted mansion tempts wandering outcasts to enter, and take up their abode in its desolate apartments.

THE BOUNTY QUESTION.

WASHINGTON, January 16, 1864.

To J. A. GILMORE, Governor of N. H.,

The agreement announced in telegram, from Provost Marshal General, dated November 5th, to the effect that if the State of New Hampshire or the towns should pay the bounties offered by the U. S., and take an assignment from the recruit, that the Government would pay these bounties to the State or town, instead of to the men—will be carried out in good faith, and General Hinks will receive orders accordingly.

Experience has developed difficulties in this connection, which were not foreseen by the Department; and the arrangement will terminate on the 15th of February next.

(Signed) EDWIN M. STANTON,
Sec. of War.

☞ That grand S. R. P. to the A. H. at R. B., will come off on Thursday afternoon of this week, the 21st inst., wind and weather permitting, &c.

☞ Wives, mothers and sisters, whose husbands, sons and brothers are serving in the army, can not put into their knapsacks a more necessary or valuable gift than a few boxes of Holloway's Pills and Ointment.—They insure health even under the exposures of a soldier's life. Only 25 cents a box or pot.

☞ Herrick Allen's Gold Medal Saleratus is manufactured entirely different from any other. Its chemical purity renders it as harmless as the purest flour, and its use will strengthen weak stomachs and cure dyspeptic persons. Use it with cream tartar instead of sour.—It is much better. Try it. Grocers and Druggists sell it.

☞ See yon fair maiden in another column, picking Sambuci Grapes for Speer's Wine. It is an admirable article, used in hospitals, and by the first class families in Paris, London and New York, in preference to old Port wine. It is worth a trial, as it gives great satisfaction. 1y
